THE

ZOOLOGICAL RECORD

VOLUME THE SIXTY-SIXTH

BEING

RECORDS OF ZOOLOGICAL LITERATURE

RELATING CHIEFLY TO THE YEAR

1929.

COMPILED FOR THE ZOOLOGICAL SOCIETY OF LONDON BY

M. BURTON, MISS S. FINNEGAN, C. A. HOARE, MISS ANNA B. HASTINGS, W. NICOLL, H. B. PRESTON, W. L. SCLATER, MALCOLM A. SMITH, A. K. TOTTON, MISS M. J. TRIFFITT, MISS H. M. MUIR WOOD, AND THE IMPERIAL BUREAU OF ENTOMOLOGY.

EDITED BY

W. L. SCLATER, M.A., F.Z.S.

Explorate solum : sic fit via certior ultra.

LONDON:
PRINTED FOR THE ZOOLOGICAL SOCIETY
SOLD AT THEIR HOUSE IN REGENT'S PARK
MCMXXX.

Papers and Memoirs intended for this work should be addressed to "THE EDITOR of the Zoological Record, Zoological Society, Regent's Park, London, N.W. 8." It is earnestly requested that in the case of separately-printed copies of papers so forwarded, the *original pagination* may be indicated.

Harrison & Sons, Ltd., Printers in Ordinary to His Majesty, St. Martin's Lane, W.C.2.

PREFACE.

It is with great satisfaction that we are able to announce the earlier publication of the Sixty-sixth Volume of the Zoological Record.

Through the cordial co-operation of Recorders and Printers, we hope to have the complete volume ready for issue to subscribers during September, two months earlier than the volume last year. The separate portions were issued to subscribers between April and August.

It is unlikely that it will be possible, or even advisable, to endeavour to issue complete volumes any earlier than September.

The present volume contains 1175 pages of the Records themselves, as against 1221 last year, and 1136 in the volume for 1927.

It has again been necessary to prepare a further "Supplementary List of Abbreviations with the Titles of Journals," owing to the number of new publications which have been started since last year. This is issued with the "List of New Genera."

There are two changes in the Recorders. Mr. Sandon, owing to his leaving England to take up an appointment, has had to give up the Protozoa. His place has been taken by Dr. C. A. Hoare, who had previously recorded the Protozoa, and he has obtained the assistance of Miss Marjorie J. Triffitt, M.Sc.

Dr. Malcolm A. Smith has undertaken the Amphibia and Reptilia in the place of Major S. S. Flower, who finds that he can no longer go on with the work.

As previously, the thanks of the committee are due to Dr. W. T. Calman, Mr. M. A. C. Hinton, Mr. J. R. Norman and Mr J. R. le B. Tomlin for rendering assistance and for reading proofs of those Records in regard to which they have special knowledge.

As usual, the state of the "Record Fund" as it stood at the end of the last financial year is appended. It will be seen that the position is improving, but that the Zoological Society itself, in addition to taking the whole risk of the enterprise, makes by far the largest annual donation to the cost. Subscribers to the "Record" are reminded that the cost of each volume is much greater than the subscription price and are urged to make donations to the fund apart from buying the volumes.

STATE OF "RECORD FUND" AT DECEMBER 31st, 1929.

P. CHALMERS MITCHELL,
Secretary, Zool. Soc. London.

W. L. SCLATER,
Editor, Zoological Record.

EXPLANATORY.

This Volume is printed in the Divisions enumerated on p. vii.

The pagination of each Division is separate, and is given at the top corner of the pages. The number and name of the Division is given as a heading on each page. The date 1929 corresponding to the bulk of the literature indexed is given at the top of each page.

In the Subject Index of each Division authors are quoted by name only. The full references will be found in the Title Section of the Division.

The Literature indexed is mainly that of 1929 but includes entries for earlier years that have been received too late for inclusion in previous volumes.

CONTENTS.

[The prices in brackets are those of the Separate Divisions.]

I. COMPREHENSIVE ZOOLOGY. By W. L. Sclater, M.A. Pp. 1–29. [3*s.*]

II. PROTOZOA. By Cecil A. Hoare, D.Sc. (Lond.) and Marjorie J. Triffitt, M.Sc. (Lond.). Pp. 1–70. [3*s.*]

III. PORIFERA or SPONGIDA. By M. Burton, M.Sc. Pp. 1–12. [2*s.* 6*d.*]

IV. COELENTERATA. By A. Knyvett Totton. Pp. 1–19. [2*s.* 6*d.*]

V. ECHINODERMA. By H. B. Preston. Pp. 1–30. [4*s.*]

VI. VERMES: including Gephyrea and Pterobranchiata. By William Nicoll, M.A., D.Sc., M.D. Pp. 1–84. [3*s.* 6*d.*]

VII. BRACHIOPODA. By Miss H. M. Muir Wood, M.Sc., and BRYOZOA By Miss Anna B. Hastings, Ph.D. Pp. 1–35. [2*s.* 6*d.*]

VIII. MOLLUSCA. By H. B. Preston. Pp. 1–106. [5*s.*]

IX. CRUSTACEA. By W. L. Sclater, M.A. Pp. 1–42. [3*s.*]

X. ARACHNIDA and MYRIOPODA; including Gigantostraca, Eurypterida and Prototracheata. By Miss Susan Finnegan, B.Sc. Pp. 1–42. [4*s.*]

XI. INSECTA. Prepared by The Imperial Bureau of Entomology. Pp. 1–436. [15*s.*]

Section A.—Titles and Subject Index ... [4*s.*]
,, B.—Coleoptera ... ... [6*s.*]
,, C.—Lepidoptera ... ... [6*s.*]
,, D.—Hymenoptera and Diptera ... [4*s.*]
,, E.—Hemiptera, Orthoptera and Remaining Orders ... ... [4*s.*]

XII. PROTOCHORDATA: including Tunicata, Cephalochordata and Enteropneusta. By M. Burton, M.Sc. Pp. 1–4. [2*s.*]

XIII. PISCES. By M. Burton, M.Sc. Pp. 1–59. [3*s.* 6*d.*]

XIV. AMPHIBIA and REPTILIA. By Malcolm A. Smith, M.R.C.S., L.R.C.P. Pp. 1–40. [3*s.*]

XV. AVES. By W. L. Sclater, M.A. Pp. 1–91. [7*s.* 6*d.*]

XVI. MAMMALIA. By W. L. Sclater, M.A. Pp. 1–76. [3*s.*]

List of the Names of New Genera and Subgenera and Second Supplementary List of Abbreviations with Titles of Journals. Pp. 1–24. [2*s.* 6*d.*]

I. COMPREHENSIVE ZOOLOGY

ARRANGED BY

W. L. SCLATER, M.A.

This section includes works that deal with more than one branch of Zoology, or that are of general interest to Zoologists. It is, therefore, not complete in itself as regards any one subject included in it. The special records complete each subject. A few memoirs included in the special records are repeated in this division as well as the literature on the Genetics of Drosophila and some other insects used as a vehicle for these special researches.

II.—SUBJECT INDEX.

The full reference will be found under "Titles" by means of the author's name and number.

COMPREHENSIVE AND GENERAL.

General Works.—General problems and principles of Biology, ARON, **18**; CROW, **98**; WOODGER, **519**; Experimental Zoology, PRZIBRAM, **393**; Geographical races and evolution of species, RENSCH, **409**; General works on Evolution, AVELLINO, **21**; HAMMERLING, **205**; Ecology, SHELFORD, **456**; Malayan Agricultural Zoology, DAMMERMAN, **103**; Oceanography, ALLEN, **8**; Coral Reefs and their origin, DAVIS, **110**.

Textbooks.—General Zoology, LAMEERE, **286**; Morphology, PETERFI, **371**; Experimental Zoology, DÜRKEN, **124**; Comparative Physiology, JORDAN, **256**; PRZIBAUM, **392**; Evolution and Genetics, LINDSEY, **292**; BONNET, **55**; SCHLEIP, **429**; Parasitology, EWING, **134**; BRUMPT & NEVEU-LEMAIRE, **66**; Economic and Applied

Biology, WELDON, **512**; WARDLE, **507**; Hydrogen Ion Concentration, MICHAELIS, **330**.

General Biology and Hyperzoology.—General Problems and Methods, SUSAETA, **478**; STOCKARD, **471**; JORDAN, **258**; PETERSEN, **373**; RICHTER, **411**; Idealistic morphology, SCHUSTER, **442**; Origin and Theories of Life, SAPPER, **424**; GASKELL, **163**; Principle of Analogy, NOVIKOFF, **348**; Physico-chemical foundations of Morphology, KOLTSOV, **272**; Organismal Conception, RITTER & BAILEY, **414**; Quanta in biology, PRZIBRAM, **394**; Dynamics of biology, HIRSCH, **236**; Virus diseases and cell theory, GODDARD, **177**; Life in isolated tissue and cells, HILL **235**; Experimental Zoology, WEIDENREICH, **509**; Induction and plan, UEXKÜLL, **497**; Conception of form, BERTALANFFY, **38**; Evolution, SEWERTZOFF, **454**; ZULUETA, **524**; Progress of evolutionary thought, MCBRIDE, **305**; Evolution and classification, HESSE **234**; Adaptation, BATHER, **29**; ALLEN, **9**; WATSON, **508**; Evolution and relativity, KLINGSTEDT, **268**; Evolution and Genetics, FEDERLEY, **139**; Evolution and Phylogeny, CLARK, **87**; Teleology, OKA, **349**; FRIES, **159**; BERTALANFFY, **37**; Electron-proton theory and biology, DECOMBE, **113**; LAPIQUE, **288**; Stimulation, WINTERSTEIN, **517**; Vitalism, DRIESCH, **120**; PLATE, **384**; WINTERSTEIN, **516**; Vital cycle, SCHIRCH, **428**; Life and death and duration of life, PEARL, **364**; KRUMBIEGEL, **280**; BOYCOTT, **59**; RAHM, **397**; Biology and education, CREW, **96**; Biology and medicine, MACKENZIE, **306**; Biology and Veterinary Science, DU TOIT, **486**; Biochemistry, HEIDERMANNS, **224**; HESSE, **234**; Ecology, REICHE, **406**; Paleontology and the Systematist, BATHER, **28**; Larval forms, GARSTANG, **162**.

History.—General history of Biology, NORDENSKIÖLD, **347**; Of Embryology, WETZEL, **513**; Of evolution since Darwin's Origin, OSBORN, **355**; Shakespeare's Natural History, BURFIELD, **72**; Goethe's morphological work, HAECKER, **201**; Borelli and generation, CHIARUGI, **85**; Spallanzi's work and modern biology, CARDINI, **77**; An early Persian work on Zoology, STEPHENSON, **462**; Aryan and Turanian animal names, HARSANYI, **215**; Folk-lore and Natural History, OLDHAM & ROWLAND, **353**; History of the Zoological Society of London, MITCHELL **331**; Of the Zoological Survey of India, SEWELL, **453**; Of the Zoological Gardens in Santiago de Chile, REED, **403, 404**; Faunal changes in Hungary, NAGY, **342**.

Biography.—Spallanzini, CARDINI, **77**.

Biographies; Obituaries.—L. Camerano, COGNETTI DE M., **92**; V. E. Emmel, KAMPMEIER, **262**; O. Jaekel, ABEL, **1**; F. Keibel, PETER, **370**; E. R. Lankester, HERON-ALLEN, **229**; T. Whitelegge, ANON, **15**.

Bibliography.—Annual volume for 1927, PETERFI, **372**; Account of the "Tierreich," HESSE, **233**; Fossil Vertebrates of N. America, HAY, **220**; Works of Emmel, KAMPMEIER, **262**; Of Jaekel, ABEL, **1**; Of Keibel, PETER, **370**; Of C. S. Reed, REED, **402**.

Conservation.—In the Camargue, S. France, HUGUES, **239**; Reserves in Java, DAMMERMAN, **105**; List of U.S.A. national reserves, REDINGTON, **401**.

Museums and Institutions.—History of Zoological Society, MITCHELL, **331**; Zoological Survey of India, SEWELL, **453**; Marine Station at Foz, Portugal, FERREIRA, **144**; Marine station at Seto, Japan, KOMAI & IKARAI, **273**; Museum of Comp. Pathology in Philadelphia, FOX, **154**; Paleontological Institute at Vienna, ABEL, **2**.

Microscopical Methods and Technique.—Staining, EFISIO, **129**; FOLEY, **152**; FORCONI, **153**; FYG, **160**; KAUFMANN & LEHMANN, **266**; ROMEIS, **417**; Osmic acid and the Golgi apparatus, OWENS & BENSLEY, **356**; Silver impregnation of nerves, DAVENPORT, **109**; PASTORI, **361**; Vital staining, WEISSENBERG, **511**; New microscopical methods, KÖGEL, **270**.

Paleontological Methods.—General, SEITZ & GOTHAM, **448**; Preservation of pyritised fossils, RADLEY, **396**; Making casts, FRENTZEN & SCHELENZ, **158**.

Miscellaneous Methods. — General, MARTINI, **313**; Statistical, FISCHER, **150**; With polarized light, SCHMIDT, **437**; Bone decalcification, SCAGLIETTI, **426**; Colour preservation in marine

forms, ELMHIRST, **132**; Aeration of aquaria, BONNET & JULLIEN, **54**; Type recording in Genetics, FEIGE, **140**; Sanitary cages for small animals, LAIRD, **283**; For study of soil micro-organisms, FRED & WAKSMAN, **157**; Solid models for demonstrating morphological relations, ISCHREYT, **247**; For study of zoo-geography, GRASSÉ, **189**; Ecological methods, GRAHAM, **186**; Quantitative methods in field-studies, KASHKAROV, **264**.

Economics. — Textbooks, WARDLE, **507**; WELDON, **512**; Animal products used in the arts, PAX & ARNDT, **363**; Malayan agricultural zoology, DAMMERMAN, **103**; Fouling of ship's bottoms, VISSCHER, **502**; Economics of Ægean Is., GHIGI, **172**; Control of Austrian fauna, HULL, **240**; Plague and South African Rodents, MURRAY, **341**.

MORPHOLOGY.

Nervous System and Sense Organs.—Mesencephalon and Thalamencephalon in Vertebrates, HABLER, **203**; Thalamus, LEBLANC, **290**; Subfornix, PINES & SCHEFTEL, **380**; Medulla, KUHLENBECK, **281**; Choroid Plexus, SCHMID, **438**; Nervous elements, PICON & LISTA, **378**; Neurofibrils, PARKER, **358, 359**; Nerve roots, v. D. HORST, **238**; Nerve supply to blood-vessels, OKAMURA, **350**; Olfactory organ in Vertebrates, LOCATELLI, **295**; Retina, MENNER, **322**; Sclerotic ring, EDINGER, **126, 127**; Labyrinth of ear, DE BURLET, **73**; HAZAMA, **222**.

Osteology.—General, ABONYI, **4**; Vertebral theory of the skull, SERRANO, **452**; Foramen jugulare, v. HAYEK, **221**; Carpus and tarsus, DOLLO, **119**; Manus and Pes, BROCK, **64**; Fossil bone-marrow, KATSUNUMA, **265**.

Other Organs.—Vertebrate lip, ANSON, **16**; Curliness of hair and wool, PFIEFER, **376**; Bloodsinus of tactile hairs, BULSIEWICZÓWNA, **70**; Myology, general, KRÜGER, **278**; Striped muscle, PISCHINGER & BOERNER-PATZELT, **382**; GE, **167**; Heart muscle, OKAMURA, **351**; Haematology, general, PINEY, **381**; Vertebrate stomach, PERNKOPF, **368**; Formation of villi, LAMBERTINI, **285**; Classification of glands of Vertebrates, KHVOROSTUKHINE, **267**; Endocrines of Invertebrates, KOLLER, **271**; So-called skeleton in spermatozoa, GRASSÉ & TUZET, **190**.

Histology.—Striped muscle, BOERNER-PATZELT, **52**; Connective tissue, HUZELLA, **244**; Epithelium, LÓPEZ, **299**; Vertebrate lung, BAUDRIMONT, **30**; Thyroid, BUSSI, **74**; Ureter, OKKELS, **352**; Tissue culture, HUZELLA, **245**.

Cytology, General.—v. BEMMELEN, **35**; REITER & GABOR, **407**.

Cytology, Special Studies.—Live and dead cells, MARTENS, **312**; Cell division and growth, HAMMETT, **207**; Amitotic division, FLEROFF, **151**; Mitosis in ciliated epithelium, v. THANHOFFER, **481**; Cell-division in tissue culture, CANTI & SPEAR, **76**; Choanoleucocytes and amibocytes, FAURÉ-FREMIET, **137**; Chromosome mechanism, JACOBJ, **251**; Storage nuclei, NÉMEC, **346**; Chondriomes, PARAT, **357**; GIROUD, **175**; Genes, GOWAN, **184**; Polyploidy, DARLINGTON, **108**; Vaterite crystals in cells, PRENANT, **389**; Golgi bodies, BHATTACHARYA and others, **43, 44, 45**; TRUC, **491**; Intracellular respiration and glutathion, JOYET-LAVERGNE; Secretory mechanism, VOINOV, **503**; BOWEN, **58**; Interstitial cells, TÖRÖ, **488**; Ovarian cells, BIAŁASZEWICZ, **46**; Thymonuclein and oogenesis, BRACHET, **60**; Ovarian hormones, COURRIER, **95**.

Protoplasm.—Structure and contractility, SEIFRIZ, **445, 446**.

PHYSIOLOGY.

General.—Textbooks, JORDAN, **256, 257**; PEZIBAUM, **392, 393**;

Nervous System and Sense Organs.—Degeneration and regeneration, RAMON Y C., **398**; Reflex control, JORDAN, **259**; Growth of fibres and cells, GRIGORIEFF & LAWRENTJEW, **195**; Sympathetic and muscle, COATES & TIEGS, **89**; Vision, HERTZ, **231**; Dioptic vision, MENNER, **322**; Colour vision, BUDDENBROCK, **69**; Sensibility to light, HAUSMANN, **219**; MERKER, **324**; Light and melanophores, KROPP, **276**; Sclerotic ring, EDINGER, **126, 127**.

Muscle and Cilia.—General, KRÜGER, **278**; Rigor mortis, MELTZER, **321**; Ciliary movement, GRAY, **191**.

Nutrition and Digestion.—Nutrition and sex, AMAR, **11**; Nutrition and season, MAIGNON, **307**; Digestion of Proteins, MEYER, **329**; Pepsin and

trypsin, VONK and other, **505, 506**; Assimilation of material dissolved in water, KRIŽENECKY, **275**.

Respiration and Circulation.—Metabolism and homoiothermism, PEARSE & HALL, **365**; GIAJA, **174**; Respiration and light, MERKER, **323**; Intracellular respiration and glutathion, JOYET-LAVERGNE, **260**; Heart hormones, HABERLANDT, **200**; Haemophagy, MULLER, **340**; Blood-cells and connective tissue, MAXIMOV, **318**; Catalactic action of blood, KRÜGER & SCHUHKNECHT, **279**.

Glands. — Invertebrate endocrines, KOLLER, **271**; Function of the spleen, CHATTERJEE & CRUICKSHANK, **84**; Thyroid, BENAZZI, **36**; GIACOMINI, **173**; Thyroid and temperature, HUXLEY, **243**; Thyroid and growth, HAMMETT, **208**.

Bone.—Mechanism of joints, TAVERNE, **480**.

Growth and Weight.—General laws, L'HÉRITIER & TEISSIER, **228**; HUXLEY, **242**; Theories and laws of growth, SCHMALHAUSEN, **431, 432**; SCHMALHAUSEN & BORDZILOWSKAJA, **433, 434**; Heterogonic growth, CUNNINGHAM, **102**; Equipotentiality, GURWITSCH, **198**; Specific gravity of freshwater organisms, LUNTZ, **303**; Surface tension in aquatic animals, SCOURFIELD, **443**.

Miscellaneous.—Theory of physiological dominence, CHILD **86**; Protoplasmic hysteresis and old age, RŮŽIČKA, **421, 422**.

Experimental Physiology.—Narcotic and other poisons, ISSEL, **249**; Change of medium and marine animals, SCHLIEPER, **430**; Regeneration studies, GOETSCH, **178**; Effects of X-rays and other rays, CANTI & SPEAR, **76**; NEČAJEVA, **344**; X-rays and *Drosophila*, HANSON & HEYS, **210**; MULLER & PAINTER, **239**; TIMOFEEFF-RESSOVSKY, **484**; Rontgen rays and the nervous tissues, MOGILNIZKI, **333**; Ultra-red rays and cold-blooded animals, KRÜGER, **277**; Effect of high-frequency sound waves, HARVEY & LOOMIS, **217**.

Grafting Experiments.—KORSCHELT, **274**.

In Vitro Tissue Culture.—HARRISON, **214**; HASSKÓ, **218**; HILL, **235**; FISCHER & DOLCHANSKY, **147**; WEISS, **510**.

Biochemistry. — Protoplasm, HEILBRUNN, **226**; Cell growth, HAMMETT, **206**; Chondriomes, GIROUD, **175**; Cartilage, BAGINSKI, **23**; Decomposition of muscle, REED and others, **405**; Thymonuclein and oogenesis, BRACHET, **60**; Electrolytes in ovarian cells, BIALASZEWICZ, **46**; Interstitial cells, Törö, **488**; Mineral matter in ovary cells, BIALASZEWICZ, **47**; Egg albumin, ROMANOFF, **416**; Calcium in A. K., PRENANT, **390**; Vaterite crystals, PRENANT, **389**; Titanium in animals, BERTRAND & SPIRT, **42**; Trimethylamin, HOPPE-SEYLER, **237**; "Betaine," LINNEWEH, **293**; Glucose, ALBERTONI, **6**; Acids and alkali effect on protoplasm, BARTH, **27**; PH in animals, PRZYŁĘCKI, **395**; Ionizing radiation and mutation, BABCOCK & COLLINS, **22**; Re-absorption, TSCHOPP, **492**; Blood reactions and sex, MANOILOV, **309**; Intracellular respiration and glutathion, JOYET-LAVERGUE, **260**; Choano-leucocytes, FAURÉ-FREMIET, **137**.

Biophysics.—General, ALEXANDER & BRIDGES, **7**; Kinetics of growth, GRAY, **193**; Superficial tension and amoebocytes, LISON, **294**; Isoelectric condition of cells, PFEIFFER, **377**; Electric potential of animals, TURCHINI & PLEYEL, **495**.

EMBRYOLOGY.

General Works and Problems.—Textbook, DÜRKEN, **125**; General addresses and reviews, SPEMANN, **460**; v. BERTALANFFY, **39**; CONKLIN, **94**; Embryonic segregation, LILLIE, **291**; Mechanics, SCHULTZ, **440**; Unequal development, LEHNEL & TUR, **114**; Teretological embryology, TUR, **493, 494**; Quantitative methods, SCHMALHAUSEN **433**.

Early Stages.—TRIEPEL, **490**; DANTSCHAKOFF, **107**.

Organogeny. — Vertebrate paired limbs, MANGOLD, **308**; PFAFF, **375**; Lens of eye, LAMBERTINI, **284**; Eyeball, GLUCKSMANN, **176**; Liver and Gall-bladder, SIWE, **458**.

Miscellaneous.—Effect of humidity on growth, ROMANOFF, **415**; Budding and sex, HARTMANN, **216**; Stiocotropisms of Ruffini, RANZI, **399**.

PALAEONTOLOGY.

(See also under Methods, p. 24; Faunas, p. 29.)

General Works and Addresses.—Textbook, GOLDRING, **180**; General work, SEITZ & GOTHAM, **448**; Evolution and palaeontology, LULL, **302**; Phylogeny and palaeontology, SCHINDEWOLF, **427**; Criticism of Weigelt's biostratonomy, EHRENBERG, **131**; Extinction and extermination, TOLMACHOFF, **487**; Effects of late Palaeozoic glaciation, THOMAS, **482**; Catalogue of fossil vertebrates of N. America, HAY, **220**.

ETHOLOGY.

Ecology. — Textbook, SHELFORD, **456**; General problems, BEKLEMISCHEV, **34**; REICHE, **406**; HESSE, **232**; STRØM, **477**; Methods, GRAHAM, **186**; KASHKAROV, **264**; Seasonal factor in California, INGLES, **246**; Welsh pasture and arable, EDWARDS, **128**; Heaths and moors, GOFFART, **179**; HARNISCH, **213**; Illinois prairie, SHACKLEFORD, **455**; Yorkshire stream bed, PERCIVAL & WHITEHEAD, **367**; Bottom fauna, Illinois river, RICHARDSON, **410**; Upper Missouri, WIEBE, **514**.

Limnology; General Problems.—GAUTHIER, **165**; HEESEN, **223**; Eutrophy and Oligotrophy in C. Asia, KUZNETZOV-UGAMSKIJ, **282**; Periodical ponds, GRESE, **194**; Plankton research methods, NAUMANN, **343**.

Limnology; local researches. — Vosges, France, BALDENSPERGER, **25**; Germany, GESSNER, **171**; LOTZ, **300**; Austria, ZEITLINGER, **522**; PESTA, **369**; Hungary, VARGA, **501**; Carpathian Mts., KALMUS, **261**; Rumania, BORCEA, **57**; L. Trasimene, Italy, PASQUINI, **360**; Russia, BEHNING, **32**, **33**; DECKSBACH, **111**, **112**; ROSSOLIMO, **419**; RYLOV, **423**; Transcaucasia, FADEJEW, **135**, **136**; Persia, TARNOGRADSKY, **479**; Algeria, Tunisia, GAUTHIER, **164**; South Africa, HUTCHINSON, **241**; Kenya Colony, JENKIN, **254**; Lake Erie, FISH & others, **149**; L. Michigan, JEWELL & BROWN, **255**; Upper Missouri, WIEBE, **514**.

Litoral Ecology.—Estuarine conditions, PRENANT, **391**; The Rance, N. France, FISCHER, **148**; Seaweed beds, Gulf of Bothnia, SEGERSTRÅLE, **444**; Littoral of Kola Peninsula, GURJANOWA, **197**.

Oceanography and Marine Faunas.—General Work, ALLEN, **8**; Variation studies, BROCH, **63**; Plankton studies, space and time, ROSE, **418**; Plankton, N. Atlantic, GRAN, **187**; Bottom fauna, N. Atlantic, SPÄRCK, **459**; Coast, N. France, FISCHER, **148**; North Sea, BLEGVAD, **51**; GRAN, **188**; RUUD, **420**; Benthon of Baltic, DEMEL, **115**; Gulf of Riga, RAPOPORT, **400**; Russian Arctic, ZENKEWITSCH, **523**; STRELNIKOV, **475**; Plankton, Mediterranean, ISSEL, **250**; Straits of Georgia, CAMPBELL, **75**; Ships' bottom fauna, VISSCHER, **502**.

Other Habitat Studies.—European Biospeleology, JEANNEL & RACOVITZA, **252**; Cavernicolous fauna, Bulgaria, BURESCH, **71**.

Effects of Environment.—Reduction of natural shelter, THOMSON, **483**; Change from aqueous to terrestrial habitat, HARMS, **212**; Adaptation to terrestrial life, GRAY, **192**; Cold weather on intertidal shores, CAULLERY, **81**; Surface tension effects, SCOURFIELD, **443**; High frequency sound waves, HARVEY & LOOMIS, **217**; Acclimatization in New Zealand, POPPELWELL, **387**.

Psychology.—ALMÁSY, **10**; BIERENS, DE H., **48**; COGHILL, **91**; FISCHEL, **146**; SCHNEIDEMÜHL, **438**.

Flight.—MARINELLI, **311**; ACWORTH, **5**.

Voice and speech.—BIERENS DE H., **49**; SCHMID, **435**.

AETIOLOGY.

Evolution (see also under General Works, p. 23).—Textbook, LINDSEY, **292**; General works and addresses, AVELLINO, **21**; HAMMERLING, **205**; LULL, **302**; LONLEY, **297**; MCBRIDE, **305**; PIKE, **379**; SEWERTZOFF, **454**; New theories, CLARK, **88**; CONGER, **93**; Natural selection, MCBRIDE, **304**; Critical remarks, FEJÉRVÁRY, **141**; GARSTANG, **161**; Adaptations, ALLEN, **9**; MEEK, **319**; WATSON, **508**; Genetics and the species problem, HALDANE, **202**; Evolution and mutation, CUÉNOT, **100**, **101**; Mutations and teratology, CATERINI, **79**; Hormones and the inheritance of acquired characters, CATTANEO, **80**; Evolution and metabolism, NEEDHAM,

345; Parasitism and Natural Selection, DUNKERLY, 123; Geographical races and evolution, RENSCH, 409; The paleontological standpoint, ABEL, 3.

Variation.—A new theory, ARÉVALO, 17; Origin of variation, LODGE, 296; SEREBROVSKY, 450; Mutation and systematic zoology, FERRIS, 145; Variation in marine life, BROCH, 63; Mutation and X-rays, PATTERSON, 362.

Genetics; General and Special Problems.—Textbook, LINDSEY, 292; General problems, BERNSTEIN, 40; BRIDGES, 61; FÉNYES, 143; ARON, 19; Genes and the change of life habits, HARMS, 212; The species problem, HALDANE, 202; Y-chromosomes, BROUWER, 65; Sex-chromosomes, BUCHNER, 67; "Crossing over," GOWEN, 185; Acquired characters, WOOSTER, 520; Canary breeding, DUNCKER, 122.

Genetics of Drosophila.*—ANDERSON, 12; ASTAUROFF, 20; BALKASCHINE, 26; CSIK, 99; DEMEREC, 116, 117; DOBZHANSKY, 118; DUBININ, 121; EHER, 130; GERSCHENSON, 170; GOLDSCHMIDT, 181; GUYÉNOT & NAVILLE, 199; HANSON & HEYS, 210, 211; HERSH, 230; JEFFREY, 253; LANCEFIELD, 287; MASING, 314; MAVOR, 316, 317; MOHR, 334; MORGAN & others, 336; MULLER, 338; MULLER & PAINTER, 339; PATTERSON, 362; SAVELIEV, 425; SCHULTZ, 439; SEILER, 447; SEREBROWSKY & others, 451; STERN, 463, 464, 465; TIMOFEEFF-RESSOVKY, 484, 485; WRIGHT, 521.

Genetics of other Insects.—*Sciara*, METZ, 326; METZ & SCHMUCK, 327, 328; PLATE, 383; Sphingidae, FEDERLEY, 138.

Problems of Sex.—Sex sociology, GERHARDT, 168; General sex-characters, WITSCHI, 518; Secondary sex-characters, CHAMPY, 82; Sex distinctions, GOLDSCHMIDT, 182; Sex determination, ANKEL, 13; BONNIER, 56; GOSTIMIROVIĆ, 183; METZ, 326; Isolation of gonad cells, STIEVE, 470.

Parthenogenesis.—Spanandry, VANDEL, 499, 500.

Parasitology.—Textbook, BRUMPT & NEVEU-LEMAIRE, 66; EWING, 134; Aid to taxonomy, METCALF, 325.

Symbiosis.—Evolution and symbiosis, FRANKENBERG, 156; Fluctuations in numbers in symbiotic forms, VOLTERRA, 504; MARCHI, 310; Wood eaters and symbiosis, BUCHNER, 68; Intracellular symbiosis, POSPELOW, 388.

Mimicry.—General, CARPENTER, 78; Protective colouration, HEIKERTINGER, 225.

Pathology.—In London Zoological Gardens, HAMERTON, 204; In Philadelphia Zoological Gardens, FOX, 154; Tumours, WINKLER, 515.

Mortality.—Extinction and extermination, TOLMACHOFF, 487; Cause of death in Invertebrates, ORTON, 354; Mortality from automobiles, STONER, 472.

Teratology.—General, STROHL, 476; In embryos, TUR, 493; Mutations and teratology, CATERINI, 79.

Phylogeny.—General, LUDWIG, 301; SEWERTZOFF, 454; Phylogeny and vitalism, LEBEDINSKY, 289; Phylogeny of larval forms, GARSTANG, 162; Chordata from Annelids, TRETJAKOFF, 489; Vertebrates, PEARSE & HALL, 365; Land Vertebrates, GRAY, 192; Vertebrate limbs, PFAFF, 375; MANGOLD, 308; Carpus and tarsus in Land Vertebrates, DOLLO, 119; Bipedal locomotion, DE LA CROIX, 97; Nervous system, KAPPERS, 263; Sclerotic ring, EDINGER, 127.

Taxonomy.—Aid from parasitology, METCALF, 325; Characters of sex-organs, MÉHELY, 320.

Nomenclature.—Index animalium, SHERBORN, 457; Index generum, SCHÜLZE, 441; Formenkreis nomenclature, PEUS, 374; Critical remarks on unnecessary genera, HANDLIRSCH, 209; Nomenclatural discussions at Intern. Zool. Congr., ANON, 14; CHAPPELLIER, 83; MORTENSEN, 337; POCHE, 385; STILES, 466; Opinions rendered, I.C.Z.N., STILES, 468; Proposed changes in rules, STILES, 469; Notices, STILES, 467; Critical remarks, POCHE, 386; RICHTER, 412; STRAND, 473, 474.

Terminology.—In anatomy, BERTELLI, 41; New biological terms. FEJÉRVARY, 142.

---

* These papers are transferred from Insecta to Comprehensive Zoology as being of more general interest.

GEOGRAPHY AND FAUNAS.

General Problems.—Of Limnology, GAUTHIER, **165**; Methods, GRASSÉ, **189**; Freshwater organisms, BLANC, **50**; Alpine faunas, SEMENOV-TIAN-SHANSKY, **449**; Fauna of Greenhouses in Berlin, BOETTGER, **53**; Origin of Swiss Alpine fauna, ERHARD, **133**; Of the Ægean Is. fauna, GHIGI, **172**; The Suez Canal and its problems, GRUVEL, **196**; STEINITZ, **461**; FOX, **155**; Boundary line between Indian and Australian Regions, KLOSS, **269**; Relation of Javanese fauna, DAMMERMAN, **106**; Origin of Ethiopian fauna, LÖNNBERG, **298**; Of Argentine fauna, RIOJÀ, **413**.

Palearctic Region.—Devon and Cornwall, PERCIVAL, **366**; Ireland, MOFFAT, **332**; France, BALDENSPERGER, **25**; HUGUES, **239**; Switzerland, ERHARD, **133**; MAUVAIS, **315**; Holland, DE BEAUFORT, **31**; Germany, GOFFART, **179**; LOTZ, **300**; Austria, PESTA, **369**; ZEITLINGER, **522**; Hungary, NAGY, **342**; VARGA, **501**; Poland, KALMUS, **261**; Russia, BEHNING, **32**, **33**; DECKSBACH, **111**; FADEJEW, **135**, **136**; GAVRILENKO, **166**; ROSSOLIMO, **419**; RYLOV, **423**; Italy, BRIGHENTI, **62**; PASQUINI, **360**; Rumania, BORCEA, **57**; Bulgaria, BURESCH, **71**; Persia, TARNOGRADSKY, **479**; Siberia, TUROV, **498**; Mediterranean Isles, GERMAIN, **169**; Ægean Is., ISSEL, **248**; GHIJI, **172**; Algeria and Tunisia, GAUTHIER, **164**.

Ethiopian Region.—LÖNNBERG, **298**; Kenya Colony, JENKIN, **254**; South Africa, HUTCHINSON, **241**.

Oriental Region.—Java, DAMMERMAN, **105**, **106**; Krakatau I., DAMMERMAN, **104**.

Australasian Region.—New Hebrides, BAKER, **24**; New Caledonia, COCKERELL, **90**.

Nearctic Region.—California, INGLES, **246**; Michigan, JEWELL & BROWN, **255**; Illinois, RICHARDSON, **410**; SHACKLEFORD, **455**; Lake Erie FISH & others, **149**.

Arctic Islands.—Jan Mayen, REMY, **408**.

Subantarctic Islands.—VALLAUX, **498**.

Oceans and Seas.—Atlantic, GRAN, **187**; HENTSCHEL, **227**; SPARCK, **459**; English Channel, FISCHER, **148**; North Sea, BLEGVAD, **51**; GRAN, **187**, **188**; RUUD, **420**; Baltic, DEMEL, **115**; RAPOPORT, **400**; Mediterranean, ISSEL, **250**; GRUVEL, **196**; BORCEA, **57**; Japan coasts, KOMAI & IKARAI, **273**; Straits of Georgia, CAMPBELL, **75**; Finland Arctic Coast, SEGERSTRÅLE, **444**; Russian Arctic Sea, STRELNIKOV, **475**; GURJANOWA, **197**; ZENKEWITSCH, **523**.

Extinct Faunas. — Carboniferous, United States, MOORE, **335**.

II.—SUBJECT INDEX.

COMPREHENSIVE AND GENERAL.

Nomenclature. — Cushman, **177**; Stiles, etc., **771**.

History.—Mira, **563**; Pavlovsky, **622**; Popoff, etc., **642**; Ross, **690**, **691** & **692**.

Bibliography.—Anon., **35**; Metelkin, **558**; Moufel, **569**; Raschina, **649**; Sinton, **756**.

Addresses, Reviews.—Alcock, **15**; Du Toit, **234**; Entz, **241**; Howard, **379**; Kabelík, **417**; Kofoid, **463**; Metcalf, **556**; Mira, **563**; Regendanz, **670**; Sautet, **704**; Schern, **710**.

Treatises, Text-books.—Bach, **38**; Cushman, **165**; Doflein, **217**; Escomel, **243**; Fish, **260**; Fowler & Browne, **270**; Goldring, **309**; Hartmann, **337**; Hoare, **365**; Jennings, **401**; Knowles, **455**; Lameere, **489**; Molengraaff, **565**; Nowak, **598**; Przibram, **646**; Reichenow & Wülker, **673**; Taliaferro, **786**; Thomson & Robertson, **803**.

Economics. — General: Schwarz, **726**. *Petroleum sources*: Zwierzycki, **881**. *Soil Protozoa*: Brodsky, **86**; Chaudhuri, **136**; Fehér & Varga, **254**; Rao, **647**; Sandon & Cutler, **702**; Shibuya, **741**; Volz, **835**; Protozoa in relation to disease (see also under Parasitism).—*General*: Bach, **38**; Cunha, **154**; Desclisens & Carvaillo, **212**; Doyle, **227**; Faust, **251**; Hegner, **344** & **345**; Hegner, Root & Augustine, **354**; Kessel, **432**; Knowles, **455**; Knowles & Gupta, **460**; Kofoid, etc., **465**; Krijgsman, **475**; Labernadie & Marneffe, **483**; Meleney, **550**; Thomson, **802**; Thomson & Robertson, **803**; Stiles, etc., **771**; Tisseuil, **805**; Tunnicliff, **814**; Yakimoff, etc., **861**. *Amoebiasis*: Bishop & Bishop, **63**; Craig, **153**; Deschiens, **210**; Fabre, **246**; Faust & Kellogg, **252**; Fischer, **259**; Freeman, **273**; Hegner, **348**; Hiyeda, **363**; James, **397**; Kofoid, **463**; Olitzki & Reich, **601**; Popoff, etc., **642**; Rees, **664**; Regendanz, **669**; Sautet, **705**; Schuckmann, **721**; Ter-Matevosyants, **798**. *Leishmaniasis*: Adler, **8**; Adler & Theodor, **9**, **10** & **11**; Alexandrides, **16**; Buss, **100**; Cash & Hu, **117** & **118**; Chacón, **123**; Chodukin, **138**; Donatien, etc., **223**; Escomel, **242** & **243**; Fonseca, **263**, **264** & **265**; Gupta, **323**; Kligler, **444**; Knowles, **456**; Metelkin, **559**; Motta, **567**; Motta & Fonseca, **568**; Parrot, **614** & **615**; Shortt, etc., **742** & **743**; Young & Hertig, **869** & **870**; Young, Hertig & Liu, **871**. *Trypanosomiasis*: Adant, **7**; Belitzer & Markoff, **53**; Buchanan, **96** & **97**; Campos **105** & **106**; Campos & Almeida, **107**; Carougeau, **110**; Carpenter, **113**; Curson, **162**; Delpy, **207**; Du Toit, **233**; Escomel, **243**; Espié & Faure, **244**; Fabre, **245**; Galliard, **282** & **284**; Geoghegan, **292**; Graf, **314** & **315**; Gwélessiany, **324**; Haaland, **325**; Helm,

357; Hoare, 364 & 365; Johnson, 408; Johnson & Lester, 410; Kligler, etc., 446; Kligler & Comaroff, 445; Linton, 506; Locatelli, 511; Mühlens, 572; Nieschulz, 582, 583 & 585; Pfannenstiel & Scharlau, 632; Philiptschenko, 634; Regendanz, 666, 667 & 670; Regendanz & Hoeppli, 671; Schern, 710; Sicé, 745; Steudel, 769; Yakimoff, 852; Yakimoff, etc., 860; Yakimov, etc., 865; Zavattari, 874; Zotta & Radacovici, 877 & 878. *Intestinal Flagellates*: Andrews, 33 & 34; Breindl, 78; Escomel, 243; Faust & Kellog, 252; Greenhill, 320; Hegner, 346; Jollos, 412; Knowles & Gupta, 458; Kofoid, 463; Langen, 490; Michelson, 561; Perekropoff, 625; Schwartz, 725; Skvorzowa, 761; Ter-Matevosyants, 798; Toullec, 810; Yakimoff, 855. *Coccidiosis*: Becker & Frye, 44; Bogoyavlensky, etc., 67; Brinkmann, 79 & 80; Carré, 114; Jollos, 414; Kloster, 451; Krijgsman, 476, 477 & 478; Nikolsky, 593; Schwartz, 725; Tyzzer, 815; Young, 868;. *Malaria*: Andrews, 32; Bogoyavlensky & Yampolskaya, 68; Breindl, 75; Carter & Jacocks, 115; Ciuca, Ballif & Vieru, 142; Clark, 144; Durieux & Sall, 232; Escomel, 243; Garnham, 287; Green, 319; Guercio, 322; Guelmino, 321; Hindle & Chow, 362; Horn & Kauders, 372; Kabelík, 417; Keining & Serefis, 428; Kligler & Liebman, 447; Kligler & Reitler, 448; Klotz, 452; Kolmakow, 468; Kušev, 482; Manwell, 538; Muffel, 573; Reichenow, 672; Row, 697; Sarkar, 703; Schilling, 714; Schwetz & Baumann, 728; Sergent, Ed. & Et., 739; Simanin, 752; Simanine, 754; Sinton, 756; Smirnowa & Simanine, 763; Strickland, 778; Surbek, 779; Swellengrebel, etc., 782; T., 784; Taliaferro & Taliaferro, 788; Taliaferro, etc., 790; Villain, 826; Warasi, 837. *Piroplasmosis*: Brumpt, 89; Carpano, 112; Curasson, 161; Davis, 198; De Kock, 206; Faría, 249; Jimenez de Asúa, etc., 403; Lestoguard, 497; Martin & Baradat, 541; Schilling & Meyer, 715; Schwetz & Collart, 729; Schwetz & Geerinck, 733; Sergent, etc., 738; Theiler & Du Toit, 800; Yakimoff, 850 & 858; Yakimoff, etc., 862; Yakimoff & Kolmakoff, 863; Yakimow & Kolmakow, 866; Yakimoff & Rastegaïeff, 864. *Various Sporozoa*: Alcock, 15; Filbiger & Kahls, 258; Giltner, 305; K., 416; Levaditi, etc., 498; Meyer, 560; Noguchi, 596; Reitani, 674; Stiles, 772; Winogradow, 848. *Ciliates*: Becker, etc., 49; Becker & Everett, 43; Becker & Hsiung, 46; Jollos, 413; Pritze, 645; Schumaker, 722. *Prophylaxis*: Brinkmann, 80; Doyle, 227; Guercio, 322; Kloster, 451; Krijgsman, 478; Parrot, 614; Schwartz, 725; Sergent, Ed. & Et., 739; Yakimov, etc., 865. *Therapy*: Acton & Chopra, 6; Bishop, 62; Browning, etc., 87; Collier & Krause, 147; Dobell & Bishop, 215; Giemsa, 303; Hornby, 373; Kolmakow, 468; Krijgsman, 476 & 477; Manwell, 539; Pfannenstiel & Scharlau, 632; Schwetz, 727; Sweeney, 781; Yorke, Adams & Murgatroyd, 867; Zozaya, 879.

Miscellaneous.—*Laboratory Methods and Technique*: Alzamora, 27; Bajkov, 41; Becker, 42; Breindl, 77; Brumpt & Neveu-Lemaire, 90; Cambies & Rosell, 103; Causey, 120; Chen, 137; Craig, 153; Deflandre, 204; Deschiens & Carvaillo, 212; Dogiel, 220; Dogiel & Fedorowa, 221; Du Toit, 233; Fortner, 268; Fortner & Kalmus, 269; Giemsa, 304; Goldsmith, 310; Hall, 329 & 330; Hegner, 344 & 353; Hoare, 366; James, 396; Jírovec, 405; Johnson & Lester, 410; Kedrowsky, 426; King, 439; Knowles, etc., 457; Koffman, 461; Lucas, 515; Naumann, 577; Nigrelli & Hall, 589; Nöller, 595; Park, 610 & 611; Parrot, 613; Rao, 647; Ratcliffe, 659; Reichenow & Wülker, 673; Robinson, 682; Taylor, C. V., 795; Taylor, M., 796; Tripoli, 812; Umbgrove, 817; Voigt, 831; Winogradowa-Fedorowa & Winogradoff, 849. *Cultivation*: Adler & Theodor, 10 & 12; Andrews, 33 & 34; Bruynoghe & Vassiliadis, 92; David, 194; Deschiens, 211; Efimov, Necrassow & Efimova, 235; Fedorova-Vinogradova, 253; Freidrichs & Harris, 274; Galliard, 283; Garnjobst, 288; Hegner, 351; Hopkins & Johnson, 371; Horovitz & Sautet, 377; Jennings, 401; Kessel, 432; Knoth, 453; Kofoid

& Johnstone, 466; Larson & Allen, 491; Levaditi, etc., 498; Lindemann, 505; Lwoff, A., 521; Lwoff, M., 524, 525 & 526; Lwoff, M. & A., 528; Lwoff & Dusi, 522; Lwoff & Provost, 523; Mayer, 546; Mitchell, 564; Naumann, 577; Nöller, 595; Parrot, 612; Petersen, 631; Pons, 641; Pringsheim, 644; Pritze, 645; Rao, 647; Ratcliffe, 656; Ray, 661; Razgha, 663; Robinson & Bekker, 683; Row, 697 & 698; Sautet, 704 & 705; Schachsuwarly, 707; Sette, 740; Silfer, etc., 747; Theodor, 801; Tripoli, 812; Woodruff, 850; Yorke, Adams & Murgatroyd, 867; Yuan-Po, 872.

STRUCTURE.

Morphology and General Anatomy.—*Mycetozoa*: Howard, 379. *Rhizopoda*: Abrard, 3; Astre, 37; Berry, 55 & 56; Carman, 109; Church, 139; Comerci, 149; Cotter, 150; Cushman, 163, 164, 166, 167, 168, 169, 170, 172, 173, 174, 175 & 176; Cushman & Alexander, 181; Cushman & Jarvis, 183; Cushman & Leavitt, 185; Cushman & Ozawa, 186; Cushman & Thomas, 187; Cushman & Waters, 188; Davis, 196; Deflandre, 205; Fowler & Browne, 270; Franke, 272; Freeman, 273; Galli-Valerio, 285; Galloway & Morrey, 286; Ghosh, 299; Heron-Allen & Earland, 358 & 359; Hofker, 369; Hucke & Voigt, 384; Kienast, 434; Klähn, 442; Kofoid, 463; Krapin, 473; Lacroix, 486 & 487; Llueca, 509; Ozawa, 604; Ozawa & Tobler 606; Pál, 607; Pietschmann, 636; Popoff, etc., 642; Rao, 647; Rijsinge, 679; Roskin, 684; Schaeffer, 708; Schussnig, 724; Silvestri, 749, 750 & 751; Tobler, 806 & 807; Trechmann, 811; Valkanov, 818; Vaughan, 823; Vlerk, 827 & 828; Vlerk & Wennekers, 829; Weinzierl & Applin, 839; White, 847; Yakimoff, 854. *Mastigophora*: Adler & Theodor, 12; Andrews, 34; Bravo, 74; Breindl, 78; Chatton & Grassé, 131; Cunha & Muniz, 158; David, 194; Deschiens & Kipchidzé, 213; Duboscq & Grassé, 229; Espié & Faure, 244; Fantham & Robertson, 248; Fonseca & Vaz, 266 & 267; Fowler & Browne, 270; Gabaldon, 280; Galli-Valerio, 285; Haaland, 325; Hasselmann, 340; Hoare, 365; Hsiung, 381; Jírovec, 406; Joff, 407; Kirby, 440 & 441; Knowles & Gupta, 458 & 459; Kofoid, 463; Korshikov, 470 & 471; Korshikov & Anachin, 472; Lavier, 493; Lindemann, 505; Macfie & Thomson, 532; Maclean, 534; Marukawa, 543; Mello, 551; Mello & Brito, 552, 553 & 554; Michelson, 561; Nikitin, 590 & 591; Pascher, 616 & 617; Perekropoff, 625; Schiller, 712; Schourenkova & Demina, 718; Schwetz & Fornara, 731; Skvortzow, 759 & 760; Taylor, 793; Theodor, 801; Yakimoff, 854; Zozaya, 879. *Sporozoa*: Becker & Frye, 44; Breindl, 75; Bogoyavlensky, etc., 67; Brinkmann, 80; Bruynoghe & Vassiliadis, 92, 93 & 94; Carpano, 112; Chatton & Dehorne, 130; Ciuca, Ballif & Vieru, 142; Cognetti de Martiis, 145; Coulon, 151; Davis, 197 & 198; Debaisieux, 202; Dinger, 214; Fantham & Robertson, 248; Fiebiger & Kahls, 258; Gabriel, 281; Galli-Valerio, 285; Georgévitch, 293 & 294; Goodrich, 312; Haaland, 325; Hartman, 336; Hasselmann, 338 & 339; Hegner, 350; Iyengar, 393; Jameson, 398; Kabelík, 417; Katahira, 425; Kessel, 430; Kikuth, 436 & 437; Kudo, 480 & 481; Ledentu, etc., 494; Lestoquard, 497; Mackinnon & Roy, 533; Naville, 580; Nigrelli, 587; Nikitin, 590; Pinto, 637 & 638; Rastégaïeff, 650, 651, 652, 653, 654 & 655; Reitler, 675; Row, 697; Schwetz & Fornara, 731; Sergent, etc., 737; Skidmore, 758; Smith, 765; Tyzzer, 815; Vogelsang, 830; Volkmar, 833; Yakimoff, 853, 854, 856, 857 & 859; Yakimoff & Kolmakoff, 863; Yakimow & Kolmakow, 866.

Minute Structure: Special Anatomy.—Alzamora, 28; Beltran, 54; Calkins, 101; Campbell, 104; Chatton & Lwoff, A., 132; Curasson, 160; Dogiel, 218; Dumas, 230; Fantham & Robertson, 248; Fowler & Browne, 270; Furssenko, 279; Galli-Valerio, 285; Garnjobst, 288; Gelei, 289 & 290; Ghosh, 300, 301 & 302; Grassé & Boissezon, 317; Hsiung, 380; Kahl, 418; Kienast, 434; Kofoid & Campbell, 464; Lynch, 529; Mudrezowa-Wyss, 571; Noble, 594; Percy, 624; Pertzewa, 626; Peshkowskaya, 627; Poisson,

640; Pritze, 645; Rao, 647; Rossolimo, 693 & 694; Rossolimo & Jakimowitsch, 695; Rossolimo & Perzewa, 696; Strelkov, 774, 775 & 776; Swarczewsky, 780; Wailes, 836; Wenrich, 840, 841 & 842; Wenyon & Sheather, 844; Wermel, 845; Zinger, 876. *Ectoplasm, membranes, etc.*: Abrard, 2; Brodskii, 84; Calkins & Bowling, 102; Cushman, 168; Entz, 240; Gray, 318; Jepps, 402; Jírovec, 405; Klein, 443; Krüger, 479; Peshkowskaya, 627; Schmidt, 716; Silvestri, 751; Strelkow, 775; Taylor, 794; Umbgrove, 817; Valkanov, 818. *Organellae of attachment*: Chatton & Dehorne, 130; Debaisieux, 202; Georgévitch, 297; Lwoff, M. & A., 527. *Organellae of locomotion*: Chatton, Lwoff & Lwoff, 133 & 134; Duboscq & Grassé, 229; Entz, 240; Gelei, 290; Kirby, 441; Lieberman, 503; Mello & Brito, 552 & 553; Overbeek & Meyer, 603; Peshkowskaya, 627. *Nucleus and cytoplasm*: Aléxéieff, 18; Breindl, 77; Burnside, 99; Campbell, 104; Chatton & Grassé, 131; Debaisieux, 202; Drezepolski, 228; Georgévitch, 297; Hahn, 327; Hall, 329; Ivanić, 391; Kirby, 441; Kofoid, 462; Lynch, 529; Metcalf, 556; Naville, 580; Overbeek de Meyer, 603; Peshkoroskaya, 627; Roskin & Levinson, 687; Schussnig, 724; Strelkow, 775; Taylor, 796; Zinger, 876. *Nuclear division*: Cunha & Muniz, 157; Garnjobst, 288; Hahn, 327; Hartmann, 337; Ivanić, 392; Janicki, 399; Kofoid, 462; Lackey, 484; Metcalf, 556; Naville, 580; Pietschmann, 636; Reynolds & Threlkeld, 676; Roskin, etc., 689; Roskin & Schischlaiewa, 688; Rossolimo & Jakimowitsch, 695. *Various internal structures*: Aléxéieff, 17 & 18; Bojewa-Petruschewskaja, 69; Breindl, 77; Chatton, 127; Chatton & Lwoff, A., 132; Chatton, etc., 135; Debaisieux, 202; Dogiel, 218; Duboscq & Grassé, 229; Entz, 240; Georgévitch, 297; Hall, 329; Hall & Jahn, 331 & 332; Horning, 374, 375 & 376; Jírovec, 404; Kalmus, 421; Klokaciova, 449; Kofoid, 462; Krascheninnikow, 474; Lwoff, M. & A., 527; Lynch, 529; Okada, 600; Park, 610 & 611 Paschev, 618; Percy, 624; Peshkowskaya, 627; Rao, 647; Rossolimo, 694; Rossolimo & Perzewa, 696; Volkonsky, 834; Zick, 875; Zinger, 876. *Cysts*: Becker & Hsiung, 45; Chatton, Lwoff, M. & A., 134; Cunha & Muniz, 155 & 157; Kofoid, 462; Percy, 624; Pertzewa, 626; Peshkowskaya, 627; Pietschmann, 636; Pritze, 645; Sautet, 706.

PHYSIOLOGY.

General.—Bles, 65; Bounhiol, 71; Deflandre, 203; Ludwig, 517; Park, 610; Paulsen, 621.

Movement, Contractility.—Aléxéieff, 18; Dembowski, 209; Entz, 240; Fauré-Fremiet, etc., 250; Hoeppli, 368; Kienast, 434; Ludwig, 518; Overbeek de Meyer, 603; Peters, 629; Roskin & Levinson, 687; Wenrich, 840.

Nutrition, Metabolism.—Aléxéieff, 18; Breindl, 76; Caullery, 119; Chatton & Lwoff, A., 132; Dawson, 199; Dawson & Belkin, 200; Dogiel 220; Dogiel, etc., 222; Emerson, 237; Fiveïskaja, 261; Horning, 376; Klokaciova, 449; Knowles & Gupta, 460; Lloyd, 507; Losina-Losinsky, 512, 513 & 514; Lwoff, A., 520; Lwoff, M., 526; Nouvel, 597; Petersen, 631; Pringsheim, 644; Rao, 674; Schern, 710; Volkonsky, 834.

Excretion.—Andrejewa, 30; Dawson, 199; Dogiel, 220; Dogiel, etc., 222; Eisenberg - Hamburg, 236; Klokaciova, 449 & 450; Krascheninnikow, 474; Lloyd, 508; Losina-Losinsky, 512; Nouvel, 597; Perekropoff, 625; Weatherby, 838.

Properties of Protoplasm.—Burnside, 99; Chalkley, 124; Dawson, 199; Enriques, 239; Heilbrunn, 355 & 356; Kedrowsky, 426 & 427; Kiesel, 435; Ludwig, 517; Ogawa, 599; Overbeek de Meyer, 603; Strelkow, 775; Taylor, 795.

Nervous System. — Dogiel, 218; Entz, 240; Gelei, 290; Roskin & Levinson, 687.

Growth, Multiplication. — Adolph, 13; Beers, 50; Breindl, 76; Bunting & Wenrich, 98; Burnside, 99; Efimov, Necrassow & Efimova, 235; Enriques, 239; Furssenko, 279; Hasselmann, 339 & 340; Jahn, 394;

Janicki, 399; Kligler & Comaroff, 445; Kofoid, 462; Losina-Losinsky, 512; Manwell, 538; Mitchell, 564; Naville, 580; Overbeek de Meyer, 603; Petersen, 631; Row, 697; Sicé, 745; Taylor, 795; Woodruff, 850.

Regeneration.—Burnside, 99; Enriques, 239; Jennings, 401; Nadler, 575; Przibram, 646; Taylor, 795.

Degeneration. — Jennings, 401; Pritze, 645.

Vitality.—Aléxéieff & Gwélessiany, 19; Beers, 50; Bounhiol, 71; Brumpt, 89; Dawson & Mitchell, 201; Deschiens, 210; Hegner, 346, 349 & 350; Horn & Kauders, 372; Kessel, 431; Knoth, 453; Light & Sanford, 504; Philpott, 635; Pritze, 645; Przibram, 646; Simanin, 752; Wetzel, 846; Winogradow, 848; Woodruff, 850; York, Adams & Murgatroyd, 867.

Sexuality, Conjugation.—Aléxéieff, 18; Calkins & Bowling, 102; Chatton, E. & M., 128 & 129; Furssenko, 279; Halm, 327; Hartmann, 337; Hasselmann, 339; Ivanić, 392; Lackey, 485; MacDougall, 531; Mainx, 535; Naville, 579 & 580; O'Roke, 602; Peshkowskaya, 627; Pritze, 645; Przibram, 646; Russo, 699; Schweyer, 734.

Cyst-formation. — Aléxéieff, 18; Becker & Hsiung, 45; Chatton, Lwoff, M. & A., 134; Cunha & Muniz, 155 & 157; Garnjobst, 288; Hasselmann, 339; Kofoid, 462; Lloyd, 507; Percy, 624; Peshkowskaya, 627; Pritze, 645; Sautet, 706; Schachsuwarly, 707.

Environmental Effects: Response to Stimuli.—Adolph, 13; Andrejewa, 30; Blanc, 64; Bruce, 88; Calkins, 101; Caullery, 119; Chalkley, 124; Chatton, 126; Darby, 192; Dembowski, 208 & 209; Dogiel, 220; Efimov, Necrassow & Efimova, 235; Eisenberg-Hamburg, 236; Fauré-Fremiet, etc., 250; Fedorova-Vinogradova, 253; Garnjobst, 288; Gemar, 291; Gran, 316; Halberstaedter & Luntz, 328; Hegner, 347; Höll, 367; Hutchinson & Ashton, 387; Jahn, 394; James, 395; Kahler, etc., 419; Kalmus, 420; Kamada, 423 & 424; Keining & Serefis, 428; Kessel, 431; Kienast, 434; Larson & Allen, 491; Levinson, 499; Ludwig, 516 & 517; Luntz, 519; MacDougall, 530; Mainx, 536; Mayeda & Date, 545; Mayne, 548; Mitchell, 564; Naumann, 577; Park, 610; Paulsen, 621; Petersen, 631; Port, 643; Pringsheim, 644; Rapoport, 648; Ratcliffe, 656 & 657; Richards, 677; Roskin, 685; Roskin & Dune, 686; Stepanowa, 768; Szabuniewicz, 783; Taliaferro 785; Threlkeld & Reynolds, 804; Tunnicliff, 814; Wetzel, 846; Zick, 875.

Effects of Reagents. — Acton & Chopra, 6; Adolph, 13; Aléxéieff, 18; Bishop, 62; Breindl, 77; Brinley, 81 & 82; Browning, etc., 87; Collier & Krause, 147 & 148; Deschiens, 210; Dobell & Bishop, 215; Dobrovolskaia - Zavadskaia & Koboseff, 216; Dogiel, 220; Dogiel, etc., 222; Enriques, 239; Emerson, 238; Feiler, 255 & 256; Gemar, 291; Giemsa, 303; Jírovec, 404; Johnson, 411; Katahira, 425; Klokaciova, 450; Larson & Allen, 491; Levaditi, etc., 498; Losina-Losinsky, 513; Ludwig, 517; Mainx, 536; Manwell, 539; Merton, 555; Milkovitch, 562; Morita & Chambers, 566; Nadler, 575; Philpott, 635; Przibram, 646; Rao, 647; Richet & Gley, 678; Robertson, 681; Schachsuwarly, 707; Shumway, 744; Strelnikov, 777; Sweeney, 781; Tunnicliff, 813 & 814; Winogradow, 848.

(**Immunity**—*vide* under Parasitism).

REPRODUCTION AND LIFE-CYCLE.

General.—Robertson, 680; Schweyer, 734.

Mycetozoa.—Hartmann, 337; Howard, 379.

Rhizopoda.—Aléxéieff, 18; Freeman, 273; Hartmann, 337; Jones, 415; K.[nowles], 454; Kofoid, 462; Schewiakoff, 711; Schussnig, 724.

Mastigophora.—Adler & Theodor, 9 & 12; Aléxéieff, 18; Andrew & Light, 31; Cunha & Muniz, 156; Duboscq & Grassé, 229; Galliard, 283; Hartmann, 337; Hoare, 366;

Jirovec, 406; Knowles, 456; Lindemann, 505; Macfie & Thomson, 532; Nigrelli, 588; Philiptschenko, 633 & 634; Razgha, 663; Regendanz, 668; Sautet, 706; Schwetz & Fornara, 732; Taylor, 793; Theodor, 801; Torres & Penna de Azeredo, 808 & 809.

Sporozoa.—Becker & Frye, 44; Boyd, 72; Brinkmann, 80; Caullery, 119; Ciuca, Ballif & Vieru, 142; Davis, 198; Debaisieux, 202; Gabriel, 281; Georgévitch, 293, 294, 295 & 298; Gingrigh, 306; Goodrich, 312; Hahn, 327; Hartman, 336; Hartmann, 337; Hasselmann, 339; Hegner, 350; Horning, 376; Iyengar, 393; Jepps, 402; Katahira, 425; King, 438 & 439; Lestoquard, 497; Naville, 580; Nigrelli, 587; O'Roke, 602; Row, 697 & 698; Scott, 735; Sette, 740; Skidmore, 758; Smirnowa & Simanine, 763; Smith, 765; Swellengrebel, etc., 782; Taliaferro, 785; Tyzzer, 815; Volkmar, 833.

Ciliophora.—Aléxéieff, 18; Chatton & Lwoff, A., 132; Chatton, Lwoff, M. & A., 134; Chatton, etc., 135; Ferber & Winogradowa, Fedorowa, 257; Garnjobst, 288; Hartmann, 337; Noble, 594; Richards, 677.

ETHOLOGY.

Bionomics: behaviour, habits.—Aléxéieff, 18; Bajkov, 41; Bogoyavlensky & Yampolskaya, 68; Bounhiol, 71; Braarud, Föyd & Gran, 73; Chatton, 126; Frye & Becker, 277; Girard, 307; Hegner, 347; Issel, 390; Krijgsman, 476; Luntz, 519; Muffel, 573; Paulsen, 621; Ratcliffe, 658; Silvestri, 749; Steinitz, 767; Wenrich, 840.

Habitats: Plankton.—Allen, 20, 22, 23 & 24; Allen & Lewis, 26; Bachmann, 39 & 40; Bajkov, 41; Behning, 52; Braarud, Föyd & Gran, 73; Brutschy, 91; Cilleuls, 140 & 141; Dannenberg, 191; Fish, 260; Föyd, 262; Fowler & Browne, 270; Gessner, 298; Gran, 316; Hada, 326; Issel, 390; Komai & Ikari, 469; Lakowitz, 488; Lewis, 501 & 502; Naumann, 577; Paulsen, 621; Pesta, 628; Peters, 630; Rapoport, 648; Schröder, 719.

Marine.—Abrard, 5; Alzamora, 28; Braarud, Föyd & Gran, 73; Brockmann, 83; Chatton, 126; Church, 139; Cushman, 176 & 178; Cushman & Leavitt, 185; Kofoid & Campbell, 464; Kol, 467; Navarro & Massuti, 578; Stipperger, 773.

Freshwater.—Behning, 51; Fadejew, 247; Harnisch, 334; Höll, 367; Kalmus, 422; Kofoid & Campbell, 464; Mauvais, 544; Pesta, 628; Rayment & Dower, 662; Stepanowa, 768; Tarnogradsky, 792.

Soil.—Fehér & Varga, 254; Rao, 647; Volz, 835; Wetzel, 846.

Sewage and Excreta (Coprozoa).—Agersborg, 14; Aléxéieff, 18; Ardern & Lockett, 36; Brodsky, 86; Frye & Becker, 277; Ghosh, 302.

Miscellaneous.—Aléxéieff, 18; Brodskii, 84; Cunningham, 159; Dumas, 230; Ghosh, 299; Girard, 307; Hurst, 386; Silvestri, 749; Tobler, 807; Wetzel, 846.

Symbiosis.—Becker, etc., 49; Duboscq & Grassé, 229; Janicki, 399; Pringsheim, 644; Taylor, 797; Winogradowa-Fedorowa & Winogradoff, 849.

Pseudoparasitism.—Breindl, 78; Jírovec, 406; Khouri, 433; Knowles, etc., 457; Mayne, 547.

Parasitism.—*Transmission, Infectivity*: Adler, 8; Adler & Theodor, 9, 10, 11 & 12; Aléxéieff & Gwélessiany, 19; Becker & Hsiung, 46; Becker & Schulz, 47; Belitzer & Markoff, 53; Bielitzer, 61; Bogoyavlensky & Yampolskaya, 68; Brinkmann, 80; Bruynoghe & Vassiliadis, 92 & 95; Campos, 105; Carpano, 112; Carter & Jacocks, 115; Chatton, 126; Daviault, 193; Debaisieux, 202; Graf, 314; Guercio, 322; Gwélessiany, 324; Harris & Freidrichs, 335; Hegner, 350; Hindle & Chow, 362; Hoare, 364 & 366; Huff, 385; Kabelik, 417; King, 439; Kligler, 444; Kligler & Comaroff, 445; Kligler & Liebman, 447; Knowles, 456; Kofoid, 462; Kolmakow, 468; Krijgsman, 478; Lépine, 495; Macfie & Thomson, 532; Mayne, 548 & 549; Mühlens, 572; Nieschulz, 582,

583, 584 & 585; Nikolaew & Yakowlewa, 592; Parrot, 615; Pérard, 623; Philiptschenko, 634; Rees, 664; Regendanz, 668; Schwartz, 725; Schwetz, etc., 730; Shortt, etc., 742; Simanin, 752 & 753; Simanine, 754; Smirnowa & Simanine, 763; Strickland, 778; T., 784; Talice, 791; Taylor, 793; Theodor, 801; Tyzzer, 815; Yakimoff & Rastegaïeff, 864; Young, 868; Young & Hertig, 869; Zozaya, 879. *Experimental Infection*: Adler & Theodor, 9 & 10; Bruynoghe & Vassiliadis, 92; Campos, 106; Cinca, Ballif & Vieru, 142; Coventry, 152; Curson, 162; Davis, 198; Espié & Faure, 244; Fonseca, 264 & 265; Galliard, 284; Gupta, 323; Harris & Freidrichs, 335; Hegner, 342, 343, 349 & 351; Keining & Serefis, 428; Kessel, 429 & 432; Levaditi, etc., 498; Light & Sanford, 504; Lwoff & Provost, 523; Mayer, 546; Nieschulz & Wawo-Roentoe, 586; Parrot, 612 & 613; Ratcliffe, 658; Rees, 664; Regendanz, 669; Schumaker, 722 & 723; Shortt, etc., 742; Steinfeld, 766; Theiler & Du Toit, 800; Theodor, 801; Wenyon & Hindle, 843; Young, Hertig & Lin, 871. "*Carriers*": Bishop & Bishop, 63; Brinkmann, 80; Causey, 121. *Effect upon host*: Andrews, 34; Becker, etc., 49; Becker & Everett, 43; Becker & Frye, 44; Becker & Schulz, 48; Bonnin & Jonchères, 70; Brinkmann, 79 & 80; Buchanan, 97; Campos, 106; Campos & Almeida, 107; Cash & Hu, 118; Caullery, 119; Chatton & Lwoff, A., 132; Coulon, 151; Curasson, 160; Davis, 198; Escomel, 242; Fiebiger & Kahls, 258; Fiveiskaja, 261; Gabriel, 281; Galliard, 282 & 284; Goodrich, 311; Graf, 314 & 315; Grassé & Boissezon, 317; Greenhill, 320; Gwéléssiany, 324; Haaland, 325; Harris & Freidrichs, 335; Hegner, 345 & 350; Helm, 357; Hiyeda, 363; Hoeppli, 368; James, S. P., 396; James, W. M., 397; Kessel, 432; Kikuth, 436 & 437; Kligler, 444; Kligler & Comaroff, 445; Kligler, etc., 446; Klotz, 452; Kofoid, 463; Krijgsman, 476; Lavier, 493; Lépine, 495; Levaditi, etc., 498; Linton, 506; Lloyd, 507; Locatelli, 511; Mayer, 546; Metelkin, 559; Meyer, 560; Motta, 567; Motta & Fonseca, 568; Nigrelli, 588; Parrot, 612; Pérard, 623; Rees, 664; Regendanz, 665, 666 & 667; Regendanz & Hoeppli, 671; Sautet, 705; Schern, 710; Sergent, etc., 738; Smith & Setchel, 764; Surbek, 779; Threlkeld & Reynolds, 804; Torres & Penna de Azevedo, 809; Warasi, 837; Young, 868; Young & Hertig, 870; Zotta & Radacovici, 877 & 878. *Immunity*: Adant, 7; Buss, 100; Cash & Hu, 117; Coventry, 152; Craig, 153; De Kock, 206; Faría, 249; Galliard, 282; Green, 319; Johnson, 408 & 409; Johnson & Lester, 410; Kligler & Comaroff, 445; Knowles & Gupta, 460; Krijgsman, 478; Levaditi, etc., 498; Manson-Bahr, 537; Parrot, 614; Pfannenstiel & Scharlau, 632; Philiptschenko, 634; Pritze, 645; Ray, 660; Reichenow, 672; Robinson, 682; Row, 697; Sarkar, 703; Schilling, 713; Schwartz, 725; Sergent, 736; Sicé, 746; Taliaferro, 786 & 787; Taliaferro & Taliaferro, 788 & 789; Taliaferro, etc., 790; Theodor, 801; Tyzzer, 815; Vaucel, 819; Yakimoff, 858; Young, 868. (*Protozoa in relation to disease—vide* under Economics).

Parasitism: Hosts.*—General: Escomel, 243; França, 271; Galli-Valerio, 285; Hoare, 365; Metcalf, 557.

Man: Cunha, 154; Kabelík, 417; Kofoid, 462 & 463; Michelson, 561; Steudel, 769; Ter-Matevosyants, 798.

Man, key-catalogue of protozoan parasites reported, Stiles & Nolan 771.

Man, cerebrospinal fluid of case of meningitis (Corsica).—*Encephalitozoon brumpti* sp. n. (Protozoa incertae sedis), Coulon, 151.

Other Mammalia: Breindl, 77; Dogiel & Fedorowa, 221; Ferber & Winogradowa-Fedorowa, 257; Kofoid, 462; Philiptschenko, 634;

* In order to render the host-list more useful for purposes of reference, the names of hosts in which new parasites have been recorded and of new hosts for known parasites are given in full, otherwise the arrangement remains unaltered.

SCHWARTZ, **725**; STEUDEL, **769**; YAKIMOFF & RASTEGAÏEFF, **864**; ZOZAYA, **879**.

Arvicola arvalis, blood (Europe).—*Eperythrozoon dispar* sp. n. (Protozoa incertae sedis), BRUYNOGHE & VASSILIADIS **92**.

Boselaphus tragocamelus, faeces, (Russia) (Zool. Gard.).—*Eimeria yakimovi* sp. n. (Sporozoa Coccidiida), RASTÉGAÏEFF **650**.

Canis lagopus, faeces (Murman Coast).—*Eimeria mesnili* sp. n. (Sporozoa Coccidiida), RASTÉGAÏEFF **652**.

Capra hircus mambrica, blood (Palestine).—*Trypanosoma* (sp. n.) (Mastigophora Protomonadida); transmitted by *Lipoptena caprina*, THEODOR **801**.

Cattle, intestine (U.S.A.).—*Eimeria ellipsoidalis* sp. n. (Sporozoa Coccidiida), BECKER & FRYE **44**.

Dog, blood (Germany).—*Bartonella canis* (Protozoa incertae sedis), KIKUTH **436**.

Donkey, intestine (Turkestan).—*Cycloposthium edentatum* form. n. *gigas* (Ciliata Oligotrichida), STRELKOW **776**.

Felis ocreata, blood (Sudan).—*Babesia felis* sp. n. (Sporozoa Haemosporidia), DAVIS **198**.

Felis tigris, faeces (Leningrad Zool. Gard.).—*Eimeria novowenyoni* sp. n. (Sporozoa Coccidiida), RASTÉGAÏEFF **651**.

Geomys bursarius (Pocket Gopher), intestine (U.S.A.).—*Eimeria geomydis* sp. n. (Sporozoa Coccidiida), SKIDMORE **758**.

Horse (*Equus caballus*), intestine (U.S.A.).—*Didesmis spiralis* sp. n. (Ciliata Holotrichida), HSIUNG **382**.—*Allantosoma dicorniger, brevi-corniger* spp. n. (Ciliophora Suctoria), HSIUNG **380**.—Large intestine (U.S.A.).—*Endamoeba*, 2 spp. (Rhizopoda Amoebida), *Callimastix equi* sp. n. (Mastigophora Protomonadida), HSIUNG **381**. Intestine (Russia).—*Polymorpha ampulla* gen. n., sp. n., *Blepharoprosthium musculus* sp. n., (Ciliata Holotrichida), DOGIEL **218**.—*Cycloposthium affine* sp. n., *C. dentiferum* form. n. *latidens* (Ciliata Oligotrichida), STRELKOW **776**.

Hystrix bengalensis (porcupine), intestine (India).—*Trichomonas* (sp. indet.) (Mastigophora Protomonadida), KNOWLES & GUPTA **459**.

Macacus rhesus, mouth (Europe).—*Trichomonas elongata* (Mastigophora Protomonadida), DESCHIENS & KIPCHIDZÉ **213**. Intestine (Brazil).—*Octomitus pitheci* sp. n. (Mastigophora Diplomonadida), CUNHA & MUNIZ **158**. Intestine (India).—*Balantidium rhesum* sp. n. (Ciliata Heterotrichida), GHOSH **300**.—*Chilodon rhesus* sp. n. (Ciliata Holotrichida), GHOSH **301**.

M. philippinensis, intestine and other organs (Philippine Islands).—*Endamoeba histolytica, E. coli, Endolimax nana, Iodamoeba bütschlii, Trichomonas, Chilomastix, Giardia*, HEGNER **352**.

M. spp., intestine (China).—*Entamoeba dysenteriae, E. coli, Endolimax nana, Iodamoeba bütschlii, Councilmania lafleuri, Giardia lamblia, Trichomonas hominis, Chilomastix mesnili, Embadomonas intestinalis*, KESSEL **432**.

Monkey (rhesus) (? *Silenus rhesus*), vagina (U.S.A.).—*Endolimax nana* (Rhizopoda Amoebida), HEGNER **348**.

Mus minutus, blood (Europe).—*Eperythrozoon dispar* sp. n. (Protozoa incertae sedis), BRUYNOGHE & VASSILIADIS **92**.

Papio sphinx, mouth (Europe).—*Trichomonas elongata* (Mastigophora Protomonatida), DESCHIENS & KIPCHIDZÉ **213**.

Pig (domestic), intestine (India).—*Tricercomonas suis* sp. n. (Mastigophora Protomonadida), KNOWLES & GUPTA **458**.

Primates, key-catalogue of protozoan parasites reported, STILES & NOLAN **771**.

Rabbit (domestic), intestine (U.S.A.).—*Eimeria media* sp. n. (Sporozoa Coccidiida), KESSEL **430**.

Aves: BRINKMANN, **79** & **80**; HAALAND, **325**; HARTMAN, **336**; HEGNER, **350**; KLOSTER, **451**; MACFIE & THOMSON, **532**.

Birds (chiefly poultry), parasitic protozoa and diseases produced by them, KRIJGSMAN, **475**.

Bycanistes sharpei duboisi (Hornbill), blood (Belgian Congo).—*Trypanosoma bycanistis* and *T. mega* (?) (Mastigophora Protomonadida), *Haemoproteus* sp., *Leucocytozoon* sp. (Sporozoa Haemoporidia), SCHWETZ & FORNARA, **731**.

Colinus virginianus virginianus, intestine (U.S.A.).—*Eimeria dispersa* sp. n. (var.) (Sporozoa Coccidiida), TYZZER, **815**.

Duck, intestine (U.S.A.).—*Endamoeba* sp. (Rhizopoda Amoebida), HEGNER, **343**.

Gallus domesticus, blood (Egypt).—*Aegyptianella pullorum* gen. n., sp. n. (Sporozoa Piroplasmidea), CARPANO, **112**.—*G. gallus* (domest. fowl), blood (Europe).—*Trypanopsis*-like flagellate *incert. sed.*), JÍROVEC, **403**.—Intestine (U.S.A.).—*Eimeria mitis, acervulina, maxima* spp. n. (Sporozoa Coccidiida), TYZZER, **815**.

Goose (*Anser* sp.), intestine (U.S.A.). *Trichomonas anseri* sp. n. (Mastigophora Protomonadida), *Endolimax* sp. (Rhizopoda Amoebida), HEGNER, **343**. Blood (Egypt).—*Aegyptianella pullorum* (sp. n.) (Sporozoa Piroplasmidea), CARPANO, **111**.

Guinea-fowl (*Numida* sp.), intestine (U.S.A.).—*Endamoeba* sp., *Endolimax* sp. (Rhizopoda Amoebida), HEGNER, **343**.

Guira guira, muscles (Uruguay).—*Sarcocystis corderoi* sp. n. (Sporozoa Sarcosporidia), VOGELSANG **830**.

Meleagris mexicana (*gallopavo*), intestine (U.S.A.).—*Eimeria meleagridis, meleagrimitis* spp. n. (Sporozoa Coccidiida), TYZZER, **815**.

Molothrus bonarensis, muscles (Uruguay).—*Sarcocystis debonei* sp. n. (Sporozoa Sarcosporidia), VOGELSANG **830**.

Passer domesticus, muscles (Uruguay).—*Sarcocystis corderoi* sp. n. (Sporozoa Sarcosporidia), VOGELSANG **830**.

Phasianus colchicus torquatus, intestine (U.S.A.).—*Eimeria phasiani, dispersa* spp. n. (Sporozoa Coccidiida), TYZZER, **815**.

Quail, Valley (*Ortyx* ?), intestine (U.S.A.).—*Trichomonas ortyxis* sp. n., *Tritrichomonas floridanae* sp. n. (Mastigophora Protomonadida), HEGNER, **343**.

Turdus pilaris, blood (N. Europe).—*Leucocytozoon français* sp. n. (Sporozoa Haemosporidia), NIKITIN, **590**.

Reptilia: BRAVO, **74**; TAYLOR, **793**.

Agama stellio, blood (Palestine).—*Leishmania* (Mastigophora Protomonadida), DAVID, **194**.

Ceramodactylus doriae, blood (Baghdad).—*Leishmania ceramodactyli* sp. n. (Mastigophora Protomonadida), ADLER & THEODOR, **12**.

Amphibia: BRAVO, **74**; METCALF, **556**; NIGRELLI, **588**.

Pelobates fuscus and *Rana esculenta* tadpoles (Russia), various ecto- and endoparasitic protozoa, ZASSOUKHIN, **873**.

Rana delalandii, intestine (S. Africa).—*Protoopalina meridionalis* sp. n. (Ciliophora Opalinata), FANTHAM & ROBERTSON, **248**.

Triturus viridescens, red blood cells (U.S.A.).—*Dactylosoma jahni* sp. n. (Sporozoa Haemosporidia), NIGRELLI, **587**.

Pisces: GEORGÉVITCH, **293** & **297**; NIKITIN, **590** & **591**; PINTO, **637**.

Acestrorhamphus sp., gall-bladder (Brazil).—*Myxidium gurgeli* sp. n. (Sporozoa Myxosporidia), PINTO, **638**.

Characinidae spp., blood (Brazil).—*Trypanosoma piavae* sp. n., *T. ferreirae* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ **266**.

Chetostomus sp., blood (Brazil).—*Trypanosoma chetostomi* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ **267**.

Clinocottus analis, gall bladder (California).—*Ceratomyxa obesa* sp. n. (Sporozoa Myxosporidia), JAMESON, **398**.

Cymatogaster aggregatus, gall bladder (California — *Myxidium oviforme* (Sporozoa Myxosporidia), JAMESON, **398**.

Damalichthys argyrosomus, gall bladder (California).—*Myxidium oviforme* (Sporozoa Myxosporidia), JAMESON, **398**.

Engraulis mordax, gall gladder (California).—*Sphaeromyxa reinhardti* sp. n. (Sporozoa Myxosporidia), JAMESON, **398**.

Esox lucius, blood (Russia).—*Bartonella nicollei* sp. n. (Prot. incertae sedis), YAKIMOFF, **854**.

Gadus callarias, blood (Arctic Ocean). —*Trypanosoma murmanensis* sp. n. (Mastigophora Protomonadida), NIKITIN, **590.**

Galeorhinus zygopterus, gall bladder (California). — *Chloromyxum ovatum* sp. n. (Sporozoa Myxosporidia), JAMESON **398.**

Gibbonsia evides, gall bladder (California).—*Ceratomyxa gracilis* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Hydrolagus colliei, gall bladder (California).—*Ceratomyxa fisheri* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Hypsurus caryi, gall bladder (California).—*Myxidium oviforme* (Sporozoa Myxosporidia), JAMESON, **398.**

Ictalurus punctatus, gills (U.S.A.).—*Henneguya exilis* sp. n. (Sporozoa Myxosporidia), KUDO **480.**

Leptocottus armatus, gall bladder (California).—*Ceratomyxa tenuis*, *C. crassa* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Loricaria sp., blood (Brazil).—*Trypanosoma loricariae* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

L. piracicaboe, blood (Brazil).—*Trypanosoma piracicaboe* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **267.**

Microstomus pacificus, gall bladder (California).—*Ceratomyxa hopkinsi* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Moxostoma breviceps, head (U.S.A.). —*Myxobolus conspicuus* sp. n. (Sporozoa Myxosporidia), KUDO, **480.**

Parophrys vetulus, gall bladder (California).—*Ceratomyxa hopkinsi* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Perca fluviatilis, blood (Russia).—*Grahamella ehrlichi* sp. n. (Protozoa inc. sed.), YAKIMOFF, **854.** Gills (Lake of Geneva).—*Myxobolus guyenoti* sp. n. (Myxosporidia), NAVILLE, **580.** Liver (Russia).—*Eimeria rivierei* sp. n. (Sporozoa Coccidiida), YAKIMOFF, **854.**

Phanerodon furcatus, gall bladder (California). — *Myxidium oviforme* (Sporozoa Myxosporidia), JAMESON, **398.**

Plecostomus blood sp., (Brazil).—*Trypanosoma plecostomi* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

P. albopunctatus, blood (Brazil).—*Trypanosoma albopunctatus* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

P. margaritifer, blood (Brazil).—*Trypanosoma margaritiferi* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

P. regani, blood (Brazil).—*Trypanosoma regani* sp. n. (Mastigophora Protomoandida), FONSECA & VAZ, **266.**

P. strigaticeps, blood (Brazil). *T. strigaticeps* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

Polistotrema stouti, gall bladder (California).—*Ceratomyxa californica*, *C. galeata* spp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Pomoxis sparoides, intestine (U.S.A.). —*Myxobolus intestinalis* sp. n. (Sporozoa Myxosporidia), KUDO, **480.**

Porichthys notatus, gall bladder (California).—*Ceratomyxa elegans* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Prochilodus sp., blood (Brazil).—*Trypanosoma larai* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **267.**

Pseudopimelodus zungaro, blood (Brazil).—*Trypanosoma zungaroi* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

Rhinodoras dorbigny, blood (Brazil). —*Trypanosoma dorbignyi* sp. n. (Mastigophora Protomonadida), FONSECA & VAZ, **266.**

Scomber japonicus, gall bladder (California).—*Ceratomyxa inconstans* sp. n. (Sporozoa Myxosporidia), JAMESON, **393.**

Sebastodes caurinus, gall bladder (California). — *Myxidium incurvatum* (Sporozoa Myxosporidia), JAMESON, **398.**

S. rosaceus, gall bladder (California). —*Ceratomyxa starksi* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Squalus sucklii, gall bladder (California).—*Chloromyxum ovatum* sp. n. (Sporozoa Myxosporidia), JAMESON, **398.**

Tetronrcea californica, gall bladder California).—*Chloromyxum leydigi*, *C. ovatum* sp. n. (Sporozoa Myxosporidia), JAMESON, **398**.

Tunicata: CAULLERY, **119**.

Insecta: BREINDL, **76**; DAVIAULT, **193**; DEBAISIEUX, **202**; GRASSÉ & BOISSEZON, **317**; HASSELMANN, **338**; STEUDEL, **769**; TALICE, **791**; TAYLOR, **793**.

Anopheles funestus, larva (India).—*Thelohania obscura* sp. n. (Sporozoa Microsporidia), KUDO, **481**.

A. hyrcanus, larvae (India).—*Thelohania indica* sp. n. (Sporozoa Microsporidia), KUDO, **481**.

A. varuna, *pseudojamesi*, *fuliginosus*, *barbirostris*, *hyrcanus*, *subpictus*, body-cavity (India). — *Thelohania* spp. (Sporozoa Microsporidia), IYENGAR, **393**.

Calotermes sp. (see also *Kalotermes*), intestine (Loyalty Is., S. Pacific).—*Devescovina pruvoti* sp. n. (Mastigophora Protomonadida), DUBOSCQ & GRASSÉ, **229**.

Coptotermes heimi, intestine (India).—*Devescovina damanensis*, *cometoides*, *kirbyi* spp. n. (Mastigophora Protomonadida), *Metastephanonympha perronciti* gen. n., sp. n. (Mastigophora Polymonadida), MELLO & BRITO, **551**, **552**, **553**.

Kalotermes spp. (see also *Calotermes*), intestine (Panama and Galapagos Islands).—*Coronympha clevelandi* gen. n., sp. n., *Snyderella tabogae* gen. n., sp. n. (Mastigophora Polymonadidae), KIRBY, **441**. *K.* (*Cryptotermes*) *dudleyi*, intestine (Centr. America). — *Proboscidiella kofoidi* sp. n. (Mastigophora Polymonadida), KIRBY, **440**.

Kalotermitinae (termites), list of, for which intestinal flagellates have been recorded, KIRBY, **440**.

Leucotermes indicola, intestine (India).—*Spirotrichonympha rotunda* sp. n., *S. leidyi* var. n. *leucotermitidis indicolae*, *Holomastigotoides* spp. (Mastigophora Hypermastigida), MELLO, **551**.

Lipoptena caprina (Palestine), intermediate host of *Trypanosoma* sp., from *Capra hircus mambrica*, THEODOR, **801**.

Mosquitoes, list of, infected with microsporidia, KUDO, **481**.

Notonecta viridis, intestine (Europe).—*Herpetomonas notonectae* sp. n. (Mastigophora Protomonadidida), POISSON, **639**.

Stenopelmatus spp. (cricket), intestine (California).—*Coccospora stenopelmati* gen. n., sp. n. (Sporozoa Gregarinida), SMITH, **765**.

Myriapoda: *Rhinocricus* sp., intestine (S. America).—*Polymastix nitdis*. sp. n. (Mastigophora Protomonadida) HASSELMANN, **340**.

Arachnida: *Dermanyssus gallinae* (England). Development of *Trypanosoma paddae* (?) of canary, MACFIE & THOMSON, **532**.

Crustacea: GEORGÉVITCH, **297**.

Gammarus pulex, cast-off moult (England).—*Physophaga sappheira* gen. n., sp. n. (Ciliata Hototrichida), PERCY, **624**.

Echinodermata: LYNCH, **529**.

Cucumaria saxicola, "respiratory trees" (English Channel).—*Lithocystis cucumariae* sp. n. (Sporozoa Gregarinida), GOODRICH, **312**.

Strongylocentrotus purpuratus, intestine (California).—*Entorhipidium* gen. n. *echini*, *tenue*, *pilatum*, *multimicronucleatum* spp. n. (Ciliata Holotrichida), LYNCH, **529**.

Mollusca: *Loligo* sp., kidney (Sea of Japan).—*Chromidina elegans* (Ciliata Holotrichida), WERMEL, **845**.

Gephyrea: *Phascolosoma margaritaceum*, intestine (Arctic Ocean).—*Perseia dogieli* gen. n., sp. n. (Ciliata Holotrichida), ROSSOLIMO, **693**.

Annelida: COGNETTI DE MARTIIS, **145**.

Ammotrypane aulogaster, intestine (Arctic Ocean).—*Bütschliella nasuta* sp. n. (Ciliata Holotrichida), ROSSOLIMO, **693**.

Aricia sp., intestine (France).—*Siedleckia dogieli*, *S. mesnili* spp. n. (Sporozoa Gregarinida), CHATTON & DEHORNE, **130**.

Enchitraeidae (spp. indet.), intestine (Arctic ocean).—*Radiophrya gracilis* sp. n., *Anoplophrya paradoxa* sp. n. (Ciliata Holotrichida) ROSSOLIMO **693**.

Lumbricidae (sp. indet.), intestine, Arctic Ocean.—*Anoplophrya complanata* sp. n. (Ciliata Holotrichida), Rossolimo, **693**.

Lumbriculus variegatus, intestine (Russia).—*Protoradiophrya armata* gen. n., sp. n. (Ciliata Holotrichida), Rossolimo & Perzewa, **696**.

Oligochaeta, list of hosts and their monocystid parasites (Sporozoa Gregarinida), Bhatia, **60**.

Ophelia limacina, intestine (Arctic Ocean).—*Bütschliella nasuta* sp. n. (Ciliata Holotrichida), Rossolimo, **693**.

Pectinaria hyperborea, intestine (Arctic Ocean).—*Anoplophrya pectinariae* sp. n. (Ciliata Holotrichida), Rossolimo, **693**.

Rhyacodrilus coccineus, vesicula seminalis (Bohemia).—*Urospora rhyacodrili* sp. n. (Sporozoa Gregarinida), Gabriel, **281**.

Coelenterata: Schroeder, **720**.

Protozoa: Peshkowskaya, **627**.

Monas vulgaris and *Dimastigamoeba gruberi*, parasitized by *Sphaerita*, Aléxéieff, **18**.

Paramaecium caudatum, macronucleus, bacterial infection, Fiveiskaja, **261**.

Plantae: *Araujia sericifera* (Asclepiadacea), latex (S. Africa).—*Herpetomonas* [*Phytomonas*] *elmassiani* (Mastigophora Protomonadida), Fantham & Robertson, **248**.

Euphorbia uralensis, latex (Russia).—*Leptomonas davidi* (Mastigophora Protomonadida), Joff, **407**.

Vaucheria piloboloides, stalk and sexual organs (Rovigno Istria).—*Pseudospora rovignensis* sp. n. (Rhizopoda Heliozoa), Schussnig, **724**.

VARIATION, PHYLOGENY.

Heredity, Variation.—Abrard, **3**; Brinkmann, **80**; Chatton, **126**; Fritsch, **276**; Hartmann, **337**; Higgins, **361**; Jennings, **401**; Korshikov & Anachin, **472**; Kušev, **482**; MacDougall, **530**; Przibram, **646**; Reitler, **675**; Umbgrove, **816**; Vlerk, **828**.

Abnormalities. — Garnjobst, **288**; Lavier, **492**; MacDougall, **530**; Villain, **826**.

Phylogeny, Classification.—Abe, **1**; Abrard, **3**; Adler & Theodor, **12**; Astre, **37**; Cushman, **168**, **173**, **175** & **176**; Cushman & Alexander, **181**; Cushman & Leavitt, **185**; Dogiel, **219**; Dumas, **230**; Dunkerly, **231**; Franke, **272**; Georgévitch, **297**; Gordienko, **313**; Hall & Jahn, **332**; Harlton, **333**; Hofker, **369**; Kofoid & Campbell, **464**; Lavier, **493**; Metcalf, **556** & **557**; Ozawa, **604**; Pascher, **617**; Rossolimo, **694**; Schouenkova & Demina, **718**; Schröder, **719**; Silvestri, **750** & **751**; Theodor, **801**; Umbgrove, **816**; Vaughan, **820**; Zavattari, **874**.

DISTRIBUTION.

America*: BAJKOV, 41; BECKER & FRYE, 44; CARMAN, 109; COLE, 146; CUSHMAN, 166, 167, 170, 171 & 174; CUSHMAN & ALEXANDER, 181; CUSHMAN & THOMAS, 187; CUSHMAN & WATERS, 188; SCHENCK, 709; SKIDMORE, 758; SMITH, 765; WEINZIERL & APPLIN, 839. *West Indies*: CUSHMAN & JARVIS, 183; MOLENGRAAFF, 565; RUTTEN, 701; SANDON & CUTLER, 702; TRECHMANN, 811; VAUGHAN, 821 & 823. *S. America*: BELTRAN, 54; BERRY, 56, 57 & 58; BRAVO, 74; CHACÓN, 123; CUNHA, 154; CUNHA & MUNIZ, 158; CUSHMAN, 167, 172 & 175; ESCOMEL, 243; GALLOWAY & MORREY, 286; GEOGHEGAN, 292; HASSELMANN, 338 & 340; LABERNADIE & MARNEFFE, 483; PINTO, 637; RUTTEN, 700; VAUGHAN, 821 & 822; VOGELSANG, 830; WHITE, 847. *Australia and Polynesia*: CHAPMAN & PARR, 125; COGNETTI DI MARTIIS, 145; CUSHMAN, 179; RAYMENT & DOWER, 662. *Arctic*: FØYD, 262; NIKITIN, 590. *Antarctic*: GRAN, 316; PETERS, 630. *Atlantic*: ALLEN, 21 & 25; CUSHMAN, 165; HERON-ALLEN & EARLAND, 359. *Pacific*: ALLEN, 22, 23 & 24; ALLEN & LEWIS, 26; CHURCH, 139; CUSHMAN, 163 & 180; CUSHMAN & KELLETT, 184; CUSHMAN & WICKERDEN, 189; DORMAN, 224 & 225; HADA, 326; KOFOID & CAMPBELL, 464; KOMAI & IKARI, 469; LEWIS, 501; MARSHALL, 540; SLEGGS, 762.

Geological.—*General*: GOLDRING, 309; HOJNOS, 370; METCALF, 557; PÁL, 607; VLERK, 828; VOITESTI, 832, *Tertiary and Post-Tertiary*: ABRARD, 4; ANDERSON, 29; BERRY, 55, 56, 58 & 59; BÖCKH & VIENNOT, 66; CARBONELL, 108; CHAPMAN & PARR, 125; CIZANCOURT, 143; COLE, 146; COMERCI, 149; CUSHMAN, 167, 169, 170, 171, 174, 175 & 178.; CUSHMAN & LEAVITT, 185; DAVIS, 196; DOUVILLE, 226; FRIEDBERG, 275; GALLOWAY & MORREY, 286; HORUSITZKY, 378; HUCKE, 383; JEDLITSCHKA, 400; LLUECA, 510; MARSHALL, 540; MARTINOTTI, 542; MOLENGRAAFF, 565; MUSPER, 574; NANGERONI, 576; OZAWA, 604; RUTTEN, 700 & 701; SCHENCK, 709; SILVESTRI, 748 & 750; SINGLETON, 755; TESCH, 799; UMBGROVE, 816 & 817; VAUGHAN, 821, 823 & 825; VLERK, 827; WEINZIERL & APPLIN, 839; WHITE, 847; YABE & HANZUWU, 851; ZWIERZYCKI, 880. *Secondary*: CARMAN, 109; COTTER, 150; CUSHMAN, 166 & 172; CUSHMAN & ALEXANDER, 181; CUSHMAN & CHURCH, 182; CUSHMAN & WATERS, 188; UNECA, 509; PARÉJAS, 609; RIJSINGE, 679; VAUGHAN, 822; ZWIERZYCKI, 880. *Primary*: DAVID, 195; KLÄHN, 442; LÉVY, 500; NEAVERSON, 581; OZAWA, 605; OZAWA & TOBLER, 606; SKEATS, 757.

III.—SYSTEMATIC.

PROTOZOA, GENERAL.

Protozoa, intestinal, of monkeys, list and description, KESSEL 432.

Protozoa, parasitic, in blood of various animals, Murman Coast, NIKITIN 590.

Protozoa, parasitic, reported for primates (including man), key-catalogue, STILES & HASSAL, 771.

Protozoa, various, parasitic, Switzerland, GALLI-VALERIO 285.

1.—MYCETOZOA.

[Vacant.]

2.—RHIZOPODA.

(a) Amœbida.

Amoeba zymogenica sp. n., ALÉXÉIEFF Arch. zool. expér. et gén 68 pp. 609–698 figs.

Councilmania lafleuri Kofoid and Swezy, 1921, validity of species maintained, referred to genus *Endamoeba* (q.v.).

Endamoeba Leidy, 1879, substituted for *Entamoeba* (q.v.).—*E. lafleuri* nom. n. for *Councilmania lafleuri*, FREEMAN J. Parasit. 16 pp. 1–12 figs.; *E.* sp. from guinea-fowl; *E.* sp. from duck, HEGNER 343.—*E.* 2 spp. (n.?) from horse, U.S.A., HSIUNG 381.

Endolimax gregariniformis **nom. n.** for *Pygolimax gregariniformis* Tyzzer, 1920, and *E. janisae* Hegner, 1926, parasitic in domestic fowl, HEGNER **343**.—*Endolimax* sp., intestine of guinea-fowl; *E.* sp., intestine of goose, HEGNER **343**.

Entamoeba 1895, with *blattae* as type by subsequent designation (1912), absolute synonym of *Endamoeba* Leidy, 1879, and invalidates *Entamoeba* 1895, type by subsequent (1913) designation *hominis* = *coli*, STILES **770**.

(b) Testacea.

Arcella, physiology of, BLES **65**.

Arcella subhemispherica, subconica, singaporensis, triangularis **spp. n.** from Pitcher plants, GHOSH J. Malayan Br. Asiatic Soc. **6** 1928 pp. 1–27.

Centropyxis aërophila, orbicularis, hirsuta, gibba, minuta, Penardi, Kahli, eurystoma, aplanata, **spp. n.**—*C. aculeata* varr. *tropica, grandis, oblonga* **varr. n.**—*C. marsupiformis* var. *obesa* **var. n.**—*C. platystoma* var. *armata* **var. n.**—*C. aerophila* varr. *sylvatica, sphagnicola* **varr. n.**, DEFLANDRE Arch. Protistenk. **67** pp. 322–375 figs.

Cystidina **gen. n.** *arcula* (Leidy) **nom. n.** for *Difflugia arcula*, from soil, Leipzig, VOLZ Arch. Protistenk. **68** pp. 34–406 figs.

Difflugia suburceolata, singaporensis **spp. n.**, GHOSH J. Malayan Br. Asiatic Soc. **6** pp. 1–27.

Euglypha triacantus **sp. n.** from Peru, ESCOMEL Obras. Cient. Lima **1** pp. 367–418.

Pyridicula [*Pyxidicula* ?] *klossi* **sp. n.** from Pitcher plants, GHOSH J. Malayan Br. Asiatic Soc. **6** pp. 1–27.

Thecamoeba exapartirta **sp. n.** from Peru, ESCOMEL. Obras. Cient. Lima **1** pp. 367–418.

Thecamoebae of the soil, list of species found near Leipzig, with description, VOLZ **835**.

(c) Foraminifera.

Foraminifera, with new forms, from brackish wells of the Turkestan desert, BRODSKY **85**.

Foraminifera, new forms, from South Atlantic, HERON-ALLEN & EARLAND. **358** & **359**.

Foraminifera from rivers flowing into Lake Elton, S.E. Russia, KRAPIN, **473**.

†*Actinosiphon* **gen. n.** *semmesi* **sp. n.** Tertiary Mexico, VAUGHAN J. Paleont. **3** pp. 163–166.

†*Ammobaculites taylorensis* **sp. n.** from Texas, Cretaceous, CUSHMAN & WATERS, Contr. Cushman Lab. Foraminif. **5** pp. 63–66 figs.

A. rostratus **sp. n.** South Atlantic, HERON-ALLEN & EARLAND, J.R. Micr. Soc. **49** pp. 324–334 figs.

†*Amphisorus matleyi* **sp. n.** Tertiary Jamaica, VAUGHAN J. Paleont. **3** pp. 373–382 figs.

Angulogerina carinata **sp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 plates.

†*Anomalina costiana* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410.—†*A. mataensis* **sp. n.** from Ecuador Tertiary, GALLOWAY & MORREY Bull. Amer. Paleont. **15** 55 pp. 1–44 figs.—*A. schmitti* **sp. n.**, off Juan Fernandez island, CUSHMAN & WICKENDEN Proc. U. S. Nat. Mus. **75** p. 14 3 figs.

†*Asterigerina bracheata* **sp. n.** from U.S.A. Oligocene, CUSHMAN Contr. Cushman Lab. Foraminif. **5** 1929 pp. 40–48 figs.

Asterigina dollfussi **sp. n.**, CUSHMAN Bull. Soc. Sci. Seine et Oise **9** pp. 47–57 plates.

†*Astrorhiza cretacea* **sp. n.** from Germany, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.

Bathysiphon arenacea, fusca **spp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.

†*Bifarina nodosaria* **sp. n.** Mexico, WHITE J. Paleont. **3** pp. 30–57 figs.

Bigenerina delicatula **sp. n.**, off Peru, CUSHMAN & KELLETT, Proc. U. S. Nat. Mus. **75** p. 3 2 figs.

Biloculina elongata **var.** *turkomanica* **var. n.**, *B. turkomanica* **sp. n.**, Turkestan, BRODSKY Acta Univ. Asiae. Med. **1928** pp. 1–16 figs. [BRODSKII] Nature **123** p. 543.

Bolivina doniezi, subexcavata **spp. n.**, off Juan Fernandez island, CUSHMAN & WICKENDEN Proc. U. S. Nat. Mus. **75** p. 9 2 figs.—†*B. mantaensis, tongi* **spp. n.** from Venezuela Tertiary, CUSHMAN Contr. Cushman Lab. Foraminif. **5** 1929 pp. 77–101 figs.—†*B. pisciformis* **sp. n.** from Ecuador Tertiary, GALLOWAY & MORREY Bull. Amer. Paleont. **15** 55 pp. 1–44 figs.—†*B. primatumida* **sp. n.** Mexico, WHITE J. Paleont. **3** pp. 30–57 figs.

†*Bolivinella australis, margaritacea, virgata, subpectinata* **spp. n.**; *B. folia* var. *ornata* **var. n.**, CUSHMAN Contr. Cushman Lab. Foraminif. **5** pp. 28–34 figs.

†*Borelis matleyi, jamaicensis* **spp. n.**; *B. jamaicensis* var. *truncata* **var. n.** Tertiary Jamaica, VAUGHAN J. Paleont. **3** pp. 373–382 figs.

Bulima patagonica var. *glabra* **var. n.** off Juan Fernandez Isl., CUSHMAN & WICKENDEN Proc. U. S. Nat. Mus. **75** pp. 8–9 2 figs.

†*Bulimina bradyi* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410 figs.—†*B. limbata, mendezensis* **spp. n.** Mexico, WHITE J. Paleont. **3** pp. 30–57 figs.—†*B. parva, trilobata* **spp. n.** from Germany, FRANKE Abh. preuss geol. LdAnst. **3** pp. 1–207 figs.—*B. spinifera, barbata, pagoda* **spp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.

†*Buliminella basistriata* **sp. n.** from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.—†*B. obtusata* **sp. n.** from U.S.A. Oligocene, CUSHMAN Contr. Cushman Lab. Foraminif. **5** 1929 pp. 40–48 figs.—*B. subfusiformis* var. *tenuata* **var. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.

†*Camerina matleyi* **sp. n.** Tertiary Jamaica, VAUGHAN J. Paleont. **3** pp. 373–382 figs.

†*Capitellina spinosa* **sp. n.**, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.

Cassidulina delicata **sp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 plates.—†*C. spinifera* **sp. n.** from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.—*C. subglobosa* var. *ornata* **var. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 plates.

†*Ceratobulimina evoluta* **sp. n.** from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.

†*Chrysolagonium cretaceum* **sp. n.** Cretaceous California, CUSHMAN & CHURCH Proc. Calif. Acad. Sci. (4) 18 p. 513 2 figs.

†*Cibicides deusseni* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp 384–410.—†*C. dohertyi* **sp. n.** from Ecuador Tertiary, GALLOWAY & MORREY Bull. Amer. Paleont. **15** 55 pp. 1–44 figs.

Clavulina communis var. *pallida* **var. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.—†*C. curta* **sp. n.** from Ecuador Tertiary, GALLOWAY & MORREY Bull. Amer. Paleont. **15** 55 pp. 1–44 figs.—†*C. bramlettei* **sp. n.** from Venezuela Tertiary, CUSHMAN Contr. Cushman Lab. Foraminif. **5**. 1929 pp. 77–101 figs.

†*Cristellaria paucicostulata* **sp. n.** Tertiary Australia, CHAPMAN & PARR J. Linn. Soc. **36** 1926 pp. 373–399 figs.

†*Cycloloculina jarvisi* **sp. n.** from Trinidad Eocene, CUSHMAN Contr. Cushman Lab. Foraminif. **5** pp. 4–5 figs.

†*Daucina multicostata* **sp. n.** from Ecuador Tertiary, GALLOWAY & MORREY Bull. Amer. Paleont. **15** 55 pp. 1–44 figs.

†*Dentalina tenuissima, westfalica* **spp. n.** in Germany, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.

Diffusilina papillata **sp. n.** South Atlantic, HERON-ALLEN & EARLAND J. R. Micr. Soc. **49** pp. 324–334 figs.

†*Discocyclina californica* **sp. n.** Tertiary California, SCHENCK Trans. San Diego Soc. Nat. Hist. **5** pp. 211–240 figs.—†*D. cloptoni, cushmani, palenquersis, perpusilla, stephensoni, weaveri* **spp. n.**, *weaveri* **var. n.** *parvipapillata, zaragosensis* **sp. n.**, Eocene, Mexico, VAUGHAN Proc. U. S. Nat. Mus. **76** pp. 1–18 figs.

Discorbis chiliensis **sp. n.** off Chile, CUSHMAN & KELLETT Proc. U. S. Na t Mus. **75** pp. 9–10 3 figs.—*D. douvillei* **sp. n.**, CUSHMAN Bull. Soc. Sci. Seine-et-Oise **9** pp. 47–57 plates.—*D. kempii*

sp. n., South Atlantic, HERON-ALLEN & EARLAND J. R. Micr. Soc. **49** pp. 324–334 figs.—†*D. yeguaensis* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410.

Ehrenbergina compressa **sp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 plates.—*E. crassa* **sp. n.**, South Atlantic, HERON-ALLEN & CARLAND J. R. Micr. Soc. **49** pp. 324–334 figs.

Elphidium schmitti **sp. n.**, off Juan Fernandez island, CUSHMAN & WICKENDEN Proc. U. S. Nat. Mus. **75** pp. 7–8 **3** figs.

†*Eponides guayabalensis* var. *yeguaensis* **var. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410.—*E. meridionalis* **sp. n.**, off Chile, CUSHMAN & KELLETT Proc. U. S. Nat. Mus. **75** pp. 11–12 2 figs.

†*Flabellina schackoi* **sp. n.** from Germany, HUCKE & VOIGT Z. deuts. geol. Ges. **81** pp. 159–168 figs.

†*Frankeina* **gen. n.** *goodlandensis* **sp. n.** from Texas, Cretaceous, CUSHMAN & ALEXANDER Contr. Cushman Lab. Foraminif. **5** pp. 61–62 figs.—†*F. taylorensis* **sp. n.** from Texas, Cretaceous, CUSHMAN & WATERS Contr. Cushman Lab. Foraminif. **5** pp. 63–66 figs.

Frondicularia gigas **sp. n.** Marine, shallow water form, CHURCH J. Paleont. **3** pp. 302–305 figs.—†*F. linearis* **sp. n.** from Germany, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.

†*Gaudryina chapmani* **sp. n.** from Germany, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.—†*G. disjuncta* **sp. n.**, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.

Globigerina cristata **sp. n.** South Atlantic, HERON-ALLEN & EARLAND J. R. Micr. Soc. **49** pp. 324–334 figs.—†*G. subdigitata* **sp. n.** from Wyoming U.S.A. Cretaceous, CARMAN J. Paleont. **3** pp. 309–315 figs.—†*G. yeguaensis* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410.

†*Globorotalia lehneri* **sp. n.** from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.

†*Glomerina* **gen. n.** *globigerinoides* **sp. n.** from Germany, FRANKE Abh. preuss. geol. LdAnst. **3** pp. 1–207 figs.

†*Gümbelina ultimatumida* **sp. n.** Mexico, WHITE J. Paleont. **3** pp. 30–57 figs.

†*Guttulina yabei* **sp. n.** from Japan, CUSHMAN & OZAWA Japan J. Geol. Geogr. **6** pp. 63–78 figs.

†*Gypsina peruviana* **sp. n.** Eocene, Peru. BERRY J. Wash. Acad. Sci. **19** pp. 235–240 figs

†*Gyroidina quadrata* **sp. n.** Cretaceous California, CUSHMAN & CHURCH Proc. Calif. Acad. Sci. (4) **18** p. 516 3 figs.

†*Haplophragmium taylorensis* **sp. n.** from Texas Cretaceous, CUSHMAN & WATERS Contr. Cushman Lab. Foraminif. **5** pp. 63–66 figs.

Haplophragmoides planissima, tenuis **spp. n.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.

†*Hautkenina dumblei* **sp. n.** U.S.A. Tertiary, WEINZIERL & APPLIN J. Paleont. **3** pp. 384–410 figs.—†*H. lehneri* **sp. n.**—*H. alabamensis* var. *primitiva* **var. n.**, from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.

†*Heterostegina* **sp. (nov.?)** Tertiary, Philippines, YABE & HANZAWA Sci. Reg. Tohoku Univ. **11** pp. 186–7 7 figs.

Kalamopsis (?) *californica* **n. sp.**, CUSHMAN Bull. Scripps Inst. Oceanogr. Tech. Ser. **1** pp. 119–188 figs.

†*Kyphopyxa* **gen. n.** from Texas, Cretaceous. *Frondicularia christneri* Carsey-Genoholotype, CUSHMAN Contr. Cushman Lab. Foraminif. **5** 1929 pp. 1–4 figs.

†*Lagena angelina* **sp. n.** from California, Pliocene, CUSHMAN Contr. Cushman Lab. Foraminif. **5** pp. 67–72 figs.—†*L. asperoides* **sp. n.** from Ecuador, Tertiary, GALLOWAY & MORREY Bull Amer. Paleont. **15** 55 pp. 1–44 figs.—†*L. byramensis* **sp. n.** from U.S.A., Oligocene, CUSHMAN Contr. Cushman Lab. Foraminif. **5** 1929 pp. 40–48 figs.—†*L. lacuno-costata, pulcherrima* **spp. n.** from Trinidad, CUSHMAN & JARVIS Contr. Cushman Lab. Foraminif. **5** pp. 6–17 figs.

Lepidocyclina, subgenera and species, diagnostic tables, VLERK Wettenschap. Mededeelingen no. 8 pp. 7–88 figs.

†*Lepidocyclina foveolata, amoentai* **spp. n.**, *L. formosa* var. *sella* **var. n.**, *L. marginata* var. *pulcherrima* **var. n.** Tertiary from Borneo, COMERCI Bol. Soc geol ital. **47** pp. 127–148 figs.—†*L.* (*Polylepidina*) *gardnerae* **sp. n.** from U.S.A., COLE Bull. Amer. Paleont. **15** 56 pp. 1–10 figs.—†*L. Munieri* var. *orientalis* **var. n.** *L. sumatrensis* **var.** *eulepidinacea* **var. n.** Tertiary Java, VLERK Wettenschap. Mededeelingen no. 1 1924 pp. 16–35 figs.—†*L. Rutténii* **sp. n.** Tertiary Java, VLERK Wettenschap. Mededeelingen no. 1 1924 pp. 16–35 figs.—†*L.* (*Nephrolepidina*) *sordaica* **nom. n.** for *L.* (*N.*) *verbeeki* Tertiary Philippines, YABE & HANZAWA Sci. Rep. Tohoku Univ. **11** p. 172 3 figs.—†*L. verdunensis, diminuta, aspera, chica, tosca, meunda, fragosa, escabrosa, insignificante, escatimada, redonda, orbicular, desiertensis, pacifica, poca, ligera, bravoi, circular, ecasa, parva, gruesa, nelsoni, mediana, yermensis, despobladensis, esferica, boweni, mezquina, haughti, wilberi, redroja, obtusa, lissoni, pozoensis, aucha, roscheni, hopkinsi, embotada, enana, paloma, evertii, woodringi, guppyana, delgada, diabloensis, quebrada, discoida, delicada, basta, aceite, pidgeoni, fina, boggsi, tenu, trenada, espesa, pellejuda, rara, collinsi, sutil, flaca, thompsoni, doble, descarnada, pestana, inca, borde, vargasi,* **spp. n.**, *L. descarnada* var. *pequeña* **var. n.** N.W. Peru, BERRY Johns Hopkins Univ. Stud. Geol. **9** pp. 1–166 figs.

†*Lituola taylorensis* **sp. n.** from Texas, Cretaceous. CUSHMAN & WATERS Contr. Cushman Lab. Foraminif. **5** pp. 63–66 figs.

Sphaerocollida, classification, SCHRÖDER **719**.

3. MASTIGOPHORA.

A. PHYTOMASTIGINA.

(a) Chrysomonadina.

Amphichrysis **gen. n.** *compressa* **sp. n.** KORSHIKOV Arch. Protistenk. **67** 1929 pp. 253–290 4 plates 1 text-fig.

Carteria sinica **sp. n.**, SKVORTZOW Arch. Protistenk. **66** pp. 160–163 figs.

Chromulina sphaeridia, vestita, Scherffelii, conica **spp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

Chrysidalis **gen. n.** *peritaphrena* **sp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

Chrysomonads, studies on, KORSHIKOV Arch. Protistenk. **67** 1929 pp. 253–290 4 plates 1 text-fig.

Didymochrysis paradoxa **gen. n., sp. n.**, Germany, PASCHER Arch. Protistenk. **68** pp. 261–304 figs.

Kephyriopsis lata, Ruttneri **spp. n.**, SCHILLER Arch. Protistenk. **66** 436–458 figs.

Mallomonas herrida **sp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

Pedinopera Nadsonii **sp. n.**, SKVORTZOW Arch. Protistenk. **66** pp. 160–163 figs.

Pseudokephyrion acutum, pulcherrimum, pilidium, conicum **spp. n.**, SCHILLER Arch. Protistenk. **66** 436–458 figs.

Pteromonas angulosa varr. *elongata, obtusa, incurva* **varr. n.**; *P. cornuta, korshikoffi* **spp. n.**, SKVORTZOW Arch. Protistenk. **66** pp. 160–163 figs.

Synochromonas **gen. n.** *pallida* **sp. n.**, KORSHIKOV Arch. Protistenk. **67** 1929 pp. 253–290 4 plates 1 text-fig.

Synuropsis **gen. n.** *danubiensis, globosa,* **sp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

Uroglena conradii **sp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

Volvochrysis **gen. n.** *xantha, globosa, polyochla,* **spp. n.**, SCHILLER Arch. Protistenk. **66** 436–458 figs.

(b) Cryptomonadina.

Chilomonas acuta **sp. n.**, SCHILLER Arch. Protistenk. **66** pp. 436–458 figs.

(c) Dinoflagellata.

Gonyaulax claudus, japonicus **spp. n.**, MARUKAWA Japan J. Zool. **2** p. (23).

Gyrodinium nivale **sp. n.**, Germany, LINDEMANN Arch. Protistenk. **68** pp. 1–104 figs.

Ornithocercus fimbriatus **sp. n.**, MARUKAWA Japan J. Zool. **2** p. (23).

Peridinium okamurai **sp. n.**, MARUKAWA Japan J. Zool. **2** p. (23).

Prorocentrum arcuatum **sp. n.**, ISSEL Arch. Zool. Torino **12** pp. 273–292 figs.

(d) Euglenoidida.

Astasia skadowskii **sp. n.**, Moscow, KORSHIKOV Arch. Russes Prot. **7** pp. 151–158 figs.

Lepocynclis ovum var. *cylindrica* **var. n.**, Moscow, Korshikov Arch. Russ. Prot. **7** pp. 151–158 figs.

Menoidium costatum **sp. n.**, Moscow, Korshikov Arch. Russ. Prot. **7** pp. 151–158 figs.

Peranema furcata **sp. n.**, Skvortzow Arch. Hydrobiol. Plankt. **20**; p. 322 figs.

Petalomonas sinica, triquetra **spp. n.**, Skvortzow Arch. Hydrobiol. Plankt. **20** p. 322 figs.

Phacus abrupta **sp. n.** Moscow, Korshikov Arch. Russ. Prot. **7** pp. 151–158 figs.

(e) Phytomonadida.

Chlamydobotrys gracilis var. *elongata* **var. n.**, Korshikov & Anachin Arch. Russes Protist. **7** pp. 145–150 figs.

Chlamydomonas completa, subradiata, lobata, skujae, **spp. n.**, Pascher Arch. Protistenk. **65** pp. 426–464 figs.—*C. subglobosa, paludosa, phazeolus, pulchra, manshurica, Shawi, Fritschii, stagnalis,* **spp. n.**, Skvortzow Arch. Protistenk. **66** pp. 160–163 figs.

Sphaerellopsis lateralis **sp. n.**, Pascher Arch. Protistenk. **65** pp. 426–464 figs.

B. ZOOMASTIGINA.

(f) Protomonadida.

Bodo (indet.) in blood of human malarial cases, Breindl **78.**—*Bodo urinarius* (= *B. caudatus*), found in human urine, Michelson **561.**

Callimastix equi **sp. n.** from large intestine of horse, U.S.A., Hsiung J. Parasit. **16** p. 99.

Costia vide *Ichthyobodo.*

Crithidia from *Phlebotomus minutus* var. *africanus* (Northern Nigeria), possibly developmental forms of *Trypanosoma varani*, Taylor **793.**

Devescovina damanensis, cometoides, kirbyi **spp. n.** from *Coptotermes heimi*, India, Mello & Brito Arg. Esc. Med.-Cir. N. Goa (A) **5** pp. 693–706 figs.—*D. Pruvoti* **sp. n.** from intestine of *Calotermes*, Duboscq & Grassé Arch. Zool. éxpér. et gén. **68** pp. 8–15 figs.

Enteromonas hominis, identity with *Tricercomonas intestinalis* (q.v.).

Herpetomonas elmassiani new race, from *Araujia sericifera* (Asclepiadacea), S. Africa, Fantham & Robertson **248.**—*H. notonectae* **sp. n.** from intestine of *Notonecta viridis*, Poisson Bull. biol. France Belge **61** pp. 375–381 fig.

Ichthyobodo **nom. n.** for *Costia* Leclerq, 1890, preoccupied (*Costia* Kirchner, 1867 = hymenopterous insect), Pinto **637.**

Leishmania, cultivated from blood of *Agama stellio*, Palestine, David **194.**—*L. ceramodactyli* **sp. n.**, from a gecko, *Ceramodactylus doriae*, Baghdad, Adler & Theodor Trans. Soc. Trop. Med. Hyg. **22** pp. 343–356 figs.—*L. tropica*, first recognized as a protozoon by Borovsky (1898), Pavlovsky **622.**

Leptomonas davidi, from *Euphorbia uralensis*, Saratov, Russia, Joff **407.**

Polymastix nitidus **sp. n.**, from gut of *Rhinocricus* sp., Hasselmann Bol. Inst. Bras. Sci. Rio **3** 1928 pp. 40–46 figs.

Rigidomastix **gen. n.** *coprocola* **sp. n.**, Aléxéieff Arch. zool. exper. et gen. **68** pp. 609–698 figs.

Tricercomonas hominis **nom. n.** for *T. intestinalis*, which is identical with *Enteromonas hominis*, Schourenkova & Demina **718.**—*T. suis* **sp. n.**, from domestic pig, India, Knowles & Gupta Ind. J. Med. Res. **16** pp. 647–652 figs.

Trichomonas, new (sp. indet.), from Indian porcupine (*Hystrix bengalensis*), Knowles & Gupta **459.**—*T. anseri* **sp. n.**, from intestine of goose, U.S.A.; *T. ortyxis* **sp. n.**, from intestine of Valley Quail, U.S.A., Hegner Amer. J. Hyg. **10** pp. 33–62 figs.

Trypanosoma (sp. n. ?), from goat, *Capra hircus mambrica*, Palestine, transmitted by *Lipoptena caprina*, Theodor Z. Parasitenk. 1928 pp. 283–330 figs.—*T. chetostomi* **sp. n.**, from fish, *Chetostomus* sp. Brazil.; *T. larai* **sp. n.**, from fish, *Prochilodus* sp. Brazil; *T. piracicaboe* **sp. n.**, from fish, *Loricaria piracicaboe*, Brazil, Fonseca & Vaz Bol. biol. Lab. Parasit. S. Paulo **15** pp. 36–41 figs.—*T. bliccae* **sp. n.**, from fish, *Blicca bjoerkna*, Volga; *T. luciopercae* **sp. n.**, from *Lucioperca volgensis*, Volga, Nikitin Arb. Biol. Wolga. Stat. **10** pp. 137–148.—*T. criceti*, transmission to hamster through dog-flea, Regendanz **668.**—*T. murmanensis* **sp.**

n., from *Gadus callarias* Arctic ocean, NIKITIN Russ. J. Trop. Med. **7** pp. 350–356.—*T. paddae* (?), from the canary, *Serinus canarius* development in mite, *Dermanyssus gallinae*, MACFIE & THOMSON **532**.—*T. zungaroi* **sp. n.**, from *Pseudopimelodus zungaro; loricariae* **sp. n.**, from *Loricaria* sp.; *piavae* **sp. n.**, from *Characinidae* sp.; *ferreirae* **sp. n.**, from *Characinidae* sp.; *strigaticeps* **sp. n.**, from *Plecostomus strigaticeps; margaritiferi* **sp. n.**, from *Plecostomus margaritifer; plecostomi* **sp. n.**, from *Plecostomus* sp.; *albopunctatus* **sp. n.**, from *P. albopunctatus; regani* **sp. n.**, from *P. regani; dorbignyi* **sp. n.**, from *Rhinodoras dorbigny*, Brazil, FONSECA & VAZ Ann. Fac. Med. S. Paulo **3** pp. 69–94.—*T. varani*, suggested development in *Phlebotomus*, N. Nigeria, TAYLOR **793**.—*T. grayi*, correct name for *T. kochi* from the crocodile; transmission by *Glossina palpalis* described, HOARE **366**.—*T. kochi*, a synonym of *T. grayi* (q.v.).

(g) Hypermastigida.

Holomastigotoides annandalei **nom. n.** for *Leidya annandalei* Mello, 1918 (pro parte), *H. hartmanni* **var. n.** *indica* **nom. n.** for *Leidya kempi* Mello, 1918 (pro parte), *H. campanula* **nom. n.** for *Leidya campanula, H. koidzumii* **sp. n.**, *H. metchnikowi* **nom. n.** for *Leidya metchnikowi* Mello, 1918 (pro parte), *H. kempi* **nom. n.** for *Leidya kempi* (pro parte), *H. gigas* **sp. n.**, **nom. n.** for *Leidya metchnikowi* (pro parte), from *Leucotermes indicola*, India, MELLO Trans. Far East. Ass. Trop. Med. **2** pp. 582–598 figs.

Octomitus pitheci **sp. n.**, from the intestine of *Macacus rhesus*, Brazil, CUNHA & MUNIZ Suppl. Mem. Inst. O. Cruz **5** pp. 34–37 figs.

Spirotric[h]onympha leidyi **var. n.** *leucotermitidis indicolae, S. rotunda* **sp. n.**, from *Leucotermes indicola*, India, MELLO Trans. Far East. Ass. Trop. Med. **2** pp. 582–598 figs.

(h) Diplomonadida.

[Vacant.]

(i) Polymonadida.

Coronympha clevelandi **gen. n., sp. n.**, from the intestine of *Kalotermes* spp., Panama and Galapagos Islands, KIRBY Univ. Calif. Pub. Zoo. **31** pp. 417–432 figs.

Metastephanonympha perronciti **gen. n., sp. n.**, from *Coptotermes heimi*, India MELLO & BRITO Arq. Esc. Med.-Cir. N. Goa (A) **5** pp. 707–711 figs., C.R. Soc. Biol. **101** pp. 394–397 fig.

Oxymonadidae **fam. n.** (Polymastigida), with genera *Microrhopalodina, Oxymonas, Proboscidiella*, KIRBY **440**.

Proboscidiella kofoidi **sp. n.**, from intestine of *Kalotermes* (*Cryptotermes*) *dudleyi*, Centr. America, KIRBY Q. J. M. Sc. **74** pp. 355–386 figs.

Snyderella tabogae **gen. n., sp. n.**, from the intestine of *Kalotermes longicollis*, Panama, KIRBY Univ. Calif. Pub. Zoo. **31** pp. 417–432 figs.

FLAGELLATA INCERTAE SEDIS.

Trypanopsis-like flagellate from blood of domestic fowl, JÍROVEC **406**.

4. SPOROZOA.

A. COCCIDIOMORPHA.

(a) Gregarinida.

Gregarines, monocystid, parasitic in oligochaete worms, complete list. BHATIA **60**.

Coccospora stenopelmati **gen. n., sp. n.**, from the intestine of a cricket, *Stenopelmatus* spp., California, SMITH Univ. Calif. Pub. Zoo. **33** pp. 57–68 figs.

"Gregarine," described by Lankester (Zool. Anz. **4** 1881 p. 250) from the eggs of *Thalassema neptuni*, identified as a coccidian, MACKINNON & ROY **533**.

Grenoblia **gen. n.** *legeri* **sp. n.**, from intestine of *Hydrophilus* sp., HASSELMANN Bol. Inst. bras. Sci. Rio. **3** 1927 pp. 26–30 figs.

Leidyana ephestiae **sp. n.** parasitic in *Ephestia* sp., DAVIAULT Bull. Soc. zool. Fr. **54** pp. 271–275 figs.

Lithocystis cucumariae **sp. n.**, from the "respiratory trees" of *Cucumaria saxicola*, England, GOODRICH Q. J. Micro. Sci. **73** pp. 275–287 figs.

Urospora rhyacodrili **sp. n.**, from vesicula seminalis of worm, *Rhyacodrilus coccineus*, Bohemia, GABRIEL Arch. Protistenk. **67** pp. 46–109 figs.

(b) **Coccidiida.**

Albertisella **gen. n.** *crater* **sp. n.**, from Annelid, New Guinea, COGNETTI DE MARTIIS Boll. Mus. Zool. Anat. Comp. Genova **6** pp. 17–26 figs.

Beccaricystis **gen. n.** *loriai* **sp. n.**, from Annelid, New Guinea, COGNETTI DE MARTIIS Boll. Mus. Zool. Anat. Comp. Genova **6** pp. 17–26 figs.

Coccidian, from the eggs of *Thalassema neptuni* identical with Lankester's "Gregarine" (q.v.).

Eimeria, placed in official list of generic names, STILES **770.**

Eimeria ellipsoidalis **sp. n.**, from cattle, U.S.A., BECKER & FRYE J. Parasit. **15** pp. 175–177 figs.—*E. geomydis* **sp. n.**, from the Pocket Gopher (*Geomys bursarius*), U.S.A., SKIDMORE J. Parasit. **15** pp. 183–184 figs.—*E. media* **sp. n.**, from intestine of rabbit, also diagnosis of other spp. from rabbit (*E. stiedae, magna, perforans*), KESSEL J. Parasit. **16** p. 100.—*E. mesnili* **sp. n.**, from faeces of arctic fox (*Canis lagopus*), Murman Coast, RASTÉGAÏEFF Bull. Soc. Path. Exot. **22** p. 640.—*E. mitis, acervulina, maxima* **spp. n.**, from domestic fowl, U.S.A.; *E. meleagridis, meleagrimitis* **spp. n.**, from turkey, U.S.A.; *E. phasiani, dispersa* **spp. n.**, from pheasant, U.S.A.; *E. dispersa* **var. n.** (?) from quail, U.S.A., TYZZER Amer. J. Hyg. **10** pp. 269–383 figs.—*E. novowenyoni* **sp. n.**, from faeces of tiger, Leningrad (Zool. Gard.), RASTÉGAÏEFF Bull. Soc. Path. Exot. **22** p. 640.—*E. rivierei* **sp. n.**, from liver of perch, *Perca fluviatilis*, YAKIMOFF Arch. Protist. **67** pp. 501–508 figs., Russ. J. Trop. Med. **7** pp. 536–540 figs. *E. yakimovi* **sp. n.**, from nylghai (*Boselaphus tragocamelus*), Petrograd (Zool. Gard.), RASTÉGAÏEFF Bull. Soc. Path. Exot. **22** pp. 69–70.—*Siedleckia dogieli, mesnili* **spp. n.** from intestine of annelid, *Aricia*, CHATTON & DEHORNE Bull. Soc Zool. Fr. **54** pp. 28–33.

(c) **Haemosporidia.**

Aegyptianella **gen. n.** *pullorum* **sp. n.** (Piroplasmidea) from the blood of Egyptian fowl, CARPANO Clin. Vet. **72** pp. 339–351 figs

Babesia felis **sp. n.**, from *Felis ocreata*, Sudan, DAVIS Trans. Soc. Trop. Med. Hyg. **22** pp. 523–534 figs.

Dactylosoma jahni **sp. n.**, from the blood of newt (*Triturus viridescens*), NIGRELLI J. Parasit. **16** p. 102.

Françaiella **nom. n.** for *Piroplasma tarandi rangiferis* Kerzelli, 1909, from reindeer, YAKIMOFF & KOLMAKOFF **863.**—*F. colchica*, transmission by *Boophilus annulatus calcaretus*, Caucasus, YAKIMOFF & RASTÉGAÏEFF **864.**

Laverania placed in official list of generic names, STILES **770.**

Leucocytozoon anatis, asexual cycle of development, HARTMAN **336.**—*L. françai* **sp. n.**, from *Turdus pilaris*, Murman coast, NIKITIN Russ. J. Trop. Med. **7** pp. 350–356.

Plasmodium placed in official list of generic names, STILES **770.**—*Plasmodium malariae*, new variety described, REITLER **675.**

Theileria recondita **nom. n.** for *Gonderia ovis* (*T. ovis* preoccupied), LESTOQUARD **497.**

B. CNIDOSPORIDIA.

(d) **Myxosporidia.**

Myxosporidia from Californian fishes, JAMESON **398.**

Myxosporidia from South American fishes, PINTO **637.**

Ceratomyxa californica, galeata **spp. n.**, from *Polistotrema stouti* (fish); *C. fisheri* **sp. n.**, from *Hydrolagus colliei*; *C. gracilis* **sp. n.**, from *Gibbonsia evides*; *C. inconstans* **sp. n.**, from *Scomber japonicus*; *C. starksi* **sp. n.**, from *Sebastodes rosaceus*; *C. elegans* **sp. n.**, from *Porichthys notatus*; *C. obesa* **sp. n.**, from *Clinocottus analis*; *C. crassa* **sp. n.**, from *Leptocottus armatus*; *C. hopkinsi* **sp. n.**, from *Parophrys vetulus* and *Microstomus pacificus*; California, JAMESON J. Parasit. **16** pp. 59–68 figs. —*C. maenae* **sp. n.**, gall-bladder of fish, *Maena vulgaris*, Mediterranean, GEORGÉVITCH Arch. Protistenk. **65** pp. 106–123 figs.

Chloromyxum ovatum **sp. n.**, from Californian fishes (*Squalus sucklii, Galeorhinus zygopterus, Tetronarce californica*), JAMESON J. Parasit. **16** pp. 59–68 figs.

Henneguya exilis **sp. n.**, from gills of fish, *Ictalurus punctatus*, U.S.A., KUDO Arch. Protistenk. **65** pp. 364–378 figs.

Myxidium gurgeli **sp. n.**, from Brazilian fish, *Acestrorhamphus* sp., PINTO Sci. Med. **6** pp. 86–87 figs.

Myxobolus conspicuus **sp. n.**, from head of fish, *Moxostoma breviceps; M. intestinalis* **sp. n.**, from intestine of fish, *Pomoxis sparoides*, U.S.A., KUDO Arch. Protist. **65** pp. 364–378 figs.—*M. guyénoti* **sp. n.**, from the gills of perch, *Perca fluviatilis*, Lake of Geneva, NAVILLE Z. Zellforsch. **7** pp. 228–256 figs.

Sphaeromyxa reinhardti **sp. n.**, from Californian fish (*Engraulis mordax*), JAMESON J. Parasit. **16** pp. 59–68 figs.

(e) Microsporidia.

Microsporidia of mosquitoes, list, KUDO **481.**

Thelohania chironomi **sp. n.**, from intestine of *Chironomus* larvae, DEBAISIEUX Cellule Louvain **38** pp. 389–450 figs.—*T. indica* **sp. n.**, from larvae of *Anopheles hyrcanus*, *T. obscura* **sp. n.**, from larva of *A. funestus*, India, KUDO Arch. Protistenk. **67** pp. 1–10 figs.

(f) Actinomyxidia.

[Vacant.]

(g) Sarcosporidia.

Sarcocystis placed in official list of generic names, STILES **770.**

Sarcocystis corderoi **sp. n.**, from birds, *Passer domesticus* and *Guira guira*, Uruguay; *S. debonei* **sp. n.**, from bird, *Molothrus bonarensis*, Uruguay, VOGELSANG Zbl. Bakt. **113** figs.

(h) Haplosporidia.

[Vacant.]

SPOROZOA INCERTAE SEDIS.

Sporozoon resembling coccidium, schizogony in liver and heart-blood of guinea-pig, LEDENTU, SICÉ & VAUCEL **494.**

5. CILIOPHORA.

A. OPALINATA.

Opalinidae, affinities and phylogeny, METCALF **556.**

Protoopalina meridionalis **sp. n.**, from intestine of *Rana delalandii*, S. Africa, FANTHAM & ROBERTSON S. Afr. J. Sci **25** pp. 351–358.

B. CILIATA.

(a) Holotrichida.

Actinobolus vorax **sp. n.**, Pennsylvania, U.S.A., WENRICH Biol. Bull. **56** pp. 390–401 figs.

Anophrys maggii Cattaneo, 1888, suggested identity with *A. sarcophaga* Cohn, 1866, POISSON **640.**

Anoplophrya pectinariae **sp. n.**, from intestine of *Pectinaria hyperborea; A. paradoxa* **sp. n.**, intestine of Enchitraeidae; *A. complanata* **sp. n.**, from intestine of Lumbricidae, Arctic Ocean, ROSSOLIMO Ber. Wiss. Meeresinst. **3** pp. 83–95 figs.

Blepharocoridae **fam. n.** (for *Blepharocorys* and *Charon*), HSIUNG **381.**

Blepharoprosthium musculus **sp. n.**, from intestine of horse, Russia, DOGIEL Arch. Protistenk. **68** pp. 319–348 fig.

Bütschliella nasuta **sp. n.**, from intestine of *Ophelia limacina* and *Ammotrypane aulogaster*, Arctic Ocean, ROSSOLIMO Ber. Wiss. Meeresinst. **3** pp. 83–95 figs.

Buetschliidae **fam. n.**, HSIUNG **381.**

Caudalina bangalorensis, armata, **spp. n.**, from Mysore soil, RAO J. Indian Institute of Science **11A** 1928 pp. 111–119 figs.

Chilodon rhesus **sp. n.**, from intestine of *Macacus rhesus*, Bengal, GHOSH J. R. Micro. Soc. **49** pp. 15–16 fig.

Chromidina elegans, morphology, absence of mouth noted; transferred to Astomata, WERMEL **845.**

Didesmis spiralis **sp. n.**, from intestine of horse, HSIUNG Trans. Amer. Micr Soc. **48** pp. 209–213 pl.

Entorhipidium gen. n. echini, tenue, pilatum, multimicronucleatum spp. n., from intestine of sea-urchin, *Strongylocentrotus purpuratus*, California, LYNCH Univ. Calif. Pub. Zoo. **33** pp. 27–56 figs.

Paradileptus **gen. n.** *conicus, robustus* **spp. n.**, WENRICH Trans. Amer. Micr. Soc. **48** pp. 352–365 figs.

Paraisotrichidae **fam. n.**, HSIUNG **381.**

Perseia **gen. n.** *dogieli* **sp. n.**, from intestine of *Phascolosoma margaritaceum*, Arctic Ocean, Rossolimo Ber. wiss. Meeresinst. **3** pp. 83–95 figs.

Physophaga **gen. n.** *sappheira* **sp. n.** (Foettingeriidae), first record of freshwater form in the family, from the moult of *Gammarus pulex*, England, Percy Q. J. Micr. Sc. **73** pp. 107–120 figs.

Polymorpha **gen. n.** *ampulla* **sp. n.**, from intestine of horse, Russia, Dogiel Arch. Protistenk. **68** pp. 319–348 fig.

Protoradiophrya **gen. n.** *armata* **sp. n.**, from intestine of annelid worm, *Lumbriculus variegatus*, Rossolimo & Perzowa Arch. Protistenk **67** pp. 237–252 figs.

Radiophrya gracilis **sp. n** from intestine of Enchitracidae, Arctic Ocean, Rossolimo Ber. Wiss. Meeresinst. **3** pp. 83–95 figs.

Stokesia **gen. n.** *vernalis* **sp. n.**, Wenrich Trans. Amer. Micr. Soc. Menasha **48** pp. 221–241 figs.

Triloba **gen. n.** *paradoxa* **sp. n.** from river Moskva, Russia, Mudrezowa-Wyss Arch. Protistenk. **68** pp. 422–426 figs.

Turchinella **gen. n.** *culicis* **sp. n.** parasitic in haemocoele of *Culex*, Grassé & Boissezon Bull. Soc. zool. Fr. **54** pp. 187–191 figs.

Uroleptus halseyi **sp. n.** freshwater, U.S.A., Calkins Biol. Bull. **57** pp. 59–68 figs.

(b) Heterotrichida.

Heterotricha, mitochondria in, Horning **374.**

Acanthostomella conicoides, elongata, lata, minutissima, obtusa **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 fig.

Albatrossiella **gen. n.** (Tintinnidae) with type *A. filigera* (Laackm.), *agassizi* **sp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Amphorella calida, infundibulum **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Amphorellineae **subfam. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Amphorellopsis **gen. n.** (Tintinnidae) with type *A. acuta* (Schmidt), *acantharus, laevis, quadrangula, tropica, turbinea* **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Amplectella **gen. n.** (Tintinnoinea) with type *A. collaria* (Brandt); *A. ampla, occidentalis, praeacuta, quadricollaria* **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Amplectellopsis **gen. n.** (Tintinnoinea) with type *A. biedermanni* **sp. n.**, *angularis* **sp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Balantidium rhesum **sp. n.** from *Macacus rhesus*, Bengal, Ghosh J. R. Micro. Soc. **49** p. 14 fig.

Brandtiella **gen. n.** (Tintinnidae) with type *B. palliata* (Brandt), Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Bursalinus **gen. n.** *synspiralis* **sp. n.** (between Bursarinae and Stentorinae), from brackish water, Istria. Kalmus Arch. Protistenk. **68** pp. 609–612 fig.

Bursaopsis **gen. n.** (*Tintinnidae*) with type *B. striata* (Daday), Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Bursaria, placed in official list of generic names, Stiles **770.**

Bursariidae **fam. n.**, Hsiung **381.**

Canthariella **gen. n.** (Tintinnidae) with type *C. brevis* **sp. n.**, *septinaria, truncata* **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Climacocylis digitula, elongata, scalaroides **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Codonella acuta, acutula, angusta, apicata, aspera, australis, benguelensis, cuspidata, dadayi, diomedae, elongata, inflata, lata, mucronata, olla, pacifica, poculum, rapa, recta, robusta, saccus, tropica **spp. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Codonellopsidae **fam. n.**, Kofoid & Campbell Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Codonellopsis americana, californiensis, contracta, cordata, globosa, indica, inflata, lata, longa, meridionalis, obconica, parva, robusta, speciosa, tropica, turbinella, turgescens, turgida **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Coxliella **nom. n.** for *Cochliella* Jörg. 1924, *cymatiocoides, declivis* **spp. n.**; *meunieri* **nom. n.** for *Amphorella cochleata* (Meunier); *pelagica* **sp. n.**, KOFOID & CAMBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Coxliellidae **fam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Craterella **gen. n.** (Tintinnoinea) with type *C. urceolata* Ostenfeld; *C. acuta, armilla, protuberans* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Craterellineae **subfam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Cricundella **gen. n.** (Tintinnoinea) with type *C. tridivisa* (Brandt), *quadricincta, quadridivisa* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Cymatocylis affinoides **nom. n.** for *C. vanhöffeni* ff. *affinis, cylindrica* Laackm. p.p.; *calyx, contracta* **spp. n.**; *crassa* **nom. n.** for *C. cristallina* f. *conica* Laackm. p.p.; *culcullus* **nom. n.** for *cristallina* f. *cylindrica* Laackm. p.p.; *cylindrella* **nom. n.** for *flava* f. *cylindrica*; *cylindroides* **nom. n.** for *calyciformis* f. *cylindrica*; *cylindrus* **nom. n.** for *drygalskii* f. *cylindrica*; *digitabulum, digitulus, diminuta, ecaudata, everta, glans, subconica, ventricosoides* **spp. n.**; *folliculus* **nom. n.** for *nobilis* f. *subrotundata*; *gaussi* **nom. n.** for *affinis* f. *ventricosa*; *incondita* **nom. n.** for *cristallina* f. *simplex*; *labiosa* **nom. n.** for *cristallina* f. *ventricosa*; *meridiana* **nom. n.** for *drygalskii* f. *ventricosa*; *scyphus* **nom. n.** for *affinis* f. *cylindrica*; *situla* **nom. n.** for *drygalskii* f. *conica*; *tubulosa* **nom. n.** for *drygalskii* f. *subrotundata*, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Cyttarocylidae **fam. n.**, Cytarocylineae **subfam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Cyttarocylis acutiformis, brandti, longa, mucronata, obtusa, recta **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Dadayiella **gen. n.** (Tintinnidae) with type *D. ganymedes* (Entz, Sr.), *curta, cuspis, jörgenseni* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Daturella **gen. n.** (Tintinnidae) with type *D. datura* (Brandt), *angusta, gaussi, magna, ora, recta, stramonium, striata* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Dictyocysta ampla, californiensis, extensa, fenestrata, inaequalis, lata, magna, mexicana, nidulus, occidentalis, pacifica, polygonata, reticulata, spinosa **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Epicancella **subgen. n.** see *Epiplocylis*.

Epicranella **gen. n.** (Tintinnidae) with type *E. prismatica* **sp. n.**, *bella* **sp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Epiplocylis with *Epiplocylis* **subgen. n.** for type *E. acuminata* (Daday) Jörgensen and *Epicancella* **subgen. n.** for type *E. nervosa* (Cleve) Jörg.; *E. acuta, atlantica, brandti, constricta, curta, deflexa, exigua, exquisita, healdi, impensa, inconspicuata, inflata, labiosa, lata, lineata, obtusa, pacifica* **spp. n.**; *laackmanni* **nom. n.** for *Ptychocylis acuminata*, KOFOID & CAMPBELL Univ Calif. Pub. Zoo. **34** pp. 1–403 figs.

Favella attingata **sp. n.**, *brevis* **nom. n.** for *Cyttarocylis ehrenbergi* var. *claparedi* f. *curta*; *confessa, franciscana, infundibulum, meunieri, panamensis* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Favellineae **subfam. n.**; KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Laackmanniella **gen. n.** (Tintinnoinea) (**nom. n.** for *Codonella* and *Leprotintinnus* Laackmann, pp.) with spp. *naviculaefera, prolongata*, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Metacylineae **subfam n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Metacylis conica, corbula, lucasensis, mereschkowskii **spp. n.**, *rossica* **nom. n.** for *Tintinnus mediterraneus* var. *longa; vitreoides* **nom. n.** for *Amphorella vitrea*, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Odontophorella **gen. n.** (Tintinnidae) with type *O. serrulata* **sp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Ormosella **gen. n.** (Tintinnidae) with type *O. cornucopia* **nom. n.** for *Tintinnus conicus* Brandt; *O. apsteini, bresslaui, haeckeli, schmidti, schweyeri* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Parafavella **gen. n.** (Tintinnoinea) (**nom. n.** for *Tintinnus, Cyttarocylis, Favella*, p.p.), *curvata* **nom. n.** for *Cyttarocylis denticulata* var. β *cylindrica* f. *edentata; digitalis* **nom. n.** for *C. d.* var. γ *subrotundata* f. *edentata; greenlandica, inflata, subula* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Parundella acuta, attenuata, clavus, difficilis, gigantea, grandis, humerosa, inflata, invaginata, lagena, praetenuis, spinosa **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Petalotricha foli, indica, pacifica, serrata **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Petalotrichidae **fam. n.**, Petalotrichineae **subfam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Poroecus annulatus, apicatus, curtus **spp. n.**, *brandti* **nom. n.** for *Cyttarocylis cylindrica* (Brandt), KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Proplectella **gen. n.** (Tintinnoinea) with type *P. claparedei* (Entz, Sr.), *amphora, biangulata, cuspidata, ellipsoida, ostenfeldi, parva, perpusilla, praelonga, subangulata, tenuis, tumida, urna* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Protobalantidium **gen. n.** *coli, gracile, coligiganteum, orchestia, suis, minutum, italicum, oratum. testudino, cavise, depressum, ranarum, blattarum, knowlesii, littorinae, entozoon, elongatum*, **spp. n.**, ABE Japan J. zool. Tokyo **2** p. (89).

Protocymatocylis **gen. n.** (Tintinnoinea) (**nom. n.** for *Cymatocylis* and *Cyttarocylis* Laackmann, p.p.), *conicoides* **nom. n.** for *Cymatocylis vanhöffeni* f. *conica* (Laackm.), *vas* **sp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Protorhabdonella mira **sp. n.**, *striatura* **nom. n.** for *Cyttarocylis striata* f. α *elongata*, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Ptychocylidae **fam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Ptychocylis ostenfeldi, wailesi **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Rhabdonella aberrans, chiliensis, conica, cornucopia, exilis, inflata, lohmanni, quantula, torta **spp. n.**; *brandti* **nom. n.** for *Ptychocylis* (*Rhabdonella*) *amor* **var. n.** *cupsidata*, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Rhabdonellidae **fam. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Rhabdonellopsis **gen. n.** (Tintinnoinea) with type *R. apophysata* (Cleve), *R. intermedia, longicaulis, minima* **spp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Rhabdosella **subgen. n.** see *Salpingella*.

Salpingacantha **gen. n.** (Tintinnidae) with type *S. undata* (Jörg.), *ampla, crenulata, exilis, perca* **spp. n.**, *simplex* **nom. n.** for *Tintinnus undatus* Laackm., KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Salpingella with *S.* **subgen. n.** for type *S. acuminata* (Clap. & Lach.) and *Rhabdosella* **subgen. n.** for type *S. octogenata* **sp. n.**, *cuneolata, alata, curta, expansa, faurei, gracilis, jugosa, minutissima, ricta, rotundata, subconica* **spp. n.**, *laackmanni* **nom. n.** for *Tintinnus acuminatoides* var. *secata* Laackm., KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Steenstrupiella **gen. n.** (Tintinnidae) with type *S. steenstrupii* (Clap. & Lachm), *entzii* **nom. n.** for *Tintinnus steenstrupi* Brandt p.p.; *S. robusta* **sp. n.**, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Stelidiella **gen .n.** (Tintinnidae) with type *S. stelidium* (Biedelmann), *fenestrata, phialia, simplex,* **spp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Stelidiellineae **subfam. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Stenosemella inflata **sp. n.**; *pacifica* **nom. n.** for *Tintinnopsis punctata* f. *minor* (Wailes), KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Tintinnididae **fam. n.,** Tintinninae **subfam. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Tintinnoinea **suborb. n.,** description of marine and fresh-water forms, with new spp. from East. Tropic. Pacific ocean, KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Tintinnopsis amphora **nom. n.** for *T. lobiancoi* (Entz, p.p. ?), *brasiliensis* **sp. n.**; *coronata* **nom. n.** for *davidoffi* var. *cylindrica* f. *annulata* (Wailes), *cylindrata* **nom. n.** for *cylindrica* (*Daday*), *denticulata, ecaudata, fennica* **spp. n.**; *everta* **nom. n.** for *baltica* var. *rotundata* (Laackmann); *gracilis* **sp. n.**; *levigata* **nom. n.** for *davidoffi* var. *laevis* (Wailes); *meunieri* **nom. n.** for *acuta* (Meunier); *mulctrella, orientalis, panamensis, pistillum* **spp. n.**; *spiralis* **nom. n.** for *cylindrica* (Meunier); *tocatinensis, turgida, wailesi* **spp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Tintinnus apertus, attenuatus, birictus, brandti, colligatus, medius, mirabilis, pacificus, perminutus, pinguis, procurrerens, rugosus, stramentus, tenue, tubiformis, turgescens, turris **spp. n.,** *pectinis* **nom. n.** for *T. serratus* Kof., KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Undella bulla, californiensis, declivis, dilatata, hyalinella, ostenfeldi, parva, peruana, pistillum, pusilla, turgida **spp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Undellicricus **subgen. n.** see *Undellopsis.*

Undellidae **fam. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Undellopsis **gen. n., subgen. n.** (Tintinnoinea) with type *U. marsupialis* (Brandt) and *Undellicricus* **subgen. n.** with type *U. bicollaria* **sp. n.**; *U. cubitum, entzi, insignata, lineata, pacifica, anularius, umbilicata* **spp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Xystonella minuscula **sp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

Xystonellidae **fam. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403.

Xystonellopsis abbreviata, acuminata, clevei, conicacauda, constricta, crassispinosa, cycles, epigrus, heroica, inaequalis, laticincta, mascarensis, pinnata, **spp. n.,** KOFOID & CAMPBELL Univ. Calif. Pub. Zoo. **34** pp. 1–403 figs.

(c) Oligotrichida.

Cycloposthiidae **fam. n.,** HSIUNG **381.**

Cycloposthium, morphology of spp., STRELKOV **774.**—*C. affine* **sp. n.,** *C. dentiferum* **form. n.** *latidens,* from intestine of horse, Russia; *C. edentatum* **form. n.** *giyas,* from intestine of donkey, Turkestan, STRELKOW Zool. Anz. **83** pp. 63–70 figs.

Laboea cornucopiae **sp. n.,** WAILES Ann. Protist. Paris **2** pp. 125–126 fig.

Octocirridae **gen. n.** *spheratus* **sp. n.** from Mysore soil, RAO J. Indian Institute Science **17A** pp. 111–119 figs.

(d) Hypotrichida.

Euplotes taylori **sp. n.,** GARNJOBST Physiol. Zool. **1** pp. 561–575.

Gonostomum andoi **sp. n.,** SHIBUYA Proc. Imp. Acad. Tokyo **5** pp. 155–156 figs.

Oxytricha bimembranata **sp. n.,** SHIBUYA Proc. Imp. Acad. Tokyo **5** pp. 155 figs.

Uronychia uncinata **sp. n.,** TAYLOR Physiol. Zool. **1** 1928 pp. 1–25 figs.

Spirofilina **fam. n.,** GELEI Arch. Protistenk. **65** pp. 165–182 figs.

Spirofilum **gen. n.** *tisiae* **sp. n.** (Spirofilina), GELEI Arch. Protistenk. **65** pp. 165–182 figs.

(e) **Peritrichida.**

Ellobiophryinae **tribus n.** for *Ellobiophrya*, CHATTON & LWOFF **132.**

Trichodina urinicola **sp. n.**, FULTON Proc. Boston Soc. Nat. Hist. **37** pp. 1–29 figs.

C.—SUCTORIA.

Allantosoma dicorniger, brevi-corniger, **spp. n.**, from intestine of horse, U.S.A., HSIUNG Iowa St. Coll. J. Sci. **3** pp. 101–103 figs.

Ephelota gigantea, minima **spp. n.**, from California, NOBLE Univ. Calif. Pub. Zoo. **33** pp. 13–26 figs.

Epistylis—key to species of, DUMAS **230.**

Podophrya bengalensis **sp. n.**, from sewer water, Calcutta, GHOSH J. R. Micr. Soc. **49** pp. 222–223 figs.

Tokophrya bengalensis **sp. n.**, from sewer water, Calcutta, GHOSH J. R. Micr. Soc **49** pp. 222–223 figs.

PROTOZOA INCERTAE SEDIS.

Bartonella canis **sp. n.**, from blood of dog., Germany, KIKUTH Klin. Woch. **1928** pp. 1729–1730.

Bartonella nicollei **sp. n.**, from blood of pike, *Esox lucius*, Russia, YAKIMOFF Arch. Protist. **67** pp. 509–516 figs., Russ. J. Trop. Med. **7** pp. 30–33 fig.

Eperythrozoon dispar **sp. n.**, from blood of *Arvicola arvalis* and *Mus minutus*, Europe, BRUYNOGHE & VASSILIADIS Ann. Paras. **7** pp. 353–364 figs.

Encephalitozoon brumpti **sp. n.**, from cerebrospinal fluid of a human case of meningitis, Corsica, COULON Ann. Paras. **7** pp. 449–452 fig.

Grahamella ehrlichi **sp. n.**, from blood of fish, *Perca fluviatilis ;* first record of **g.** in cold-blooded animals, YAKIMOFF Arch. Protist. **66** pp. 301–306 fig., Russ. J. Trop. Med. **7** pp. 94–97 fig.

Rickettsia-like bodies in *Stegomyia fasciata* infected from Dengue cases, Greece, MOUTOUSSIS **570.**

Echinodictyum axinelloides **sp. n.** China, BRØNDSTED Zool. Anz. Leipzig **81** p. 225 fig. 3.

Echinostylos reticulatus fig., TOPSENT **55.**

Ectyodesma **subg. n.** (of *Hymedesmia*), TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 257.

Ectyodoryx olgae p. 881 pl. xii fig. 5, pl. xiv fig. 2, *oligacantha* p. 882 pl. xii fig. 4, pl. xiv fig. 4 **spp. n.** Arctic, HENTSCHEL Fauna Arctica; *E. foliatus* fig., TOPSENT **55.**

Ectyomyxilla hanitschi **nom. n.** (for *Myxilla spongiosa* Hentschel), BURTON p. 438.

Ectyon oroides flavus **var. n.** Mediterranean, TOPSENT Faune Flore Méditerr. (**1929**).

Esperiopsis note, BURTON **14** p. 428.

Eucheliplumа pristina fig., TOPSENT **55.**

Eurypon lacazei fig., TOPSENT **55.**

Euryponidae **fam. n.** TOPSENT **55.**

Gelliodes fayalensis minor **var. n.** Madeira, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 318.

Gellius hartlaubi **sp. n.** Norway, HENTSCHEL Fauna Arctica p. 897; *G. vagabundus, tener, binarius,* fig., TOPSENT **55.**

Gomphostegia loricata fig., TOPSENT **55.**

Halichondria arenosa p. 903, pl. xii fig. 11, *labiata* p. 904 pl. xii fig. 12 **spp. n.** Arctic, HENTSCHEL Fauna Arctica; *H. leuconoides* fig., TOPSENT **55.**

Halicnemia arbuscula **sp. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 185 pl. vi fig. 22; *H. duplex, verticillata* fig., TOPSENT **55.**

Hamacantha implicans var. *azorica* fig., TOPSENT **55.**

Helophloeina **gen. n.** *stylivarians* **sp. n.** Canaries, TOPSENT Bull. Inst. océanogr. Monaco **533** p. 1 figs. 1–6.

Hemiastrella digitata **sp. n.** Antarctic, BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 444 pl. iv fig. 4, text-fig. 9; *Hemiasterella elongata* **sp. n.** Cape Verde Is. TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 180 pl. ii fig. 9, pl. vi fig. 17.

Histodermion dividuum fig., TOPSENT **55.**

Holorodesmia **subg. n.** (of *Hymedesmia*), TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 267.

Hymedesmia planisigma p. 253 pl. viii fig. 15, *plicata* p. 254 pl. viii fig. 18, *lobichela* p. 254 pl. viii fig. 16, *vomerula* p. 255 pl. viii fig. 17, *oxneri* p. 256 pl. viii fig. 21, *pachychela* p. 258 pl. ix fig. 5, *basiclavata* p. 259 pl. ix fig. 9, *gracilisigma* p. 264 pl. ix fig. 2, *velata* p. 264 pl. ix fig. 1, *jugalis* p. 265 pl. ix fig. 3, *depressa* p. 266 pl. ix fig. 6, *flaccida* p. 267 pl. ix fig. 8, *hallmanni* p. 268 pl. ix fig. 7, *palmatichela* p. 269 pl. ix fig. 10 **spp. n.**; *tenuissima atlantica* p. 252 pl. ix fig. 11, *mutabilis costata* p. 260 pl. viii figs. 20, 22–24 **varr. n.** Cape Verde–Portugal–Azores area, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928; *H. unguifera* **sp. n.** Antarctic, BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 434 text-fig. 6; *H. rhodus* **sp. n.** Spitzbergen, HENTSCHEL Fauna Arctica p. 887 pl. xii figs. 7, 10.

Hymeniacidon cliftoni Bowerbank = *Anomoclathria opuntioides frondifera*, TOPSENT **58.**

Hymesigmia japycina fig., TOPSENT **55.**

Iophon frigidus gracilis **var. n.** Spitzbergen, HENTSCHEL Fauna Arctica p. 884.

Latrunculia tricincta **sp. n.** Norway, HENTSCHEL Fauna Arctica p. 869; *L. insignis, multirotalis* fig., TOPSENT **55.**

Leptoclathria haplotoxa **sp. n.** Madeira, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 298 pl. x fig. 16.

Leptolabis brunnea fig., TOPSENT **55.**

Leptosia triangulata p. 271 pl. ix fig. 12, *manubriata* p. 271 pl. ix fig. 15 **spp. n.** Azores Topsent Résult. Camp. Sci. Alb. Monaco **74** 1928; *L. duplicata, sirventi* fig., ID. t.c.

Leptosiopsis inaequalis fig., TOPSENT **55.**

Lissodendoryx flabellata p. 436 pl. iv fig. 3 text-fig. 7, *innominata* p. 436 text-fig. 8 **spp. n.** Antarctic BURTON Brit. Ant. (Terra Nova) Exped. **6** 4; *L. sinensis* **sp. n.** China, BRØNDSTED Zool. Anz. Leipzig **81** p. 228 fig. 5; *L. isodictyalis paucispinosa* **var. n.** Cape Verde Is., TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 240 pl. viii fig. 11; *L. polymorpha, fertilior* fig., TOPSENT t.c.

Lithochela conica **sp. n.** S. Africa, BURTON Fish. Mar. Biol. Surv. S. Africa p. 9 pl. i figs. 9, 10, pl. ii figs. 11–19.

Microciona heterotoxa **sp. n.** White Sea, HENTSCHEL Fauna Arctica p. 891 pl. xiv fig. 5.

Microxistyla **gen. n.** *petrina* **sp. n.** Cape Verde Is. TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 179 pl. vi fig. 18.

Mycale arctica **nom. n.** (for *Esperia lingua* var. *arctica* Fristedt), HENTSCHEL Fauna Arctica p. 930.

Mycalopsis radiata fig., TOPSENT **55.**

Myxillidae **fam. n.** et Myxillinae **sub-fam. n.**, TOPSENT **55.**

Myxodoryx **gen. n.** (genotype = *Lissomyxilla hanitschi* Kirkpatrick), BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 438.

†*Opetionella ovata* **sp. n.** Jurassic Switzerland, OPPLIGER Abh. schweiz. paläont. Ges. **46** 1926 p. 75 pl. v fig. 10.

Pachychalina fracta **sp. n.** Spitzbergen, HENTSCHEL Fauna Arctica p. 901.

Parasyringella **gen. n.** (genotype = *Raspailia falcifera* Topsent), TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 287.

Paratedania **gen. n.** (genotype = *Oceanapia tarantula* Kirkpatrick), BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 441.

Perissinella **subgen. n.** (of *Stylotella*) TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 171.

Phakellia beringensis **nom. n.** (for *P. papyracea* var. Lambe and *P. ventilabrum* ? Lambe), HENTSCHEL Fauna Arctica p. 975; *P. robusta* var. *hirondellei* fig., TOPSENT **55.**

Phloeodictyon medium p. 321 pl. ii fig. 18, pl. x fig. 27 Canary Is., *nodulosum* p. 322 pl. xi fig. 9 Azores, **spp. n.** TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928; *P. fistulosum, coriaceum, elongatum* fig., TOPSENT t.c.

Plocamiancora denticulata fig., TOPSENT **55.**

Plocamione dirrhopalina fig., TOPSENT **55.**

Plocamionida microcionides achelata **var. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 304.

Plocamiopsis signata var. *mitis* fig., TOPSENT **55**.

Plumocolumella **gen. n.** (genotype = *Fibulia carnosa* Carter) *cribriporosa* **sp. n.** Antarctic, BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 425 pl. v fig. 7.

Podospongia loveni fig., TOPSENT **55**.

Polymastia infrapilosa fig., TOPSENT **55**.

Pseudanchinoë **gen. n.** (genotype = *Stylostichon toxiferum* Topsent), BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 433.

Ptilocaulis digitatus **sp. n.** Cape Verde Is. TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 172 pl. ii fig. 22, pl. vi fig. 15.

Quasillina brevis, PRENANT **45**.

Reniera tromsöica **sp. n.** Norway, HENTSCHEL Fauna Arctica p. 899; *R. swartschewskiji* **nom. n.** (for *R. cinerea* Swartschewsky) *R. solowetzkaja* **nom. n.** (for *R. bowerbanki* Swartschewsky), *R. rossica* **nom. n.** (for *R. indistincta* Swartschewsky), HENTSCHEL t.c. p. 890; *R. nigra* **sp. n.** Cameroons, BURTON Faune Colonies Françaises **3** p. 70.

Rhabderemia mutans, fascicularis fig., TOPSENT **55**.

Rhabdosigma intexta fig., TOPSENT **55**.

Rhaphidectyon spinosum fig., TOPSENT **55**.

Rhaphidotheca arctica **sp. n.** Spitzbergen, HENTSCHEL Fauna Arctica p. 873 pl. xiv fig. 3.

Rhizaxinella schaudinni **sp. n.** Spitzbergen, HENTSCHEL Fauna Arctica p. 870 pl. xiv fig. 1.

Spanioplon armaturum fig., TOPSENT **55**.

Spanioploninae **sub-fam. n.** TOPSENT **55**.

Spongosorites placenta rigidior **var. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 158.

Stylocordyla borealis embryology, BURTON **12**.

Stylopus indivisus **sp. n.** Morocco, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 284.

Stylostichon dendyi robustum **var. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 285 pl. x fig. 1.

Stylotella (*Perissinella*) *madeirensis* **sp. n.** Madeira TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 170 pl. ii fig. 12, pl. vi fig. 13.

Suberella **gen. n.** *topsenti* **nom. n.** Antarctic, BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 446 pl. iv fig. 5.

Suberites hirsutus fig., TOPSENT **55**.

Tedania phacellina fig., TOPSENT **55**.

Tethya aurantium, TOPSENT **59**.

Tetilla monodi **sp. n.** Cameroons, BURTON Faune Colonies Françaises **3** p. 68 pl. i figs. 1–4, text-figs. 1, 2.

Trachystylea **gen. n.** *semota* **sp. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 166 pl. vii fig. 1.

Trachyteleia **gen. n.** *stephensi* **sp. n.** Azores, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 153 pl. vi fig. 11

Tricheurypon viridis **gen. n.** (genotype = *Hymeraphia viridis* Topsent), TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 295.

Tylodesma rosea, grimaldii, informis fig., TOPSENT **55**.

Vibulinus mutilus **sp. n.** Portugal, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 188 pl. vi fig. 20.

Weberella bursa fig., TOPSENT **55**.

EUCERATOSA.

Aplysilla arenosa **sp. n.** Norway, HENTSCHEL Fauna Arctica p. 906; *A. psammophila* **sp. n.** Portugal, TOPSENT Résult. Camp. Sci. Alb. Monaco **74** 1928 p. 335 pl. iii fig. 23 pl. x fig. 26.

Cacospongia affinities of, TOPSENT **57**.

Psammopemma finmarchicum p. 905 **sp. n.**, *finmarchium spiculosa* p. 906 **var. n.**, Norway, HENTSCHEL Fauna Arctica.

Spongelia oculata **sp. n.** Antarctic, BURTON Brit. Ant. (Terra Nova) Exped. **6** 4 p. 448 pl. vi fig. 7; *S. avara* fig., TOPSENT **55**.

Spongionella depressa **sp. n.** (= *Velinea repens* Topsent nec. Thiele), TOPSENT **57** p. 12; *S. holdsworthi* a synonym of *Phyllospongia papyracea*, *S. pulchella* its synonyms and affinities, ID. t.c.

Velinea a synonym of *Spongionella*, TOPSENT **57**; *V. repens* **sp. n.** Cape Verde Is., TOPSENT Résult. Camp. Sci. Alb. Monaco **7** 4 1928 p. 330 pl. xi fig. 16.

Hydra, GROSS, **70**; *Maeotias inexpectata,* BORCEA, **13**; *Velella spirans,* LELOUP, **101**; *Neoturris papua,* RANSON, **130**; †Rugose corals, VOJNOVSKIJ-KRIEGER, **179, 180**; Actiniaria, MOLANDER, **113**; STEPHENSON, **152**; *Palaeacis,* SMYTH, **145.**

Histophysiology of *Clava squamata,* RUNNSTRÖM, **138.**

Golgi bodies in *Hydra,* HORNING, **81.**

Epithelium in Siphonophora, IWANTZOW, **88.**

Histology of *Pelmatohydra oligactis,* MCCONNELL, **104.**

Comparison of *Hydractinia* with Stromatoporoids, TRIPP, **167.**

Sense-organs in Scyphomedusae, WU, **186.**

Muscles and phagocytes of *Chrysaora isoceles,* CHU[I]N, **36.**

Gastrovascular system of *Rhizostoma octopus,* STIASNY, **154.**

Mural pores in *Palaeofavosites,* TWENHOFEL & HOLLISTER, **170.**

Nematocysts.—BILLARD, **9**; CARLGREN, **29**; CHUIN, **40**; STEPHENSON, **151**; TISCHBIEREK, **162**; WEILL, **182.**

PHYSIOLOGY.

General, JORDAN, **91.**

Effect of ultra-violet on *Hydra,* DEAL, **46**; on *Tubullaria crocea,* KLUGH, **95.**

Xanthine in Actiniaria, MOUCHET, **117, 118.**

Pulsation in *Gonionemus,* WOLF, **184.**

Organs of balance in medusae, FREINKEL, **58.**

Ciliary movement, MERTON, **111.**

Glycogen and ciliary movement, BEUTLER, **6.**

Permeability of ciliated epithelium to electrolytes in Actiniaria, JUCCI, **92.**

Digestion in scyphistoma of *Chrysaora* CHUIN **37, 38, 39.**

Nutrition in corals, THIEL, **160**; in *Hydra,* ZICK, **192.**

Metabolism, REMOTTI, **133.**

Transplantation in *Hydra,* KORSCHELT, **96.**

Regeneration, CHILD, **33**; in Actiniaria, CARLGREN, **30**; in *Hydra,* **70**; in Hydroida, GOETSCH, **65**; in *Hydra oligactis,* KANAJEW, **93**; thyroxin as controlling factor in regeneration, TORREY, **165**; Röntgen rays and regeneration in *Pelmatohydra,* STRELIN, **155**; ZAWARZIN, **191**; dedifferentiation and regeneration in *Hydra* and *Pelmatohydra,* THRELKELD & HALL, **164.**

DEVELOPMENT.

Velella spirans, LELOUP, **101**; *Aurelia aurita,* USSING, **176.**

Phylogeny and development in Ctenophora, HADŽI, **71.**

Reproduction and morphology in Actiniaria, STEPHENSON, **150.**

Budding in *Echinopora lamellosa,* BOSCHMA, **14.**

Postlarval stages in *Maeandra areolata,* BOSCHMA, **17.**

Metamorphosis in Stauromedusae and Cubomedusae, UCHIDA, **172**.

Spermatogenesis in *Tubularia*, TUZET, **169**.

Origin of germ-cells and development of gonophores in *Clava squamata*, FÖYN, **57**.

Gonophores and eggs in *Myriothela*, BRIGGS, **19**.

Oogenesis in *Obelia*, FAULKNER, **53**.

Eggs of Gorgonacea, HICKSON, **78**.

Ontogeny of *Caninophyllum archiaci*, LEWIS, **103**.

ETHOLOGY.

Function and form in corals, RICHTER, **135**.

Growth in corals, EDMONDSON, **52**.

†Growth in *Graptolites*, DAVIS, **44**.

Feeding in corals, BOSCHMA, **15**.

Geographical distribution, STEINITZ, **149**.

Distribution of *Protohydra leuckarti*, ABONYI, **1**.

Movements of plankton, ISSEL, **85**, **86**.

Estuarine forms, PERCEVAL, **124**.

Nocturnal behaviour of *Actinoloba dianthus*, BOULENGER, **18**.

Biology of *Corallium rubrum*, MAZZARELLI, **109**.

Parasitism, REMANE, **132**.

Commensalism, Association and Symbiosis.—Epibiosis of Nudibranch and *Velella*, ISSEL, **87**; *Hydra* and Protozoa, SCHROEDER, **139**; Hydroids and Polychaetes, STECHOW, **148**; †*Aulopora* and Brachiopoda, YUKOVLEV, **188**; phototropism and symbiosis, ZIRPOLO, **193**; †commensalism, HECKER, **73**.

VARIATION AND PHYLOGENY.

Inheritance of acquired characters in Rugose corals, JAKOVLEV, **89**.

Evolution of races and s ecies, MOSER, **116**.

Methods of reproduction as specific characters in Actiniaria, STEPHENSON, **150**.

DISTRIBUTION.

1.—GEOGRAPHICAL.

A.—MARINE.

Atlantic (including Mediterranean and Black Sea).—Trachymedusae and Narcomedusae of N. Atlantic, BROCH, **20**; Hydroida from Norway, MATHISEN, **108**; from North Sea, BILLARD, **7**; *Physalia* from France, MERCIER, **110**; *Hormiphora* from Mediterranean, DANTAN, **43**; *Maeotias inexpectata* from Black Sea, BORCEA, **13**; Alcyonaria from Monaco, THOMSON, **163**; Madreporarian from France, BEAUCHAMP, **3**; *Metridium dianthus* from the Adriatic, PAX, **122**; Gorgonacea from Panama, Trinidad and Galapagos, HICKSON, **78**.

Indian Ocean.—Alcyonaria of Suez Canal, DEAN, **47**; Indian Ocean species of *Flabellum*, GARDINER, **62**.

Malay Area.—Hydromedusae from Java, STIASNY, **153**; Alcyonaria of Dutch E. Indies, CHALMERS, **32**; Corals from Malay Archipelago, BILLARD, **10**; from Sumatra, UMBGROVE, **174**; Ctenophora from Amboina, MORTENSON, **115**.

Pacific Ocean.—Fauna of Chatham Islands, YOUNG, **190**; Anthomedusae from Japan, Vancouver, Indo-Pacific and New Zealand, KRAMP, **97**; Hydroida from Japan, UCHIDA, **171**, **172**; *Epizoanthus* from Japan, TISCHBIEREK, **162**; *Melitodes mutsu* from Japan, MINOBE, **112**; Hydromedusa from China, HSU, **82**; Ctenophora from Vancouver, MORTENSEN, **115**; Corals from Tahiti, HOFFMEISTER, **80**; Fungidae from Tahiti, BOSCHMA, **16**; Hawaiian corals, EDMONDSON, **52**; Hydroida from New Zealand, FYFE, **59**; Madreporaria from New Zealand, GARDINER, **61**.

Antarctic.—Madreporaria of Antarctic, GARDINER, **61**; Antarctic Anthozoa, CARLGREN & STEPHENSON, **31**; MOLANDER, **113**.

Arctic.—Alcyonaria, Gorgonaria and Pennatularia of Arctic, BROCH, **21**.

B.—Fresh Water.

Microhydra from England, Hickson, **79**; from Poland, Maske, **107**; *Hydra* from North America, Hyman, **84**; from Germany, Wunder, **187**; from Ceylon, Burt, **25**; *Craspedacusta* from England, Totton, **166**; medusa from Upper Nile, Worthington, **185**; Hydroida from Japan, Uchida, **173**.

2.—GEOLOGICAL.

Cainozoic.—Tertiary corals from Dutch E. Indies, Siemon, **141**; Pleistocene corals from Dutch E. Indies, Umbgrove, **174**; Pliocene and pleistocene Anthozoa, Felix, **55**; Miocene corals from Italy, Montanaro, **114**; from N. Africa, Zuffardi-Comerci, **194**; Miocene *Graphularia* from Hungary, Vadász, **177**; Eocene coral from California, Vaughan, **178**; from Peru, Berry, **5**.

Mesozoic.—*Aspidiscus cristatus* from Cretaceous of France, Fortanier, **56**; Cretaceous Gorgonid from France, Cottreau, **41**; Cretaceous corals from Macedonia, Gripp, **69**; Cretaceous coral from Trinidad, Gregory, **68**; Jurassic and Cretaceous corals from Arabia, Kühn, **98**; Jurassic Chaetitidae from Switzerland, Peterhans, **127**; Triassic Anthozoa and Hydrozoa from N. America, Smith, **143**; Triassic Hydrozoa from Persia, Douglas, **50**.

Palaeozoic.—Palaeozoic corals from Siberia, Vologdin, **181**; from China, Grabau, **66**; Palaeozoic Stromatoporoids from Austria, Kühn, **99**; Palaeozoic Graptolites from Estonia, Öpik, **120**; Permian corals from Russia, Soschkina, **146**; Carboniferous corals from Wales, Neaverson, **119**; from Ireland, Smyth, **145**; from France, Dutetre, **51**; from Austria, Heritsch, **74, 75**; Kuntschnig, **100**; from Russia, Bolkhowitinova & Markoff, **12**; from Spitzbergen, Heritsch, **76**; from U.S.A., Girty, **64**; from Texas, Plummer & Moore, **128**; from New Guinea, Broili, **22**; from China, Chu, **34**; *Zophrentis* from Carboniferous of Sumatra, Umbgrove, **175**; Carboniferous Archaeocyathidae from S. America, Carbonell, **28**; *Orionastraea* from English carboniferous, Hudson, **83**; Carboniferous-*Chaetetes* from China, Chu, **35**; Carboniferous Graptolites from Britain Stubblefield, **156**; Carbono-Devonian corals from France, Dehée, **48**; Carboniferous and Devonian corals from U.S.A., Tilton, **161**; Devonian corals from Russia, Markov, **105, 106**; from U.S.A., Roy, **136**; from S. Africa, Gevers, **63**; from Burma, Reed, **131**; Silurian Graptolites from Germany, Teichert, **157**; from Austria, Heritsch, **77**; from Russia, Levina, **102**; from U.S.A., Smith, **142**; from Turkestan, Averianow, **2**; Silurian corals from England, Smith, **144**; Silurian Stromatoporoids from Russia, Riabinin, **134**; Yovorsky, **189**; Ordovician Graptolites from France, Péneau, **123**; from Australia, Harris & Keble, **72**; from New Zealand, Keble & Benson, **94**; Ordovician corals and Alcyonaria from Greenland, Trøedsson, **168**; Ordovician and Silurian Graptolites from Great Britain, Davies, **44**.

III.—SYSTEMATIC INDEX.

HYDROZOA.

Stromatoporoids comparison with *Hydractinia*, Tripp **167**.

Narcomedusae and Trachymedusae of N. Atlantic, Broch **20**.

†*Actinostroma podolicum* p. 80 pl. v figs. 3–6, *intermedium* p. 81 pl. v figs. 7–8, *pexisum* p. 82 pl. vi figs. 1–2 **spp. n.** Silurian Russia, Yavorsky Bull. Com. géol. Leningrad **48** 1928; *A. astroites* fig., Id. t.c. p. 79.

Aegina rosea, Uchida **171** p. 91.

Aequorea parva buitendijki **var. n.** Java, Stiasny Zool. Meded. Leiden **11** 1928 p. 215 figs. 3, 4.

Aglaura hemistoma, Uchida **171** p. 78.

†*Beatricea tenuitextilis* **sp. n.** Silurian Russia, Yavorsky Bull. Com. géol. Leningrad **48** 1928 p. 92 pl. xi fig. 10, pl. xii figs. 4–10.

†*Beaumontia minima* **sp. n.** Carboniferous Russia, Bolkhowitinova & Markoff Trans. Inst. Econ. Min. Metall. U.S.S.R. **121** 1926 p. 14 pl. iv fig. 3.

Bougainvillea fulva fig., KRAMP **97** p. 47.

†*Clathriodictyon convictum* p. 91 pl. vi fig. 10, pl. ix figs. 5–7, *salairicum* p. 91 pl. ix fig. 8, pl. x fig. 1 **spp. n.** *variolare vaigatschense* p. 90 pl. ix figs. 3–4 **var. n.** Silurian Russia, YAVORSKY Bull. Com. géol. Leningrad **48** 1928; *C. regulare* p. 83, *fastigiatum* p. 84, *striatellum* p. 96, *vesiculosum* p. 87, *variolare* p. 89, ID. t.c.

†*Clathrodictyon vesiculosum* p. 1041, *variolare* p. 1042 fig., RIABININ **134.**

Clava squamata development of gonophores, FÖYN **57.**

Cnidoscyphus **gen. n.** (for *Laomedea torresii* Busk), SPLETTSTÖSSER Zool. Jahrb. Jena **58** p. 70; *C. aequalis, marginatus* fig., ID. t.c.

Cordylophora lacustris var. *otagoensis* **subsp. n.** New Zealand, FYFE Trans. Proc. N.Z. Inst. **59** p. 813 figs. 2–10.

Craspedacusta sowerbii, TOTTON **166.**

Cytaeis vulgaris fig., KRAMP **97** p. 44.

Diplocyathus sibogae **sp. n.** Dutch E. Indies, BILLARD Bull. Soc. zool. Fr. **54** p. 70 fig. 1; *D. dichotomus*, BILLARD t.c. p. 71.

Eirene malayensis **sp. n.** Java, STIASNY Zool. Meded. Leiden **11** 1928 p. 210 fig. 1.

Euphysa japonica fig., KRAMP **97** p. 30.

Euphysora annulata **sp. n.** Sunda Strait, KRAMP Vidensk. Medd. naturh. Foren. Kjøb. **85** 1928 p. 39 fig. 13; *E. bigelowi* fig., ID. t.c. p. 35.

Geryonia proboscidalis, UCHIDA **171** p. 83.

†*Heterastridium conglobatum* a new variety figured but not named, DOUGLAS **50**; *H. conglobatum* fig., SMITH **143** p. 135.

Heterotiara minor fig., KRAMP **97** p. 58.

Hydra biology of, GROSS **70.**

Hydra americana **sp. n.** U.S.A., HYMAN Trans. Amer. Micr. Soc. Menasha **48** p. 242 pls. xxix, xxx; *H. zeylanica* **sp. n.** Ceylon, BURT Ceylon J. Sci. Colombo **15** p. 159 pl. xxxiv; *H. viridis* golgi bodies in, HORNING **81**; *H. circumcincta*, WUNDER **187.**

Köllikeria multicirrata **sp. n.** Kei Islands, KRAMP Vidensk. Medd. naturh. Foren. Kjøb. **58** 1928 p. 51 fig. 24.

†*Labechia obrouchevi* p. 1043 pl. xxi figs. 1, 2, pl. lxxii figs 1, 2, *jakovlevi* p. 1045 pl. lxxii figs. 3–7, *katagensis* p. 1046 pl. lxxii figs. 8, 9, **spp. n.** Silurian Russia, RIABININ Bull. Com. géol. Leningrad **47** 1928.

Leuckartiara hoepplii **sp. n.** China, HSU Contr. Biol. Lab. Sci. Soc. Nanking **4** 3 1928 p. 3 figs. 1–4.

Liriope tetraphylle, UCHIDA **171** p. 82.

Maeotias inexpectata structure in, BORCEA **13.**

Microhydra ryderi, HICKSON **79**; MASKE **107.**

Myriothela australis development of gonophores and eggs in, BRIGGS **19.**

Neoturris papua structure, RANSON **130.**

Obelia geniculata oogenesis in, FAULKNER **53.**

Parascyphus repens, simplex fig., SPLETTSTÖSSER **147.**

Pennaria grandis **sp. n.** Sunda Strait KRAMP Vidensk. Medd. naturh. Foren Kjøb. **85** 1928 p. 29 fig. 1.

Podocoryne simplex **sp. n.** Japan, KRAMP Vidensk. Medd. naturh. Foren. Kjøb. **58** 1928 p. 45 fig. 20.

Protiara tropica fig., KRAMP **97** p. 54.

Protohydra leuckarti distribution of, ABONYI **1.**

Rhopalonema velatum, UCHIDA **171** p. 77

Sertularia turbinata, loculosa, ligulata synonymy of, BILLARD **8.**

Sibogella note, BILLARD **11.**

Solmaris rhodoloma, UCHIDA **171** p. 85.

Solmundella bitentaculata, UCHIDA **171** p. 93.

Stechowia a synonym of *Sibogella*, BILLARD **11.**

†*Stromatopora sibirica* **sp. n.** Silurian Russia, RIABININ Bull. Com. géol. Leningrad **47** 1928 p. 1046 pl. lxxiii figs. 8–9; *S. lamellosa* p. 97 pl. xi figs. 3–4, *tuberculata* p. 98 pl. xi figs. 5–7, *venukowi* p. 99 pl. xi figs. 8–9 **spp. n.** Silurian Russia, YAVORSKY Bull. Com. geol. Leningrad **48** 1928; *S. typica* p. 95, *discoidea* p. 96, *carteri* p. 97 fig., ID. t.c.

†*Syringostroma fedorovi* **sp. n.** Silurian Russia, YAVORSKY Bull. Com. géol. Leningrad **48** 1928 p. 99 pl. xii figs. 1–3.

Thyroscyphus longicaulis **sp. n.** West Indies, SPELTTSTÖSSER Zool. Jahrb. Jena **58** p. 49 figs. 43–45; *T. bedoti* **nom. n.** (for *T. junceus* Allmann), ID. t.c. p. 39; *T. fruticosus, vitiensis, ramosus, marginatus* fig., ID. t.c.

Velella spirans anatomy and development, LELOUP **101.**

Zancleopsis tentaculata **sp. n.** Kei Island, KRAMP Vidensk. Medd. naturh. Foren. Kjøb. **85** 1928 p. 40 figs. 14–18.

Zygocanna buitendijki **sp. n.** Java, STIASNY Zool. Meded. Leiden **11** 1928 p. 218 figs. 5–7.

GRAPTOLITOIDEA.

Determination of genotypes in, BULMAN **23**; origin, distribution and preservation of, GRABAU **67**; mode of occurrence in Bohemia, ÖPIK **121**; studies on American spp., RÜDEMANN **137.**

†*Akidograptus* **subgen. n.** *ascensus* **sp. n.** p. 9 figs. 22–24; *A. acuminatus praematurus* **mut. n.** p. 10 fig. 25 Silurian Britain, DAVIES Geol. Mag. **66.**

†*Azygograptus prolixus* **sp. n.** Ordovician New Zealand, KEBLE & BENSON Trans. Proc. N.Z. Inst. **59** p. 855 fig. 14.

II.—SUBJECT INDEX.

N.B.—*The number in Clarendon type quoted after the author's name, in the Subject and Systematic Indices, refers to "Titles" where a fuller reference will be found.*

GENERAL.

Historical.—*Lichenocrinus*: FABER, **60**; *Lichenocrinus*: FENTON, **65**; *Mariacrinus*: KIRK, **127**; *Asteriscus* and *Asterina calcaratus*: LIEBERKIND IN DEICHMANN, LIEBERKIND & MORTENSEN, **47**; Chilean Echinoderma: PORTER, **189**.

General Treatises and Monographs.—GOLDRING, **82**; KOEHLER, **131**; Geology of Peru: STEINMANN, **221**.

Bibliography.—R. Dehee: BARROIS, **6**; COULON, **35**; Fossilium catalogus, Echinoidea: DEECKE, **38**; Chilean Echinoderma: PORTER, **189**; "Index animalium . . ." etc.: SHERBORN, **217**.

Biography.—R. Dehée: BARROIS, **6**.

Museums, Collections and Expeditions.—Recent crinoids in British Mus. Coll.: CLARK, **31**; "Pourquoi-Pas ?": DANGEARD, **37**; Fossils of Catania Univ. Coll. and Modica Museums: GREGORIO, DE, **85**; "Maud" Exp. to N. Coast of Asia: GRIEG, **86**; Synaptidae of Dr. T. Mortensen's Pacific Exp.: HEDING, **97**; Echinoidea of Venezuela and Trinidad in Bâle Mus.: JEANNET, **116**; LAMBERT & JEANNET, **141**; LUEDERWALDT, **148** & **149**; WILKINS, **249**.

Technique.—MATERN, **157**; MERCIER, **163**; SCHMIDT, **213**.

Classification and Nomenclature.—*Echinocyamus pusillus* versus *E. minutus*: [ANON.], **3**; *Echinoneus*: BRIGHTON, **19**; COULON, **35**; Fossilium catalogus, Echinoidea: DEECKE, **38**; *Mariacrinus*: KIRK, **127**; LAMBERT & JEANNET, **141**; *Asterina calcarata*: LIEBERKIND in DEICHMANN, LIEBERKIND & MORTENSEN, **47**; Palaeozoic Ophiuroidea: MATSUMOTO, **158**; MATSUMOTO, **159**.

Economics.—QUENSTEDT, **191**.

STRUCTURE.

General Accounts. — *Amphipelis squamata*: BERNASCONI, **14**; *Centrostephanus longispinus* and *Goniocidaris maculata*: GALLO, **77**.

Symmetries.—FAAS, 59.

Skeletal Anatomy.—*Echinoneus melitensis* and *E. cyclostomus*: BRIGHTON, 19; BRIGHTON, 20; *Lovenia* and *Vasconaster*: CHECCHIA-RISPOLI, 28; COLLIGNON & LAMBERT, 33; DEHÉE, 41; DÉMOLY, 48; *Lichenocrinus*: FABER, 60; *Lichenocrinus*: FENTON, 65; GRIEG, 86; HAWKINS, 94; HUSSEY, 107; *Arbacia punctulata*: JACKSON, 110; JACKSON, 111; *Rhabdocidaris*: JEANNET, 115; KIRCHNER, 124 & 125; *Pagecrinus* gen. n.: KIRK, 129; *Vasocrinus* and *Pellecrinus* gen. n.: KIRK, 128; MORTENSEN IN DEICHMANN, LIEBERKIND & MORTENSEN, 47; PASOTTI, 180; SCHMIDT, 213; THIÉRY, LAMBERT & COLLIGNON, 227; ULRICH, 237; VALETTE, 238; WANNER, 245; *Allagecrinus*: WANNER, 246; *Hypocrinites*: WANNER, 247.

Axial Organ.—KIRCHNER, 125.

Nervous System.—PAINE, 179.

Ambulacrals.—PAINE, 179.

Reproductive Organs.—*Arbacia punctulata*: JACKSON, 110; MARX, 156.

Sense Organs.—PAINE, 179.

PHYSIOLOGY.

General.—JORDAN, 120.

Ovum and Spermatozoon.—RUNNSTRÖM, 204.

Circulation.—MACBRIDE, 151; YAZAKI, 255.

Musculature and Muscular Action.—Starfishes and ophiurans: FRAENKEL, 70 & 71; KALMUS, 122; *Caudina chilensis*: YAMANOUCHI, 251.

Sensation.—JUST, 121; PAINE, 179; YAMANOUCHI, 254.

Environmental Effects. — *Caudina chilensis*: YAMANOUCHI, 251.

Effect of Light.—*Caudina chilensis*: YAMANOUCHI, 251.

Effect of Temperature.—*Caudina chilensis*: YAMANOUCHI, 251.

Reaction to Centrifugal Force.—YAMANOUCHI, 253.

Respiration.—*Amphipholis squamata*: BERNASCONI, 14.

Alimentation. — *Caudina chilensis*: YAMANOUCHI, 252.

Ingestion and Egestion.—*Caudina chilensis*: YAMANOUCHI, 251 & 252.

Ambulacrals.—PAINE, 179.

Locomotion.—KALMUS, 122.

Burrowing Habits.—*Caudina chilensis*: YAMANOUCHI, 251.

Chemical Constituents.—FAURÉ-FREMIET, 63: TENNENT, 226.

Experimental.—BARRON, 7; FAURÉ-FREMIET, 63; PAINE, 179; TENNENT, 226; *Caudina chilensis*: YAMANOUCHI, 251 & 252; YAMANOUCHI, 253; YAZAKI, 255.

DEVELOPMENT.

Oviposition, Fertilisation and Segmentation.—ACHARD, 2; BARRON, 7; BATAILLON, 10; BUTLER, 22; FRY, 73 & 74; FRY, JACOBS & LIEB, 75; GRAVE & DOWNING, 84; HATTORI, 93; HAYASHI, 95; HINRICHS, 102; HINRICHS & GENTHER, 103; HÖRSTADIUS, 105; *Psammechinus miliaris*: LINDAHL & RUNNSTRÖM, 146; MACBRIDE, 151; MAGROU, 153; MAGROU, MAGROU & CHOUCROUN, 154; MAGROU, MAGROU & REISS, 155; MOORE, 168; MORTENSEN IN DEICHMANN, LIEBERKIND & MORTENSEN, 47; OKADA, 176; PAGE, 178; PASQUINI, 181; PEEBLES, 183; PLOUGH, 187; PRZIBRAM, 190; RAPKINE, 192; REISS & VELLINGER, 193; RUNNSTRÖM, 204 & 206; SALKIND, 211; TENNENT, 223; TENNENT, TAYLOR & WHITAKER, 225; WHITAKER, 248; ZAVŘEL, 258.

Larval Stages.—*Amphipholis squamata*: BERNASCONI, 14; GORDON, 83; HÖRSTADIUS, 105; ISSEL, 108; KIRCHNER, 124; MACBRIDE, 151; MAGROU, 153; PEEBLES, 183; PLOUGH, 187; PRZIBRAM, 190; RUNNSTRÖM, 203 & 205; TENNENT, 224; UBISCH, 235 & 236.

Organogeny.—GORDON, 83; KIRCHNER, 124.

Post-larval Growth-stages.—GORDON, 83.

Parthenogenesis.—BATAILLON, **10**.

Hermaphrodism.—*Arbacia*: HEILBRUNN, **98**.

Experimental Embryology.—ACHARD, **2**; BARRON, **7**; BATAILLON, **10**; BUTLER, **22**; FRY, **73** & **74**; FRY, JACOBS & LIEB, **75**; GRAVE & DOWNING, **84**; HAYASHI, **95**; HINRICHS, **102**; HINRICHS & GENTHER, **103**; MACBRIDE, **151**; MAGROU, **153**; MAGROU, MAGROU & CHOUCROUN, **154**; MAGROU, MAGROU & REISS, **155**; MOORE, **168**; OKADA, **176**; PAGE, **178**; PASQUINI, **181**; PEEBLES, **183**; PLOUGH, **187**; RAPKINE, **192**; REISS & VELLINGER, **193**; RUNNSTRÖM, **203**, **204** & **206**; TENNENT, **223**; TENNENT, TAYLOR & WHITAKER, **225**; WHITAKER, **248**; ZAVŘEL, **258**.

ETHOLOGY.

Habitat.—BROMEHEAD, **21**; FALLA, **61**; FISCHER, **67**; *Patinapta ooplax* and *Polycheira rufescens*: HEDING, **97**; *Echinus esculentus*: HENTSCHEL & REID, **99**; *Echinus esculentus*: ORTON, **177**.

Feeding Habits.—*Amphipholis squamata*: BERNASCONI, **14**; CHIDESTER, **29**; FALLA, **61**; *Patinapta ooplax*: HEDING, **97**.

Ingestion and Egestion.—CHIDESTER, **29**.

Breeding Habits. — *Psammechinus miliaris*: LINDAHL & RUNNSTRÖM, **146**; MARX, **156**; *Echinus esculentus*: ORTON, **177**.

Hermaphrodism. — NEEDHAM & MOORE, **174**.

Autotomy and Regeneration.—*Amphipholis squamata*: BERNASCONI, **14**; Spine regeneration in *Echinus*: CHADWICK, **27**.

Parasites and Commensals.—*Lichenocrinus*: FABER, **60**; *Lichenocrinus*: FENTON, **65**; LAMBERT, **140**; LYNCH, **150**; MERCIER, **160**; THOMAS, **228**; Parasitism etc. in Palaeozoic invertebrates: YAKOVLEV, **250**.

Enemies, Defence and Protection.—JAKOVLEV, **112**; YOUNG, **256**.

Movements and Locomotion.—Starfishes and ophiurans: FRAENKEL, **70** & **71**; *Polycheira rufescens*: HEDING, **97**; KALMUS, **122**; *Caudina chilensis*: YAMANOUCHI, **251**.

Migration and Dispersal.—*Echinus esculentus*: ORTON, **177**; STEINITZ, **220**.

Association of Certain Species.—FABER, **60**.

Adaptation to Surroundings.—BATHER, **13**.

Environmental Effects.—FISCHER, **67**; *Echinus esculentus*: HENTSCHEL & REID, **99**; *Echinus esculentus*: ORTON, **177**.

Effect of Temperature and Salinity.—FISCHER, **67**; GRIEG, **86**; *Psammechinus miliaris*: LINDAHL & RUNNSTRÖM, **146**; SCHORYGIN, **214**.

Desiccation. — *Opheodesma grisea*: HEDING, **97**.

Geological Aspect.—BUTTS, **23**; Echinoidea: DEECKE, **39**.

VARIATION AND AETIOLOGY.

Variation in Form.—*Echinoneus*: BRIGHTON, **19**; GRIEG, **86**; *Arbacia punctulata*: JACKSON, **110**; *Psammechinus miliaris*: MERCIER, **164**; *Psammechinus miliaris*: LINDAHL & RUNNSTRÖM, **146**.

Variation in Colour.—*Amphipholis squamata*: BERNASCONI, **14**; *Henricia sanguinolenta*: GRIEG, **87**.

Variation Meristic, Numerical.—*Arbacia punctulata*: JACKSON, **110**; Four-rayed specimen of *Clypeaster japonicus*: TAKI, **222**.

Variation Teratological. — *Arbacia punctulata*: JACKSON, **110**; TOLMER, **232**; WALL, **244**.

Evolution. — BATHER, **11** & **13**; HAWKINS, **94**; *Mariacrinus*: KIRK, **127**.

Phylogeny and Relationship.—BATHER, **12**; HAWKINS, **94**; *Arbacia punctulata*: JACKSON, **110**; MORTENSEN IN DEICHMANN, LIEBERKIND & MORTENSEN, **47**; THOMAS, **228**; *Hypocrinites*: WANNER, **247**.

DISTRIBUTION.

General.

General.—Gallo, **76.**

Bathymetrical.

Bathymetrical.—Gallo, **76.**

Geographical.

Atlantic Ocean.—*Amphipholis*: Bernasconi, **14**; Coulon, **35**; Dangeard, **37**; Fischer, **67**; Spanish Ophiuroids: Gallo, **76**; Heding, **97**; *Echinus esculentus*: Hentschel & Reid, **99**; Echinoderms of Gulf of St. Lawrence: Johansen, **119**; Luederwaldt, **148**; Magor, **152**; *Psammechinus miliaris*: Mercier, **164**; Mortensen, **170**; *Echinus esculentus*: Orton, **177**; Rivera, **196**; *Psammechinus miliaris*: Lindahl & Runnström, **146**; Spärck, **219**; Steinitz, **220**; Tolmer, **232.**

Mediterranean Sea, etc.—Spanish Ophiuroids: Gallo, **76**; Issel, **108**; Koehler, **131**; Rivera, **196.**

Indian Ocean, Red Sea, etc.—*Amphipholis*: Bernasconi, **14**; Crinoidea: Clark, **31**; Heding, **97**; Mortensen, **170**; Russo, **207**; Steinitz, **220.**

Malaysia.—*Amphipholis*: Bernasconi, **14**; Crinoidea: Clark, **31**; Heding, **97**; Mortensen, **170**; Wilkins, **249.**

Pacific Ocean.—*Amphipholis*, Bernasconi, **14**; Holothurioidea Asteroidea and Echinoidea of Juan Fernandez and Easter Isd.: Deichmann, Lieberkind & Mortensen, **47**; Djakonov, **53**; *Leptasterias* sp. n. from Sea of Okhotsk: Djakonov, **54** & **55**; Falla, **61**; Heding, **97**; Komai & Ikari, **132**; Echinoidea of Mutsu Bay, Japan: Mortensen, **169**; Mortensen, **170**; *Clypeaster*: Taki, **222**; Wilkins, **249**; Chatham Isds.: Young, **256.**

Southern Ocean. — *Amphipholis*: Bernasconi, **14**; Mortensen, **170.**

Antarctic Ocean. — *Amphipholis*: Bernasconi, **14.**

Arctic Ocean.—*Amphipholis*: Bernasconi, **14**; Siberian region: Grieg, **86**; Grieg, **87**; Gurjanova, **91**; Gurjanowa, Sachs & Uschakow, **92**; Barents Sea: Schorygin, **214**; Barents and White Seas: Zenkewitsch, **259.**

Geological.

Quaternary.—Perkins, **185**; Steinitz, **220.**

Tertiary.—Echinoidea of Chatham Isds., N. Zealand: Brighton, **20**; *Lovenia* and *Vasconaster*: Checchia-Rispoli, **28**; Fallot, **62**; Gavala, **79**; Sicily: Gregorio, de, **85**; Echinoidea of Trinidad and Venezuela: Jeannet, **114**; Lambert, **137**; Russo & Russo, **208**; Dutch-East-Indies: Siemon, **218.**

Pliocene.—Cesare, **26**; Echinoidea of Catalonia: Lambert, **139**; Lambert & Jeannet, **141**; Nangeroni, **173.**

Miocene.—*Echinoneus*: Brighton, **19**; Clark, **32**; Démoly, **48**; Lybia: Desio, **50**; Oasis of Jiarabub: Desio, **51**; Venezuela & Trinidad: Jeannet, **116**; Kutassy, **136**; Echinoidea of Catalonia: Lambert, **139**; Lambert & Jeannet, **141**; Rickenbach, **195**; Tièche, **229**; Valette, **238.**

Oligocene.—Gripp, **88**; Hucke & Voigt, **106**; Venezuela and Trinidad: Jeannet, **116**; Lambert & Jeannet, **141.**

Eocene.—Bourcart & Keller, **18**; Caziot, **25**; Démoly, **48**; Douvillé, **56**; Venezuela and Trinidad: Jeannet, **116**; Echinoidea of Madagascar: Lambert, **138**; Molengraaff, **167**; Pasotti, **180**; Vincent, **243.**

Cretaceous.—Astre, **4**; Madagascar: Barrabé, **5**; Basse, **9**; Bourcart & Keller, **18**; Carter, **24**; Ciry, **30**; Collignon & Lambert, **33**; Corsin & Dehée, **34**; Coulon, **35**; Cunnington, **36**; Dehée, **40, 41** & **42**; Dehée & Dubois, **45**; Dehée & Petit, **46**; Démoly, **48**; Denmaeyer, **49**; Dewey **52**; Spitzbergen: Girmounsky, **81**; Gripp, **89**; Jayet, **113**; Krenkel, **133**; East Arabia: Kühn, **134**; Lambert, **137**; Oman & S.E. Arabia: Lees, **143**; Löscher, **147**; Miropolskij, **166**; Nicolesco, **175**; Picard, **186**; N. Caucasus: Renngarten, **194**; Rickenbach, **195**; Rowe, **201**; Shalem, **216**; Trechmann, **233**; Valátte, **239** & **240**; Vincent, **243**; Zahálka, **257.**

Jurassic.—ABRARD, **1**; BASSE, **8**; COLLIGNON & LAMBERT, **33**; COULON, **35**; Fossilium Catalogus, Echinoidea: DEECKE, **38**; Echinoidea: DEECKE, **39**; DÉMOLY, **48**; FAVRE & RICHARD, **64**; GARDET, **78**; GILLET, **80**; Spitzbergen: GIRMOUNSKY, **81**; *Rhabdocidaris* of Upper Jurassic of Switzerland: JEANNET, **115**; JEANNET, **117**; JEANNET & JUNOD, **118**; KÜHNEL, **135**; LAMBERT, **140**; LANQUINE, **142**; Oman & S.E. Arabia: LEES, **143**; *Pentacrinus dargniesi* Terq. & J. and *P. nicoleti* Desor.: LEUTHARDT, **144**; LEUTHARDT, **145**; MERCIER, **160**, **161** & **162**; MILLER, **165**; MIROPOLSKIJ, **166**; MOUTIER, **171**; RICKENBACH, **195**; Lower Callovian: ROMAN, **197**; ROMAN & SAYN, **198**; Callovian: ROMAN & SAYN, **199**; ROMERO, **200**; RUTHERFORD, **209**; SAINT-AUBIN & LARCHER, **210**; SCHAUFELBERGER, **212**; THIÉRY, LAMBERT & COLLIGNON, **227**; VALETTE **240**, **241** & **242**.

Lias and Rhaetic.—COLLIGNON & LAMBERT, **33**; COULON, **35**; EVESQUE, **58**; Anatolia: GUGENBERGER, **90**; LANQUINE, **142**.

Triassic.—Echinoderms of Timor: BATHER, **12**; FRANK, **72**; HILDEBRAND & PIA, **101**; SCHRIEL, **215**.

Palaeozoic.—Echini of Belgium: JACKSON, **111**; *Mariacrinus*, KIRK, **127**; Ophiuroidea: MATSUMOTO, **158**.

Permian.—BOOS, **17**; JAKOVLEV, **212**; *Holopus*: WANNER, **245**; *Allagecrinus*: WANNER, **246**; *Hypocrinites*: WANNER, **247**.

Carboniferous.—BOLKHOWITINOVA & MARKOFF, **16**; BUTTS, **23**; DEHÉE, **43**; FOURNIER & KAISIN, **69**; JAKOVLEV, **112**; IVANOV, **109**; *Cyphiocrinus*: KIRK, **126**; *Pellecrinus* gen. n.: KIRK, **128**; PATTEISKY, **182**; PLUMMER & MOORE, **188**; ROY, **202**; SCHRIEL, **215**; TILTON IN PRICE, **231**; Parasitism etc. in Palaeozoic invertebrates: YAKOVLEV, **250**.

Devonian.—BOGOLUBOV, **15**; DEHÉE, **39**; KINDLE, **123**; *Pagecrinus* gen. n.: KIRK, **129**; *Vasocrinus* and *Pellecrinus* gen. n.: KIRK, **128**; MÜLLER, **172**; PÉNEAU, **184**; ROY, **202**; SCHRIEL, **215**; THOMAS, **228**; TILTON, **230**; TILTON IN PRICE, **231**.

Silurian.—*Lichenocrinus*: FABER, **60**; *Lichenocrinus*: FENTON, **65** & **66**; FOERSTE, **68**; HAWKINS, **94**; HECKER, **96**; HERITSCH, **100**; Cystidea: HUSSEY, **107**; *Cyphiocrinus*: KIRK, **126**; ROY, **202**; SCHRIEL, **215**; TILTON IN PRICE, **231**.

Ordovician.—EVANS, **57**; FOERSTE, **68**; HORN & ORVIN, **104**; N. Greenland: TROEDSSON, **234**.

Cambrian.—ULRICH, **237**.

III.—SYSTEMATIC INDEX.

HOLOTHURIOIDEA.

Actinopyga difficilis, DEICHMANN IN DEICHMANN, LIEBERKIND & MORTENSEN **47**.

Bathyplotes natans, GRIEG **87**.

Caudina chilensis, YAMANOUCHI **251**, **252**, **253** & **254**.—*C.*, YAZAKI **255**.

Chirodota with *C. pacifica* La Jolla; *C. nanaimensis* British Columbia **spp. n.**, HEDING Vidensk. Medd. naturh. Foren. Kjøb. **85** pp. 278–304.—*C. fernandensis*, DEICHMANN IN DEICHMANN, LIEBERKIND & MORTENSEN **47**.—*C.*, SCHORYGIN **214** p. 68.

Cucumaria glacialis, GRIEG **86**.—*C. frondosa*, GRIEG **87**.—*C.*, HATTORI **93**.—*C.*, SCHORYGIN **214** p. 62.

Echinocucumis hispida, GRIEG **87**.

Elpidia, SCHORYGIN **214** p. 67.

Encope marginata, LUEDERWALDT **148** p. 57.

Epitomapta **gen. n.** with type *E. tabogae* **sp. n.** Panama, HEDING Vidensk. Medd. naturh. Foren. Kjøb. **85** pp. 232–237.

Euapta with *E. tobagoensis* W. Indies; *E. magna* Hawaii; **spp. n.**, HEDING Vidensk. Medd. naturh. Foren. Kjøb. **85** pp. 132–140.

SUBJECT INDEX.

COMPREHENSIVE AND GENERAL.

Text Books.—Baylis, **61**; Faust, **272**; Hegner, Root & Augustine, **362**; Marotel, **543**; Pawlowsky, **633**; Reichenow & Wülker, **680**; Skrjabin & Schulz, **794**.

Reviews, Addresses.—Cameron, **133**; Leiper, **499**.

Classification, Nomenclature.—Dollfus, **239**; Mola, **576**; Skrjabin & Schulz, **791**; Southwell, **805**; Stiles & Hassall, **832**; Stiles & Nolan, **834**.

Technique.—Benbrook, **88**; Bukhadze & Blajin, **127**; Collier, **194**; Coutelen, **203**; Fairley, **261**; Fairley & Williams, **263**; Gelei, **317**; Jaffé, **434**; Joyeux, **450**; Przibram, **672**; Rizzo, **696**; Skrjabin, **784**; Smirnow, **797**.

STRUCTURE.

General Morphology.—*Turbellaria*: Beauchamp, **73, 74, 77-79**; Beklemischev, **86**; Fulinski, **301**; Gieysztor, **319**; Heinzel, **363**; Hyman, **406**; Meixner, **557**. *Trematoda*: Baudet, **58**; Dollfus, **237**; Fukui, **300**; Goto & Ozaki, **331, 332**; Kobayashi, **469**; Loewen, **510**; Narain & Das, **597**; Palombi, **627**; Pereira, **638**; Szidat, **857**; Witenberg, **980**. *Cestoda*: Dollfus, **235**; Essex, **256**; Faust, Campbell & Kellogg, **274**; Hilmy, **374**; Nagaty, **596**; Pintner, **658**; Popow, **661**; Southwell, **804**; Wiszniewski, **979**. *Nemertinea*: Böhmig, **105**.

Excretory system.—Bugge, **126**; Coe **187**; Stunkard, **845**.

Genitalia.—Jones, **446**; Sembrat, **749**; Takahashi, **871**.

Nervous system.—Barrett, **51**; Hadenfeldt, **344**.

Head.—Pintner, **656**.

Nematocysts.—Kepner & Nuttycombe, **461**.

Abnormal.—Strom, **839**; Travassos, **901**; Vogelsang, **956**.

PHYSIOLOGY.

General.—Brand, **110, 111**; Buddenbrock, **124**; Childs, **159**; Schopfer, **724**; Szidat, **857**.

Metabolism.—Beusekom, **96**; Brand, **108**; Nouvel, **608**; Schmidt, **721**.

Responses to stimuli.—Allee, **15**; Doflein, **233**; Fraenkel, **289**; Thomas, **880**.

Chemical constitution.—Brand, **109**.

Locomotion.—Ludwig, **521**.

Regeneration.—Coe, **188**; Coe & Woodruff, **189**; Goetsch, **322**; Keil, **460**; Rustia, **708**; Santos, **716**; Van Cleave, **941**.

REPRODUCTION AND DEVELOPMENT.

General, Life-cycle.—Ando, **28**; Benazzi, **87**; Brumpt, **120**; Dollfus, **238**; Essex, **258**; Faust, **273**; Harper, **359**; Hunter, **404**; Jones, **449**; Joyeux & Baer, **451**; Larrousse, **497**; Lutz, **524**; McCoy, **526, 530, 531**; Magath, **534, 535**; Muto & Mihara, **595**; Oiso, **613**; Schmidt, **723**; Szidat, **862**; Takahashi, **870**; Tanabe, **872**; Vogel, **955**; Woodhead, **986**.

Development.—Abeloos, **1**; Abeloos & Lecamp, **3**; Beaver, **82**; Brumpt, **119**; Dew, **225**; Essex, **256**; Gelei, **315**; Konsuloff, **480**; Li & Faust, **504**; Ross & McKay, **702**; Stunkard & Willey, **846**; Szidat, **857, 860**; Tada, **866**.

Larval forms.—ASADA, 39; BAYLIS, 64; BETTENCOURT & PEREIRA DA SILVA, 95; BUGGE, 125; CAMMERLOHER, 137; CIUREA, 165-167; DUBOIS, 243, 245; FAUST, 271; HUGHES, 396-398; HUGHES & BERKHOUT, 399; HUGHES & HOLL, 400; JEPPS, 439; JOYEUX & BAER, 452; KHANNA, 464; MCCOY, 528; MATTES, 549; MELLO & ALVARES, 560; MILLER, 574; OCHI, 610, 611; PALOMBI, 626; POISSON & ADVIER, 660; PRICE, 671; SINITSIN, 770, 771; SZIDAT, 859; TAKAHASHI, 868; VIALLI, 951; VOGEL, 952, 954; VOGELSANG, 957, 958; WOODLAND, 987.

Oviposition.—ABELOOS, 2.

Maturation.—HARMAN & STEBBING, 355; TAKAHASHI, 869.

Sexes.—CARTER, 143.

Metamorphosis.—SZIDAT, 857.

ETHOLOGY.

Bionomics.—ALLEE, 14; BACIGALUPO, 49; BUCKLEY & CLAPHAM, 123; CARTER, 143; FÜLLEBORN, 304; GIEYSZTOR & CHMIELEWSKA, 320; HOEPPLI, 382; HOVEY, 389; JOYEUX & BAER, 455; LOTZ, 517; MUTO, 594; PERKINS, 643; RAJCEVIC, 676; SANDGROUND, 714; SCHEURING, 719; SCHULZ, 730; STUNKARD, 843; WISZNIEWSKI, 979; WOODHEAD, 985.

Transmission.—ACKERT, 4; CAWSTON, 145, 146; FAUST, 268; NICOLL, 601; SHIRAI, 765; SZIDAT, 860.

Parasitism: Effects on hosts.—AJIL, 7; BISSET, 98; BURLE DE FIGUEIREDO, 129; CARMAN, 141; COHRS, 193; CRAM, 208; DAVIS, 216; DIEMONT, 226; DONATIEN & LESTOQUARD, 241; ESPIÉ, 255; FAIRLEY & PENROSE, 262; FAIRLEY & WRIGHT-SMITH, 264; FAUST, 267, 270; FELDMAN & ESSEX, 279; ICHIKAWA, 407; KOEGEL, 472; KRAUS, 486; MORISHITA, 583; NICOLL, 602; 603; ROSS, 700, 701; RUMBALL, 707; SEMENOW, 750; SEMENOW & KOGAN, 751; SKRJABIN, PODIAPOLSKY, SANKIN & LIMTCHER, 787; SKRJABIN, PODYAPOLSKAJA & STATIROVA, 788; SZIDAT, 854; TAYLOR, 878; VERGEER, 947.

Parasitism: Hosts. — *Invertebrata*: ANDO, 27; HALL, 349; HIRAYAMA, 377; MELENEY & FAUST, 559; NÖLLER 605; SHAW & SIMMS, 763. *Pisces*: CIUREA, 168; ESSEX, 257; FOLDA, 288; GRIEG, 337; HOFF & HOFF, 384; HOLL, 386, 387; HUNTER, 401-403; HUNTER & HUNTER, 405; IMAGAWA, 413; ISAITSCHIKOW, 426; JANICKI, 437; KULMATYCKI, 489; LINTON, 506; LITTLE, 507-509; MACCALLUM & MACCALLUM, 525; ODHNER, 612; OZAKI, 623, 624; PINTNER, 657; SLEGGS, 796; SOUTHWELL, 806; SOUTHWELL & HILMY, 807; TAKAHASHI, 867; TODD, 886; TRAVASSOS, ARTIGAS & PEREIRA, 925; WINFIELD, 977. *Amphibia*: DINNIK, 228; IRWIN, 414; ISAITSCHIKOW, 418, 422-424; ISAITSCHIKOW & ZAKHAROW, 429; JANICKI, 437; JEWELL, 440; TRAVASSOS, 899; WLASSENKO, 981. *Reptilia*: CORDERO & VOGELSANG, 198; PEREIRA, 640; PIERANTONI, 653; RUDIN, 706; THAPAR, 879; TRAVASSOS, 888, 909; YOSHIDA & OZAKI, 1000. *Aves*: BAER, 50; BAYLIS, 67; DUBOIS, 244; EJSMONT, 249; FUHRMANN, 293-295; GRIEG, 337; ISAITSCHIKOW, 416, 417, 419, 425, 428; JONES, 448; JOYEUX & BAER, 454; LANG, 495; LÓPEZ-NEYRA, 514; MASSINO, 547; MAYHEW, 551; MORISHITA & TSUCHIMOCHI, 585; OISO, 613; SKRJABIN, 774, 777, 781; SOUTHWELL & HILMY, 808; SUBRAMANIAN, 847; SUGIMOTO, 849; SZIDAT, 853, 858, 860; SZPOTÁNSKA, 864; TRAVASSOS-908, 914, 917, 919, 920, 922; VOGELSANG & CORDERO, 959; WOODLAND, 987, 988; ZAKHAROFF, 1002. *Mammalia*: BASKAKOW, 53; CHANDLER, 150; CHRISTENSON, 161; CIUREA, 164; DAUBNEY, 215; FIELDING, 281, FUKUI, 299; GULATI, 340; HALL, 346; 347; HALL & WIGDOR, 350; ISAITSCHIKOW, 420, 421, 427; KHALIL, 463; KOFEND, 473; LOEWEN, 511; LÓPEZ-NEYRA, 513; NORTHUP, 606; OLDHAM, 620; OZAKI, 625; PRICE, 669, 670; RODRIGUEZ & MUNIZ, 697; SANDGROUND, 712; SKRJABIN, 779, 780, 782; SKRJABIN & LINDTROP, 785; STILES & NOLAN, 833; TRAVASSOS, 914, 921; TRAVASSOS & VOGELSANG, 926; VERGEER, 948; WHARTON, 970. *Homo*: BRUMPT, 118; CAMERON, 135; CAMERON, 136; HAGA, 345; JOYEUX & BAER, 453; LANE, 491; LEIPER, 498; SCHWARTZ, 737. *Vertebrata*: KOHN, 475.

VARIATION.

Variation.—AFRICA, 6; BASKAKOV, 52.

OCCURRENCE, FAUNAS.

Europe.—Beauchamp, **72**; Borner, **106**; Chichkov, **158**; Codreanu, **186**; Dollfus, **240**; Fuliński, **302**; Galli-Valerio, **310**; Gelei, **316**; Goffart, **323**; Hnatewytsch, **379**; Issel, **430**; Komárek, **477**, **478**; López-Neyra & Torres-Lopez, **516**; Mauvais, **550**; Meixner, **556-558**; Perkins, **642**; Pesta, **645**; Scharff, **718**; Segerstråle, **748**; Sibiriakova, **768**; Sivickis, **773**; Skrjabin & Schulz, **790**; Skrjabin *et alii*, **795**; Szidat, **855**; Szidat & Nöller, **863**; Vandel, **942**.

Asia.—Baylis, **65**; Beauchamp, **80**; Dawydoff, **218**; Imagawa, **413**; Korotneff, **482**; Nasonov, **598**; Nauck & Shan Yü, **599**; Petrow & Schachowzewa, **648**; Rubzow, **704**; Rubtzoff, **705**; Sabussowa, **709**; Skrjabin & Podyapolsky, **786**; Skrjabin & Schulz, **793**.

Africa.—Callanan, **130**; Curson, **211**; Dollfus, **236**; Harlé, **354**; Joyeux & Foley, **456**; Sandground, **711**; Stunkard, **844**

America.—Bock, **102**; Cameron, **132**; Carter, **142**; Escomel, **253**, **254**; Gaggero, **309**; Hughes, **395**; Hyman, **406**; Pratt, **664**; Spindler, **812**; Travassos, **895**, **912**.

Antarctic.—Baylis, **60**; Leiper & Atkinson, **500**.

General.—Metcalf, **562**.

Nematobothrium sardae **sp. n.** in cysts on gills of *Sarda sarda* N. America, MACCALLUM & MACCALLUM Zool. Jahrb. Syst. Jena **39** 1916 pp. 161–166 pl. ii fig. 11, iii figs. 12–16.

Neodiplostomum pseudospathula **nom. n.** for *Diplostomum spathula* Brandes 1890 *nec Hemistomum spathula* (Crepl. 1829), CIUREA Bull. Acad. Roumanie Bucarest **11** 1928 pp. 38–42 2 pls.; *perlatum* **sp. n.** in intestine of *Haliaetus albicilla* (experimental infection), larval stage in carp, Roumania, CIUREA Bull. Acad. Roumanie Bucarest **12** 1929 pp. 28–41 5 pls.

Ommatobrephus folium **sp. n.** in intestine of *Tropidonotus piscator*, India, THAPAR & ALI J. Helminth. London **7** 1929 pp. 248–251 2 figs.

Ophiosoma **gen. n.** *Strigeinae*, *Wedlii* in *Botaurus stellaris* and *Larus fuscus* Europe p. 719 fig. 18, *microcephalum* in *Astur magnirostris* and *Falco cyaneus* Brazil p. 721 fig. 19 **spp. n.**, SZIDAT Z. Parasitenk. Berlin **1** 1929.

Opisthogenes interrogativus Nicoll 1914 transferred to *Opisthogonimus*, PEREIRA Rev. Mus. Paulista **16** pp. 10–12 figs. 15–19.

Opisthogoniminae **subf. n.**, *Plagiorchidae*, TRAVASSOS Mem. Inst. Oswaldo Cruz **21** 1928 p. 320.

Opisthogonimus afranioi **sp. n.** in Brazilian snakes, with revision of genus, PEREIRA Rev. Mus. Paulista **16** pp. 8–10 figs. 11–14.

Opistholebetidae **fam. n.**, *Opistholebetinae* **subf. n.** type *Opistholebes* Nicoll 1915. FUKUI Jap. J. Zool. Tokyo **2** 1929 pp. 309, 336, 338.

Opisthoporidae **fam. n.** for *Opisthoporus* **gen. n.** type *Paramphistomum aspidonectes* MacCallum 1917, FUKUI t.c. p. 339.

Opisthorchis wardi **sp. n.** in the cat, Philippine Islands, WHARTON Philippine J. Sc. Manila **19** 1921 pp. 243–245 pl. i.

Paradistomum gregarinum **nom. n.** *pro P. magnum* Tubangui, TUBANGUI Philippine J. Sc. Manila **38** p. 443.

Parametorchis intermedius pp. 2–3 fig. 1 in gall bladder of *Vulpes fulva*, U.S.A., *canadensis* pp. 3–4 fig. 2 in *Mustela vison*, Canada **spp. n.**, PRICE Proc. U.S. Nat. Mus. Washington **76** 12 1929.

Paramphistomatinea **trib. n.** *Parampistomatinae*, FUKUI Jap. J. Zool. Tokyo **2** 1929 p. 316.

Paramphistomum cervi (Schrank) in stomach of *Kobus defassa*, *Adenota kob*, and *Redunca bohor*, Congo, STUNKARD Bull. Amer. Mus. Nat. Hist. New York

58 pp. 237–242 figs. 1–7; *stunkardi* **sp. n.** in intestine of *Eupomotis gibbosus* and *Chaenobryttus gulosus* North America, HOLL J. Parasit. Urbana **16** pp. 35–37 pl. iv; *formosanum* **sp. n.** in cattle, Japan, FUKUI Jap. J. Zool. Tokyo **2** 1929 pp. 227–231 figs. 11–14, 30.

Paraschistosomatium **gen. n.** *Schistosomidae, anhingae* **sp. n.** in portal veins of *Anhinga anhinga* Texas, PRICE Proc. U.S. Nat. Mus. **75** 18 pp. 15–16 fig. 35.

Parascocotyle ascolonga **sp. n.** in dogs and cats, Palestine, WITENBERG Ann. Trop. Med. Liverpool **23** pp. 194–197 figs. 26–28.

Parastrigea **gen. n.** *Strigeinae* type *Holostomum cinctum* Brandes 1888 p. 717 fig. 16, *robusta* **sp. n.** in *Anas boschas dom.* pp. 717–718 fig. 17, SZIDÁT Z. Parasitenk. Berlin **1**.

Petasiger neocomense **sp. n.** in intestine of *Podiceps cristatus*, Switzerland, FUHRMANN Bull. Soc. Neuchâtel Sci. Nat. N.S. **1** 1928 pp. 3–6.

Pfenderi[i]nae **subf. n.** *Paramphistomatidae*, FUKUI Jap. J. Zool. Tokyo **2** 1929 p. 323.

Philophthalmus anatinus **sp. n.** in duck, Japan, SUGIMOTO Dobuts. Zasshi Tokyo **40** 1928 pp. 343–351 2 figs.

Phyllodistomum pearsei in urinary bladder of blue-spotted sunfish, *Enneacanthus gloriosus* p. 49 fig. 1, *carolini* in urinary bladder of bullhead, *Ameiurus natalis* pp. 49–50 figs. 2–3 **spp. n.** Carolina, HOLL Trans. Amer. Micr. Soc. Menasha **48**.

Plagiorchis luhei **sp. n.** in oesophagus of *Eunectes murinus*, Brazil, TRAVASSOS Bol. biol. S. Paulo **7** 1927 pp. 97–98 figs. 6–7; *schuchovi* **sp. n.** in *Helodromas ochropus* Siberia, ISAITSCHIKOW Trud. Sib. Vet. Inst. Omsk 1928 pp. 285–288; *skrjabini* **sp. n.** in intestine of *Acanthis brevirostris* and *Larus canus* Aral Sea pp. 130–131 fig. 1, *blumbergi* **sp. n.** in *Corvus corax* pp. 131–133 fig. 2, *fuellebornii* in *Coturnix communis* Russia pp. 133–134 fig. 3, *loossi* in *Lanius collurio* and *Lithofalco aesalon* Russia and Siberia pp. 134–135 fig. 4, *brauni* in *Monedula turrium* Russia pp. 135–136 fig. 5, *uhlwormi* in *Scolopax gallinago* Russia pp. 136–138 **spp. n**; *micromaculosus* Skrj. & Massino 1925 in *Sylvia atricapilla*, *S. hortensis*, *Muscicapa grisola* Russia pp. 138–139 fig. 7, *potanini* Skrj. 1928 in *Anas boschas* Transbaikalia pp. 139–141 fig. 8, *marii* Skrj. 1920 in *Passer domesticus* Russia and Poland p. 141 fig. 10, MASSINO Zbl. Bakt. Jena (ii) **78**.

Platynosomum mazzai in gall-bladder of *Speolyte cunicularia* p. 617 fig. 1, *furnarii* in gall-bladder of *Furnarius rufus* pp. 618–619 fig. 2 **spp. n.** Montevideo, VOGELSANG & CORDERO Cuarta Reun. Soc. Argentina Patologia Buenos Aires 1928.

Plehnia **gen. n.** (near *Deontacylix*) *japonica* **sp. n.** in intestine of *Sphaeroides pardalis* Japan, GOTO & OZAKI Jap. J. Zool. Tokyo **2** 1929 pp. 377–380 figs. 13, 14.

Plesiocreadiinae **subf. n.** *Allocreadiidae* WINFIELD J. Parasit. Urbana **16** 1929 p. 86.

Plesiocreadium **gen. n.** *Allocreadiidae, typicum* **sp. n.** in intestine of *Amia calva*, North America, WINFIELD J. Parasit. Urbana **16** pp. 81–87 pl. viii.

Pleurogenes intermedius **sp. n.** in *Rana arvalis altaica* Siberia, ISAITSCHIKOW Isvest. Ezpad. Sibir. Otd. Russk. **5** 1926 pp. 3–6.

Pneumonoeces sibiricus **sp. n.** in *Rana arvalis altaica* Siberia, ISAITSCHIKOW Trud. Sibir. Vet. Inst. **9** 1927 4 pp.; *parviplexus* **sp. n.** in lungs of *Rana clamitans* N. America, IRWIN Trans. Amer. Micr. Soc. Menasha **48** pp. 74–79 pl. xiii.

Podocotyle ayu **sp. n.** in intestine of *Plecoglossus altivelis*, Japan, TAKAHASHI Okayama Ikadaigaku Gyoseki **1** i 1928.

Ponticotrema **gen. n.** *Heterophyidae euxini* **sp. n.** in the domestic cat, Crimea, ISAITSCHIKOW Trud. Sibir. Vet. Inst. Omsk **9** 1927 pp. 10–15.

Proalaria clavata **sp. n.** in intestine of *Ardea cinerea* and *Circus aeruginosus*, CIUREA Bull. Acad. Roumanie Bucarest **11** 1928 pp. 1–14 pls. i–ii.

Prohemistomum appendiculatum **sp. n.** in intestine of cat and dog, CIUREA Zeitschr. Infektionskr. Haustiere Berlin **17** 1916 pp. 309–328 pls. xv–xvi.

Prosorhynchus cortai **sp. n.** in fishes, Brazil, TRAVASSOS, ARTIGAS and PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928 p. 33 fig. 121.

Prosthenhystera **gen. n.** *Callodistominae,* type *Distomum obesum* Diesing 1850 in gall-bladder of *Salminus brevidens,* Brazil, Travassos Soc. Brasil Scien. 1920 [N.V.], Brazil Med. Rio **36** 1922 p. 19, Mem. Inst. Oswaldo Cruz Rio **15** 1922 pp. 226–229 figs. 13, 24, 26, 30–32.

Prosthogonimus brauni **sp. n.** in Bursa Fabricii of *Gallus domesticus,* Skrjabin Trud. Vet. Vsevel. Voyska Donsk. Novogerkassk **1** 1919, Trud. Gos. Inst. Exp. Vet. **1** 2 1923 pp. 15–17 fig, *rudolphii* **sp. n.** in Bursa of *Anas boschas dom.,* Skrjabin Trud. Vet. Vsevel. Voyska Donsk. **1** 1919, Trud. Gos. Inst. Exp. Vet. **1** 2 1923 pp. 34–35 fig.; *skrjabini* **sp. n.** in *Anas boschas,* Zakharow Izvest. Donsk. Vet. Inst., I 2 1920 [N.V.], Skrjabin Trud. Gos. Inst. Exp. Vet. **1** 2 1923 pp. 35–37 1 fig.; *horiuchii* **sp. n.** in domestic fowl, Formosa, Morishita & Tsuchimochi Taiwan Igakk. Zasshi **1925** no. 243 [N.V.]; *intercalandus* Szidat 1921 syn. of *P. pellucidus* Linst., Szidat Arch. Geflügelk. Berlin **1** 1927 Heft. 5.

Pseudodiscinea **trib. n.** *Paramphistomatinae,* Fukui Jap. J. Zool. Tokyo **2** 1929 p. 321.

Pycnoporus transversus **sp. n.** in intestine of *Pipistrellus abramus* Japan Ozaki Annot. Zool. Japon. Tokyo **12** 1929 pp. 95–97 fig. 3.

Pygidiopsis pindoramensis **sp. n.** in intestine of *Ardetta erythromelas* Brazil, Travassos C.R. Soc. Biol. Paris **100** 1928 p. 956, Ann. Acad. Brasil Sci. Rio **1** 1929 pp. 14–15 fig. 1; *Pygidiopsis* (?) *macrostomum* **sp. n.** in intestine of *Mus norwegicus,* Brazil, Travassos Ann. Fac. Med. S. Paulo **3** 1928 pp. 3–4 fig. 3.

Rossicotrema **gen. n.** *Heterophyidae, donicum* **sp. n.** in intestine of dog, Russia, Skrjabin & Lindtrop Isvest. Donsk. Vet. Inst. Novotscherkask **1** i 1919 pp. 1–11 pl. i figs. 1–3.

Schistosoma turkestanicum Skrj. and *S. bomfordi* Montg. transferred to *Ornithobilharzia,* Price Proc. U.S. Nat. Mus. **75** 18 pp. 21–23 figs. 46–52.

Schistosomidae Looss, synopsis of family, Price t.c. pp. 1–39 15 pls.

Stamnosoma **gen. n.** *armatum* **sp. n.** in birds. cat. and experimentally in man, cercaria in Cyprinoid fishes, Japan, Tanabe Kyoto Izakk. Z. **19** 1922 no. 3; *formosanum* **sp. n.** in intestine of *Nycticorax nycticorax* Formosa, also, experimentally, in man, cat, dog, rat and guinea pig, Nishigori Taiwan Igakk. Zasshi **234** 1924.

Staphylorchis **gen. n.** *Anaporrhutinae,* type *Petalodistomum cymatoides* Johnston 1913 in abdominal cavity of *Dasybatis kuhlii,* Travassos Soc. Brasil Scien. 1920 [N.V.], Brazil Med. Rio **36** 1922 p. 17; Mem. Inst. Oswaldo Cruz Rio **15** 1922 p. 226 fig. 2.

Stephanopharynginea **trib. n.** *Paramphistomatinae,* Fukui Jap. J. Zool. Tokyo **2** 1929 p. 320.

Stephanopharynx secundus **sp. n.** in stomach of *Redunco bokor* Congo, Stunkard Bull. Amer. Mus. Nat. Hist. New York **58** pp. 252–254 figs. 18–20.

Strigea falconis in *Aquila spp., Buteo spp., Circus, Accipiter, Haliaetus, Pernis, Aegypius* and *Strix* pp. 696–698 figs. 3–5, *nugax* in *Rhea americana* pp. 705–706 fig. 11 **spp. n.** and revision of species of genus, Szidat Z. Parasitenk. Berlin **1** 1929.

Tauridiana **gen. n.** *Heterophyidae, pontica* **sp. n.** in dog, Crimea, Isaitschikow Trudy Sibir. Vet. Inst. Omsk **6** 1924 pp. 36–38 1 fig.

Telorchis solivagus subsp. maroccanus **subsp. n.** in intestine of *Clemmys leprosa* Morocco pp. 45–54 figs. 12–17, with revision of genus pp. 116–128, Dollfus Ann. Parasit. Paris **7** 1929.

Teratotrema **gen. n.** *Callodistomidae, dubium* **sp. n.** in gall bladder of *Curimatinae* sp. Brazil, Travassos, Artigas & Pereira Arch. Inst Biol. S. Paulo **1** 1928 p. 35 figs. 124–126.

Tetracotyle flabelliformis Faust in *Lymnaea stagnalis* and *Planorbis campanulatus,* Michigan, Hughes Papers Michigan Acad. Sci. **10** 1928 (1929) pp. 500–505 1 pl.; *serpentis* **sp. n.** encysted in *Thamnophis sirtalis,* Michigan, Hughes Trans. Amer. Micr. Soc. **48** 1929 pp. 12–13.

Tracheophilus sisowi Skrjabin in *Anas boschas,* redescribed, Szidat Z. Parasitenk. Berlin **1** 1928 pp. 332–338 figs. 2–4.

Travtrema **gen. n.** *Plagiorchidae, travtrema* **sp. n.** in intestine of *Ophis merremii,* Brazil, Pereira Bolet. Biol. S. Paulo **1929** 16 pp. 92–96 2 figs.

Trigonotrema **gen. n.** *alatum* **sp. n.** in intestine of *Latilus japonicus* Japan, GOTO & OZAKI Jap. J. Zool. Tokyo **2** 1929 pp. 371–374 figs 2–8.

Watsonius St. & Goldb. syn. of *Pseudodiscus* Sonsino, BAYLIS Manual 1929 p. 58; subgenus of *Pseudodiscus*, FUKUI Jap. J. Zool. Tokyo **2** p. 321.

Yokogawa **gen. n.** type *Heterophyes yokogawai* Katsurada, LEIPER Trans. Soc. Trop. Med. London **6** 1913 pp. 282–285 fig. 31. [syn. of *Metagonimus* Katsurada 1913].

(c) Cestoda.

Acanthotaenia continua pp. 275–280, *articulata* pp. 280–285 **spp. n.** in *Varanus niloticus*, S. Africa, RUDIN Rev. Suisse Zool. Geneva **25** 1917.

Aelurotaenia Cameron 1928 syn. of *Similuncinus* Johnstone 1909, WOODLAND Parasitol. Cambridge **21** p. 175.

Anomotaenia heterocoronata in *Acridotheres tristis* pp. 421–424 figs. 19–23, pl. xiii fig. 5, *caledonica* in *Zosterops minuta* pp. 424–426 figs. 24–28 pl. xiii figs. 6, 7, **spp. n.**, FUHRMANN Nova Caledonia **2** iv 1918.

Anonchotaenia piriformis in *Pachycephala morariensis* figs. 43–48, *aryncha* in *Zosterops lateralis* pp. 429–433 figs. 36–42, pl. xiii fig. 9 **spp. n.**, FUHRMANN Nova Caledonia **2** iv 1918.

Anoplocephala (?) *arvicanthidis* **sp. n.** in *Arvicanthis testicularis*, KOFEND Denkschr. Akad. Wiss. Wien **98** 1923 pp. 6–8 figs. 6–7.

Anthocephalus macrurus Rud. pp. 150–156 figs. 11–20, *giganteus* Dies. pp. 156–165 figs. 21–35 redescribed, PINTNER SitzBer. Akad. Wiss. Wien. (1) **138**.

Avitellina southwelli in sheep, W. Africa, pp. 364–366 figs. 22–25, *aegyptiaca* in *Cephalopus sp.* Rhodesia pp. 366–368 figs. 26–31 **spp. n.**, NAGATY Ann. Trop Med. Liverpool **23** 1929.

Batrachotaenia **gen. n.** *Ichthyotaeniidae* type *B. schultzei* in *Rana adspersa* S. Africa, RUDIN Rev. Suisse Zool. Geneva **25** 1917 p. 366.

Bertia hamadryadis **sp. n.** in intestine of *Hamadryas hamadryas*, PIERANTONI Annu. Mus. Zool. Univ. Napoli (N.S.) **5** no. 21 1928 3 pp. 1 pl.

Biacetabulum meridianum in intestine of *Erimyzon sucetta* N. Carolina p. 190 figs. 14–17, *giganteum* in *Ictiobus bubalus* pp. 190–191 figs. 10–13 Mississippi. **spp. n.**, HUNTER J. Parasitol. Urbana **15**.

Brumptiella **gen. n.** *Davaineidae*, type *Davainea cesticillus* (Molin), LÓPEZ-NEYRA Bol. R. Soc. Espan. Hist. Nat. Madrid **29** p. 352.

Capingentinae **subf. nom. n.** *pro Pseudolytocestinae* Hunter, HUNTER J. Parasit. Urbana **16** p. 110.

Caryophyllaeus niloticus **sp. n.** in *Synodontus schall*, KULMATYCKI Results Swed. Zool. Exp. Egypt **5** iv 1928 pp. 1–19 2 pls. 5 figs.

Choanotaenia uncinata **sp. n.** in *Collocalia leucopygea*, FUHRMANN Nova Caledonia **2** iv 1918 pp. 417–418 figs. 14–15 pl. xiii fig. 3.

Corallobothrium giganteum p. 11, *fimbriatum* p. 21, **spp. n.** in fishes, N. America, ESSEX Illinois Biol. Monog. **11** 3 1927.

Cylindrotaenia americana **sp. n.** in intestine of *Acris gryllis* N. America, JEWELL J. Parasitol. Urbana **2** 1916 pp. 181–192 2 figs. 1 pl.

Dasyrhynchus ingens Linton in stomach and intestine of "schwarzer Hai" (*Carcharias glaucus* ?), Gilbert Islands, PINTNER Göteborgs Vetensk Samh. Handl. B **1** no. 8 1929 pp. 35–47 figs. 36–46.

Dibothrium sagitticeps **sp. n.** from *Sebastodes sp.* and *Ophiodon sp.* California, SLEGGS Bull. Scripps Inst. Oceanogr. Berkeley Tech. Ser. **1** 1927 pp. 64–66 5 figs.

Diesingium **gen. n.** *Tetrarhyncha*, type *Rhynchobothrium lomentaceum* Dies. in *Mustelus*, Palermo, PINTNER SitzBer. Akad. Wiss. Wien (1) **138** pp. 145–150 figs. 1–10.

Dilepis jacobsoni p. 263 fig. 8, *javanica* pp. 264–265 fig. 9 in intestine of *Eucichla cyanura* (*Pittidae*) Java **spp. n.**, BAYLIS Parasitol. Cambridge **21**.

Dioicocestidae **fam. n.** type *Dioicocestus*, SOUTHWELL *in* SOUTHWELL & HILMY Ann. Trop. Med. Liverpool **23** 1929 p. 405.

Diorchis spinosa in *Chaulelasmus streperus* pp. 251–252 pl. xxi figs. 1–6, *bulbodes* in *Anas platyrhynchos* pp. 252–254 pl. xxi figs. 7–14, *kodonodes* in *Querquedula discors* pp. 254–255 pl. xxi figs. 15–20, *microcirrosa* in *Q. discors* pp. 255–256 pl. xxi figs. 21–25 **spp. n.** N. America, MAYHEW J. Parasit. Urbana **15**.

Diphyllobothrium **subg. n.** (*Diphyllobothrium*) p. 577, *houghtoni* in man pp. 572–574 fig. 6, *okumurai* in dog pp. 574–576 figs. 7–8 China **spp. n.**, FAUST, CAMPBELL & KELLOGG Amer. J. Hyg. Baltimore **9** 1929.

Diplopylidium quinquecoronatum **sp. n.** in the cat, Spain, RODRIGUEZ & MUÑOZ Bol. R. Soc. Españ. Hist. Nat. Madrid **21** 1921 (1922) pp. 421–426 pl. xxvi; *monoophoroides* **sp. n.** in cat, Spain, LÓPEZ-NEYRA Mem. R. Acad. Cien. Madrid (1) **32** pp. 87–89 pl. xxiii figs. 1–8.

Dipylidium porimanillanum [*sc. porimamillanum*] in cat and dog pp. 51–54 pl. v figs. 1–5, *Carracidoi* in cat pp. 54–56 **spp. n.** Spain, and revision of genus, LÓPEZ-NEYRA t.c.

Dipylidium catus **sp. n.** in cat, India, GULATI Bull. 190 Agric. Res. Inst. Pusa India 1929 pp. 1–14 5 figs.

Dithyridium syn. of *Tetrathyridium* Rud. = collective larval "genus." STILES & ORLEMAN Bull. Acad. Vét. Fr. Paris **11** 1929 pp. 205–208.

Echeneibothrium austrinum **sp. n.** in large skate, Mossel Bay, S. Africa, LINTON Rept. Union S. Africa Fish. Mar. Biol. Survey Cape Town **3** 1922 (1924) viii pp. 14–16 figs. 70–83.

Glaridacris confusus **sp. n.** in *Ictiobus bubalus* and *Dorosoma cepedianum* Mississippi, HUNTER Science N.Y. **69** p. 645 J. Parasit. Urbana **15** pp. 189–190 figs. 1–3.

Gyrocotyle plana **sp. n.** in intestine of *Callorhynchus antarcticus*, Table Bay, S. Africa, LINTON Rept. Union S. Africa Fish. Mar. Biol. Survey Cape Town **3** 1922 (1924) viii pp. 2–12 figs. 1–34.

Hymenolepis asymetrica in *Chalcococcyx plagosus*, pp. 439–441 figs 53–58 pl. xiv fig. 11, *magniovata* in *Myiagra caledonica* pp. 445–447 figs. 68–74 pl. xiv figs. 16, 17, *globocephala* in *Zosterops lateralis* pp. 443–445 figs. 64–67 pl. xiv fig. 13, *zosteropis* in *Zosterops minutus* pp. 441–443 figs. 59–63 pl. xiv fig. 12, *importata* in *Estrilda astrilda* pp. 447–449 figs. 75–78 pl. xiv figs. 18–19 **spp. n.** New Caledonia and Loyalty Islands, FUHRMANN Nova Caledonia **2** iv 1918; *ognewi* **sp. n.** in *Rhombomys opimus* Turkestan, SKRJABIN Trud. Gos. Inst. Exp. Vet. Moscow **2** i 1924 pp. 14–15 figs. 4–5; *sinensis* **sp. n.** in *Cricetulus griseus*, OLDHAM J. Helminth. London **7** 1929 pp. 235–246 6 figs.

Ichthyotaenia glanduligera **sp. n.** in *Clarius anguillaris* Egypt, JANICKI Res. Swed. Zool. Exped. Egypt **5** 5 pp. 29–30.

Idiogenes otidis var. nana **var. n.** in *Eupodotis arabi*, FUHRMANN Ann Parasitol. Paris **3** 1925 p. 143.

Idiogenoides **gen. n.** *Davaineidae* type *Davainea allagea* Kotlàn, LÓPEZ-NEYRA Bol. R. Soc. Españ. Hist. Nat. Madrid **29** p. 351.

Jardugia **gen. n.** *Diploposthidae paradoxa* **sp. n.** in *Ardea sp.* Nigeria, SOUTHWELL & HILMY Ann. Trop. Med. Liverpool **23** 1929 pp. 397–406 3 figs.

Joyeuxia pasqualeiformis **sp. n.** in cat and dog, Spain, LÓPEZ-NEYRA Mem. R. Acad. Cien. Madrid (1) **32** pp. 70–71 pl. xv figs. 1, 6.

Kotlania **gen. n.** *Davaineidae* type *Davainea echinobothrida* (Megnin) p. 356, *joyeuxi* **sp. n.** in *Columba livia dom.* p 359 Spain, LÓPEZ-NEYRA Bol. R. Soc. Españ. Hist. Nat. Madrid **29**.

Malika **gen. n.** *Hymenolepididae*, *oedicnemus* **sp. n.** in intestine of *Oedicnemus scolopax* India, WOODLAND Parasitol. Cambridge **21** pp. 173–175 figs. 9–15.

Meggittia **gen. n.** *Davaineidae*, *bolivari* **sp. n.** in intestine of *Alectoris rufa* Spain, LÓPEZ-NEYRA Bol. R. Soc. Españ. Hist. Nat. Madrid **29** pp. 354–355.

Moniezoides **gen. n.** *rouxi* **sp. n.** in *Trichoglossus haematodus deplanchei*, FUHRMANN Nova Caledonia **2** iv 1918 pp. 412–417 figs. 9–13 pl. xiii fig. 2.

Monopylidium rostratum **sp. n.** in *Halcyon sancta*, FUHRMANN t.c. pp. 427–429 figs. 29–35 pl. xiii fig. 8.

Multiceps gaigeri **sp. n.** in the dog, HALL J. Amer. Vet. Med. Ass. **50** 1916 pp. 214–223 4 figs.; *packi* **sp. n.** experimentally in dog, larval form in heart of *Lepus americanus*, CHRISTENSON J. Parasit. Urbana **16** pp. 49–53 pl. v.

Nematotaenia jaegerskioeldii **sp. n.** in *Bufo regularis*, JANICKI Res. Swed. Zool. Exped. Egypt **5** 5 pp. 30–40.

Oncobothrium pinguicollum **sp. n.** in a skate, California, SLEGGS Bull. Scripps Inst. Oceanogr. Berkeley Tech. Ser. **1** 1927 pp. 67–69 figs. 8–11.

Oochoristica herpestis **sp. n.** in *Herpestes sanguineus*, Sudan, KOFEND Denkschr. Akad. Wiss. Wien **98** 1923 pp. 1–4 figs. 1–4; *parva* **sp. n.** in intestine of lizard, *Lygosoma chalcides*, Java, BAYLIS Parasitol. Cambridge **21** pp. 262–263.

Ophiotaenia theileri in *Naja haje* S. Africa pp. 184–198 figs. 1–5, *Zschokkei* in *Naja haje*, S Africa, pp 198–208 figs. 6–7, *macrobothria* in *Elaps corallinus* (?) pp. 214–221 figs. 8–13, *hyalina* in a Brazilian snake pp. 221–231 figs. 14–17, *flava* in a Brazilian snake pp. 231–250 figs. 18–25, *san-bernardinensis* in *Helicops leprieuri* Paraguay pp. 250–259, *paraguayensis* in *Coluber sp.* Paraguay pp. 259–264, *adiposa* in *Bitis arietans* Cameroons pp. 264–274, **spp. n.**, RUDIN Rev. Suisse Zool. Geneva **25** 1917; *elapsoideae* in *Elapsoides guentheri* pp. 132–135 fig. 1, *crotophopeltis* in *Crotophopeltis torniari* p. 135 pl. xvi figs. 1–3, **spp. n.**, Tanganyika, SANDGROUND Proc. Boston Soc. Nat. Hist. **39** 1928; *testudo* Magath 1924 referred to *Crepidobothrium*, MAGATH Ann. Trop. Med. Parasit. Liverpool **23** pp. 121–128 pl. iii.

Otobothrium balli **sp. n.** in cysts in intestinal submucosa and mesenteries of *Cybium guttatum*, *Lethrinus ornatus*, *Balistes stellatus* and *Aprion pristipoma*, SOUTHWELL Ceylon J. Sci. B **15** 1929 pp. 295–296 fig. 50.

Phyllobothrium microsomum **sp. n.** in intestine of *Ginglymostoma concolor* Ceylon, SOUTHWELL & HILMY Ann. Trop. Med. Liverpool **23** 1929 pp. 381–383 2 figs.

Progynopylidium Skrjabin 1924 syn. of *Diplopylidium* Beddard 1913, BAYLIS Manual p. 100.

Proteocephalus pugetensis **sp. n.** in intestine of *Gasterosteus cataphractus* N. America, HOFF & HOFF Trans. Amer. Micr. Soc. Menasha **48** pp. 54–61 pl. x.

Pseudolytocestinae **subf. n.** *Caryophyllaeidae*, HUNTER J. Parasit. Urbana **15** p. 187; renamed *Capingentinae*, HUNTER J. Parasitol. **16** p. 110.

Pseudolytocestus **gen. n.** *differtus* **sp. n.** in intestine of *Ictiobus bubalus* Mississippi, HUNTER J. Parasit. Urbana **15** 1929 pp. 187–188 figs. 4–6.

Raillietina rangoonica **sp. n.** in the fowl, Burma, SUBRAMANIAN J. Burma Res. Soc. Rangoon **18** 1928 pp. 78–79 1 fig.; *taylori* **sp. n.** from *Psittacus erythracus* Lagos, BAYLIS Ann. Mag. Nat. Hist. (10) **4** pp. 381–384 figs. 1–2; *echinobothrida* (Mégnin) pp. 564–601 figs. 1–20, *tetragona* (Molin) pp. 602–605 figs. 21–24, *cesticillus* (Molin) pp. 606–607 figs. 25–27 redescribed, LANG Z. Parasitenk. Berlin **1**.

Rhabdometra dendrocitta **sp. n.** in *Dendrocitta rufa*, India, WOODLAND Parasitol. Cambridge **21** pp. 175–178 figs. 16–25; *melierax* **sp. n.** in intestine of *Melierax gabar*, Soudan, WOODLAND Proc. Zool. Soc. London **1929** i pp. 25–27 pl. i figs. 1–7; *similis* Ransom transferred to genus *Paruterina*, JONES Proc. U.S. Nat. Mus. **75** 1929 20 p. 6.

Spartoides **gen. n.** *Caryophyllaeidae wardi* **sp. n.** in intestine of *Carpiodes spp.* and *Ictiobus cyprinella* Mississippi, HUNTER J. Parasit. Urbana **15** 1929 pp. 188–189 figs. 7–9.

Spirometra **subgen. n.** *Diphyllobothrium*, type *D. decipiens* (Dies.), FAUST, CAMPBELL & KELLOGG Amer. J. Hyg. Baltimore **9** p. 577.

Stenobothrium syngenes **sp. n.** pp. 5–25 28 figs., *pelliatum* Linton pp. 26–28 fig. 31 in stomach of *Sphyrna zygaena*, Bonin Island, PINTNER Göteborgs Vetensk. Samh. Handl. B **1** No. 8.

Stilesiidae **fam. n.**, type *Stilesia* Raill., SKRJABIN Trud. Gos. Inst. Exp. Vet. Med. Moscow **3** 2 1926 p. 59.

Taenia odiosa Leidy transferred to genus *Rhabdometra*, JONES Proc. U.S. Nat. Mus. **75** 1929 art. 20 pp. 1–5 pl. 1; *rileyi* **sp. n.** in intestine of *Lynx canadensis*, U.S.A., LOEWEN Parasitol. Cambridge **21** pp. 449–471 pl. xxi.

Tentacularia johnstonei in *Dasybatus sephen* pp. 238–240 fig. 19, *michiae* in *Rhynchobatus djiddensis*, *Dasybatus sephen* and *D. kuhlii* pp. 240–242 fig. 20, *obesa* in *Dasybatus sephen* pp. 242–243 fig. 21, *pillersi* in muscles of *Cossyphus axillaris* pp. 249–252 fig. 25, *macfiei* in muscles and mesenteries of various fishes pp. 252–255 fig. 26 **spp. n.** Ceylon, SOUTHWELL Ceylon J. Sci. B **15** 1929.

Tetrabothrius sarasini **sp. n.** in *Sterna bergii* New Caledonia, FUHRMANN Nova Caledonia **2** iv 1918 pp. 406–412 figs. 1–8 pl. xiii fig. 1; *sulae* pp. 132–136 figs. 1–5, *Drygalskii* pp. 137–139 figs. 6, 6a, *Hoyeri* pp. 139–141 figs. 7–9 in *Sula sp., fregatae* in *Fregata aquila* pp. 141–145 figs. 10–12, **spp. n.** SZPOTÁNSKA Bull. Acad. Cracovie B **1928**.

Tetrarhynchobothrium nannocephalum **sp. n.** in intestine of *Squalus blainvillii* (?) Japan, PINTNER Göteborgs Vetensk Samh. Handl. B **1** no. 8 1929 pp. 28–35 figs. 32–35.

Tetrarhynchus shipleyi pp. 264–265 fig. 32, *ceylonicus* pp. 265–267 fig. 33, *matheri* pp. 267–268 fig. 34 in intestine of *Ginglymostoma concolor, pearsoni* in mesenteries of *Cybium guttatum* pp. 271–272 fig. 36 **spp. n.** Ceylon, SOUTHWELL Ceylon J. Sci. B **15** 1929; *surmenicola* **sp. n.** in proboscis of *Ommastrephes sloani pacificus* Japan, OKADA in DOLLFUS Ann. Parasitol. Paris **7** p. 338 footnote figs. 10–12.

Thysaniezia **gen. n.** type *Thysanosoma ovilla* (Rivolta), SKRJABIN Trud. Gos. Inst. Exp. Vet. Moscow **3** 2 1926 p. 64.

Weinlandia phalacrocorax **sp. n.** in intestine of *Phalacrocorax carbo*, India, WOODLAND Parasitol. Cambridge **21** pp. 168–173 figs. 1–8.

NEMERTINEA.

Baseodiscus antarcticus **sp. n.** Antarctic, BAYLIS Brit. Antarct. Exp. 1910 **2** 5 1915 pp. 120–121 pl. i figs. 4, 6.

Epithetosoma Danielson & Koren 1881 referred to *Heteronemertinea* (genus *Micrura* or *Lineus*), generic name must lapse, BOCK Bergens Mus. Aarbog 1919–1920 Nat. Vid. R. no. 9 5 pp.

Lineus scotti **sp. n.** pp. 129–132 pl. ii figs. 1–6, *corrugatus* McInt. pp. 122–129 text-figs. 3–4 Antarctic, BAYLIS Brit. Antarct. Exp. 1910 **2** 5 1915.

Planolineus exsul de Beauch. Java (Buitenzorg), DE BEAUCHAMP Treubia Buitenzorg **10** pp. 424–428 figs. 6–9.

NEMATHELMINTHIA.

SUBJECT INDEX.

COMPREHENSIVE AND GENERAL.

Text Books.—BAYLIS, **61**; FAUST, **272**; HEGNER, ROOT & AUGUSTINE, **362**; MAROTEL, **543**; PAWLOWSKY, **633**.

Reviews, Addresses.—CAMERON, **133**; LEIPER, **499**.

Classification, Nomenclature.—FILIPJEV, **282**; RAILLIET, **674**; SKRJABIN & SCHULZ, **791**; STEINER, **818**; STILES & HASSALL, **832**; TRAVASSOS, **887, 894, 911**.

Collections.—STEINER, **819**.

Economics.—*Relation to disease: in plants*: BODENHEIMER, **103**; EDWARDS, **247**; ELLINGER, **250**; GODFREY, **321**; GOODEY, **327**; MORGAN & PETERS, **582**; SMITH & MILES, **801**; STEINER & DODGE, **826**; TRIFFITT, **931, 932**; *in birds*: SCHMID, **720**; TAYLOR, **878**; *in mammals*: BAUDET, **55, 56**; COHRS, **193**; DOBROVOLSKAIA-ZAVADSKAIA & KOBOZIEFF, **231**; DONATIEN & LESTOQUARD, **241**; HIYEDA & FAUST, **378**; HOPKIRK, **388**; JONES, **447**; KLARENBECK, **468**; KRAUS, **486**; ROSS, **699, 700**; SCHMID, **720**; SZIDAT, **861**; VOGEL, **953**; *in man*: CORT, **199**; CORT, STOLL, SWEET, RILEY & SCHAPIRO, **201**; FÜLLEBORN, **305, 306**; NICOLL, **602, 603**; SKRJABIN & SCHULZ, **789**.

Technique.—ACKERT & NOLF, **5**; BENBROOK, **88**; BIDEGARAY, **97**; BRUG, **116**; CANNING, **140**; CHANDLER, **151**; COBB, **172, 185**; COLLIER, **194**; CORT, ACKERT, AUGUSTINE & PAYNE, **200**; COVENTRY, **206**; DOUBROW & ROUSSET, **242**; FISCHER, **286**; HILL, **373**; LANE, **492, 493**; MAPLESTONE, **541**; PETERS, **646**; PRZIBRAM, **672**; REICHENOW & WÜLKER, **680**; SANKIN, **715**; SCHRÖPL, **726**; SCHULZ & KANKROFF, **731**; SCOTT, **744**; SEDLMEIER, **747**; SERBINOW & SCHULMANN, **755**; SINCLAIR, **769**; SKRJABIN, **784**; SMIRNOW, **797**; SMITH & PRENTICE, **802**; SPINDLER, **810**.

STRUCTURE.

General morphology.—ALLGÉN, **16, 18, 19**; CAMERON, **131**; COBB, **171, 173, 177**; COHEN, **192**; DANHEIM & ACKERT, **213**; FILIPJEV, **284**; GOFFART, **324**; GOODEY, **328**; HARADA, **352**; MAPLESTONE, **539**; MIRZA, **575**; RAUTHER, **679**; REMANE, **686**; SCRJABINE, **746**; SEMENOW, **752**; SKRJABIN, **783**; TRIFFITT, **933**.

Genitalia.—CHITWOOD, **160**.

Ambulatory tubes.—COBB, **183**.

Mandibles.—COBB, **170**.

Oesophagus.—HSÜ, **394**.

Histology.—MUELLER, **591**.

PHYSIOLOGY.

Environmental effects, Response to stimuli.—Cobb, 179; Heydon, 371; Khalil, 462; Mueller, 591; Shindo, 764; Smith, 800; Zawadowsky *et alii*, 1007.

Secretions.—Cobb, 176; Schwartz, 733.

Metabolism.—Müller, 593; Resnitschenko, 687.

REPRODUCTION AND DEVELOPMENT.

General, Life-cycle. — Bacigalupo, 48; Baylis, 70; Bogojawlensky & Demidowa, 104; Cram, 209, 210; Goto & Asada, 330; Janicki & Rasin, 438; Kobayashi, 470; Low, 518; Ono, 621; Perez, 641; Schwartz & Price, 738; Thomas, 881.

Larval forms.—Coutelen, 204; Eisma, 248; Faust, 269; Fülleborn, 303, 305; Morgan, 581; Pessôa & Corrêa, 644; Price, 671; Steiner, 820; Stekhoven, 827; Van Thiel, 944.

Embryogeny, Development.—Asada, 38; Augustine, 45; Baudet, 57; Filipjev, 284; Lane, 494; Lerche, 501; Pandit, Pandit & Iyer, 631; Scott, 743; Stoll, 836; Szidat, 856.

Larval culture.—Coutelen, 205; McCoy, 527, 529.

Sex-determination.—Christie, 162; Comas, 195.

Hermaphroditism. — Allgén, 17; Cobb, 184.

Oogenesis, Oviposition.—Avinée & Tiprez, 47; Cram, 207; Dikmans, 227; Kosmin, 484; Matsuzaki, 548; Moretti, 580; Oba, 609; Otto, 622; Spindler, 813; Szwejkowska, 865; Zawadowsky, 1003; Zawadowsky & Schalimov, 1005.

ETHOLOGY.

Bionomics.—Alfejew, 12; Chandler, 152; Cobb, 174, 180; Demel, 223; Fülleborn, 304; Goffart, 324; Hoeppli, 382; Lewaschoff; 503; Nishiwo, 604; Pandit, Pandit, & Iyer, 629; Pemberton, 635; Sandground, 714; Sarles, 717; Scott, 741, 742; Spindler, 811; Stekhoven, 828; Stunkard, 843; Suganuma, 848; Thorne, 882; Triffitt, 933, 934; Yoshida, 999; Zawadowsky *et alii*, 1006.

Transmission; mode of infection.—Alfeeva, 11; Augustine, 44; Berger & Stähelin 92; Cilento 163; Doerr & Schmidt, 232; Dunschen, 246; Fülleborn, 305, 307; Hiraishi, 376; Johnston & Bancroft, 445; Momma, 577; Nicoll, 601; Payne, 634; Schwenck, 739; Stoll, 835, 837; Wülker, 992; Yamada, 995; Zawadowsky & Schalimov, 1004.

Parasitism; effects on hosts.—Cram, 208; Delbango, Mühlens & Vogel, 220; Dive & Lafrenais, 230; Erschov, 252; Harant, 353; Heydon, 372; Hoeppli, Hsü & Wu, 383; Itagaki, 431; Khaw, 465; Martin, 544; Sakaguchi, 710; Schwartz, 735, 736; Skrjabin & Schulz, 792; Smirnow & Glasunow, 798.

Parasitism: Hosts.—*Plantae*: Fuchs, 290; Goodey, 327; Rahm, 673; Steiner, 821, 825. *Invertebrata*: Artigas, 35-37; Cobb, 175; Fuchs, 291, 292; Gösswald, 329; Hall, 349; Plank, 659; Schuurmans-Stekhoven, 732; Schwenck, 740; Sergiev, 756; Sinitsin, 772; Steiner, 824; Travassos, 900, 915; Wülker, 993. *Pisces*: Cobb, 181; Fujita, 296, 297; Grieg, 337; Isaitschikow, 426; Skrjabin, 776; Thomas, 881; Travassos, 891, 896; Travassos, Articas & Pereira, 925; Van Cleave, 939; Verma & Datta, 949; Wu, 989. *Amphibia*: Dinnik, 228; Isaitschikow, 418, 422; Semenow, 753; Travassos, 903, 910, 924; Walton, 960. *Reptilia*: Baylis, 62, 63; Cobb, 178; Pandit, Pandit & Iyer, 630; Pereira, 639; Seurat, 759, 760; Sprehn, 814; Travassos, 892, 893, 904. *Aves*: Canavan, 138; Datta, 214; Fielding, 280; Grieg, 337; Haaland, 343; Hoh, 385; Korolev, 481; López-Neyra, 512; Lubimow, 519; Mazza & Franke, 553; Morishita, 584; Pandit, Menon & Iyer, 628; Panowa, 632; Petroff, 647; Rumball, 707; Semjonoff, 754; Seurat, 758, 761; Skrjabin, 775; Spaul, 809; Travassos, 898; Wassilkowa, 963; Williams, 974. *Mammalia*: Alicata, 13; Baskakow, 53; Baylis, 68; Brieg & Jenson, 113; Cameron, 134; Canavan, 138; Daubney, 215;

FIELDING, 281; GRUBER, 338; HOEFPLI, 381; IHLE, 408-412; ISAITSCHIKOW, 420, 421, 427; KALANTARIAN, 459; KOTLÁN, 485; MAPLESTONE, 538, 540; PETROW & SCHACHOWZEWA, 649; PILLERS & SOUTHWELL, 655; POPOW, 662; PRICE, 666, 669; RAILLIET, 675; RAJEWSKY, 677; RILEY, 691; ROE, 698; SANDGROUND, 712; SCHULZ, 727-729; SCHWARTZ, 734; SEURAT, 757; SKRJABIN, 779, 780; SMIT & NOTOSOEDIRO, 799; STILES & NOLAN, 833; SWIFT, BOOTS & MILLER, 852; TANABE, 872; TAYLOR, 877; TRAVASSOS, 889, 890, 897, 902, 907, 913, 916, 918, 923; VAZ & PEREIRA, 946; WEISS, 967; WOOD, 983, 984; WU, 990; ZUNKER, 1009. *Homo*: CHIARI, 157; ESPIÉ, 255; FAUST, 270; FUKUDA & KATSURADA, 298; KOFOID & WHITE, 474; RICHARDS, 688; SANDGROUND, 713; WARD, 961; WATANABE, 964. *Vertebrata*: CANAVAN, 139; KOHN, 475; STRONG, SHATTUCK, BEQUAERT & WHEELER, 841.

OCCURRENCE, FAUNAS.

Europe.—ALLGÉN, 20, 23; ANDRÉ, 29; BEHNING, 83; BORNER, 106; DERJUGIN, 224; DITLEVSEN, 229; FILIPJEV, 284; GALLI-VALERIO, 310; GOFFART, 323; GOODEY, 325; HNATEWYTSCH, 379; HODSON, 380; KREIS, 487; LEWASCHOFF, 502; LÓPEZ-NEYRA, 515; MAKHVILADZE & DIDEBULADZE, 536; PESTA, 645; SKRJABIN, 778; SKRJABIN & SCHULZ, 790; SKRJABIN *et alii*, 795; STEFANSKI, 816; STEINER, 822.

Asia.—BAYLIS, 65; BRUG, 117; CHANDLER, 149; DE MAN, 222; KING, PANDIT, MENON & IYER, 467; KREIS, 488; LANE, 490; LINDTROP, 505; MAPLESTONE, 542; MICOLETZKY, 573; NAUCK & YÜ, 599; NOTOSOEDIRO & IHLE, 607; SKRJABIN, 778; SKRJABIN & PODYAPOLSKAJA, 786; SKRJABIN & SCHULZ, 793; WU & HOEPPLI, 991; YOKOGAWA, 997, 998.

Africa.—BAYLIS, 66, 69; CALLANAN, 130; CURSON, 211; DOLLFUS, 236; FILIPJEV, 283; SANDGROUND, 711; SEURAT, 762.

America.—BAYLIS, 69; CAMERON, 132; COBB, 182; DELACHAUX, 219; ESCOMEL, 253; MAZZA, 552; PRATT, 664; STEINER, 823; THORNE, 883; WILLIAMS, 973.

Australasia.—ALLGÉN, 24; IRWIN-SMITH, 415.

Antarctic.—ALLGÉN, 21, 22; COBB, 169; LEIPER & ATKINSON, 500; VAN CLEAVE, 940.

General.—METCALF, 562.

SYSTEMATIC.

(*a*) Nematoda.

Abreviata **gen. n.** *Physalopterinae*, type *Physaloptera abbreviata* Rud., TRAVASSOS Mem. Inst. Oswaldo Cruz **12** 1920 p. 73; syn. of *Physaloptera*, ORTLEPP Proc. Zool. Soc. London **1922** p. 1008.

Acanthocheilus quadridentatus (Molin) in stomach of *Mustelus vulgaris*, S. Africa, BAYLIS Discovery Reports **1** pp. 548–550 figs. 5–6.

Acanthoxyuris **gen. n.** *anomaluri* **sp. n.** in *Anomalurus orientalis*, Tanganyika, SANDGROUND Proc. Boston Soc. Nat. Hist. **39** 1928 pp. 147–150 pl. xxi figs. 1–3.

Achromadora Cobb 1913 syn. of *Cyatholaimus* Bast., BAYLIS & DAUBNEY Synopsis of the Nematoda 1926 p. 125.

Acoma filicauda p. 27 pl. i fig. 1, *brevicauda* p. 28 pl. ii fig. 4 **spp. n.** Normandy coast, KREIS Capita zool. **2**; *filiformis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 435 fig. 2.

Acrobeles armatus **sp. n.** China, KREIS Zool. Anz. Leipzig **34** pp. 285–287 fig. 2; *crossotus* **sp. n.** in diseased bulbs of *Iris tingitana*, STEINER Z. morph. Ökol. Tiere Berlin **15** pp. 547–558 13 figs.

Actinolaimus africanus pp. 434–436 fig. 1, *hutchinsoni* pp. 437–439 fig. 2 **spp. n.** S. Africa, FILIPJEV Ann. Mag. Nat. Hist. London (10) **4**; *nudus* **sp. n.** China, WU & HOEPPLI Arch. Schiffs. Trop. Hyg. **33** Beiheft **1** p. 37 figs. 10–13.

Acuaria nebraskensis in gizzard of *Corvus brachyrhynchus* pp. 85–88, *minor* pp. 89–92, *pattoni* pp. 92–94, in gizzard of *Sturnella neglecta*, *minuta* in *Quiscalus quiscula aeneus* pp. 94–95, *quiscula* in *Quiscalus quiscula aeneus* and *Dryobates*

Allantonema picei **sp. n.** in *Hylobius piceus*, FUCHS Z. Parasitenk. Berlin **2** pp. 265–267 figs. 20–21.

Allodapa brumpti **sp. n.** in coeca of *Gallus gallinaceus* pp. 411–415, *Bolivari* in coeca and rectum of *Athene noctua* pp. 416–418 **spp. n.** Spain, LÓPEZ-NEYRA Bol. R. Soc. Españ. Hist. Nat. Madrid **22** 1922; *Skrjabini* **sp. n.** pp. 95–97 figs. 3–6, *noctuae gallinae* **subsp. n.** p. 100 fig. 7 in *Coturnix coturnix*, Russia, SEMJONOFF Naugnich Isvestia Smolensk **3** i 1926.

Amidostominae **subf. n.** *Strongylidae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 65.

Amidostomum raillieti Skrj. in coecum of *Fulica atra* pp. 474–475 figs. 5–6, *henryi* Skrj. in gizzard of *Vanellus cristatus* pp. 475–477 figs. 7–9, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915.

Amphimonhystera **gen. n.** *Monhysteridae*, type *Monhystera anechma* Southern ALLGÉN Capita Zool. **2** 8 1929 pp. 40–41.

Anatonchus **subg. n.** *Mononchus*, type *tridentatus* De Man, COBB, J. Parasitol. Urbana **2** 1916 p. 196.

Ancylostoma japonica **sp. n.** [*sc. japonicum*] in intestine of man, Japan, FUKUDA & KATSURADA Trans. Japan. Pathol. Soc. Tokyo **15** 1925 pp. 252–253, Zbl. Ges. Hyg. **15** 1927 p. 82.

Angra **gen. n.** *Thelastomidae*, *angra* **sp. n.** in intestine of *Julidae* S. America, TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 suppl. 5 pp. 23–24 figs. 6–12.

Anguillulata **subord. n.** [?], FILIPJEV J. Parasit. Urbana **15** p. 282.

Anisakis catodontis **sp. n.** in stomach of *Physeter catodon*, S. Africa, BAYLIS Discovery Reports Cambridge **1** p. 544 fig. 1.

Anoplostoma elegans **sp. n.** Normandy coast, KREIS Capita zool. **2** pp. 37–38 fig. 10.

Antennocara **gen. n.** *Acuariidae*, *skrjabini* **sp. n.** in *Larus canus* Kasakstan, WASSILKOWA Trud. Gos. Inst. Exp. Vet. **4** i 1926 p. 105. [N.V.]

Anticoma subsimilis **sp. n.** Antarctic. COBB Nematodes Shackleton Exped. Baltimore 1914 p. 11 fig.

Aphelenchus **subg. n.** *Aphelenchus*, type *A. avenae* Bast., COBB, J. Parasit. Urbana **14** 1927 p. 57; *naticochensis* **sp. n.**, *dubius var. peruensis* **var. n.**, DELACHAUX Bull. Soc. Neuchâtel **1** 1928 p. 48; *parietinus var. sinensis* **var. n.** China, WU & HOEPPLI Arch. Schiffs. Trop. Hyg. Leipzig **33** Beiheft 1 p. 36 fig. 4; *pusillus* **sp. n.** Colorado, THORNE Trans. Amer. Micr. Soc. Menasha **48** pp. 182–183 figs. 2 a–b.

Aplectana vellardi **sp. n.** in large intestine of *Bufo marinus*, Brazil, TRAVASSOS Bolet. biol. S. Paulo 1926 fasc. 4 pp. 94–96 2 figs.; *americana* in intestine of *Rana pipiens*, *R. palustris* and *R. catesbiana* pp. 233–234 figs. 24–27, *longicaudata* in *R. pipiens* p. 234 figs. 28–30, **spp. n.** N. America, WALTON J. Parasit. Urbana **15**; *loveridgei* **sp. n.** in *Bdellophis vittatus* Tanganyika, SANDGROUND Proc. Boston Soc. Nat.

Hist. **39** 1928 p. 140 pl. xvii figs. 1–3, transferred to *Oxysomatium*, BAYLIS Ann. Mag. Nat. Hist. London (10) **4** pp. 373–375.

Aplectus **gen. n.** *antarcticus* **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 p. 12.

Aproctoides **gen. n.** *Filariinae, lissum* **sp. n.** from orbital cavity of magpie robin (*Copsychus saulatus*), Calcutta Zoo, CHANDLER Proc. U.S. Nat. Mus. **75** 6 pp. 3–5 figs. 5–6.

Araeolaimus longicauda **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 490 fig. 44.

Archepsilonema **gen. n.**, STEINER J. Parasit. Urbana **14** 1927 p. 66.

Archionchus Cobb 1913 syn. of *Diphtherophora* De Man, BAYLIS & DAUBNEY Synopsis 1926 p. 73.

Ascaridata **subord. n.**, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 p. 481.

Ascaridiinae **subf. n.** *Ascaridae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 64.

Ascaris kirghiensis **sp. n.** in intestine of *Aquila imperialis*, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 p. 486 figs. 17–18.

Ascolaimus **gen. nom. n.** *pro Bathylaimus*, DITLEVSEN Vid. Medd. Naturh. Foren. Copenhagen **70** 1919 p. 299.

Aspiculuris **gen. n.** *Oxyuridae*, type *Oxyuris tetraptera* (Nitzsch), SCHULZ Trud. Trop. Inst. Armenia **1** 1924 [N.V.], Ann. Trop. Med. Parasit. Liverpool **21** 1927 p. 267.

Asymmetrica **gen. n.** *Oxystominae, brevicauda* **sp. n.** Normandy coast pp. 26–27 pl. ii fig. 2, KREIS Capita zool. **2**.

Atractidae **fam. n.** *Rhabdiasoidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 62.

Auchenacantha **gen. n.** *Oxyuridae* p. 261, *galeopteri* pp. 257–260 figs. 2–5, *spinosa* p. 260 figs. 6–7 in intestine of *Galeopterus variegatus* **spp. n.** Java, BAYLIS Parasitol. Cambridge **21**.

Austronema **gen. n.** *spirurum* **sp. n.** Antarctic, COBB Antarct. Free-living Nematodes Shackleton Expedition, Baltimore 1914 pp. 16–17 1 fig.; syn. of *Monhystera* Bast. BAYLIS & DAUBNEY Synopsis 1926 p. 80.

Axonolaimus polaris **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 p. 30.

Bathyepsilonema **gen. n.** *Epsilonematidae*, STEINER J. Parasit. Urbana **14** 1927 p. 66.

Binema binema Trav. p. 417 figs. 1–3, *ornata* Trav. p. 418 figs. 4–7 in intestine of *Neocurtilla hexadactyla*, Brazil, TRAVASSOS Sciencia Med. Rio de Janeiro **3** 1925.

Bogdanowia **gen. n.**, ZOGRAF Zool. Anz. Leipzig **41** 1913 p. 164; syn. of *Bunonema* Jägersk., BAYLIS & DAUBNEY Synopsis 1926 p. 58.

Bolbella angusta **sp. n.** Normandy coast, KREIS Capita zool. **2** p. 40 fig. 11.

Bulbopharyngiella **gen. n.** *granulata* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 491 fig. 45.

Bulhõesia Schwenck 1926 syn. of *Thelastoma* Leidy, TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 Suppl. 5 p. 21.

Butlerius **gen. n.** *butleri* **sp. n.** in rotted banana roots, GOODEY J. Helminth. London **7** pp. 41–45 figs. 19–21.

Camacolaimus propinquus **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 446 fig. 11.

Camallanoidea **superfam. n.** TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 69.

Camallanus cotti **sp. n.** in intestine of fishes, Japan, FUJITA Dobuts. Zasshi **39** 1927 p. 39; *wolgensis* **sp. n.** in intestine of *Pelecus cultratus* River Volga, LEWASCHOFF Z. Parasitenk. Berlin **2** pp. 123–126 figs. 4–5.

Capillaria piscicola, minima p. 29 figs. **spp. n.** in fishes, Brazil, TRAVASSOS ARTIGAS & PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928; *tuberculata* (Linst.) in intestine of *Pelecus cultratus*, River Volga, LEWASCHOFF Z. Parasitenk. Berlin **2** pp. 121–123 figs. 1–3.

Carnoya pyramboia **sp. n.** in intestine of a diplopod Myriapod, Brazil, ARTIGAS Bolet. biol. S. Paulo 1926 fasc. 3 pp. 60–62 figs. 8–14.

Cephalobium nitidum **sp. n.** in intestine of *Gryllotalpa sp.*, Brazil, ARTIGAS Bolet. Biol. S. Paulo **1929** 16 pp. 81–84 4 figs.

Cerascaris **gen. n.** (*Ascaridae*) *collare* **sp. n.** in *Gobiomorus maculatus* Caribbean Sea, COBB J. Parasit. Urbana **15** pp. 287–289 figs. 7–11.

Chaetosoma falcatum pp. 766–782 figs. 1–24 pls. xliv–xlv, *haswelli* pp. 782–798 figs. 25–47 pls. xlvi–xlvii **spp. n.** marine, Australia, IRWIN-SMITH Proc. Linn. Soc. N.S.W. **42** 1917.

Characostomum amucronatum Smit & Notosoediro 1926 transferred to *Globocephalus*, SMIT & IHLE Zbl. Bakt. Jena (2) **75** 1928 p. 1.

Cheironchus **gen. n.** *vorax* **sp. n.** Florida, COBB Contributions to a science of Nematology v 1917 p. 119 fig. 5.

Chevreuxia **gen. n.** *Acuariidae*, type *Spiroptera revoluta* Rud., SEURAT Bul. Soc. Hist. Nat. Afrique Nord Algiers **9** 1918 pp. 106–109 2 figs.

Chitinoaphelenchus Micoletzky 1922 syn. of *Aphelenchus*, BAYLIS & DAUBNEY Synopsis 1926 p. 67.

Chitinotylenchus Micoletzky 1922 syn. of *Anguillulina*, BAYLIS & DAUBNEY op. cit. p. 66.

Chloronemella **gen. n.** *filiformis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 481 fig. 36.

Chromadora meridiana **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 p. 22–23; *exigua* **sp. n.** Normandy coast, KREIS Capita zool. **2** p. 55 fig. 19; *paramucrodonta* **sp. n.** Macquarie Island pp. 119–122 fig. 1, *mucrodonta* Steiner var. *antarctica* **var. n.** Antarctic pp. 137–138 fig. 5, ALLGÉN Zool. Anz. Leipzig **84**.

Chromadorata **subord. n.** [?], FILIPJEV J. Parasit. Urbana **15** p. 281.

Chromadorella Filipjev 1918 syn. of *Chromadora*, BAYLIS & DAUBNEY op. cit. p. 126.

Chromadorina Filipjev 1918 syn. of *Chromadora*, BAYLIS & DAUBNEY loc. cit.

Chromadoropsis Filipjev 1918 syn. of *Desmodora*, BAYLIS & DAUBNEY op. cit. p. 129.

Chromagaster zostericola p. 462, *tenuissima* p. 464, *latissima* p. 465 figs., Sweden, **spp. n.**, ALLGÉN Zool. Jahrb. Syst. **57**.

Chromaspirura Filipjev 1918 syn. of *Chromaspira*, BAYLIS & DAUBNEY op. cit. p. 122.

Chrysonema **gen. n.** *Dorylaiminae aurum* **sp. n.** Colorado, THORNE Trans. Amer. Micr. Soc. Menasha **48** pp. 189–190 fig. 10 a–e.

Cloacinidae **fam. n.** *Strongyloidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 66.

Cobbia simplex p. 475, *cyatholaimoides* p. 477 figs., **spp. n.**, Sweden, ALLGÉN Zool. Jahrb. Syst. **57**.

Colobostrongylus **gen. n.** *Strongylidae strongi* **sp. n.** in intestine of *Colobus polykomos* (Colobus monkey) Liberia, SANDGROUND Proc. U. S. Nat. Mus. **75** 12 pp. 8–11 pl. i.

Conispiculum **gen. n.** *Microplewrinae, guindiensis* **sp. n.** in connective tissue and mesentery of *Calotes versicolor*, Madras, PANDIT, PANDIT & IYER Ind. J. Med. Res. Calcutta **16** 1929 pp. 954–959 2 pls.

Conolaimus Filipjev 1918 syn. of *Axonolaimus*, BAYLIS & DAUBNEY op. cit. p. 83.

Conoweberia **subg. n.** *Oesophagostomum* for *O. apiostomum* and *O. brumpti*, IHLE Bijdr. Dierk. Natura Art. Magist. Amsterdam **22** 1922 p. 92; suppressed, GOODEY J. Helminth. **2** 1924 p. 97.

Contortospiculum Skrjabin 1915 syn. of *Dicheilonema* Diesing, BAYLIS & DAUBNEY op. cit. p. 203.

Contracaecum kamaënsis **sp. n.** River Volga, free, STEINER Zbl. Bakt. Jena ii **77** pp. 369–372 8 figs.; *zenis* **sp. n.** in *Zeus capensis* off S.W. Africa, BAYLIS Discovery Reports **1** pp. 547–548 fig. 4.

Cooperia nicolli pp. 530–532 figs. 1–3, *fieldingi* pp. 532–533 figs. 4–5 **spp. n.** in *Bos taurus*, Queensland, BAYLIS Ann. Mag. Nat. Hist. London (10) **4**.

Cosmocephalus obvelata var. magna **var. n.** in *Larus cachinnans* and *L. canus* Russia, WASSILKOWA Trud. Gos. Inst. Exp. Vet. **4** i 1926 p. 105. [N.V.]

Cothonolaimus **gen. nom. n.** *pro Macrolaimus* Ditl., DITLEVSEN Vid. Medd. Naturh. Foren. Copenhagen **70** 1919 p. 299.

Crassicauda **gen. n.** *Filariidae* type *Filaria crassicauda* (Crepl.) in renal tubules and stomach (wall ?) of humpback whale (*Megaptera*) Antarctic LEIPER & ATKINSON P. Z. S. London 1914 p. 226, Brit. Antarctic Exped. Rept., Zool. **2** 1915 pp. 29–30.

Crassolaimus **gen. n.** *Sphaerolaiminae, conicaudatus* **sp. n.** French coast, KREIS Capita zool. **2** p. 69 fig. 29.

Craterostomum spp. in horses, Holland, IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 33–37 figs. 21–26.

Criconema Hofm. and Menzel 1914 syn. of *Hoplolaimus*, MENZEL Rev. Suisse Zool. **25** 1917 p. 153.

Crystallonema simile **sp. n.** marine, COBB Contr. Sci. Nematol. **9** 1920 p. 282.

Cucullanus pinnai in *Pimelodus clarius* p. 17, *interrogativus* in *Salminus maxillosus* p. 18 figs., **spp. n.**, TRAVASSOS, ARTIGAS & PEREIRA Arch. Inst. Biol. São Paulo **1** 1928; *fraseri* **sp. n.** in rectum of *Chaenocephalus aceratus* and *Trematomus hansoni* pp. 553–554 figs. 10–11, *var. nototheniae* **var. n.** in intestine of *Notothenia gibberifrons* S. Georgia, BAYLIS "Discovery" Reports **1**.

Cyatholaimus microdentatus p. 448 *ampullaceus* p. 450, *suecicus* p. 451, *papilliferus* p. 452 figs. **spp. n.**, Sweden, ALLGÉN Zool. Jahrb. Syst. **57**.

Cylicocercus **subg. n.** *Cyathostomum* type *C. alveatum* Lss., IHLE Rep. Comm. Sclerostom. Holland **1** Zool. i 1922 p. 50.

Cylicocyclus **subg. n.** *Cyathostomum* type *C. radiatum* Lss., IHLE op. cit. p. 63.

Cylicodontophorus **subg. n.** *Cylicostomum* type *Cyathostomum coronatum* Lss., IHLE op. cit. p. 86.

Cylicostephanus **subg. n.** *Cylicostomum*, type *C. longibursatum*, IHLE op. cit. p. 77.

Cylicostomum **subg. n.** type *C. tetracanthum* Mehlis (Looss), IHLE op. cit. p. 39; *nanum* **sp. n.** in the horse, IHLE Tijdschr. Diergeneesk. Utrecht **46** 1919 p. 720; *brevicapsulatum* **sp. n.** in horse, Holland, IHLE Tijdschr. Diergeneesk. Utrecht **47** 1920 p. 182, Cbl. Bakt. Jena (1) **84** 1920 pp. 562–565 6 figs., Rept. Comm. Sclerostom. Holland **1** 1922 pp. 94–96 figs. 111–114; *ultrajectinum* **sp. n.** in horse, Holland and Hungary, IHLE Tijdsch. Diergeneesk. Utrecht **47** 1920 p. 279, Rept. Comm. Sclerostom. Holland **1** 1922 pp. 92–94 figs. 109–110; *sagittatum* p. 4, *leptostomum* p. 3, *hybridum* p. 5, **spp. n.**, in horse, KOTLÁN Allatorvosi Lapek 1920; IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 48, 76, 83; *calicatiforme* p. 9, *ornatum* p. 10, *cymatostomum* p. 11, *acuticaudatum* p. 12, *Rátzii* p. 13, **spp. n.** in the horse, Hungary, KOTLÁN Közlem. összeh. élet. kórt. köréből. Budapest **15** 1919; *acuticaudatum* **sp. n.** in horse, Hungary. KOTLÁN loc. cit., referred to *Craterostomum*, IHLE Cbl. Bakt. (1) **83** 1920 p. 273, Rept. Comm. Sclerostom. Holland **1** 1922 p. 36.

Cylindrolaiminae **subf. n.** *Rhabditidae*, MICOLETZKY Arch. Naturg. Leipzig A **87** 1922 p. 204.

Cylindropharynx spp. in horses Holland, IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 108–110 figs. 130, 131.

Cyrnea Seurat 1914 syn. of *Habronema*, BAYLIS & DAUBNEY Synopsis 1926 p. 211; *parroti* **sp. n.** in wall of gizzard of *Caccabis petrosa*, N. Africa, SEURAT Bull. Soc. Hist. Nat. Afrique Nord Algiers **8** 1917 pp. 214–215.

Cystidicola fischeri **sp. n.** in *Salvelinus maxillosus*, TRAVASSOS, ARTIGAS & PEREIRA Arch, Inst. Biol. São Paulo **1** 1928 p. 24 figs.; *salvelini* in intestine, *iwana* in pleural cavity of *Salvelinus malma* Lake Biwa, Japan **spp. n.**, FUJITA Dobuts. Zasshi Tokyo **40** 1928 p. 303.

Dacnitoididae **fam. n.** *Camallanoidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 69.

Dadayia Micoletzky 1922 syn. of *Pseudobathylaimus*, BAYLIS & DAUBNEY Synopsis p. 120.

Deltanema **gen. n.** (*Chromadoridae parva* **sp. n.** French coast, KREIS Capita zool. **2** pp. 44–45 fig. 13.

Dermatolaimus trichodes **sp. n.** Normandy coast, KREIS t.c. pp. 42–43 fig. 12.

Dermatopallarya **gen. n.** *Oxyuridae, baylisi* **sp. n.** in *Spermophilopsis leptodactylus* Turkestan, SKRJABIN Trud. Gos. Inst. Exp. Vet. Moscow **2** i 1924 pp. 6–9 2 figs.

Desmidocerca **gen. n.** (*Spiruridae* ?) *aërophila* **sp. n.** in air-sacs of *Ardea* and *Phalacrocorax* Turkestan, SKRJABIN Ann. Mus. Zool. Petrograd **20** 1915 p. 530; referred to *Filariidae*, SEURAT Bul. Soc. Hist. Nat. Afrique Nord Algiers **11** 1920 p. 9; to *Spiruridae*, BAYLIS & DAUBNEY Synopsis 1926 p. 214.

Desmodora abyssorum **sp. n.** pp. 134–136 fig. 4, *aucklandiae* Ditl. pp. 132–134 fig. 3 Antarctic, ALLGÉN Zool. Anz. Leipzig **84**; *microchaeta* p. 456, *polychaeta* p. 458, *problematica* p. 459 figs. **spp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57**; *serpentulus var. suecica* **var. n.** p. 30, *parabullata* **sp. n.** pp. 30–31 fig. 10 Sweden, ALLGÉN Capita Zool. **2** 8 1929.

Desmolaimus longicaudatus **sp. n.** Normandy coast, KREIS Capita zool. **2** p. 81 fig. 35; *viviparus* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 479 fig. 35.

Desmoscolecata **subord. n.** [?], FILIPJEV J. Parasit. Urbana **15** p. 282.

Desmoscolecidae **fam. n.**, SOUTHERN Proc. R. Irish Acad. Dublin **31** 1914, Clare Island Survey 54, p. 61.

Diaphanocephalidae **fam. n.** *Strongyloidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 65.

Dichromadora **gen. n.** *microdonta* **sp. n.** Normandy coast, KREIS Capita zool. **2** pp. 51–53 fig. 17.

Diplogaster brevicauda **sp. n.** *in* ELLINGER Intern. Corn Boreer Invest. Chicago 1928 [N.V.]; *horticola* **sp. n.** on cabbage, FUCHS Zool. Anz. Leipzig **81** 1929 pp. 229–237 8 figs.; *minor* **sp. n.** China, KREIS Zool. Anz. Leipzig **84** pp. 283–285 fig. 1; *mikoletzkyi* p. 207 fig. 10, *didentatus* p. 208 fig. 11, *subterraneus* p. 209 fig. 12, *dubius* p. 211 fig. 13 **spp. n.** Erzgebirge, HNATEWYTSCH Zool. Jahrb. Syst. **56**; *vorax* pp. 45–49 figs. 22–24, *microstoma* pp. 49–51 figs. 25–27 in pig manure, *winchesi* pp. 51–53 figs. 23–30 among decaying leaves **spp. n.** England, GOODEY J. Helminth. London **7**.

Diplotriaena nochti **sp. n.** in *Acridotheres cristallus* China, HOEPPLI & HSÜ Arch. Schiffs. Trop. Hyg. Leipzig **33** pp. 29–31 figs. 10–13.

Dirofilaria (?) *digatata* **sp. n.** in abdominal cavity of *Hylobates hoolock*. Calcutta Zoo, CHANDLER Proc. U. S. Nat. Mus. **75** 6 pp. 5–6 figs. 3–4.

Discolaimus Cobb 1913 syn. of *Dorylaimus* Duj., BAYLIS & DAUBNEY Synopsis 1926 p. 70.

Dorylaimellus Cobb 1913 syn. of *Dorylaimus* Duj., BAYLIS & DAUBNEY loc. cit.; *hopedorus* **sp. n.** Colorado, THORNE Trans. Amer. Micr. Soc. Menasha **48** pp. 187–188 figs. 8 a–c.

Dorylaimus vulvostratius, curvistilis **spp. n.**, STEFANSKI Rozpr. Wydziału Pol. Akad. Umiejet Krakowie **23–24** 1927 pp. 123–131; *incae* **sp. n.** Peru, DELACHEUX Bull. Soc. Neuchâtel. **1** 1928 p. 48; *selangorensis* **sp. n.** Selangor, DE MAN J. Fed. Malay States Mus. Singapore **14** pp. 352–355 6 figs.; *filiformis var. chekiengensis* **var. n.** China, WU & HOEPPLI Arch. Schiffs Trop. Hyg. **33** Beiheft 1 p. 37 figs. 5–9; *varicaudatus* pp. 183–184 figs. 3a–e, *uniformis* p. 186 figs. 6a–c **spp. n.** Colorado; *hartingii* de Man referred to *Nygolaimus*, THORNE Trans. Amer. Micr. Soc. Menasha **48** pp. 188–189 figs. 9a–c.

Dujardinia vandenbrandeni **sp. n.** in *Crocodilus cataphractus* and *C. niloticus* Belgian Congo, BAYLIS Ann. Mag. Nat. Hist. London (10) **4** pp. 46–49 3 figs.

Echinuria jugadornata Solowiow 1912 in *Anas boschas* Russian Turkestan, SKRJABIN Ann. Mus. Zool. Acad. Sc. Petrograd **20** 1915 pp. 507–508 figs. 22–24.

Enoplata **subord. n.** [?], FILIPJEV J. Parasit. Urbana **15** p. 281.

Enoploides Savelev 1912 syn. of *Enoplus* Duj. 1845, BAYLIS & DAUBNEY Synopsis 1926 p. 144; *dira pelle* **sp. n.** KREIS Capita zool. **2** pp. 29–31 pl. ii fig. 5.

Enoplolaimus derjugini **sp. n.** Gulf of Finland, FILIPJEV Arch. Hydrobiol. Stuttgart **20** pp. 677–679 fig. 1; *primitivus* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 441 fig. 6; *savaljevi* p. 13 fig. 3, *similis* p. 14 fig. 4, *macrochaetus* p. 15 fig. 5, *conicaudatus* p. 16 fig. 6, **spp. n.** Sweden, ALLGÉN Capita Zool. **2** 8 1929.

Enoplus tenuicaudatus p. 438 fig. 4 *nanus* p. 440 fig. 5 **spp. n.**, ALLGÉN Zool. Jahrb. Syst. **57**.

Enterobius pitheci in *Pithecus entellu* Assam pp. 169–171 figs. 15–18, *atelis* in *Ateles paniscus*, *A. ater* and *A. grisescens* S. America pp. 177–179 figs. 24–27 **spp. n.** with notes on species from monkeys, CAMERON J. Helminth. London **7**.

Epomidiostomum **gen. n.** *Trichostrongylidae*, *anatinum* **sp. n.** in *Anas boschas* Central Asia, SKRJABIN Ann. Mus. Zool. Acad. sc. Petrograd **20** 1915 p. 477–481 figs. 10–14; syn. of *E.* [*Strongylus*] *uncinatum* Lundahl 1848, YORKE & MAPLESTONE Nematode Parasites of Vertebrates 1926 p. 155; *skrjabini* **sp. n.** in *Anser anser* and *A. albifrons*, Russia, PETROW Trud. Gos. Inst. Exp. Vet. Sc. Moscow **3** i 1926 pp. 5–7 figs. 1–4.

Epsilonema **gen. nom. n.** *pro Rhabdogaster* Metschnikow 1867 *nec* Loew 1858 STEINER J. Parasit. Urbana **14** 1927 p. 66. [Cf. *Prochaetosoma* Baylis & Daubney 1926.]

Epsilonematidae **fam. n.** type *Epsilonema* STEINER loc. cit.

Euchromadora septentrionalis p. 26 *antarctica* p. 27, *denticulata* p. 28, *meridiana* pp. 28–29 **spp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914; *tridentata* **sp. n.** Sweden, ALLGÉN Capita Zool. **2** 8 1929 p. 35 fig. 11.

Eucoleus baskakowi **sp. n.** in *Citellus musicus planicola* Russia, SCHULZ Zbl. Bakt. Jena (1) **110** pp. 78–79 fig. 1.

Eumermis solenamphidis p. 315 figs. 10–13, *behningi* p. 317 figs. 14–17 **spp. n.**, STEINER Zool. Jahrb. Syst. **57**.

Eurystomina **gen. nom. n.** *pro Eurystoma* Marion 1870, FILIPJEV Trav. Lab. Zool. Stat. Biol. Sebastopol (2) **4** 1921 p. vi.

Eustrongylides excisa var. amoyensis **var. n.** in *Ardeola bacchus* China, HOEPPLI & HSÜ Arch. Schiffs. Trop. Hyg. **33** Beiheft pp. 24–26 figs. 1-5.

Falcaustra lambdiensis **sp. n.** in cœcum and rectum of *Clemmys leprosa*, SEURAT Bull. Soc. Hist. Nat. Afrique Nord **9** 1918 pp. 20–23; *catesbeianae* **sp. n.** in intestine of *Rana catesbeiana* N. America, WALTON J. Parasit. Urbana **15** pp. 235–236 figs. 31–36.

Filaria carinii **sp. n.** in pleural and peritoneal cavities of *Sciurus sp.* Brazil, TRAVASSOS Rev. Soc. Brasil Sci. Rio **3** 1919 (1920) pp. 189–190 2 figs.; *lagopodis* **sp. n.** in blood of *Lagopus lagopus* Norway, HAALAND Bergens Jaeger Fiskerforen. Rypeunders. no. 23 1928 pp. 10–13 fig. 2.

Filariata **subord. n.**, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 pp. 542–543.

Fimbriella **gen. n.** *kornöensis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 492 fig. 46.

Florencioia **gen. n.** *Kathlaniidae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 63; type *Ascaris mascula* Rud. in *Drymobius bifossatus* pp. 21–23 pls. vii–viii, *nitida* **sp. n.** in *Leptodactylus ocellatus* pp. 23–24 pl. ix Brazil, TRAVASSOS Arch. Escol. Sup. Agric. Med. Vet. Nictheroy **4** 1920; syn. of *Spironoura* Leidy, YORKE & MAPLESTONE Nematode Parasites 1926 p. 237.

Foleyella **gen. n.** *Filariidae* type *F. candezei* Fraipont 1882 in *Uromastix acanthinurus*, SEURAT Bull. Soc. Hist. nat. Afrique Nord **8** 1917 pp. 236–237; *ranae* in *Rana catesbeiana* pp. 236–237 figs. 37–41, *americana* in *R. pipiens* p. 237 figs. 42, 43 **spp. n.** N. America, WALTON J. Parasit. Urbana **15**; *scalaris* in *Leptodactylus occellatus*, *vellardi* in *Bufo marinus* **spp. n.** Brazil, TRAVASSOS C.R. Soc. Biol. Paris **100** 1929 pp. 967–968.

Fuellebornius Leiper 1926 cannot replace *Dracunculus* [adopted by Intern. Comm. Zool. Nomen. 1915], BAYLIS Manual 1929 p. 222 footnote; STILES & HASSALL Bull. Hyg. Lab. Washington **152** p. 462.

Galeiceps **gen. n.** *Thelaziidae*, type *Ancyracanthus cucullus* Linst., RAILLIET J. Parasit. Urbana **2** 1916 pp. 103–104.

Gireterakis **gen. n.** *girardi* **sp. n.** in intestine of *Hystrix bengalensis* India, LANE Ind. J. Med. Res. Calcutta **4** 1917 pp. 758–765 pls. xlvi–xlviii; syn. of *Heterakis* Duj., BAYLIS & DAUBNEY Synopsis p. 11.

Gnathostoma accipitri **sp. n.** in subcutaneous tissue of *Aquila imperialis* Russian Turkestan, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 pp. 535–538 figs. 47–49.

Goezinae [sc. *Goeziinae*] **subf. n.** *Heterocheilidae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 64.

Gullmarnia **gen. n.** *filiformis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 433 fig. 1.

Gyalocephalus capitatus Lss. (syn. *G. equi* Yorke & Macfie 1918) in horses, Holland, IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 106–108 figs. 126–129.

Habronema indica **sp. n.** in gizzard of *Coracias indica*, India, MAPLESTONE Rec. Ind. Mus. Calcutta **31** pp. 90–92 fig. 3.

Haemostrongylus raillieti **sp. n.** in pulmonary arteries of *Canis azarae* Brazil, TRAVASSOS Bolet. biol. S. Paulo **6** 1927 pp. 54–55 5 figs.

Halocercus pingi **sp. n.** in lungs of *Neomeris phocoenoides*, China, WU J. Parasit. Urbana **15** pp. 276–279 7 figs.

Hamannia Raill., Henry & Sisoff 1912 syn. of *Echinuria* Soloviev 1912, YORKE & MAPLESTONE Nematode Parasites 1926 p. 331.

Hastospiculum spinigerum **sp. n.** in peritoneum of *Varanus flavescens*, Calcutta Zoo, CHANDLER Proc. U.S. Nat. Mus. **75** 6 pp. 6–8 figs. 7–11.

Heligmosomum aculeatum pp. 197–198 *nematodiriformis* pp. 198–200 *alpha* p. 200, *beta* pp. 200–201, *gamma* pp. 201–202, *delta* pp. 202–203 **spp. n.** in mammals, Brazil, TRAVASSOS Rev. Soc. Brasil. Sci. Rio **3** 1919 (1920).

Heterakidae **fam. n.**, RAILLIET & HENRY Proc. 9th Internat. Cong. Zool. Monaco 1914 p. 674.

Heterakis altaica **sp. n.** in *Tetraogallus tibetanus* Central Asia, SPAUL Ann. Mag. Nat. Hist. London (10) **4** pp. 455–457 figs. 4–6; *nattereri* **sp. n.** in coecum of *Crax blumenbachi* Brazil, TRAVASSOS Folha Med. Rio de Janeiro **4** 1923 p. 58.

Hexametra **gen. n.** *Ascarinae*, type *Ascaris hexametra* Gedoe'st, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 64; syn. of *Polydelphis* Duj., BAYLIS & DAUBNEY Synopsis 1926 p. 2.

Hexodontostomum **gen. n.** *Strongylidae*, *markusi* **sp. n.** in horse, IHLE Cbl. Bakt. Jena (1) **84** 1920 pp. 43–46 4 figs.; syn. of *Poteriostomum imparidentatum* Quiel 1919, YORKE & MAPLESTONE Nematode Parasites 1926 p. 61.

Histiostrongylus paradoxus **sp. n.** in intestine of *Plagiostomidae* Brazil, TRAVASSOS Rev. Soc. Brasil. Sci. Rio **3** 1919 (1920) pp. 194–195.

Hoplolaimus rusticus var. peruensis **var. n.** Peru, DELACHAUX Bull. Soc. Neuchâtel. **1** 1928 p. 48.

Howardula **gen. n.** *benigna* **sp. n.** in cucumber beetle *Diabrotica*, COBB Contributions to a science of Nematology X 1921 pp. 1–4, Science, New York **54** 1921 p. 667; syn. of *Allantonema* Leuckart, BAYLIS & DAUBNEY Synopsis 1926 p. 46.

Hydromermis leptoposthia **sp. n.** STEINER Zool. Jahrb. Syst. **57** p. 325 figs.

Hypodontolaimus zosterae **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 469 fig. 27.

Hysteracrum Raill. & Henry, suppressed, GOODEY J. Helminth. London **2** 1924 p. 97.

Hystrignathinae **subf. n.** *Lepidonemidae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 61.

Ichthyospirura **gen. n.** *turkestanica* **sp. n.** in *Schizothorax intermedius*, SKRJABIN 1917 [N.V.]; possible syn. of *Rhabdochona* Raill., YORKE & MAPLESTONE Nematode Parasites 1926 p. 325.

Icosiella **gen. n.** *Filariinae*, type *Filaria neglecta* Dies. in subcutaneous tissue of *Rana ridibunda*, SEURAT Bull. Soc. Hist. nat. Afrique Nord **8** 1917 pp. 240–241.

Icthyocephalus **gen. n.** *icthyocephalus* **sp. n.** in intestine of diplopod Myriapods, ARTIGAS Bolet. biol. S. Paulo 1926 fasc. 3 pp. 62–63 fig. 15.

Iota simile **sp. n.**, COBB Contribution to a science of Nematology vii 1918 p. 204.

Iotonchus **subg. n.** *Mononchus*, type *gymnolaimus* COBB J. Parasitol. Urbana **2** 1916 p. 196.

Isakidae **fam. n.** *Rhabdiasoidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 61.

Isakis falcatum p. 98 figs. 1–8, *subulatum* pp. 99–100 figs. 9–11 **spp. n.** in intestine of myriapods, Brazil, ARTIGAS Bolet. biol. S. Paulo 1926 fasc. 4.

Kalicephalus bengalensis **sp. n.** in intestine of rat-snake, *Zamenis mucosus*, India, MAPLESTONE Rec. Ind. Mus. Calcutta **31** pp. 87–90 figs. 1–2.

Kathlanidae [*sc. Kathlaniidae*] **fam. nom. n.** *pro Pseudoheterakidae* Trav. 1917, TRAVASSOS Rev. Soc. Brasil. Sci. Río **2** 1918 p. 83.

Kreisia **gen. n.** *punctata* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 461 fig. 21.

Labiostrongylus longispicularis **sp. n.** in *Macropus woodwardi*, WOOD Ann. Mag. Nat. Hist. London (10) **4** pp. 550–551.

Laxus septentrionalis **sp. n.** Antarctic, COBB Nonatodes Shackleton Exped. Baltimore 1914 p. 29.

Leidynema **gen. n.** *Thelastomidae*, type *O. blattae-orientalis* Hamm. 1847, SCHWENCK in TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 suppl. 5 p. 22.

Leiperiatus **gen. n.** (*Trichostrongylidae*) type *Nematodirus hopkeni* Leiper, SANDGROUND Proc. U.S. Nat. Mus. **75** 12 pp. 5–7 pl. ii figs. 3, 4. 6.

Leiuris leptocephalus (Rud.) p. 2 figs. 1–8, *gracilis* (Rud.) p. 3 figs. 9–16 in *Bradypus tridactylus*, Brazil, VAZ & PEREIRA Bolet. biol. S. Paulo **1929** 15.

Lemdana **gen. n.** *Filariinae, marthae* **sp. n.** on outer surface of crop of *Caccabis petrosa*, Africa, SEURAT Bull. Soc. Hist. Nat. Afrique Nord Algiers **8** 1917 pp. 208–210 4 figs.; *behningi* **sp. n.** in intestinal wall of *Phalacrocorax carbo* Russia, LEVASCHOFF Z. Parasitenk. Berlin **2** pp. 126–128 figs. 6–7; *limboonkengi* **sp. n.** in *Ardeola bacchus*, China, HOEPPLI & HSÜ Arch. Schiffs Trop. Hyg. Leipzig **33** pp. 28–29 figs. 6–7.

Lepidonemidae **fam. n.** *Rhabdiasoidea*, TRAVASSOS Rev. Vet. Zootech. Rio 1919 (1920) p. 61.

Lepidoneminae **subf. n.** *Lepidonemidae*, TRAVASSOS loc. cit.

Leptosoma **gen. n.** [nom. preocc.] *Physaloptera*, type *Physaloptera leptosoma* (Gerv.), TRAVASSOS 1920, syn. of *Physaloptera* Rud., ORTLEPP Proc. Zool. Soc. **1922** p. 1085.

Limnomermis trachelata p. 318, *distoicha* p. 320, *potamophila* p. 321, *acroamphidis* p. 323 figs. **spp. n.**, STEINER Zool. Jahrb. Syst. **57**

Linhomoeus lepturus var. *suecicus* **var. n.**, Sweden, ALLGÉN Capita Zool. **2** 8 1929 p. 45; *longicaudatus* p. 481, *intermedius* p. 484, *komöensis* p. 485, *viscosus* p. 486 figs., **spp. n.**, Sweden, ALLGÉN Zool. Jahrb. Syst. **57**; *macquariensis* **sp. n.**, Antarctic, ALLGÉN Zool. Anz. Leipzig **84** pp. 124–126 fig. 3.

Longidorus **subg. n.** *Dorylaimus*, MICOLETZKY Arch. Naturg. Berlin **87** A Heft 8–9 1921 (1922) p. 433; syn. of *Dorylaimus*, BAYLIS & DAUBNEY Synopsis 1926 p. 70.

Macrolaimus maupasi **sp. n.** Erzgebirge, HNATEWYTSCH Zool. Jahrb. Syst. **56** 1929 pp. 204–206 fig. 9.

Marionella **gen. nom. n.** *pro Eurystoma* Marion 1870, COBB J. Washington Acad. Sci. **11** 1922 p. 504; syn. of *Eurystomina* Filipjev 1921, BAYLIS & DAUBNEY Synopsis 1926 p. 115.

Mehdiella **gen. n.** *Oxyuridae*, type *Oxyuris microstoma* Drasche, SEURAT Arch. Inst. Pasteur Tunis **10** 1918 p. 244; syn. of *Tachygonetria* Wedl, BAYLIS & DAUBNEY op. cit. p. 25.

Monodontus Molin 1861 synonymy, TRAVASSOS Rev. Mus. Paul. **16** pp. 871–872; *rarus* **sp. n.** in intestine of *Mesomys guiara* Brazil, TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 suppl. 6 **1** p. 5 figs.; *semicircularis* (Molin) and notes on genus, TRAVASSOS Rev. Mus. Paulista S. Paulo **16** pp. 3–15 4 pls., pp. 873–875 figs. 1–11.

Mononcholaimus rusticus **sp. n.** Normandy coast, KREIS Capita zool. **2** pp. 34–35 fig. 8.

Mononchulus **gen. n.** *Oncholaimidae* COBB Soil Science New Brunswick **1917** pp. 447, 453, *ventralis* **sp. n.**, COBB Contrib. Science Nematology vii 1918 pp. 195–198 figs. 1–2.

Mononchus exilis, *radiatus*, *palustris* p. 456, *teres*, *monhystera*, *vorax* p. 457, *megalaimus* p. 460, *obtusus* p. 461, *dentatus*, *punctatus* p. 464, *longicollis* p. 465, *reversus* p. 467, *denticulatus*, *sparsus*, *micrurus*, *incurvus* p. 468, *sigmaturus*, *subtenuis* p. 469, *subsimilis* p. 470, *obliquus* p. 471, *brevicaudatus* p. 472, *japonicus* p. 473, *gracilicaudatus* p. 474, *trichurus* p. 476, *consimilis*, *rapax* p. 477, *brachylaimus* p. 480, *acutus* p. 481 figs, **spp. n.**, COBB Soil Science New Brunswick 1917; *campbelli* pp. 222–224 fig. 5, *parazschokkei* pp. 224–225 fig. 6, **spp. n.** Campbell Island, ALLGÉN Nyt. Mag. Naturv. Oslo **67**; *longus* **sp. n.** Colorado, THORNE Trans. Amer. Micr. Soc. Menasha **48** pp. 191–192 fig. 11a–c.

Monoposthia loricata **sp. n.** Normandy coast, KREIS Capita zool. **2** pp. 48–50 fig. 16.

Mylonchulus **subg. n.** *Mononchus* type *minor* Cobb, COBB J. Parasitol Urbana **2** 1916 p. 196.

Nannonchus Cobb 1913 syn. of *Cyatholaimus*, BAYLIS & DAUBNEY Synopsis 1926 p. 125.

Necator africanus **sp. n.** in the chimpanzee, *Anthropopithecus troglodytes* W. Africa, LOOSS Records School Med. Cairo **4** 1911 p. 213 figs. 101, 102, 114; renamed *N. exilidens*, LOOSS in CUMMINS J.R. Army Med. Corps London **19** 1912 p. 55.

Nematodirus molini **sp. nom. n.** *pro Strongylus attenuatus* Molin *nec* Leidy, TRAVASSOS Rev. Soc. Brasil. Sci. Rio **3** 1919 (1920) p. 196; *hopkeni* Leiper 1910 type of *Leiperiatus* **gen. n.**, SANDGROUND Proc. U.S. Nat. Mus. **75** 12 p. 5.

Neoaplectana **gen. n.** (*Oxyuridae*) *glaseri* **sp. n.** in Japanese beetle *Popillia japonica*, STEINER J. Wash. Acad. Sci. **19** pp. 436–440 figs. 1 A–I.

Neoascaris **gen. n.** type *Ascaris vitulorum* Goeze, Travassos Bolet. biol. S. Paulo **5** 1927 p. 22.

Neocephalobus **subg. n.** (*Cephalobus*) *aberrans* **sp. n.** in faeces of guinea pig, California, Steiner J. Parasit. Urbana **16** pp. 88–90 pl. ix.

Neocucullanus **gen. n.** *neocucullanus* **sp. n.** in *Characidae*, Travassos, Artigas & Pereira Arch. Inst. Biol. S. Paulo **1** 1928 pp. 19–20 figs.

Nippostrongylus **gen. n.** *Heligmosominae* for *Heligmosomum muris* Yokogawa, Lane Parasitol. Cambridge **15** 1923 p. 360.

Notochaetosoma **gen. n.** *Chaetosomatidae, tenax* pp. 798–808 figs. 48–56 pls. xlviii–xlix, *cryptocephalum* pp. 808–811 figs. 57–59 pl. l **spp. n.** marine, Australia, Irwin-Smith Proc. Linn. Soc. New South Wales Sydney **42** 1918.

Nudolaimus **gen. n.** *simplex* **sp. n.** Sweden, Allgén Zool. Jahrb. Syst. **57** p. 445 fig. 10.

Odontocricus **subg. n.**, Steiner Zool. Anz. Leipzig **50** 1918 p. 12, syn. of *Chromadora*, Baylis & Daubney Synopsis of the Nematoda 1926 p. 126.

Oesophagodontus robustus (Giles) in the horse, Holland, Ihle Rept. Comm. Sclerostom. Holland **1** 1922 pp. 103–105 figs. 122–125.

Onchocerca fuelleborni **sp. n.** in vaginal wall of *Neomeres phocaenoides* China Sea, Hoeppli & Hsü Arch. Schiffs Trop. Hyg. Leipzig **33** pp. 33–34 figs. 19–22.

Oncholaimus campbelli **sp. n.** Campbell Island, Allgén Nyt Mag. Naturv. Oslo **67** pp. 219–220 fig. 3; *conicauda* **sp. n.** Gulf of Finland, Filipjev Arch. Hydrobiol. Stuttgart **20** pp. 679–680 fig. 2; *gåsöensis* p. 441 *littoralis* p. 442, *brachyuris* p. 444 figs. **spp. n.** Sweden, Allgén Zool. Jahrb. Syst. **57.**

Oniscicolinae [sc. *Onisciculinae*] **subf. n.** *Thelastomidae*, type *Oniscicula* Schwenck 1927. Travassos Mem. Inst. Oswaldo Cruz 1929 suppl. 5 p. 23.

Oniscicula **gen. n.** *Oxyuridae, oniscicula* **sp. n.** in body cavity of *Philoscia vittata* Brazil, Schwenck Bolet. Biol. S. Paulo **7** 1927 pp. 78–80 figs. 1–11.

Ophidascaris arndti **sp. n.** in *Lachesis lanceolatus*, S. America (in a Berlin aquarium), Sprehn Zool. Anz. Leipzig **83** pp. 280–282 2 figs.

Ornithostrongylus **gen. n.** *Trichostrongylidae, fariai* **sp. n.** in intestine of *Leptoptilus rufaxilla*, Brazil, Travassos Brazil Med. Rio de Janeiro **28** 1914 p. 163.

Ostertagia turkestanica **sp. n.** in sheep and goat, Turkestan, Petrow & Schachowzewa Trud. Inst Exp. Vet. **4** i 1926 pp. 78–88 figs. 1–4, Deutsch. Tierärztl. Woch. Hanover **36** 1928 p. 527 4 figs.

Oswaldocruzia agamae **sp. n.** in intestine of *Agama colonorum*, Liberia, Sandground Proc. U.S. Nat. Mus. **75** 12 pp. 7–8 pl. ii figs. 1–2; *pipiens* in intestine of *Rana pipiens* and *R palustris* pp. 230–231 figs. 11–15, *collaris* in *R. palustris* pp. 231–232 figs. 16–18, **spp. n.** North America, Walton J. Parasit. Urbana **15.**

Oswaldonema **gen. n.** *Trichostrongylidae, cruzi* **sp. n.** in intestine of *Agouti paca* Brazil, Travassos Bolet. biol. S. Paulo **6** 1927 pp. 52–54 3 figs.

Oxyascaridae **fam. n.** p. 17 for *Oxyascaris* **gen. n.** *oxyascaris* in intestine of *Drymobius bifossatus* pp. 17–18 pl. ii, *similis* in intestine of *Leptodactylus ocellatus* and *Bufo sp.* pp. 19–20 pls. iii–iv **spp. n.** Brazil, Travassos Arch. Esc. Sup. Agric. Med. Vet. Nictheroy **4** 1920.

Oxyonchus **subg. n.** *Enoplolaimus*, Filipjev Arch. Nat. Berlin 91A 1925 (1927) p. 144.

Oxysomatium loveridgei (Sandg.) in *Bdellophis vittatus* pp. 373–375, *chamaeleonis* **sp. n.** in *Chamaeleo fischeri matschiei* pp. 375–376 fig. 1, Tanganyika, Baylis Ann. Mag. Nat. Hist. (10) **4.**

Oxysomatium **gen. n.** type *Oxysoma occurratum* Linst., Walton Proc. Acad. Nat. Sci. Philadelphia **79** 1927 p. 83.

Oxystomina **gen. nom. n.** *pro Oxystoma* Bütschli 1874, Filipjev Trav. Lab. Zool. Stat. Biol. Sébastopol (2) **4** 1921 p. v; *glandulosa* **sp. n.** French coast, Kreis Capita zool. **2** pp. 25–26 pl. ii fig. 1; *oxycaudatum* Ditl. Antarctic, Allgén Zool. Anz. Leipzig **84** pp. 130–132 fig. 2.

Oxyuris incognita **sp. n.** in man, N. America, Kofoid & White J. Amer. Med. Ass. Chicago 1919 pp. 567–569; *Korsakowi* **sp. n.** in intestine of *Gryllotalpa vulgaris* Russia, Sergiev Trans. State Inst. Exp. Vet. Sci. Moscow **1** ii 1923 pp. 187–189 1 fig.

Pandolaimus **gen. n.** *sabulicola* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 493 fig 47.

Parabronema skrjabini **sp. n.** in *Camelus dromedarius*, RASOWSKA in BASKAKOW Trud. Gos. Inst. Vet. Sci. Moscow **2** i 1924 p. 100.

Paracanthonchus paradoxus p. 27 fig. 8, *abnormis* pp. 27–28 fig. 9 **spp. n.** Sweden, ALLGÉN Capita zool. **2** 8 1929.

Parachromagaster **gen. n.** *sabulicola* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 466 fig. 25.

Paracyatholaimus Micoletzky 1922 syn. of *Cyatholaimus*, BAYLIS & DAUBNEY Synopsis 1926 p. 125.

Paraleiuris **gen. n.** (*Arduenninae*) *locchii* **sp. n.** in stomach of *Bradypus tridactylus*, Brazil, VAZ & PEREIRA Bolet. biol. S. Paulo **1929** 15 pp. 4–5 figs. 17–26.

Paraleptus **gen. n.** *scyllii* **sp. n.** in stomach of shark, *Chiloscyllium indicum* China, WU Contr. Biol. Lab. Sci. Soc. China Nanking **3** 2 1927 pp. 1–3 2 pls.

Paraphelenchus **subg. n.** *Aphelenchus* MICOLETZKY Arch. Naturg. Berlin **87 A** 1921 (1922) p. 584; **syn.** of *Aphelenches*, BAYLIS & DAUBNEY op. cit. p. 67.

Paraquilonia Neveu-Lemaire 1924 syn. of *Quilonia* Lane 1914, BAYLIS & DAUBNEY op. cit. p. 159.

Parasabatieria dodecas-papillata p. 88 fig. 39, *longisetosa* p. 89 fig. 40, **spp. n.** Normandy coast, KREIS Capita zool. **2.**

Parasitylenchus Micoletzky 1922 syn. of *Anguillulina*, BAYLIS & DAUBNEY op. cit. p. 66; *cossoni* **sp. n.** in *Cossonus parallelepipedus*, WÜLKER Z. Parasitenk. Berlin **2** p. 290 fig. 1.

Parathalassoalaimus **gen. n.** *Enoplidae sabulicola* **sp. n.** pp. 11–13 fig. 2 Sweden, ALLGÉN Capita zool. **2** 8 1929

Paratylenchus Micoletzky 1922 syn. of *Anguillulina*, BAYLIS & DAUBNEY Synopsis 1926 p. 66.

Passalurus ambiguus (Rud.) anatomy, DANHEIM & ACKERT Trans. Amer. Micr. Soc. **48** 1929 pp. 80–82 pl. xiv.

Pathoaphelenchus **subg. n.** (*Aphelenchus*) type *A. modestus*, COBB J. Parasit. Urbana **14** 1927 p. 57.

Pelagonema propinqua p. 14 fig. 5, *rotundicauda* p. 15 fig. 6 **spp. n.** Sweden, ALLGÉN Zool. Anz. Leipzig **83** 1929.

Pericyema **subg. n.** *Thelazia*, type *T. callipaeda*, RAILLIET Bull. Soc. Zool. Fr. **50** 1925 p. 7.

Pharyngodon batrachiensis **sp. n.** in intestine of tadpole of *Rana pipiens* N. America, WALTON J. Parasitol. Urbana **15** pp. 232–233 figs. 22, 23.

Pharyngodonidae **fam. n.** *Oxyuroidea*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 63.

Philometra nodulosa **sp. n.** in subcutaneous tissue of lip of *Catostomus commersonii* N. America, THOMAS J. Parasit. Urbana **15** pp. 193–198 pl. xiv; *maplestonei* **sp. n.** in *Salminus hilarii*, TRAVASSOS, ARTIGAS & PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928 p. 27 figs. 99–100.

Physaloptera leiperi **sp. n.** in *Spermophilopsis leptodactylus* Turkestan, SKRJABIN Trud. Gos. Inst. Exp. Vet. Moscow **2** i 1924 pp. 10–13 4 figs; *amaniensis* in *Agama mossambica* p. 141 pl. xviii figs. 1–4 *ortleppi* in *Chamaeleo dilepis* p. 143 pl. xix figs. 1–4 **spp. n.** Tanganyika, SANDGROUND Proc. Boston Soc. Nat. Hist. **39** 1928.

Plectus naticochensis **sp. n.** Peru, DELACHAUX Bull. Soc. Neuchâtel **1** 1928 p. 47.

Pomponema **gen. n.** *mirabile* **sp. n.** Woods Hole, COBB Contributions to a science of Nematology v 1917 p. 118 fig. 3 [*sine descr.*]; syn. of *Cyatholaimus*, BAYLIS & DAUBNEY Synopsis 1926 p. 125.

Porrocaecum falklandicum **sp. n.** in *Eudromius modestus* Falkland Is., BAYLIS Discovery Reports **1** pp. 544–545 fig. 2.

Poteriostomum pluridentatum Quiel 1919 syn. of *P. imparidentatum* Quiel 1919 pp. 99–102 figs. 118–121, *ratzi* Kotlán p. 102, IHLE Rep. Comm. Sclerostom. Holland Hague **1** 1922.

Prionchulus **subg. n.** *Mononchus*, type *muscorum* Duj., COBB J. Parasitol. Urbana **2** 1916 p. 196.

Prismatolaimus douchurus var. brevicaudatus **var. n.**, *hsuei* **sp. n.** China, WU & HOEPPLI Arch. Schiffs. Trop. Hyg. **33** Beiheft 1 p. 40.

Procamallanus parasiluri **sp. n.** in stomach of *Parasilurus asotus*, Japan FUJITA Dobuts. Zasshi **39** 1927 p. 39; *iheringi* p. 21, *inopinatus* p. 21, *rarus* p. 22 figs. **spp. n.** in fishes Brazil, TRAVASSOS, ARTIGAS & PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928; *xenopodis* **sp. n.** in *Xenopus mülleri* Dar-es-Salaam, BAYLIS Ann. Mag. Nat. Hist. (10) **4** pp. 378–380 figs. 2–3.

Proncholaimus Micoletzky 1924 syn. of *Oncholaimus*, BAYLIS & DAUBNEY Synopsis 1926 p. 110.

Protofilaria **gen. n.** (*Filariinae*) *furcata* **sp. n.** in thoracic cavity of *Lemur ruber*, Calcutta Zoo (from Madagascar) CHANDLER Proc. U.S. Nat. Mus. **75** 6 pp. 2–3 figs. 1–2.

Protozoophaga **gen. n.** *Oxyurinae*, type *Oxyuris obesa* Dies. in intestine of *Hydrochoerus capybara*, TRAVASSOS Folha Med. Rio de Janeiro **4** 1923 pp. 36–39 figs. 1–2.

Pseudancyracanthus **gen. n.** type *Ancyracanthus cystidicola* (Rud.), SKRJABIN Les Nématodes parasites de la faune d'eau douce de la Russie 1923 [N.V.]; syn. of *Rhabdochona* p.p. and *Cystidicola* p.p., BAYLIS & DAUBNEY Synopsis 1926 pp. 224–225.

Pseudorhabditis Szüts 1912 nec Perroncito renamed *Pararhabditis*, BAYLIS & DAUBNEY Synopsis 1926 p. 63.

Pseudorhabditis **gen. n.** near *Rhabditis*, *labiatus* pp. 288–290 fig. 4, *acuminatus* pp. 290–292 fig. 5, **spp. n.** China, KREIS Zool. Anz. Leipzig **84**.

Pseudosclerostomum Quiel 1919 syn. of *Oesophagodontus* Raill. & Henry 1902, *P. securiferum* Quiel 1919 syn. of *O. robustus* (Giles), IHLE Rept. Comm. Sclerostom. Holland **1** 1922 p. 103.

Pulchrocephala **gen. n.** *pulchrocephala* **sp. n.** in *Neocurtilla hexadactyla* Brazil, TRAVASSOS Sciencia Med. Rio de Janeiro **3** 1925 pp. 419–422 figs. 8–16.

Punctodora [**gen. n.**] type *Chromadora ratzeburgensis* Linstow, FILIPJEV Arb. Biol. Oka Stat. **5** 1928 p. 108.

Raillietnema **gen. n.** type *Oxysomatium simples*, TRAVASSOS Bol. biol. S. Paulo **5** 1927 p. 21.

Ramsoneminae [*sc. Ransomneminae*] **subf. n.** *Thelastomidae*, TRAVASSOS Mem. Inst. Oswaldo Cruz. Rio 1929 suppl. 5 p. 23.

Raphidascaris biwakoensis, *gigi*, *plecoglossi* **spp. n.** in intestine of fishes, Lake Biwa, Japan, FUJITA Dobuts. Zasshi Tokyo **40** 1928 p. 303.

Rhabdias bdellophis **sp. n.** in lung of *Bdellophis vittatus* Tanganyika, BAYLIS Ann. Mag. Nat. Hist. (10) **4** p. 377; *microoris* **sp. n.** in lungs of *Rana temporaria*, *Bufo bufo* and *B. viridis*, SEMENOW Centralbl. Bakt. Jena (1) **114** 1929 pp. 533–539 4 figs; *ranae* **sp. n.** in lungs of *Rana pipiens*, *R. palustris* and *Acris gryllus* N. America, WALTON J. Parasit. Urbana **15** pp. 228–230 figs. 1–10.

Rhabditella **subg. n.** *Rhabditis*, *leptura* **sp. n.** on decaying fruit of *Iuffa acutangula* Honduras, COBB J. Wash. Acad. Sci. **19** pp. 283–284 2 figs.

Rhabditis faecalis **sp. n.** in man, Japan, WATANABE Nihon Shyokakibyo, Gakk. Z. **21** 1922 No. 2 [N.V.], *de mani* pp. 199–200 fig. 6, *cobbi* pp. 200–202 fig. 7 **spp. n.** Erzgebirge, HNATEWYTSCH Zool. Jahrb. Syst. **56**; *elegans* **sp. n.** China, KREIS Zool. Anz. Leipzig **84** pp. 287–288 fig. 3; *octopleura* **sp. n.** in bark of elm tree, STEINER Zool. Anz. **80** p. 146 4 figs; *pseudoxycerca* **sp. n.** in pig manure England, GOODEY J. Helminth. London **7** pp. 30–34 figs. 4, 6, 7, 9, 10.

Rhabditoides **gen. n.** (near *Rhabditis*) *coprophaga* **sp. n.** in sheep's droppings England, GOODEY t.c. pp. 27–30 figs. 1–3.

Rhabditolaimus **gen. n.** *Rhabditidae*, FUCHS Zool. Jahrb. Syst. Jena **38** 1915 p. 158; syn. of *Diplogaster*, BAYLIS & DAUBNEY Synopsis p. 41.

Rhabdochona **gen. n.** *Thelaziidae* type *Dispharagus denudatus* Duj. in freshwater fishes, RAILLIET J. Parasit. Urbana **2** 1916 p. 104; *turkestanica* **sp. n.** in *Schizothorax intermedius*, SKRJABIN Arch.-Vet. Nauk. Petrograd 1917 p. 522 [N.V.]; *elegans* **sp. n.** in *Tetragonopterus* Brazil, TRAVASSOS, ARTIGAS & PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928 p. 23 figs. 74–81.

Rhigonema truncatum **sp. n.** in intestine of myriapods Brazil, ARTIGAS Bolet. biol. S. Paulo 1926 fasc. 4 pp. 100–101 figs. 12–16.

Rhinoplostoma **gen. n.** *Enoplidae*, *suecica* **sp. n.** Sweden, ALLGÉN Capita zool. **2** 8 1929 pp. 21–22 fig. 7.

Richtersiella **gen. n.** *Chromadoridae tenuis* **sp. n.** Normandy coast, KREIS Capita zool. **2** p. 62 fig. 23.

Rictularia elegans **sp. n.** in *Eumusospes perotis*, Brazil, TRAVASSOS Bol. Biol. S. Paulo **1928** no. 14 pp. 129–132 6 figs.; *tani* **sp. n.** in intestine of *Epimys norvegicus*, HOEPPLI Zbl. Bakt. (1) **110** pp. 75–78 5 figs.

Rondonema **gen. n.** *rondoni* **sp. n.** in intestine of a diplopod Myriapod, Brazil, ARTIGAS Bolet. biol. S. Paulo **1926** fasc. 3 pp. 59–60 figs. 1–7.

Rondonia **gen. n.** *Atractidae, rondoni* **sp. n.** in freshwater fishes, Brazil, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 62.

Rusguniella Seurat 1919 = subg. of *Acuaria*, BAYLIS & DAUBNEY Synopsis 1926 p. 219.

Rusgunioides **subg. n.** *panamensis* in gizzard of *Hylophylax naevioides* pp. 6–9 figs. 1–6, *wedli* in *Colymbus nigricollis* pp. 5–6 fig. 7 **spp. n.**, WILLIAMS Univ. California Publ. Zool. **33** i.

Sabatieria antarctica **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 p. 14; *australis* **sp. n.** Antarctic, ALLGÉN Zool. Anz. Leipzig **85** pp. 138–139 fig. 6; *cobbi* **sp. n.** Normandy coast, KREIS Capita zool. **2** p. 85 fig. 37.

Scaptrella **gen. n.** *Trilobidae, cincta* **sp. n.** Florida, COBB Contribution to a science of Nematology **5** 1917 p. 119 fig. 4.

Schistonchus **subg. n.** (*Aphelenchus*) type *A. caprifici*, COBB J. Parasit. Urbana **14** 1927 p. 57.

Schistorophus **gen. nom. n.** *Thelaziidae pro Tetracanthus* Hempr. & Ehr. type *Ancyracanthus longicornis* Hemp. & Ehr. in gizzard wall of birds, to include *Spiroptera bicuspis* (Rud.), *S. bidens* (R.), *Histiocephalus laciniatus* Molin and doubtfully *Spiroptera umbellifera* Mol., *Filaria spinulosa* Mol., *Spiroptera acanthocephalica* Mol. and *S. capillaris* Mol., RAILLIET J. Parasit. Urbana **2** 1916 pp. 102–103; *aulieatina* **sp. n.** in wall of gizzard of *Haematopus ostralegus* Russian Turkestan, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1916 pp. 525–526 fig. 38.

Schneideria **gen. n.**, between *Heterakidae* and *Ascaridae*, type *Ascaris retusa* Rud. in large intestine of *Tatusia sp.*, Brazil, TRAVASSOS Bolet. biol. S Paulo 1926 fasc. 4 pp. 88–90 figs. 1–9.

Schrankia brasili **sp. n.** in intestine of *Leptodactylus pentadactylus* Brazil, TRAVASSOS Bol. biol. S. Paulo 1927 fasc. 9 pp. 147–149 4 figs.

Sciadiocara **gen. n.** *Acuariidae* type *Spiroptera umbellifera* Mol. in *Scolopax major* Russian Turkestan, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1916 pp. 518–523 figs. 33–36.

Selachinema **gen. n.** *Enoplidae, ferox* **sp. n.** Panama, COBB Contributions to a science of Nematology iv 1915 pp. 113–116 1 fig.

Sclachineminae **subf. n.** *Enoplidae*, COBB op. cit. p. 115.

Serratospiculum turkestanicum Skrj. in *Falco tinnunculus*, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 pp. 546–551 figs. 55–58; *chungi* **sp. n.** in *Falco* sp. China, HOEPPLI & HSÜ Arch. Schiffs. Trop. Hyg. **33** pp. 31–33 figs. 14–18.

Serticeps **gen. n.** *Thelaziidae* type *Spiroptera vulvoinflata* Molin, RAILLIET J. Parasitol. Urbana **2** 1916 p. 103.

Setaria loveridgei **sp. n.** in *Procavia brucei* Tanganyika, SANDGROUND Proc. Boston Soc. Nat. Hist. **39** 1928 pp. 145–147 pl. xx figs. 1–5.

Seuratia Skrjabin 1916 = subg. of *Acuaria*, BAYLIS & DAUBNEY Synopsis 1926 p. 219.

Severianoia dubia **sp. n.** in *Julidae* S. America, TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 suppl. 5 p. 22 figs. 1–5.

Sincosta **gen. n.** (*Trichostrongylidae*) *aberrans* **sp. n.** in intestine of a "wild mouse" N. America, ROE Proc. U.S. Nat. Mus. Washington **75** 1929 17 pp. 1–3 1 pl.

Smalsundia **gen. n.** *punctata* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 454 fig. 16.

Sonsinia **gen. n.** *Heterakidae*, type *Strongyluris sonsinoi* Linstow, BAYLIS & DAUBNEY Mem. Ind. Mus. Calcutta **7** 1922 p. 297; syn. of *Spinicauda* Travassos, YORKE & MAPLESTONE Nematode Parasites 1926 p. 223.

Southernia **gen. n.** *zosterae* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 436 fig. 3.

Spectatus **gen. n.** *Kathlaniidae, spectatus* **sp. n.** in intestine of *Piaractus brachyomus* Brazil, TRAVASSOS Folha Med. Rio de Janeiro **4** 1923 p. 29.

Sphaerolaimus bretonicus p. 72 fig. 30, *papillatus* p. 73 fig. 31 **spp. n.** French coast, KREIS Capita zool. **2**; *kornöensis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 477 fig. 34.

Spilipherella Filipjev 1918 syn. of *Chromadora*, BAYLIS & DAUBNEY Synopsis 1926 p. 126.

Spilophora edentata p. 24, *antarctica* pp. 24–25, *serrata* p. 25 **spp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914; *fragilis* **sp. n.** Sweden, ALLGÉN Capita Zool. **2** 8 1929 p. 39 fig. 12; *minima* **sp. n.** French coast, KREIS Capita zool. **2** p. 47 fig. 15.

Spilophorella Filipjev 1917, syn. of *Chromadora*, BAYLIS & DAUBNEY Synopsis 1926 p. 126; *S. papillata* p. 57 fig. 20, *gracilis* p. 58 fig. 21 **spp. n.** French coast, KREIS Capita zool. **2.**

Spinicauda longispiculata **sp. n.** in intestine of *Gekko gecko* Java, BAYLIS Parasitol. Cambridge **21** pp. 256–257 fig. 1.

Spinicaudinae **subf. n.** *Heterakidae*, TRAVASSOS Rev. vet. zootech. Rio 1919 (1920) p. 63.

Spinitectus yorkei, asperus **spp. n.** in fishes, Brazil, TRAVASSOS, ARTIGAS & PEREIRA Arch. Inst. Biol. S. Paulo **1** 1928 p. 25 figs.; *guntheri* **sp. n.** in unknown host, off S.W. Africa, BAYLIS Discovery Reports **1** pp. 551–553 figs. 7–9.

Spira septentrionalis **sp. n.** Antarctic COBB Nematodes Shackleton Exped. Baltimore 1914 p. 11 1 fig.

Spirina granulata **sp. n.** Sweden, ALLGÉN Zool. Jahrb Syst. **57** p. 460 fig. 20.

Spiroxys amydae **sp. n.** in stomach wall of *Amyda ferox*, Mississippi, COBB J. Parasitol. Urbana **15** pp. 217–218 5 figs.

Sporonchulus **subg. n.** *Mononchus, dentatus* Cobb 1917, COBB Soil Science 1917 p. 454.

Steineria Micoletzky 1922 syn. of *Monhystera*, BAYLIS & DAUBNEY Synopsis 1926 p. 80.

Steineria **gen. n.** type *Aplectana kraussei* **Steiner, TRAVASSOS Bolet. biol.** S. Paulo **5** 1927 p. 21; renamed *Steinernema*, TRAVASSOS loc. cit. **7** 1927 p. 216.

Stenolaimus antarcticus **sp. n.** Antarctic, ALLGÉN Zool. Anz. Leipzig **84** pp. 128–129 fig. 1.

Streptocara crassicauda var. anseris **var. nom. n.** in *Anseriformes* pp. 514–518, figs. 28–30, *charadrii* **var. n.** pp. 518–519 figs. 31–32 in *Vanellus cristatus* Russian Turkestan, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915.

Streptopharagus numidicus **sp. n.** in *Vulpes zerda* Tunis, SEURAT Bull. Soc. Hist. Nat. Afrique Nord **8** 1917 p. 23; *magnus* **sp. n.** in gibbon monkey, *Hylobates hoolock* Calcutta Zoo, MAPLESTONE Rec. Ind. Mus. Calcutta **31** 1929 pp. 1–5 4 figs.

Striatotilaria Zool. Record **64** 1927 p. 59 misprint for *Striatofilaria*.

Strongyloides ophidiae **sp. n.** in intestine of *Drymobius bifossatus* Brazil, PEREIRA Bolet. biol. S. Paulo **1929** pp. 16–17 1 fig.

Strongyluris oscari **sp. n.** in intestine of *Tropidurus sp.* Brazil, TRAVASSOS Folha Med. Rio de Janeiro **4** 1923 p. 58; *sai* **sp. n.** in large intestine of green chamaeleon Brazil, TRAVASSOS Ann. Fac. Med. S. Paulo **1** 1926 pp. 83–84 1 pl.

Strongylus spp. in horses Holland redescriptions, IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 19–26 figs. 1–9.

Subulura tetraogalli **sp. n.** in *Tetraogallus tibetanus* Central Asia, SPAUL Ann. Mag. Nat. Hist. London (10) **4** pp. 452–455 figs. 1–3.

Subulurinae **subf. n.** *Heterakidae*, TRAVASSOS Mem. Inst. Oswaldo Cruz Rio **6** 1914 p. 138.

Syngamus kingi **sp. n.** in sputum of man W. Indies, LEIPER Trans. Soc. Trop. Med. London **6** 1913 pp. 277–280 figs. 22–24; *microspiculum* Skrj. 1915 in *Phalacrocorax carbo*, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 pp. 467–472 figs. 1–4.

Synthetocaulus linearis **sp. n.** in *Ovis aries* France, MAROTEL Progrès vétér. Agen **1913** pp. 155–159; to genus *Protostrongylus* BAYLIS Manual 1929 **p. 175.**

Tachygonetria massinissae p. 248, *lambdiensis, jugurthae, weissi* p. 249, *numidica* pp. 249–250, *nicollei* pp. 253–254, *pusilla* p. 254, *setosa* pp. 255–256, **spp. n.** in turtles Tunis, SEURAT Arch. Inst. Pasteur Tunis **10** 1918.

Terschellingia polaris **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 p. 14.

Tetrameridae **fam. n.** (*Spirurata*), SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 p. 526.

Tetrameres skrjabini **sp. n.** in *Larus canur* Russia, PANOWA Trud. Gos. Inst. Exp. Vet. **3** ii 1926 pp. 82–85 [N.V.]; *zakharowi* **sp. n.** in *Anser albifrons* Russia, PETROW Trud. Gos. Inst. Exp. Vet. Sci. Moscow **3** i 1926 pp. 10–11 figs. 9–10.

Tetramermis tenuis (Leidy), larvae in *Clepsine sp.* N. America, STEINER Proc. Acad. Nat. Sci. Philadelphia **80** 1928 pp. 550–552 figs. 3–5.

Thamugadia **gen. n.** *Filariidae, hyalina* **sp. n.** in subcutaneous tissue of *Tarentola* sp. Africa, SEURAT Bul. Soc. Hist. Nat. Afrique Nord Algiers **8** 1917 pp. 237–240.

Thelandros numidicus **sp. n.** in intestine of turtle Tunis, SEURAT Arch. Inst. Pasteur Tunis **10** 1918 pp. 258–259; *sceleratus* **sp. n.** in intestine of *Tropidurus torquatus* Brazil, TRAVASSOS Folha Med. Rio de Janeiro **4** 1923 p. 58.

Thelastoma (*T.*) *spicatum* **sp. n.**, COBB J. Wash. Acad. Sci. **19** p. 285 fig. 3.

Thelastomum skrjabini **sp. n.**, in intestine of *Gryllotalpa vulgaris* Turkestan, SERGIEV Trans. State Inst. Exp. Vet. Sci. Moscow **1** 2 1923 pp. 183–187 5 figs.

Thelastomidae **fam. n.**, *Thelastominae* **subf. n.** type *Thelastoma* Leidy, TRAVASSOS Mem. Inst. Oswaldo Cruz 1929 suppl. 5 p. 21.

Thelastomillum **subg. n.** *Thelostoma, myolabiatum* **sp. n.**, COBB J. Wash. Acad. Sci. **19** p. 285.

Thelazia Skrjabini **sp. n.** in cattle Siberia, ERSCHOW Trud. Gos. Inst. Exp. Vet. **5** 2 1928 pp. 13–27 4 figs.

Thelaziidae **fam. n.** *Spiruroidea* to include *Thelazia, Ceratospira, Cystidicola, Schistorophus, Serticeps* and possibly *Oxyspirura, Galeiceps* and *Rhabdochona*, RAILLIET J. Parasit. Urbana **2** 1916 pp. 99–105.

Thelaziidae **fam. n.** (*Spirurata*), SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1916 pp. 524–525.

Theristus elegans p. 64 fig. 25, *rusticus* p. 65 fig. 26 **spp. n.** French coast, KREIS Capita zool. **2.**

Thoracostoma polaris **sp. n.** Antarctic, COBB Nematodes Shackleton Exped. Baltimore 1914 pp. 31–33 fig.

Thylaconema **gen. n.** (*Thelaziidae*) *sigmura* **sp. n.** in peritoneal cavity of *Argusianus argus* Calcutta Zoo, CHANDLER Proc. U.S. Nat. Mus. **75** 6 pp. 8–9 figs. 12–15.

Trichosoma cutaneum **sp. n.** in *Macacus rhesus*, SWIFT, BOOTS & MILLER J. Exp. Med. New York **35** 1922 p. 617.

Trichostrongylus skrjabini **sp. n.** in sheep Armenia, KALANTARIAN Trud. Gos. Inst. Exp. Vet. Moscow **5** 2 1928 pp. 3–5 figs. 2–8.

Trichromadora **gen. n.** *longicaudata* **sp. n.** Normandy coast, KREIS Capita zool. **2** pp. 54–55 fig. 18.

Trichurata **subord. n.**, SKRJABIN Ann. Mus. Zool. Acad. Sci. Petrograd **20** 1915 p. 551.

Trichuris skrjabini **sp. n.** in *Camelus bactrianus* and *C. dromedarius* Turkestan, BASKAKOW Trud. Gos. Inst. Vet. Sci. Moscow **2** i 1924 pp. 6–8 figs. 1–4.

Trigonolaimus intermedius p. 487, *parasetosus* p. 489 figs. **spp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57.**

Triodontophorus spp. in horses Holland redescriptions, IHLE Rept. Comm. Sclerostom. Holland **1** 1922 pp. 26–33 figs. 10–20.

Trischistoma Cobb 1913 syn. of *Tripyla* Bast., BAYLIS & DAUBNEY Synopsis 1926 p. 96.

Tropisurus gallineis **sp. n.** in fowl Formosa, SUGIMOTO Taiwan Nojiho 1923 [N.V., *fide* JOYEUX Ann. Parasitol. Paris **3** p. 103].

Tubolaimus **gen. n.** *littoralis* **sp. n.** Sweden, ALLGÉN Zool. Jahrb. Syst. **57** p. 467 fig. 26.

Turgida Travassos 1919 syn. of *Physaloptera* Rud, Ortlepp Proc. Zool. Soc. London **1922** p. 1008.

Tylenchidae **fam. n.**, Micoletzky Arch. Naturg. Berlin **87** 1922 p. 542; renamed *Anguillulinidae*, Baylis & Daubney Synopsis 1926 p. 65.

Tylenchomorphus **gen. n.**, Fuchs (1914) Zool. Jahrb. Syst. Jena **38** 1915 p. 183; syn. of *Allantonema* Leuck., Baylis & Daubney Synopsis 1926 p. 46.

Tylenchus brachyurus **sp. n.** on pineapples and other plants, Godfrey Phytopathology Lancaster **19** pp. 611–629 1 pl. 10 figs.; *browni* **sp. n.** China, Kreis Zool. Anz. Leipzig **84** pp. 292–294 fig. 6; *contortus laricis* p. 280 in *Ips laricis, dispar cinerii* p. 281 fig. 36 in *Crypturgus cinereus* **spp. n.** Europe, Fuchs Z. Parasitenk. Berlin **2**.

Uncinaria polaris **sp. n.** in *Vulpes lagopus* N. America, Looss Records School Med. Cairo **4** 1911 p. 213 figs. 107, 108, 117; *lotoris* **sp. n.** from a raccoon, *Procyon lotor* N. America, Schwartz Proc. U.S. Nat. Mus. **67** 2598 1925 2 pp.

Viannaia linstowi **sp. n.** [? **nom. n.** *pro Strongylus minutus* Linst. 1882 *nec* Dujardin], Travassos Rev. Soc. Brasil. Sci. Rio **3** 1919 (1920) p. 204.

Viannella **gen. n.** *Heligmosominae*, type *Viannaia hydrochoeri* (Trav. 1914), Travassos loc. cit.

Viscosia parva **sp. n.** French coast, Kreis Capita zool. **2** pp. 32–33 pl. ii fig. 7.

Wellcomia decorata **sp. n.** in intestine of *Coendu Brandti* Brazil, Travassos Folha Med. Rio de Janeiro **4** 1923 pp. 37–38 fig. 3.

Xiphinema Cobb 1913 syn. of *Tylencholaimus* De Man, Baylis & Daubney Synopsis 1926 p. 73.

(*b*) Nematomorpha.

Gordiacea, systematic position, Müller Zool. Anz. Leipzig **84** pp. 241–243.

(*c*) Acanthocephala.

Acanthosentis **gen. n.** *antspinus* **sp. n.** in intestine of *Aoria gulio* India, Verma & Datta Ann. Trop. Med. Parasit. Liverpool **23** pp. 483–494 2 figs. pls. x–xi.

Arhythmorhynchus fuscus **sp. n.** in *Nycticorax nycticorax* Japan, Harada Japan J. Zool. Tokyo **2** 1929 p. 195 pl. vi.

Aspersentis **gen. n.** *Rhadinorhynchidae austrinus* **sp. n.** in an unidentified fish (*Trematomus* or *Notothenia* sp.) South Shetland Islands, S. America, Van Cleave Ann. Mag. Nat. Hist. (10) **4** 1929 pp. 229–231 3 figs.

Bolbosoma hamiltoni **sp. n.** in *Balaenoptera physalus* and *B. musculus*, S. Georgia, Baylis Discovery Reports Cambridge **1** p. 556 figs. 12–14.

Centrorhynchus erraticus **sp. n.** in intestine of cat, India, Chandler Ind. J. Med. Res. Calcutta **13** 1925 p. 213.

Echinopardalis **gen. nom. n.** *pro Pardalis* Trav. 1917 preocc., Travassos Soc. Bras. Sci. 1918 (1919), Folha Med. Rio **2** 1921 p. 342. [N.V.]

Micracanthorhynchus **gen. n.**, *Gigantorhynchidae*, type *Echinorhynchus emberizae* Rud., Travassos Rev. Soc. Brasil. Sci. Rio **2** 1918 p. 80.

Oncicola **gen. n.** type *Echinorhynchus oncicola* Ihering 1892, Travassos Mem. Inst. Oswaldo Cruz Rio de Janeiro **9** 1917 pp. 48–50 pls. ix, xiv.

Polyacanthorhynchus **gen. n.** *Gigantorhynchinae*, type *Echinorhynchus macrorhynchus* Dies. in intestine of *Arapaima gigas*, River Amazon, Travassos Rev. Soc. Brasil. Sci. Rio **3** 1919 (1920) pp. 209–215.

Rhadinorhynchus wheeleri in intestine of *Notothenia rossii, Parachaenichthys georgianus* and *Trematomus* (?) *hansoni* S. Georgia pp. 557–558 fig. 15, *johni* in rectum of *Merluccius sp.* Falkland Is. pp. 558–559 fig. 16 **spp. n.**, Baylis Discovery Reports **1**.

CHAETOGNATHA, GASTROTRICHA, ROTIFERA.

SUBJECT INDEX.

COMPREHENSIVE AND GENERAL.

Text Books, Monographs.—Lucks, **520**; Remane, **684, 685**; Wesenberg-Lund, **969**.

Ordovician.—England, BANCROFT, **4**; Wales, PUGH, **98**; France, PENEAU, **92**; Spain, SCHRIEL, **114**; Esthonia, OPIK, **89**; Russia, VARSONOFIEVA, **134**; VĂSCĂUȚANU, **135**; Arctic Regions, FOERSTE, **44**; Greenland, TROEDSSON, **132**; Baffin Island, WILSON, **141**; U.S.A., FENTON, **41**; EVANS, **37**; KAY, **69**; ULRICH, **133**.

Silurian.—Wales, PUGH, **98**; STRAW, **125**; France, PENEAU, **92**; COUFFON & DOLLFUS, **25**; Spain, KEGEL, **70**; SCHRIEL, **114**; Alps, HERITSCH, **57**; Holland (in drift), SCHOLTEN, **113**; Russia, VARSONOFIEVA, **134**; Arctic Regions, FOERSTE, **44**; Bear I., HORN & ORVIN, **60**; U.S.A., BARNSLEY, **5**; TILTON, **129**; JACKSON, **65**; Peru, STEINMANN, **124**; Victoria, HILLS, **59**; SKEATS, **120, 121**.

Devonian.—France, PÉNEAU, **92**; COUFFON & DOLLFUS, **25**; COLLIN, **24**; DUTERTRE, **36**; Wales, STRAW, **125**; Germany, WOLF, **142**; DAHMER, **26**; WILCKENS, **140**; PFEIFFER, **94**; SCHRIEL, **114**; Esthonia, SCUPIN, **117**; Spain, MÜLLER, **85**; Asia Minor, HERITSCH & GAERTNER, **58**; Turkestan, TOLSTIKHINA, **130**; VASILIEVSKY, **136**; Burma, REED, **101**; China, CHANG, **19**; U.S.A., BELANSKI, **8, 9**; SWARTZ, **127**; TILTON, **128**; SMITH, **122**; Canada, KINDLE, **73**; Victoria, SKEATS, **121**; Peru, STEINMANN, **124**.

Devono-Carboniferous.—Belgium and France, DEHÉE, **28**.

Carboniferous.—England, LEWIS, **77**; MUIR-WOOD, **83**; MORRIS, **81**; HUDSON, **62**; ROBERTSON & GEORGE, **107**; REYNOLDS, **104**; WELCH, **139**; SMITH & REYNOLDS, **123**; HEDLEY & WAITE, **56**; ALLAN, **2**; N. Wales, NEAVERSON, **86**; France, STRICKLAND, **126**; COUFFON & DOLLFUS, **25**; Belgium, Delépine, **29, 31**; Netherlands, DELÉPINE **30**; Spain, SCHRIEL, **114**; Russia, ILOVAÏSKY, **63**; SEMICHATOV, **118, 119**; BOLKHOWITINOVA & MARKOV, **15**; VARSONOFIEVA, **134**; FREDERICKS, **46**; YANICHEVSKY, **144**; Siberia, BOLKHOWITINOVA & MARKOV, **14**; China, CHAO, **20**; Turkestan, PODOBA, **97**; GORYAINOVA, **50**; New Guinea, BROILI, **17**; Carpathians, RAKUSZ, **99**; Greenland, KOCH, **75**; Bear I., HORN & ORVIN, **60**; Nova Scotia, BELL, **11**; Canada, KINDLE, **73**; U.S.A., FENTON & FENTON, **43**; SWARTZ, **127**; TILTON, **129**; PLUMMER & MOORE, **96**; GIRTY, **47, 48**; BOOS, **16**; Argentine, REED, **100**; Peru, STEINMANN, **124**; Queensland, REID, **102**.

Permian.—Madagascar, ASTRE, **3**; Timor, HAMLET, **54**; New Guinea, BROILI, **17**.

Trias.—Black Forest, FRANK, **45**; Spain, SCHRIEL, **114**; Persia, DOUGLAS, **33**.

Rhaetic.—France, EVESQUE, **38**; Alps, KILIAN, **71**.

Jurassic.—England, REYNOLDS, **104**; France, BRUET, **18**; BLANCHET, **13**; DUTERTRE, **35**; ABRARD, **1**; MERCIER, **78**; COUFFON & DOLLFUS, **25**; Rhône Valley, ROMAN & SAYN, **108**; Alps, KILIAN, **71**; Switzerland, RICKENBACH, **106**; Jura Mts., JEANNET & JUNOD, **66**; FALCONNIER, **39**; Italy, RUIZ, **110**; DIAZ ROMERO, **32**; Caucasus, PLAMENEWSKY, **95**; Tatra Mts., PASSENDORFER, **91**; Anatolia, GUGENBERGER, **52**; Greenland, KOCH, **75**; Madagascar, BARRABÉ, **6**; BASSE, **7**; E. Africa, WEIR, **138**; Canada, KINDLE, **73**; Peru, STEINMANN, **124**.

Cretaceous.—England, ROWE, **109**; ZAHALKA, **146**; England and Ireland, SAHNI, **111**; France, NICOLESCO, **87**; PÉRON, **93**; COUFFON & DOLLFUS, **25**; ZAHALKA, **146**; CIRY, **22**; Belgium, ZAHALKA, **145**; Bohemia, ZAHALKA, **145**; Istria, PARONA, **90**; Caucasus, RENNGARTEN, **103**; Russia, MILANOVSKY, **79**; Switzerland, RICKENBACH, **106**.

Tertiary. — Germany, HUCKE & VOIGT, **61**; France, COUFFON & DOLLFUS, **25**; Spitzbergen, GRIPP, **51**; Japan, HAYASAKA, **55**.

Eocene.—England, MUIR-WOOD, **82**; Belgium, VINCENT, **137**; Peru, BERRY, **12**.

Pliocene.—Ireland, BELL, **10**.

Quaternary. — Norway, NORDGÅRD, **88**.

III.—SYSTEMATIC INDEX.

NOTE.—Classification according to C. Schuchert and C. M. Le Vene in Fossilium Catalogus I **42** Brachiopoda 1929.

ORDER PALAEOTREMATA.

PATERINACEA.

†Paterinacea **superfam. n.** for Paterinidae, SCHUCHERT & LE VENE Fossilium Catalogus I **42** p. 11.

RUSTELLACEA.

Vacant.

KUTORGINACEA.

Vacant.

ORDER ATREMATA.

OBOLACEA.

†Micromitridae **fam. n.** for *Micromitra, Iphidella, Volborthia, Mickwitzia,* SCHUCHERT & LE VENE Fossilium Catalogus I **42** p. 11.

OBOLIDAE.

†*Leptobolus insignis,* WILSON **141** p. 128.

†*Lingulella marcia* var. *templetonensis* **var. n.** Cambrian Queensland. CHAPMAN Proc. Roy. Soc. Vict. **41** 2 p. 207.

†*Schmidtites* **nom. n.** for *Schmidtia* Volborth 1869 non Balsamo-Crivelli 1863 Sponges. Type *S. celata* Volborth Ordovician. SCHUCHERT & LE VENE Amer. J. Sci. New Haven **17** 98 p. 121.

LINGULACEA.

LINGULIDAE.

†*Lingula* sp. p. 79 figured, PLUMMER & MOORE **96**.—*L.* sp recorded, WILSON **141** p. 128.—*L. rauliniana,* CIRY **22** p. 574.—*L. richmondense* **sp. n.** nom. nud., EVANS Abstr. Theses. Univ. Chicago Sci. Ser. **2** p. 202.—*L. pseudocrumena, lesueuri* figured p. 42, PÉNEAU **92**.

†*Lingulipora nebraskensis* p. 148 figured, PLUMMER & MOORE **96**.

TRIMERELLACEA.

†Trimerellacea **superfam. n.** for Neobolidae, Elkaniidae, Trimerellidae, SCHUCHERT & LE VENE Fossilium Catalogus I **42** p. 12.

TRIMERELLIDAE.

†*Dinobolus* (?) sp., TROEDSSON **131** p. 81.—†*D.* (?) sp. p. 81, TROEDSSON **132**.

ORDER NEOTREMATA.

SIPHONOTRETACEA.

Vacant.

ACROTRETACEA.

ACROTRETIDAE.

†Acrosaccinae **subfam. n.** for *Acrossacus,* SCHUCHERT & LE VENE Fossilium Catalogus I **42** p. 13.

†*Acrothele bulboides* **sp. n.** p. 207, Cambrian Queensland, CHAPMAN Proc. Roy. Soc. Vict. **41** 2 p. 207.

DISCINACEA.

DISCINIDAE.

†*Discina,* BROILI **17** p. 6.

†*Discina* (*Orbiculoidea* ?) *mickwitzi* p. 39, ÖPIK **89**.

†*Discinisca* spp. discussed p. 466, *ferroviae* **sp. n.** p. 464 Eocene England, MUIR-WOOD Proc. geol. Ass. London **39**.

Disciniscinae **subfam. n.** for *Discinisca, Discina, Pelagodiscus,* SCHUCHERT & LE VENE Fossilium Catalogus I **42** p. 13.

†*Orbiculoidea* sp., BELL **10** p. 106.—*O.* sp. p. 11, PÉNEAU **92.**—*O. saltensis* **sp. n.** Upper Carboniferous Argentine, REED Pub. Carnegie Instn. Washington **381** p. 132.

†Orbiculoideinae **subfam. n.** for *Schizotreta, Mesotreta, Orbiculoidea, Lindstroemella, Roemerella, Oehlertella,* SCHUCHERT & LE VENE Fossilium Catalogus 1 **42** p. 13.

CRANIACEA.

CRANIIDAE.

†*Crania modesta* p. 148 figured, PLUMMER & MOORE **96.**—*C. cincta* **sp. n.** p. 105, *brookfieldensis* **sp. n.** p. 106 Carboniferous Nova Scotia, BELL Mem. Geol. Surv. Can. **155.**—*C.* (?) sp. ind., TROEDSSON **131** p. 82.—*C.* (?) sp. ind., TROEDSSON **132** p. 82.

ORDER PROTREMATA.

ORTHACEA.

BILLINGSELLIDAE.

†*Eoorthis ochus,* var. *concentrica* **var. n.,** cf. *ochus* p. 145 Cambro-Ordovician Canada, KINDLE Canad. Field Nat. **43** 7.

II.—SUBJECT INDEX.

GENERAL.

Anatomy, physiology and classification of Entoprocta, Cori, **15.**

Experiments on the hibernation of *Arthropodaria kovalevskii,* Nasonov, **38.**

Association of Bryozoa with Polychaeta, Stechow, **57.**

Formation of the polypide, Barrois, **2.**

Evolution of the Fenestellidae, Nekhoroshev, **40.**

DISTRIBUTION.

(*a*) Recent.

Arctic Ocean, Nordgård, **43**; Iceland and Hebrides, Remy, **53**; Kola Fjord, Gurjanowa, **27**; England, Percival, **47**; N. France, Fischer, **23**; Lake Neuchâtel, Switzerland, Mauvais, **34**; Ritomsee, Borner, **6**; Württemberg, Fischer **24**; Riesengebirge, Wunder, **63**; Bohemia, Schachanowskaja, **55**; Mediterranean, Fratarelli, **25**; Spain, Barroso, **3**; Italy, Zirpolo, **66, 67**; Algeria, Canu, **8**; Caspian Sea, Tarnogradsky, **59**; Transcaucasia, Fadejew, **20**; Transvaal, Hastings, **28**; Burma, Rao, **51**; Persia, Abricossoff, **1**; Abrolhos Is., Zirpolo, **65**; Philippine Region, Canu & Bassler, **11**; Mutsu Bay, Okada, **44, 45**; Tahiti, Hastings, **29**; Illinois, Richardson, **54.**

(*b*) Fossil.

Pliocene.—Italy, Nangeroni **37.**,

Miocene.—Giarabùb, Cipolla, **13.**

Oligocene.—N. Germany, Hucke & Voigt, **32**; Donetz district, Slodkewitsch, **56.**

Eocene. — England, Burton, **7**; Cöthen, Davis, **17**; Belgium, Canu & Bassler, **10**; Skalnik, Pazdro, **46.**

Cretaceous.—England, Carter, **12.**

Permian.—Timor, Bassler, **4.**

Carboniferous.— Argentina, Reed, **52**; Jourawlinskee Mine, Russia, Bolkhowitinova & Markoff, **5**; Illinois and Kentucky, McFarlan, **33**; Texas, Moore, **35**; Plummer & Moore, **49**; Arkansas, Girty, **26**; Avesnes, Dehée, **18.**

Devonian.—Spain, Müller, **36**; Avesnes, Dehée, **18.**

Silurian.—E. Alps, Heritsch, **31**; Leningrad and Estland, Hecker, **30.**

Ordovician.—N.E. Illinois, Evans, **19**; Missouri, Fenton, **21**; Roumania, Văscăutanu, **61**; Ilytsch, Varsanofieva, **62**; Greenland, Troedsson, **60.**

III.—SYSTEMATIC INDEX.

ECTOPROCTA.

GYMNOLAEMATA.

Ctenostomata.

Lobiancopora hyalina, Zirpolo **67** p. 1.

†*Rhopalonaria permiana, timorensis* **spp. n.** Permian Timor, Bassler Paläont. Timor **16** p. 40.

Cyclostomata.

Completion of summary of family and generic characters, Canu & Bassler **11.**

Actinopora japonica p. 522, *philippinensis* p. 523, **spp. n.** Recent Philippine Region, Canu & Bassler Bull. U. S. Nat. Mus. **100** 9.

Retepora laxipes, tenuitelifera, spinosissima, clypeata, longicollis, millespinae, pseudofinis **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 pp. 361–368.—*R. terebrata*, OKADA **45** p. 31.

Rhamphostomella sollers **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 353.

Schismopora chrysalis **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 430.

Schizellozoon pheniceum p. 370, *luteum* **sp. n.** p. 371, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Schizomavella ambita vars. *granulosa, granulata* **varr. n.** p. 303, *cornuta* **sp. n.** p. 304, *simplex, ovoidea* **spp. n.** p. 305, *lepralioides* p. 307, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.—*S. auriculata* p. 18 *galeata* p. 19, OKADA **45**.

†*Schizomavella escharoides* **sp. n.** Tertiary Libya, CIPOLLA Res. Sci. Miss. Oasi Giarabùb 1928 p. 363.

Schizopodrella cucullata **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 317.—*S. unicornis*, OKADA **45** p. 20.

Schizoporella costulata, perforator, proditor **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 pp. 317–319.—*S. crustacea*, OKADA **45** p. 20.

Scrupocellaria securifera p. 205, *curvata* p. 207, *ulrichi* **sp. n.**, *scrupea* p. 208, *ferox* p. 210, *diadema* p. 211, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Siphonoporella ovalis **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 149.

Smittina ophidiana var. *marginata, trispinosa* vars. *acuta, granulosa, applicata*, **varr. n.** *tripora* **sp. n.** Recent Philippine Region, CANU & BASSLER

Bull. U. S. Nat. Mus. **100** 9 pp. 339–350.—*S. trispinosa* p. 28, *reticulata* p. 29, OKADA **45**.

†*Smittina forata* **sp. n.** Eocene Belgium, CANU & BASSLER Mém. Mus. Hist. nat. Belg. **39** p. 39.—*S. bassleri* **sp. n.** p. 366, *regularis* var. *africana* **var. n.** p. 370, Tertiary Libya, CIPOLLA Res. Sci. Miss. Oasi Giarabùb 1928.—*S. tubularis*, HUCKE & VOIGT **32** p. 164.

Steganoporella magnilabris p. 144, *mandibulata* p. 145, CANU & BASSLER **11**.

†*Steganoporella immanis* **sp. n.** Eocene Belgium, CANU & BASSLER Mém. Mus. Hist. nat. Belg. **39** p. 31.

†*Stenosipora unirostris* **sp. n.** Eocene Belgium, CANU & BASSLER Mém. Mus. Hist. nat. Belg. **39** p. 53.

Stephanosella indistincta **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 314.

Stomhypselosaria condylata p. 174, *dupliforma* **sp. n.** p. 175, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Stylopoma distorta, parviporosa, grandis **spp. n.** Recent Philippine Region CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 pp. 314–316.

Tetraplaria gryllus **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 395.

Thalamoporella granulata, lioticha p. 150, *hamata* p. 151, *linearis* **sp. n.** p. 152, *expansa* p. 153, *insolita* **sp. n.** p. 154, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Tremogasterina celleporoides, CANU & BASSLER **11** p. 118.

Tremopora radicifera p. 112, *ovalis* **sp. n.** p. 114, Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Tremoschizodina crassa **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 389.

Triphyllozoon biseriatum p. 372, *magniscutulatum* p. 373, **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Trochosodon quincuncialis, porcellanum, parvulum p. 494, *decussis* p. 495, **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

Trypostega pusilla **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 248.

†*Tubucella aviculifera, crenatula* **spp. n.** Eocene Belgium, CANU & BASSLER Mém. Mus. Hist. nat. Belg. **39** pp. 46, 48.

Tubucellaria cereoides var. *gracilis* **var. n.** *exilis, filiformis* **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 pp. 355–359.

†*Tubucellaria cereoides*, CIPOLLA **13** p. 377.

†*Umbonula wemmeliensis* **sp. n.** Eocene Belgium, CANU & BASSLER Mém. Mus. Hist. nat. Belg. **39** p. 42.—*U. gigantea*, CIPOLLA **13** p. 372.

Velumella philippinensis **sp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9 p. 129.

†*Vibracella orbicularis*, CANU & BASSLER **10** p. 25.

Vibracellina viator p. 97, *crassatina* p. 98, **spp. n.** Recent Philippine Region, CANU & BASSLER Bull. U. S. Nat. Mus. **100** 9.

†*Vibracellina placentula*, CANU & BASSLER **10** p. 19.

†*Vincularia chilostomata*, PAZDRO **46** p. 143.

Zeuglopora lanceolata, CANU & BASSLER **11** p. 511.

PHYLACTOLAEMATA.

Hyalinella lendenfeldii p. 301, *vaihiriae* **sp. n.** p. 309, Recent Tahiti, HASTINGS Ann. Mag. Nat. Hist. 10 **3**.

Lophopodella capensis, HASTINGS **28** p. 130.—*L. carteri*, RAO **51** p. 271.

Pectinatella jheringi, HASTINGS **29** p. 303.—*P. magnifica*, SCHACHANOWSKAJA **55** p. 296.

Plumatella bigemmis, ABRICOSSOFF **1** p. 33.—*P. polymorpha* **var. n.** Recent Transcaucasia, FADEJEW Trav. Sta. biol. Caucase Nord. **1** fasc. I p. 23.—*P. tanganyikae*, RAO **51** p. 270.

ENTOPROCTA.

Calyssozoa **nom. n.** for Entoprocta, CLARK **14** pp. 19, 22, 23.

Kamptozoa (Vermes Amera) **nom. n.** for Entoprocta, CORI in Kükenthal Handbuch der Zoologie **2** 5 1929 p. 1.

VIII. MOLLUSCA

N.B.—The number in Clarendon type quoted after the author's name, in both Subject and Systematic Indices, refers to "Titles," where the fuller reference will be found.

GENERAL.

Historical.—Post Miocene fauna of Red Sea Region: Cox, **164**; Helicidae of France: Germain, **316**; Kubacska, **481**; *Prasina*: Lamy, **496**; Lamy, **505**; *Volutopsis norvegica*: Nordgård, **592**; *Helix hieroglyphicula*: Pallary, **620**; Octopodinae: Robson, **740**; *Karstenia*: Roschen, **753**; Schindewolf, **795**.

Biography.—J. C. Dacie: [Anon.], **14**; J. Sinel: [Anon.[, **15**; R. Dehée: Barrois, **40**; M. D. Barber: Clench, **129**; W. H. Dall: Dollfus, **213**; J. A. Hargreaves: Gyngell, **352**; M. M. Geoffroy, uncle and nephew: Lamy, **506**; Dr. A. J. Wagner: Polinski, **687**; L. S. Frierson: Strecker, **858**; H. C. Burnup: T[omlin], **883**.

Bibliography.—R. Dehée: Barrois, **40**; Coulon, **155**; W. H. Dall: Dollfus, **213**; J. A. Hargreaves: Gyngell, **352**; Bronn's Klassen und Ordnungen des Tier-Reichs, Bivalves: Haas, **354**; Johnson, **441**; Dr. A. J. Wagner: Polinski, **687**; "Index animalium . . ." etc.: Sherborn, **824**; L. S. Frierson: Strecker, **858**; H. C. Burnup: T[omlin], **883**; Van derpool, **899**; Wenz, **944**.

General Treatises and Monographs.—Fresh water mollusca of Wisconsin: Baker, **31** & **32**; Ammonites: Beurlen, **56**; *Kosmoceras*: Brinkman, **97**; Check List of N. American Naiades: Frierson, **289**; Helicidae of France: Germain, **316**; Goldring, **322**; Shells of Peitaiho: Grabau & King, **335**; Bronn's Klass. Ord. Tier-Reichs: Haas, **355**; L. & F. W. Fauna of Catalonia: Haas, **363**; Havinga, **371**; Bronn's Klassen und Ordnungen des Tier-Reichs: Hoffmann, **400**; *Parkinsonia*: Nicolesco, **587**; Robinson & Jary, **736**; Recent Cephalopoda. Part I Octopodinae: Robson **740**; Dibranchiate Cephalopoda of Japanese and adjacent waters: Sasaki, **784**; Geology of Peru: Steinmann, **844**; Thiele, **870**; Vayssière, **904**.

Ethno-Conchology. — [Anon.], 18; Bertoni, **55**; Legge, **516**; Nicholls, **585**; Petrbok, **659**; Pratje, **696**.

Local Lists.—Boycott, **90**; Burton, **107**; Clench, **132**; Ösel Isd., Esthonia: Ecke & Dulckeit, **235**; Ellis, **242**; Fyscher, **299**; Province of Posen, Germany: Haas, **359**; Jeackel, **429**; Laidlaw, **493**; Slugs of Alençon: Letacq, **519**; Millport: Magor, **542**; Rotarides, **757**.

Museums, Collections, Expeditions.—Cypraea of Hull Mus.: [Anon.], **16**; [Anon.], **17**; Savigny Coll.: Canu, **110**; Additions to Perthshire Nat. Hist. Mus.: Coates, **137**; Muricidae of Elbeuf Mus.: Coulon, **154**; "Pourquoi-Pas ?": Dangeard, **181**; Fossils of Catania, Univ. Coll. and Modica Museums: Gregorio, de, **340**; Freshwater moll. of Second German Central

African Exped.: HAAS, **360**; HENDERSON, **383**; Cephalopoda of Dana Exped.: JOUBIN, **444**; Lyonsiidae of Paris Mus.: LAMY, **502**; Adamson Col.: LAMY, **503**; Ostreidae of Paris Mus.: LAMY, **504**; LUEDERWALDT, **531** & **532**; *Conus gloria-maris*: MOROS, **577**; Pinchot Exp.: PILSBRY, **679**; Moll. of S. African Museum: TOMLIN, **878**; TOMLIN, **881**; WILKINS, **949**.

Classification. — Polyplacophora: ASHBY, **21**; Fossil Australian Polyplacophora: ASHBY, **22**; New Zealand Polyplacophora: ASHBY, **24**; W. H. Dall's classification of Pelecypoda: DOLLFUS, **213**; *Aplysia*: ENGEL, **244**; *Cypraea*: FULTON, **297**; Helicidae of France: GERMAIN, **316**; IREDALE, **412**, **413** & **414**; Loricata: IREDALE & HULL, **415**; Cephalopoda: JOUBIN, **444**; KAUTSKY, **452**; *Prasina*: LAMY, **496**; LAMY, **498**; Malleacea: LAMY, **499**; LAMY, **500**; *Dosinia*: LAMY, **501**; Fossil *Trigonia*: LEBKÜCHNER, **514**; *Hoplites*: LITCHKOW, **525**; *Ostrea* & *Pernostrea*: MERCIER, **562**. Land shells of Lord Howe Isd.: PEILE, **637**; PEILE, **638**; *Liguus*: PILSBRY, **676**; *Fruticicola*: POLINSKI, **686**; *Boopsis*: PRUVOT, **701**; Nudibranchiata: PRUVOT-FOL, **702** & **703**; Certain Cephalopoda: ROBSON, **737** & **738**; Octopodinae: ROBSON, **740**; *Octopoda*: ROBSON, **744**; *Karstenia*, ROSCHEN, **753**; SPATH, **838**; *Pitaria*: TEGLAND, **866**; TEICHERT, **867**; Neritidae: WENZ, **943**; WINCKWORTH, **957**; *Pinna*: WINCKWORTH, **958**; *Ficus*: WRIGLEY, **965**; YAKOVLEV, **968**.

Nomenclature.—BAKER, **30**; Vitrinidae: BAKER, **37**; CABRERA, **108**; CLENCH, **133**; African non-marine mollusca: CONNOLLY, **148** & **149**; COX, **165**; *Aporrhais*: DEAN, **186**; W. H. Dall's nomenclature: DOLLFUS, **213**; *Aplysia*: ENGEL, **244**; Naiades of N. America: FRIERSON, **289**; *Cypraea miliaris*: FULTON, **298**; GATLIFF, **314**; Helicidae of France: GERMAIN, **316**; GOODRICH, **333** & **334**; IREDALE, **412**, **413** & **414**; JOHNSON, **441**; LAMY, **500**; Fossil *Trigonia*: LEBKÜCHNER, **514**; *Hoplites*: LITCHKOW, **525**; *Gephuroceras*: MATERN **556**; PEILE, **640**; *Neverita reclusiana*: PILSBRY, **674**; *Cyphoxis*: PILSBRY, **675**; *Liguus*: PILSBRY, **676**; PILSBRY, **677**; *Boopsis* & *Cephalopyge*: PRUVOT, **701**; Certain Cephalopoda: ROBSON, **737** & **738**; *Ostrea*; ROUGHLY, **762**; *Metis*: SALISBURY, **779**; SALISBURY, **781**; Cypraeacea: SCHILDER, **790**; Eocene Amphiperatidae and Cypraeidae of England: SCHILDER, **793**; SPATH, **837**; SPEIJER, **839**; TOMLIN, **884** & **885**; *Neritina*, *Theodoxus*: WENZ, **942**; WENZ, **944**; WINCKWORTH, **956**. *Pinna*: WINCKWORTH, **958**.

Technique.—CARTER, **113**; CLENCH, **131**; GRAY, **339**; Loricata: IREDALE & HULL, **415**; JARVIS, **431**. KOLPAKOFF, **476**; MATERN, **555**; OEKLAND, **599**; PETREE & ALSBERG, **660**; Technical nomenclature: POHL, **684**; *Margaritana margaritifera*, cultivation of: RIEDL, **734**; Staining of vesicular cells: SEMICHON, **813**; UNDERHILL, **898**; Methods of recording dimensions of ammonites: WADDINGTON, **917**.

Economics.—BIGGER, **61**; BOUTAN, **86**; BRÜHL, **100**, **101** & **102**; CAWSTON, **118**; *Haliotis*: CROFTS, **170**; DAMMERMAN, **179**; D'ANCONA, **180**; DIEUZEIDE & ARGILAS. **210**; Oyster culture in Malaya: DOVER, **221**; EDGAR & ROSE, **237**; EICHHORN, **238**; *Paphia staminea*: FRASER & SMITH, **279**; *Saxidomus giganteus*: FRASER & SMITH, **280**; GALTSOFF, **305**; HEATH, **374**; JOHNSTONE, **442**; MARCHI, **545**; MARTINSON, **551**; MEYER, **565**; MOLL & ROCH, **571**; MORAL, **574**; NORDGÅRD, **590**; NOVELLA, **594**; Oyster cultivation in British Isles: ORTON, **611**; British oyster fisheries: ORTON, **612**; Oyster drills on English oyster beds: ORTON & AMIRTHALINGAM, **615**; PRYTHERCH, **704**; QUENSTEDT, **707**; *Gryphaea*: RANSON, **710**; *Margaritana margaritifera*: RIEDL, **734**; *Ommastrephes sloani pacificus*: SASAKI, **783** & **785**; SPÄRCK, **835**; Japanese food oysters: WAKIYA, **925**; Artificial feeding of *Mya arenaria*: WILTON & WILTON, **954**,

Miscellanea.—BROCKMEIER, **98**; Silicification of Lamellibranchs: COUVREUR, **161**; Colouration in fossil mollusca: DUTERTRE, **229**; EISENTRAUT, **239**; FLEISCHMANN, **263**; JACKSON, **424**; PFEFFER, **665**; SCHLESCH, **799**; SCHWARZ, **810**; T[OMLIN], **880**; TRUSHEIM, **892**.

STRUCTURE.

General.—*Haliotis*: CROFTS, **170**; *Notarchus*: ENGEL, **245**; *Alderia & Limapontia*: GALLIEN, **304**; Lamellibranchia: HAAS, **355**; *Drepania*: MACFARLAND, **535**; Polyplacophora: NIERSTRASZ & HOFFMANN, **588**; POHL, **684**; *Boopsis mediterranea*: PRUVOT, **701**; Nudibranchiata: PRUVOT-FOL, **702**; Certain N. American f.w. mussels: REARDON, **716**; *Margaritana margaritifera*: RIEDL, **734**; Cephalopoda of Indo-China: ROBSON, **745**; *Myxas*: ROSZKOWSKI, **756**; *Alopia*: SOÓS, **834**; *Cecilioides acicula*: WATSON, **933**; *Pinna*: WINCKWORTH **958**.

Skeletal Anatomy. — Octopodinae: ROBSON, **740**.

Nervous System. — Nudibranch veliger: CARTER, **113** & **114**; RISBEC, **735**; ROTARIDES, **758**; Certain Nudibranchiata: RUSSELL, **767**; SPRENKEL, **841**; *Melanopsis & Cerithium* SUNDERBRINK, **860**; *Caecilioides acicula*: WÄCHTLER, **915**.

Sense Organs.—LABBÉ, **489**; RISBEC, **735**; *Limax flavus*: ROTARIDES, **760**; Certain Nudibranchiata: RUSSELL, **767**; *Melanopsis & Cerithium* SUNDERBRINK, **860**; *Caecilioides acicula*: WÄCHTLER, **915**; WÄCHTLER, **916**.

Muscular System.—PLENK, **682**; QUERNER, **708**; ROTARIDES, **758**; *Caecilioides acicula*: WÄCHTLER, **915**

Vascular System.—POLINSKI, **688**; RISBEC, **735**; *Melanopsis & Cerithium* SUNDERBRINK, **860**.

Alimentary System, Radula and Jaws.—*Helisoma corpulenta*: BAKER, **34**; Neozelanic Loricata: IREDALE & HULL, **415**; JOUBIN, **445**; PEILE, **637** & **638**; *Fruticicola*: POLINSKI, **686**; *Buccinulum*, POWELL, **691**; PRENANT **698**; RISBEC, **735**; Octopodinae: ROBSON, **740**; *Paludomus tanschaurica*: SESHAIYA, **818**; *Melanopsis & Cerithium*: SUNDERBRINK, **860**; *Tortulosa* spp. n.: TOMLIN, **882**; WAAGE, **913**; *Caecilioides acicula*: WÄCHTLER, **915**; WÄCHTLER, **916**.

Respiratory Organs. — GALTSOFF, **305**; Octopodinae: ROBSON, **740**; *Caecilioides acicula*: WÄCHTLER, **915**.

Reproductive Organs.—*Helisoma corpulenta*: BAKER, **34**; DORELLO **217**; GAMBETTA, **308**; HARANT & TUZET, **368**; *Dollabella*: HIRASE, **396**; *Insulivitrina*: HOFFMANN, **401**; JOUBIN, **445**; *Planorbis corneus*: KOLESSOW, **472**; *Vitrina brevis*: KÜNKEL, **486**; *Limnaea*: LARAMBERGUE, **508**; PEYER, **661**; *Fruticicola*: POLINSKI, **686**; RISBEC, **735**; Octopodinae: ROBSON, **740**; *Ommastrephes sloani pacificus*: SASAKI, **785**; *Melanopsis & Cerithium*: SUNDERBRINK, **860**.

Excretory and Secretory Organs.—RISBEC, **735**.

Luminous Organs.—KISHITANI, **463** & **464**.

External Anatomy.—Octopodinae: ROBSON, **740**.

Shell.—*Lytoceras* (*Tetragonites*) *epigonum*: BASSE, **45**; Ammonites: BEURLEN, **56**; Scaphopoda: COUVREUR, **158**; COUVREUR, **159** & **160**; DONS, **215**; GUGENBERGER, **344**; Neozelanic Loricata: IREDALE & HULL, **415**; KAUTSKY, **453**; Teredinidae: MAY, **558**; *Ostrea & Pernostrea*: MERCIER, **562**; *Indoennea*: PEILE, **636**; *Gryphaea*; PFANNENSTIEL, **663**; *Urocoptis alleni*: PILSBRY, **678**; RISBEC, **735**; RUSSELL, **769**; SCHINDEWOLF, **795**; SCHMIDT, **806**; *Caecilioides acicula*: WÄCHTLER, **915**; WAGNER, **924**.

Nacreous Growths.—AMIRTHALINGAM, **19**.

PHYSIOLOGY.

General.—JORDAN, **443**.

Glandular Secretions, Pigments.—*Melanopsis*: BISACCHI, **64**; *Haliotis*: CROFTS, **170**; DHÉRÉ, BAUMELER & SCHNEIDER, **209**; KRIJGSMAN, **479**; MORETTI, **575**; ROTARIDES, **761**; SCHREIBER, **808**.

Reaction to Light.—CROZIER & COLE, **171**; KÜHN & HEBERDEY, **482**.

Vascular System. — BIERING, **60**; BOER, DE, **73** & **74**; CATE, TEN, **116**; *Haliotis*: CROFTS, **170**; *Anodonta*: DUBUISSON, **227**; DUVAL, **233**; FEDERIGHI, **256**; FREDERICQ, **286**;

GOLDNER, **331**; KOKUBO, **470**; KUMANO, **485**; SCHAEFFER, **788**; SKRAMLIK, VON, **829**; TAKATSUKI, **863**; VITA, **909**; WOLVERKAMP, **960**; YAZAKI, **969**; ZOOND & SLOME, **981**.

Respiration and Respiratory Organs.—*Haliotis*: CROFTS, **170**; GALTSOFF, **305**; GRAY, **339**; NOZAWA, **595**; REDFIELD & GOODKIND, **717**; SCHREIBER, **808**.

Excretory Organs.—*Haliotis*: CROFTS, **170**; KOLLER, VON, **474**.

Muscular System and Muscular Movements.—BOZLER, **94** & **95**; *Haliotis*: CROFTS, **170**; KIMURA, **460**; KOBAYASHI, **468**; NISHIMURA, **589**; ROTARIDES, **758**; TAMURA, **864**.

Alimentary System and Alimentation—*Haliotis*: CROFTS, **170**; KRIJGSMAN, **479**; SAWANO, **786**; SESHAIYA, **819**.

Nervous System and Nervous Movements.—Nudibranch veliger: CARTER, **114**; *Haliotis*: CROFTS, **170**; FREDERICQ, **286**; RICHARDS, **731**; ROTARIDES, **758**; SCHREIBER, **808**; SERENI, **815**; CATE, TEN, **868**; *Amphorina*: VAYSSIÈRE, **903**.

Reproductive Organs. — *Haliotis*: CROFTS, **170**; DORELLO, **217**; *Pterotrachea*: MINELLI, **567**; PEYER & KUHN, **662**; SEMICHON, **813**; *Limnaea luteola*: SESHAIYA, **817**.

Sense Organs.—BRUNNMÜLLER, **104**; *Haliotis*: CROFTS, **170**.

Tegument.—*Haliotis*: CROFTS, **170**.

Effect of Temperature.—FEDERIGHI, **256**; HENDERSON, **385**; WAELE, **918**; WEBER, **935**.

Effect of Salinity.—KOKUBO, **470**.

Reaction to Toxins.—SERENI, **816**.

Chemical Constituents.—CARTER, **114**; DHÉRÉ & BAUMELER, **208**; DUVAL, **233**; GRAETZ, **336**; HENZE, **386**; HILL, **395**; HOFFMANN, **402**; KAWAI, **454**; KIMURA, **460**; KOBAYASHI, **468**; KOKUBO, **470**; KOLLER, VON, **474**; KUMANO, **485**; MATSUMOTO, **557**; NISHIMURA, **589**; OKAZADA & KOBAYASHI, **600**; PETREE & ALSBERG, **660**; PRENANT, **697**; YAZAKI, **969**.

Experimental.—FREDERICQ, **286**; HENDERSON, **385**; KOBAYASHI, **468**; KOKUBO, **470**; LABBÉ, **490**; NOZAWA, **595**; OKAZADA & KOBAYASHI, **600**; RICHARDS, **731**; SAWANO, **786**; SCHAEFFER, **788**; SERENI, **815** & **816**; TAKATSUKI, **863**; TAMURA, **864**; VITA, **909**; YAZAKI, **969**; ZOOND & SLOME, **981**.

DEVELOPMENT.

Oogenesis and Ovum.—ANKEL, **13**; BOYCOTT, **87**; CRABB, **167**; DAUTERT, **184**; *Ostrea gigas*: FUJITA, **296**; *Alderia* & *Limapontia*: GALLIEN, **304**; *Parmacella*: GHIGI, **322**; *Littorina*: HAYES, **373**; *Littorina* & *Lacuna*: HERTLING, **389**; HERTLING, **391**; *Dollabella*: HIRASE, **396**; *Fasciolaria gigantea*: JOHNSON, **440**; *Vitrina brevis*: KÜNKEL, **486**; LARAMBERGUE, **509**; *Melongena pugilina*: MOHR, **570**; NEKRASOV, **584**; PASTEELS, **628**; PAX, **633**; PRZIBRAM, **705**; *Gryphaea angulata*: RANSON, **709**; RISBEC, **735**; SANZO, **782**; *Ommastrephes sloani pacificus*: SASAKI, **783** & **785**; *Ostrea denselamellosa*: SENÔ, **814**; *Limnaea luteola*: SESHAIYA, **817**; *Euglandina singleyana*: STRECKER, **857**; *Caecilioides acicula*: WÄCHTLER, **915**.

Spermatogenesis and Spermatozoon.—DAUTERT, **184**; DUBOSCQ, **226**; *Ostrea gigas*: FUJITA, **296**; GATENBY, **313**; GRASSÉ & TUZET, **337** & **338**; *Planorbis*: KOLESSOW, **473**; *Vitrina brevis*: KÜNKEL, **486**; LARAMBERGUE, **509**; MONNÉ, **572**; PRZIBRAM, **705**; *Gryphaea angulata*: RANSON, **709**; *Ostrea denselamellosa*: SENÔ **814**; *Limnaea luteola*: SESHAIYA, **817**; TUZET, **893**.

Embryology.—CRABB, **167**; *Haliotis*: CROFTS, **170**; DAUTERT, **184**; *Ostrea gigas*: FUJITA, **296**; *Littorina*: HAYES, **373**; *Dollabella*: HIRASE, **396**; LABBÉ, **490**; PASTEELS, **628**; PORTMANN, **690**; PRZIBRAM, **705**; Cephalopoda: RANZI, **711** & **712**; *Ommastrephes sloani pacificus*: SASAKI, **785**.

Organogeny.—Cephalopoda: RANZI, **711** & **712**; *Ommastrephes sloani pacificus*: SASAKI, **785**.

Larval Stages.—BIDDER, **59**; Nudibranch veliger: CARTER, **114**; *Alderia* & *Limapontia*: GALLIEN, **304**; GHIGI,

322; HELDT, 380; ISSEL, 419, 420 & 421; KÄNDLER, 449; *Vitriva brevis*: KÜNKEL, 486; *Gryphaea*: PFANNENSTIEL, 663; PRYTHERCH, 704; PRZIBRAM, 705; *Gryphaea angulata*: RANSON, 709; Octopodinae: ROBSON, 740; *Ostrea*: ROUGHLY, 762; SANZO, 782; *Ostrea denselamellosa*: SENÔ, 814; WAAGE, 912 & 913.

Post-Embryonic Stages.—*Haliotis*: CROFTS, 170; *Littorina*: HAYES, 373; Octopodinae: ROBSON, 740.

Shell.—BOYCOTT, 93; OLDHAM, 604; *Gryphaea*: PFANNENSTIEL, 663.

Mode of Growth.—*Pinna*: WINCKWORTH, 958.

Parthenogenesis.—*Limnaea luteola*: SESHAIYA, 817.

ETHOLOGY.

General.—JADIN, 426; *Caecilioides acicula*: WÄCHTLER, 914.

Movements and Locomotion.—*Haliotis*: CROFTS, 170; *Aplysia*: ENGEL, 244; FRÖMMING, 293; *Littorina*: HAYES, 373; O., 596; *Limnaea stagnalis*: PIAGET, 666; WAAGE, 913.

Homing Instincts.—*Patella vulgata*: ORTON, 610.

Enemies, Defence and Protection.—BOYCOTT, 91; *Haliotis*: CROFTS, 170; *Alderia & Limapontia*: GALLIEN, 304; LAWSON, 511; OLDHAM, 603; ORTON & AMIRTHALINGAM, 615; Octopodinae: ROBSON, 740; SPÄRCK, 835; YOUNG, 976.

Feeding Habits.—ANKEL, 12; BOYCOTT, 91; COCKERELL, 142; *Haliotis*: CROFTS, 170; *Aplysia*: ENGEL, 244; *Alderia & Limapontia*: GALLIEN, 304; *Littorina*: HAYES, 373; Neozelanic Loricata: IREDALE & HULL, 415; *Fiona*: ISSEL, 418; *Ocinebra erinacea*: ORTON, 613; Octopodinae: ROBSON, 740; *Ommastrephes sloani pacificus*: SASAKI, 785; SCHMID, 805; SMITH, 831; *Polycera*: TOLMER, 876; WAAGE, 912.

Breeding Habits.—AMEMIYA, 7; BOYCOTT, 87; *Hydrobia jenkinsi*: BOYCOTT, 92; *Paphia staminea*: FRASER & SMITH, 279; *Saxidomus giganteus*: FRASER & SMITH, 280; *Alderia & Limapontia*: GALLIEN, 304; *Melibe leonina*: GUBERLET, 343; *Littorina*: HAYES, 373; Loricata: IREDALE & HULL, 415; *Fiona*: ISSEL, 418; *Vitrina brevis*: KÜNKEL, 486; ORTON & AMIRTHALINGAM, 615; PEYER & KUHN, 662; PRYTHERCH, 704; Octopodinae: ROBSON, 740; SANZO, 782; *Ommastrephes sloani pacificus* SASAKI, 785; *Ostrea denselamellosa*: SENÔ, 814; *Limnaea luteola*: SESHAIYA 817; SPÄRCK, 835; *Euglandina singleyana*: STRECKER, 857; TAYLOR, 865; *Caecilioides acicula*: WÄCHTLER, 915; *Bankia* (*Xylotrya*) *setacea*: WHITE, 945.

Hybridization.—*Cerion*: BARTSCH, 42; BOYCOTT, 93; *Limnaea stagnalis*: PIAGET, 666.

Hermaphrodism.—*Ostrea*: AMEMIYA, 6; BOYCOTT, 93; PELSENEER, 643; *Ostrea*: ROUGHLY, 762; *Ostrea denselamellosa*: SENÔ, 814; *Limnaea luteola*: SESHAIYA, 817.

Sex Proportion and Sex Change.—*Ostrea*: AMEMIYA, 6 & 8; *Ostrea*: ROUGHLY, 762.

Heredity.—BOYCOTT, 92.

Boring and Burrowing Habits.—DONS, 216; JAKOVLEV, 430; Teredinidae: MAY, 558; MOLL & ROCH, 571; RICHARDS, 729; WAAGE, 912.

Mode of Attachment.—*Meleagrina*: SEURAT, 820; *Littorina littorea*: WILSON, 953.

Special Habits.—FRÖMMING, 293; Octopodinae: ROBSON, 740.

Excretion and Secretion.—MORETTI, 575.

Habitat. — *Helisoma corpulenta*: BAKER, 34; BARTSCH, 41; BERRY, 52; *Clausilia biplicata*: BOYCOTT, 89; BOYCOTT, 90 & 91; CAWSTON, 118; COCKERELL, 142; *Planorbis laevis*: COOPER, 150; *Haliotis*: CROFTS, 170; *Adula simpsoni*: DEAN, 187; ELLIS, 241; *Aplysia*: ENGEL, 244; EYERDAM, 248; FISCHER, 260; *Saxidomus giganteus*: FRASER & SMITH, 280; *Alderia & Limapontia*: GALLIEN, 304; GARDINER, 311; GHOSH, 324; Neozelanic Loricata: IREDALE & HULL, 415; JACOT, 425;

Acmaea: JOHNSON, **438**; KENDALL **456**; NORDGÄRD, **592**; *Agriolimax laevis*: OLDHAM, **602**; OLDHAM, **605**; *Patella vulgata*: ORTON, **610**; *Ocinebra erinacea*: ORTON, **613**; PERCIVAL, **645**; PILSBRY, **680**; Octopodinae: ROBSON, **740**; SCHMID, **805**; *Meleagrina*: SEURAT, **820**; *Vertigo lilljiborgi*: STELFOX, **845**; STEPHEN, **848**; *Euglandina singleyana*: STRECKER, **857**; *Polycera*: TOLMER, **876**; T[OMLIN], **880**; TRIGG, **889**; UNDERHILL, **898**; *Pinna*: WINCKWORTH, **958**; WOODBURY, **961**.

Adaptation to Environment.—*Mytilus edulis*: FISCHER, **261**; *Alderia* & *Limapontia*: GALLIEN, **304**; *Limnaea stagnalis*: PIAGET, **666**.

Association of Certain Species.—BOYCOTT, **89** & **90**; COOPER, **150**; DEMEL, **203**; *Saxidomus giganteus*: FRASER & SMITH, **280**; INGLES, **411**; MCGLAMERY, **537**; OLDHAM. **601**, **602** & **605**; TAYLOR, **865**.

Acclimatisation, Migration and Dispersal.—ANTEVS, **19**; BOETTGER, **76**; DAMMERMAN, **179**; Oncidiidae: HOFFMANN, **404**; *Petricola pholadiformis*: JACKSON, **423**; Mollusca of Kent: KENNARD, **457**; O., **596**; *Patella vulgata*: ORTON, **610**; *Urosalpinx*: ORTON & AMIRTHALINGAM, **615**; *Limnaea stagnalis*: PIAGET, **666**; RICHARDS, **729**; RICHARDS & ADAMS, **730**; *Crepidula fornicata*: ROBSON, **742**; *Ommastrephes sloani pacificus*: SASAKI, **783** & **785**; *Meleagrina*, SEURAT, **820**; STEINITZ, **843**; STRECKER, **856**; WATSON, **934**.

Aestivation and Hibernation.—BOBACK, **70**; CAWSTON, **118**; GHIGI, **322**; HAAS, **357**; HAYASAKA, **372**; HORA, **405**; MORETTI, **575**; WAELE, **918**.

Environmental Effects. — *Thais lapillus*: AGERSBORG, **3**; BOYCOTT, **91**; *Mytilus edulis*: COULTHARD, **156**; FISCHER, **260**; *Paphia staminea*: FRASER & SMITH, **279**; GOODRICH, **333**; KENDALL, **456**; *Gryphaea*: RANSON, **710**; RICHARDSON, **732**; *Ommastrephes sloani pacificus*: SASASAKI, **783**; *Limnaea luteola*: SESHAIYA, **817**; *Mya arenaria*: WILTON & WILTON, **954**.

Effect of Wave-Action.—ORTON, **614**.

Effect of Temperature. -ANTEVS, **1**; *Mytilus edulis*: COULTHARD, **156**; *Saxidomus giganteus*: FRASER & SMITH, **280**; *Littorina*: HAYES, **373**; PRYTHERCH, **704**; *Ommastrephes sloani pacificus*: SASAKI, **785**; WELCH, **939**; *Bankia*: WHITE, **945**.

Effect of Desiccation.—BOYCOTT, **91**; CAWSTON, **118**.

Effect of Light.—CAWSTON, **118**; *Mytilus edulis*: COULTHARD, **156**; *Melibe leonina*: GUBERLET, **343**.

Effect of Salinity.—BAILEY, **29**; FISCHER, **260**; *Mytilus edulis*, FISCHER, **261**; RICHARDS, **728**; *Bankia*: WHITE, **945**.

Diseases of Mollusca.—Octopodinae: ROBSON, **740**.

Autotomy and Regeneration.—FRÖMMING, **290**; Octopodinae: ROBSON, **740**.

Rate of Growth.—*Mytilus edulis*: COULTHARD, **156**; COUVREUR, **159**: *Lymnaea stagnalis appressa*: CRABB, **166**; *Haliotis*: CROFTS, **170**; *Mytilus edulis*: FISCHER, **261**; *Paphia staminea*: FRASER & SMITH, **279**; *Saxidomus giganteus*: FRASER & SMITH, **280**; *Littorina*: HAYES, **373**; HORST, V.D., **407**; OLDHAM, **604**; *Ommastrephes sloani pacificus*: SASAKI, **785**; SMITH, **831**; *Tellina tenuis*: STEPHEN, **847**; *Agriolimax agrestis*: SZABÓ & SZABÓ, **861**; *Mya arenaria*: WILTON & WILTON, **954**.

Duration of Life.—*Melibe leonina*: GUBERLET, **343**; *Hermaea*: PRUVOTFOL, **703**; *Limnaea luteola*: SESHAIYA, **817**; *Agriolimax agrestis*: SZABÓ & SZABÓ, **861**.

Nacreous Growths.—GYNGELL, **353**; *Margaritana margaritifera*: RIEDL, **734**; RUSSELL, **769**; *Meleagrina*: SEURAT, **820**.

Parasitism, Commensalism and Parasites.—AGOSTINI, **4**; *Ostrea*: AMEMIYA, **6**; BRUMPT, **103**; *Haliotis*: CROFTS, **170**; FABER, **249**; FRANÇA, **272**; GEYER, **319**; MCCOY, **534**; PALOMBI, **623**; PELSENEER, **641**; PORTER, **689**; *Boopsis mediterranea*; PRUVOT, **701**; Octopodinae: ROBSON, **740**; *Meleagrina*: SEURAT, **820**;

SHADIN, **821**; SZIDAT, **862**; THOMAS, **871**; *Amphorina*: VAYSSIÈRE, **903**; VOGEL, **911**; WELLS, **940**; Parasitism, etc., in Palaeozoic invertebrates: YAKOVLEV, **967**.

Effect of Water on Pulmonata.—FRÖMMING, **292** & **294**.

Calcium Starvation.—BOYCOTT, **91**; OLDHAM, **604**.

Geological Aspect. — *Haliotis*: CROFTS, **170**; *Parkinsonia*: NICOLESCO, **587**.

VARIATION AND AETIOLOGY.

General.—JADIN, **426**.

Teratology, Phylogeny and Relationship.—BOYCOTT, **93**; *Kosmoceras*: BRINKMANN, **96**; COOPER, **150**; *Delima gibbula*, Zgl.: ELLIOTT, **240**; *Paludina*: FRANZ, **278**; GERMAIN, **316**; *Limnaea*: GEYER, **320**; GYNGELL, **351**; Oncidiidae: HOFFMANN, **404**; Neozelanic Loricata: IREDALE & HULL, **415**; KARPINSKY, **450**; KLINGHARDT, **467**; Teredinidae: MAY, **558**; *Parkinsonia*: NICOLESCO, **587**; *Helix hieroglyphicula*: PALLARY, **620**; Octopodinae: ROBSON, **740**; ROBSON, **743**; *Melanoteuthis*: ROBSON, **744**; Certain Nudibranchiata: RUSSELL, **767**; SCHINDEWOLF, **795**; *Pupilla* & *Helix*: SCHLESCH, **799**; *Melanopsis* & *Cerithium*: SUNDERBRINK, **860**; TAYLOR, **865**; WÄCHTLER, **916**.

Evolution.—*Thais lapillus*: AGERSBORG, **3**; *Kosmoceras*: BRINKMANN, **96**; *Helix nemoralis* & *hortensis*: DIVER, **211**; Oncidiidae: HOFFMANN, **404**; *Spirula*: KERR, **458**; KLINGHARDT, **467**; *Parkinsonia*: NICOLESCO, **587**; *Limnaea stagnalis*: PIAGET, **666**; *Melanoteuthis*: ROBSON, **744**; SCHINDEWOLF, **796**; *Alopia*: SOÓS, **834**; TEICHERT, **867**.

Variation, Mutational.—*Hermaea*: PRUVOT-FOL, **703**.

Variation in Form.—ADENSAMER, **2**; *Thais lapillus*: AGERSBORG, **3**; *Cardium*: BISACCHI, **63**; *Goniodiscus*: BOETTGER, **75**; *Aplysia*: ENGEL, **244**; FRANZ, **277**; *Paludina*: FRANZ, **278**; GAMBETTA, **308**; *Limnaea*: GEYER, **320** & **321**; GOODRICH, **333**; HAAS, **361**; JACOT, **425**; Teredinidae: MAY, **558**; *Helix hieroglyphicula*: PALLARY, **620**; *Limnaea stagnalis*: PIAGET, **666**; *Neverita*: PILSBRY, **674**; POWELL, **691**; *Hermaea*: PRUVOT-FOL, **703**; *Gryphaea*: RANSON, **710**; Octopodinae: ROBSON, **740**; *Limnaea stagnalis*: RUMJANCEW, **766**; *Helix lapicida*: SALISBURY, **780**; *Cypraea*: SCHILDER, **791** & **794**; WAGNER, **919** & **922**; *Pinna*: WINCKWORTH, **958**.

Variation in Sculpture and Ornament.—*Cardium*: BISACCHI, **63**; *Inoceramus*: HEINZ, **375**.

Variation in Colour.—*Helix nemoralis* & *hortensis*: DIVER, **211**; *Aplysia*: ENGEL, **244**; FRÖMMING, **291**; *Cypraea*: FULTON, **297** & **298**; Neozelanic Loricata: IREDALE & HALL, **415**; *Helix hieroglyphicula*: PALLARY, **620**; *Helix lapicida*: SALISBURY, **780**.

Sexual Variation. — *Pterotrachea*: MINELLI, **567**; PELSENEER, **642**; Octopodinae: ROBSON, **740**.

DISTRIBUTION.

(*a*) RECENT.

(α) MARINE.

General.—*Polycera*: TOLMER, **876**.

Arctic Ocean.—Pteropoda: DALL, **177**; GURJANOVA, **348**; GURJANOWA, SACHS & USCHAKOW, **349**; ZIENKEWITSCH, **979**.

North Atlantic Ocean, Baltic Sea, Caribbean Sea and Gulf of Mexico.—ANKEL, **11**; BLEGVAD, **68**; BLÖTE, **69**; Giant squids: CLARKE & ROBSON, **126**; CLENCH, **128** & **132**; DALL, **178**; DANGEARD, **181**; *Adula simpsoni*: DEAN, **187**; DEMEL, **203**; DONS, **214**, **215** & **216**; DUBOIS, **223** & **224**; ELMHURST & STEPHEN, **242**; West Indian Opisthobranchs: ENGEL, **243**; *Aplysia*: ENGEL, **244**; FISCHER, **260**; *Mytilus edulis*: FISCHER, **261**; GARDINER, **311**; GALLIEN, **302** & **303**; *Alderia* & *Limapontia*: GALLIEN **304**; GYNGELL, **350**; *Ommatostrephes sagittatus* & *Loligo vulgaris*: HERTLING; **390**; HERTLING, **391**; JACOT, **425**; JOHNSON, **437**; *Acmaea*: JOHNSON, **438**; JOHNSON, **439**; JOUBIN, **444** & **445**; *Macrotritopus*: JOUBIN & ROBSON, **446**; KÄNDLER, **449**; LAMY, **500**; LÜDERS & TRUSHEIM, **530**; MAGOR, **542**; MOROS, **576**; MUSHAM, **580**; NORDGÅRD, **590**, **591**, **592** & **593**; PERCIVAL, **645**; PROCTER, **700**;

RICHARDS, **729**; Cephalopoda: ROBSON, **739**; Octopodinae: ROBSON, **740**; *Sthenoteuthis caroli*: ROBSON, **741**; *Crepidula fornicata*: ROBSON, **742**; SCHLESCH, **802** & **804**; SEGERSTRÅLE, **811** & **812**; SHEPPARD, **823**; SPÄRCK, **835** & **836**; SPEIJER, **839**; STEPHEN, **848**; TOLMER, **877**; Caribbean Sea: TOMLIN, **879**; VAUGHAN, **902**; [WINCKWORTH], **955**.

Mediterranean Sea and Black Sea.—BISACCHI, **63**; BOUTAN, **86**; COEN, **144**; DIEUZEIDE & ARGILAS, **210**; *Notarchus*: ENGEL, **245**; *Macrotritopus*: JOUBIN & ROBSON, **446**; *Fiona*: ISSEL, **418**; ISSEL, **419**, **420** & **421**; *Pterotrachea*: MINELLI, **567**; NOVELLA, **594**; Opisthobranchia of Suez Canal: O'DONOGHUE, **598**; PATANÈ, **629**; *Boopsis mediterranea*: PRUVOT, **701**; *Meleagrina*: SEURAT, **820**; STEINITZ, **843**; VAYSSIÈRE, **904**.

South Atlantic Ocean.—FRANCESCHI, **273**; JOUBIN, **444**; LUEDERWALDT, **531**; MARSHALL, **546**; *Macrotritopus*: ROBSON, **737**; Cephalopoda: ROBSON, **739**; Octopodinae: ROBSON, **740**; TOMLIN, **878** & **886**.

Indian Ocean and Red Sea, etc.—W. Australian Polyplacophora: ASHBY, **26**; Ostreidae and Pectinidae of Red Sea Region: COX, **164**; *Aplysia*: ENGEL, **244**; *Prasina*: LAMY, **496**; Pinnidae: LAMY, **497**; LAMY, **498**; Malleacea: LAMY, **499**; *Dosinia*: LAMY, **501**; MOROS, **576**; Opisthobranchia of Suez Canal: O'DONOGHUE, **598**; Octopodinae: ROBSON, **740**; STEINITZ, **843**; TOMLIN, **878**; *Pinna*: WINCKWORTH, **958**.

Malaysia.—DOVER, **221**; *Aplysia*: ENGEL, **244**; *Notarchus*: ENGEL, **245**; Sumatra: OOSTINGH, **608**; OOSTINGH, **609**.

Pacific Ocean.—AMEMIYA, **7**; New Zealand Polyplacophora: ASHBY, **24**; Queensland Polyplacophora: ASHBY, **25**; BERRY, **54**; *Aplysia*: ENGEL, **244**; FALLÀ, **251**; GRABAU & KING, **335**; IREDALE, **412** & **413**; E. Australian continental shelf: IREDALE, **414**; Neozelanic Loricata: IREDALE & HULL, **415**; ISHIKAWA, **417**; China (PROV. Fukien): JAECKEL, **428**; JOUBIN, **444**; KOMAI & IKARI, **477**; MACFARLAND, **535**; *Corambe* sp. n.: MACFARLAND & O'DONOGHUE, **536**; MACKAY, **538**; MESTAYER, **564**; OLDROYD, **606**; *Neverita*: PILSBRY, **674**; PILSBRY, **679**; New Zealand *Buccinulum*: POWELL, **691**; RISBEC, **735**; Octopodinae: ROBSON, **740**; *Melanoteuthis*: ROBSON, **744**; Cephalopoda of Indo-China: ROBSON, **745**; Cephalopoda: SASAKI, **784**; *Ommastrephes sloani pacificus*: SASAKI, **785**; TOMLIN, **886**; Japanese food-oysters: WAKIYA, **925**; *Bankia*: WHITE, **945**; WILLETT, **951**; YOCOM & EDGE, **970**; Chatham Isds.: YOUNG, **976**.

Southern Ocean.—W. Australian Polyplacophora: ASHBY, **26**; IREDALE, **414**; TRIGG, **889**.

(β) NON-MARINE.

Scandinavia.—SCHLESCH, **803**

Denmark. — PLAMBÖCK, **681**; SCHLESCH, **799**, **800**, **801** & **802**.

Holland —SPEIJER, **839**.

Germany.—BOETTGER, **76**; CASEMIR, **115**; DAHL, **173** & **174**; FRANZ, **276**; FRÖMING, **291**; GEYER, **318**, **319**, **320** & **321**; GOFFART, **330**; HAAS, **359**; HNATEWYTSCH, **398**; JAECKEL, **429**; *Fruticicola*: POLINSKI, **686**; SCHLESCH, **802**; SPRICK, **842**; STEUSLOFF, **852** & **853**. TIDELSKI, **873**; UHL, **895**, **896** & **897**; *Cecilioides acicula*: WATSON, **933**.

Great Britain and Ireland.—BOYCOTT, **87**; [BOYCOTT], **88**; BOYCOTT, **90**; BRYAN, **105**; BURTON, **107**; *Planorbis laevis*: COOPER, **150**; DALGLIESH, **176**; DEAN, **188**; ELLIS, **241**; FYSHER, **299** & **300**; KENDALL, **456**; Mollusca of Kent: KENNARD, **457**; MASEFIELD, **554**; MUSHAM, **580**; OLDHAM, **601** & **602**; *Vertigo lilljeborgi*: STELFOX, **845**; STELFOX, **846**; TAYLOR, **865**; *Cecilioides acicula*: WATSON, **933**; WATSON, **934**.

France.—Fauna of Tarentaise region: COUTAGNE, **157**; Helicidae: GERMAIN, **316**; GUILLAUME, **346**; HICKEL, **394**; LEMÉE, **517**; Slugs of Alençon: LETACQ, **519**; MAZETIER, **559** & **560**; MERCIER, **561**; Rhone Valley region: SAYN, **787**; TOURTEAU, **887**

Italy.—Bisacchi, **65**; Degner, **192**; Laidlaw, **493**; Piersanti, **670**; *Fruticicola*: Polinski, **686**.

Spain and Portugal.—Gambetta, **309**; Haas, **356** & **363**; Clausiliidae: Käufel, **451**; Moros, **576**.

Switzerland.—Borner, **81**; Geyer, **321**; Lotz, **529**; *Limnaea stagnalis*: Piaget, **666**; *Fruticicola*: Polinski, **686**; Reverdin, **727**.

Austria.—Eder, **236**; Fuchs, **295**; Jaeckel, **427**; Lotz, **529**; *Fruticiola*: Polinski, **686**; *Margaritana margaritifera*: Riedl, **734**; Zeitlinger, **978**.

Hungary.—Rotarides, **757** & **759**; Schlesch, **797** & **802**; Soós, **833**; *Alopia*: Soós, **834**; Wagner, **920** & **921**.

Yugo-Slavia.—Hesse, **392** & **393**; *Fruticicola*: Polinski, **686**.

Roumania.—*Alopia*: Soós, **834**.

Bulgaria.—*Sphaerium* & *Pisidium*: Odhner, **597**.

Eastern Mediterranean Islands.—Gambetta, **308**; Magrograssi, **543**.

Finland.—Segerstråle, **812**.

Esthonia.—Ecke & Dulckeit, **235**; *Myxas*: Roszkowski, **756**.

Latvia.—Ischreyt, **416**; *Myxas*: Roszkowski, **756**; Schlesch, **804**.

Poland.—*Fruticicola*: Polinski, **686**.

Russia in Europe.—Behning, **47**; Decksbach, **190**; Kolpakoff, **475**; Lindholm, **520** & **524**; Neiswestnova-Shadina, **583**; Pusanov, **706**; *Myxas*: Roszkowski, **756**.

Russian Central Asia.—Lindholm, **522**; *Corbicula*: Prashad, **694**; Rosen, **754**; Aral Sea: Sidaroff, **825**; Vnukovsky, **910**; Wagner, **919** & **923**.

Eastern Siberia.—Eyerdam, **248**; Lindholm, **521**.

Japan. Hirase, **397**.

Formosa.—*Corbicula*: Prashad, **694**.

China and Thibet.—Jaeckel, **428**; Lindholm, **523**; *Corbicula*: Prashad, **694**.

Indo-China.—Haas, **361**; *Corbicula*: Prashad, **693**.

Siam.—Cockerell, **142**.

Malaysia.—Dammerman, **179**; Batu Caves, Selangor: Ghosh, **323**; Ghosh, **324**; Haas, **361**; Jutting, **447** & **448**; Laidlaw, **494**; Moros, **576**; Peile, **636** & **639**; Philippine Isds. *Corbicula*: Prashad, **694**; *Papuina* from New Guinea: Rensch, **725**.

India.—Peile, **635** & **639**; Rao, **713** & **714**.

Ceylon.—Tomlin, **882**.

Persia.—Lindholm, **524**; Rosen, **754**.

Syria.—Pallary, **622**.

N. Africa.—Gambetta, **306** & **307**; Heldt, **380**; Pallary, **619**, **620** & **621**.

C. Africa.—Carpenter, **111**; Haas, **360**.

E. Africa.—Connolly, **148**.

W. Africa.—Clench, **128**; Connolly, **148**; Haas, **364**; Martinson, **551**; Moros, **576**.

S. Africa.—S.W. Africa: Adensamer, **2**; Connolly, **149**; Pilsbry, **672**.

Canada.—Baker, **31**; De-Champlain, **189**; Hart, **370**.

United States as a Whole.—Naiades: Frierson, **289**.

N.E. United States.—Baker, **31** & **32**; Clench, **127** & **130**; Richards & Adams, **730**; Walker, **928**.

S.E. United States.—Clench, **132**; Clinch, **135**; *Ligurus*: Simpson, **828**; Terrestrial shell-bearing mollusca of Alabama: Walker, **927**.

W. United States.—Baker & Henderson, **35**; Berry, **52** & **53**; Chamberlin & Berry, **121**; Cockerell, **141**; Colton, **147**; Hanna, **366**; Henderson, **381**, **383** &

384; INGLES, 411; MARSHALL, 548; *Euglandina singleyana*: STRECKER, 857; WALKER, 929; WILLETT, 950; WOODBURY, 961.

Mississippi River System.—BAKER, 31, 32, 33 & 36; CAHN & KEMP, 109; GOODRICH, 334; MORRISON, 578; RICHARDSON, 732.

Mexico.—Naiades: FRIERSON, 289; HAAS, 362; HANNA & HERTLEIN, 367.

West Indies.—BARTSCH, 41; PILSBRY, 673 & 680; *Liguus*: SIMPSON, 828; WELCH, 938.

Central America.—Naiades: FRIERSON, 289; HAAS, 362.

British Guiana.—COCKERELL, 138; HAAS, 358.

Ecuador.—FINCH, 259.

Brazil.—HAAS, 358; MARSHALL, 546.

Uruguay.—MARSHALL, 546.

Bolivia.—HAAS, 358.

Victoria.—GABRIEL, 301.

New South Wales.—COCKERELL, 139.

Queensland.—COCKERELL, 139; IREDALE, 413.

Pacific.—Hawaiian Isds., check list: CAUM, 117; *Placostylus* of New Caledonia: COCKERELL, 140; Fresh-water fauna of New Caledonia: COCKERELL, 143; GERMAIN 317; New Hebrides: HOFFMANN, 403; PEILE, 637; Galapagos: PILSBRY, 679; *Papuina* from Bismarck Archipelago: RENSCH, 725; Bismarck Archipelago: RENSCH & RENSCH, 726.

Islands of Indian Ocean.—COULON, 155.

Atlantic Islands. — *Insulivitrina*: HOFFMANN, 401.

(*b*) FOSSIL.

Quaternary.—ANTEVS, 19; BIGOT, 62; BLÖTE, 69; Ostreidae and Pectinidae of Red Sea Region: COX, 164; DANILOVSKY, 182 & 183; DEHÉE & DUBOIS, 198; DUBOIS, 223 & 224; DUTERTRE, 228 & 231; FISCHER, 262; FRANKE, 275; GEYER, 319; HENDERSON, 382; Mollusca of Kent: KENNARD, 457; KLETT, 465; LARROQUE, 510; LÖSCHER, 528; Hawaiian Isds.: OSTERGAARD, 617; PAVLOV, 631; PERKINS, 646; PETRBOK, 650, 651, 652, 653, 654, 655 & 656; *Neverita*: PILSBRY, 674; PRATJE, 695; SCHLESCH, 798; SPENCE, 840; STEINITZ, 843; TIDELSKI, 872; VASSOÏÉVITCH, 901; WASMUND, 931; YOKOYAMA, 974 & 975.

Pleistocene.—BELLINI, 50; PETRBOK, 658; REAGAN, 715; STEPHENS, 849; WATERFALL, 932.

Tertiary.—Polyplacophora: ASHBY, 22; BELLINI, 50; COTTER, 153; DENMAEYER, 204; DEPÉRET & ROMAN, 205; *Helix nemoralis* & *hortensis*: DIVER, 211; W. H. Dall's works: DOLLFUS, 213; Dreissensiidae: EBERZIN, 234; FALLOT, 253 & 254; GAMBETTA, 307; GAVALA, 315; GIGOUX, 325; Spitzbergen: GRIPP, 342; GUILLEMOT, 347; HARRISON, 369; KHOMENKO, 459; LÖSCHER, 528; MARWICK, 552; New Zealand: MARWICK, 553; PAVLOV, 631; Pontian of environs of Belgrade: PAVLOVIĆ, 632; PFEFFER, 664; *Neverita*: PILSBRY, 674; New Zealand *Buccinulum*: POWELL, 691; POWELL & BARTRUM, 692; RUSSELL, 768; RUSSO & RUSSO, 770; RUŽENCEV, 777; Cypraeacea of N. Germany: SCHILDER, 792; SIEMON, 826; SLODKEWITSCH, 830; *Pitaria*: TEGLAND, 866; *Neritina*, *Theodoxus*: WENZ, 942; Neritidae: WENZ, 943; WENZ, 944; WIEDY, 948; Japan: YOKOYAMA, 972; YOKOYAMA, 973 & 974.

Pliocene.—ASHBY, 23; BELL, 48 & 49; CESARE, 119; Ostreidae and Pectinidae of Red Sea Region: COX, 164; CRICKMAY, 168; HERTLEIN, 388; KRESTOVNIKOV, 478; MACAROVICI, 533; MARSHALL, 547; MARTIN, 550; NANGERONI, 581; PARONA, 625; PICARD, 669; RUSSO & RUSSO, 772; ŠUKLJE, 859; VASSOÏÉVITCH, 901; WATERFALL, 932; WENZ, 941; Japan: YOKOYAMA, 971.

Miocene.—ANDERSON, 10; ASHBY, 23; BÖHM, 77; BOJIC, 78; Lybia: DESIO, 206; Oasis of Jiarabub: DESIO, 207; FALLOT, 252; FRIEDBERG, 287 & 288; Sicily: GREGORIO, DE, 340; KAUTSKY, 452; Cardiidae: KOLESNIKOV, 471; KUTASY, 487; MANSFIELD, 544; *Kapal* gen. n. Cephalopoda:

Martin, **549**; Ossipov, **616**; Petković, **648** & **649**; Petrbok, **657**; Rickenbach, **733**; Royo y Gómez, **765**; Scholten, **807**; Stratimirović, **855**; Šuklje, **859**; Colombia: Weisbord, **937**; Wiedy, **947**.

Oligocene.—Ashby, **23**; *Palliocypraea*: Chapman, **122**; Clodius, **136**; Degl' Innocenti, **191**; Gripp, **341**; Hucke & Voigt, **408**; Jenny, **435**.

Eocene.—Böhm, **77**; Bourcart & Keller, **85**; Degl' Innocenti, **191**; Douvillé, **219**; Gardner, **312**; Jodot, **436**; Lorin, **527**; Picard, **668**; Royo y Gómez, **765**; Rutherford, **774**, **775** & **776**; Amphiperatidae & Cypraeidae of England: Schilder, **793**; Trechmann, **888**; Vincent, **905**, **906**, **907** & **908**; *Nucula* sp. n. from London Clay: Wrigley, **964**; *Ficus*: Wrigley, **965**; Wrigley, **966**; Zöller & Böhm, **980**.

Mesozoic.—Dangeard, **181**; Marwick, **552**.

Cretaceous.—Airaghi, **5**; Astre, **28**; Madagascar: Barrabé, **38**; Basse, **44**; *Lytoceras* (*Tetragonites*) *epigonum*: Basse, **45**; Basse, **46**; Bezobrazova, **58**; Bourcart & Keller, **85**; Carter, **112**; Ciry, **125**; Fossil Cephalopoda of Diégo Suarez: Collignon, **145**; Corsin & Dehée, **152**; Cox, **162**; Cunnington, **172**; Dehée, **193**, **194** & **195**; Dehée & Dubois, **198**; Dehée & Petit, **199**; Denmaeyer, **204**; Douvillé, **220**; Dubois, **225**; Fontanier, de, **270**; Frebold, **281**; Spitzbergen: Frebold **282**; Valanginien of Spitzbergen: Frebold, **284**; Spitzbergen: Girmounsky, **327**; *Inoceramus*: Heinz, **375**, **376**, **377**, **378** & **379**; Hue, **410**; Jayet, **433**; East Arabia: Kühn, **483**; Lacoste, **492**; Oman & S.E. Arabia: Lees, **515**; *Hoplites*: Litchkow, **525**; Löscher, **528**; McLearn, **540** & **541**; Milanovsky, **566**; Miropolskij, **568**; Nicolesco, **586**; Parent, **624**; Parona, **626**; Péron, **647**; Ammonoidea from Palestine: Picard, **667**; Picard, **668**; Pilloud, **671**; *Cyphoxis*: Pilsbry, **675**; *Exogyra*: Reeside, **720**; Reeside & Baker, **721**; N. Caucasus: Renngarten, **723**; Rennie, **724**; Rickenbach, **733**; Ammonites of Colombia: Roschen, **752**; Rowe, **763**; Russell, **768** & **769**; Rutherford, **773**, **774**, **775** & **776**; Scholten, **807**; Shalem, **822**; Stephenson, **850**; Stephenson & Berry, **851**; Trechmann, **888**; Twenhofel, **894**; Vincent, **908**; Wiedy, **948**; Wilkins, **949**; Yokoyama, **974**; Zahálka, **977**.

Jurassic.—Abrard, **1**; Airaghi, **5**; British Corallian Lamellibranchia: Arkell, **20**; Madagascar: Barrabé, **38**; Basse, **43** & **44**; Bentz & Potonié, **51**; Blanchet, **67**; Bodylevskij, **71**; Bodylevsky, **72**; Brinkmann, **96**; Broili, **99**; Buckman, **106**; Lamellibranchia of Portland Beds of England: Cox, **163**; Crickmay, **169**; Dutertre, **230** & **232**; Falconier, **250**; Favre & Richard, **255**; Frebold, **281**; Spitzbergen: Frebold, **282**; Lias and Lower Callovian of Spitzbergen: Frebold, **283**; Gardet, **310**; Gillet, **326**; Spitzbergen: Girmounsky, **327**; Jeannet & Junod, **434**; Kindle, **462**; Klinger, **466**; Kühnel, **484**; Lanquine, **507**; Oman & S.E. Arabia: Lees, **515**; Llueca, **526**; McLearn, **539** & **541**; Mercier, **562** & **563**; Miropolskij, **568**; *Parkinsonia*: Nicolesco, **587**; Passendorfer, **627**; Počelinzev, **634**; Rickenbach, **733**; Roggeveen, **746**; Roman, **747**; Roman & Sayn, **748**, **749** & **750**; Romero, **751**; Rutherford, **773**; Saint-Aubin & Larcher, **778**; Schaufelberger, **789**; Schindewolf, **795**; Spath, **838**; East Indian Belemnites: Stolley. **854**; Wegele, **936**.

Lias and Rhaetic.—Dubar, **222**; Evesque, **247**; Fiege, **258**; Frebold, **283**; Anatolia: Gugenberger, **345**; N.W. Mexico: Jaworski, **432**; Lacoste, **491**; Lanquine, **507**; Mitzopoulos & Renz, **569**; Pilloud. **671**; Russo & Russo, **771**; Schmidt, **806**.

Triassic.—Douglas, **218**; *Myophoria*: Frank, **274**; Horn & Orvin, **406**; Kühnel, **484**; Kutassy, **488**; Lamare, **495**; Oman & S.E. Arabia: Lees, **515**; Leriche, **518**; Oliveira, de, **607**; Pakuckas, **618**; Schindewolf, **795**; Simionescu, **827**; Wanner **930**.

Palaeozoic.—*Conularia*: Bouček, **83**; Kindle, **461**.

Permian.—Madagascar: ASTRE, **27**; BOOS, **80**; FREDERICKS, **285**; HAMLET, **365**; JAKOVLEV, **430**; KARPINSKY, **450**; SCHINDEWOLF, **795**; SMITH, **832**; YAKOVLEV, **968**.

Permo-Carboniferous.—BEURLEN, **57**; Aviculopectinidae of N.S. Wales: FLETCHER & DUN, **264**; *Astartila*: FLETCHER & DUN, **265**.

Carboniferous.—BARROIS, **39**; BISSAT, **66**; BOLKHOWITINOVA & MARKOFF, **79**; CHALLINOR, **120**; CHU, **124**; CLIFT & TRUEMAN, **134**; DAVIES, **185**; DEHÉE, **196**; DÉLÉPINE, **200** & **201**; DEMANET, **202**; DIX & TRUEMAN, **212**; FOURNIER & KAISIN, **271**; FREDERICKS, **285**; GIRTY, **328** & **329**; HOECK, **399**; HUDSON & JACKSON, **409**; IVANOV, **422**; JAKOVLEV, **430**; KROUGLOV, **480**; LÉBÉDEFF, **512**; LEBEDEW, **513**; MOORE, **573**; NEAVERSON, **582**; PATTEISKY, **630**; PLUMMER & MOORE, **683**; *Anthracomya phillipsi*: PRINGLE & MANSON, **699**; REED, **718**; REID, **722**; SCHINDEWOLF, **795**; SCHRIEL, **809**; TILTON IN PRICE, **875**; TRUEMAN, **891**; WIEDY, **946**; *Tylonautilus nodiferus*: WRIGHT, **962**; WRIGHT, **963**; Parasitism etc. in Palaeozoic invertebrates: YAKOVLEV, **967**.

Devonian.—COLLIN, **146**; CORSIN, **151**; DAHMER, **175**; DEHÉE, **197**; DEHÉE & DUBOIS, **198**; KINDLE, **462**; MATERN, **556**; MÜLLER, **579**; PÉNEAU, **644**; Lamellibranchiata of Wisconsin: POHL, **684**; POHL, **685**; REED, **719**; ROY, **764**; SCHINDEWOLF, **795**; SCHRIEL, **809**; TERMIER, **869**; THOMAS, **871**; TILTON, **874**; TILTON IN PRICE, **875**; WALCOTT, **926**.

Silurian.—CHAPMAN, **123**; FOERSTE, **267** & **268**; HERITSCH, **387**; KEGEL, **455**; PÉNEAU, **644**; SCHRIEL, **809**; THORAL, **872**; TILTON IN PRICE, **875**; WALCOTT, **926**; WILSON, **952**; WING, **959**.

Ordovician.—BOUČEK, **82** & **84**; EVANS, **246**; FENTON, **257**; FOERSTE, **266**, **268** & **269**; HORN & ÖRVIN, **406**; KOBAYASHI, **469**; N. Greenland: TROEDSSON, **890**; VĂSCĂUTANU, **900**; WALCOTT, **926**; WILSON, **952**.

Cambrian.—ROY, **764**; THORAL, **872**; WALCOTT, **926**.

III.—SYSTEMATIC INDEX.

N.B.—THE NUMERALS IN CLARENDON, WHERE NOT INDICATING A VOLUME, REFER TO "TITLES."

Note.—The following arrangement is, as far as possible, after Pelseneer.

Amphineura.

POLYPLACOPHORA.

Acanthochiton pelicanensis **sp. n.** Queensland, MACKAY Aust. Zool. Sydney **6** p. 102.—*A.*, ASHBY, **26**.

Acanthopleura with *A. gemmatus mandensis* **subsp. n.** Capricorn Group Queensland, ASHBY Trans. Roy. Soc. S. Aust. **52** pp. 171–172.

Callistochiton, ASHBY **25** & **26**.

Callochiton eupleurus, MESTAYER **564**.—*C.*, ASHBY **24** & **26**.

†*Callochiton chattonensis* **sp. n.** Oligocene New Zealand, ASHBY Trans. Proc. N.Z. Inst. **60** p. 368.

Chiton (*Rhyssoplax*) *excellens capricornensis*, *C.* (*R.*) *kimberi* **subsp. & sp. n.** Capricorn Group. Queensland, ASHBY Trans. Roy. Soc. S. Aust. **52** pp. 169–171.—*C.*, ASHBY **26**.

†*Chiton* (*Rhyssoplax*) *canaliculatus*, ASHBY **23**.

Cryptaulax, ASHBY **25**.

Cryptoplax, ASHBY **26**.

Eudoxochiton nobilis, ASHBY **24**.—*E.*, IREDALE & HULL **415**.

Icoplax, IREDALE & HULL **415**.

Ischnochiton campbelli, ASHBY **24**; *I.*, ASHBY **26**; *I.*, IREDALE & HULL **415**.

†*Ischnochiton vetustus* **sp. n.** Tertiary N. Zealand, POWELL & BARTRUM Trans. Proc. N.Z. Inst. **60** p. 444.—*I. campbelli*, ASHBY **23**.—*I.*, ASHBY **22**.

Kopionella, ASHBY **26**.

Lepidopleurus with *L. finlayi* **sp. n.** New Zealand, ASHBY Trans. Proc. N.Z. Inst. **60** pp. 371–372.—*L.*, ASHBY **26**.

†*Lepidopleurus* with *L. clifdenensis* **sp. n.** Lower Miocene New Zealand, ASHBY Trans. Proc. N.Z. Inst. **60** pp. 366–367.

Liolophura, Ashby **26**.

Lophochiton, Ashby **25**.

†*Lorica*, Ashby **22**.

†*Loricella*, Ashby **22**.

†*Notochiton*, Ashby **22**.

Notoplax with *N.* (*Amblyplax*) *brookesi* **sp. n.** New Zealand, Ashby Trans. Proc. N.Z. Inst. **60** pp. 370–371.—*N.*, Ashby **26**.

†*Notoplax*, Ashby **23**.

†*Oochiton* **gen. n.** type *O. hulli* **sp. n.** Tertiary Victoria (Aust.), Ashby Proc. Roy. Soc. Vict. N.S. **41** pp. 221–225.

Ornithochiton neglectus, Ashby **24**.—*O.*, Ashby **26**.

Parachiton, Iredale & Hull **415**.

Paricoplax **gen. n.** with *P. perscrutanda* **sp. n.** New Zealand, Iredale & Hull Aust. Zool. Sydney **6** p. 90.

Plaxiphora, Ashby **26**.

Quaestiplax **gen. n.** type *Q. wilsoni* **sp. n.** Lord Howe Isd., Iredale & Hull Aust. Zool. Sydney **6** p. 90.

Rhyssoplax allan-thomsoni **sp. n.** New Zealand, Mestayer Trans. Proc. N.Z. Inst. **60** p. 247.

Terenochiton with *T. otagoensis, fairchildi* **spp. n.** New Zealand Region, Iredale & Hull Aust. Zool. Sydney **6** pp. 75–80.

Tonicia, Ashby **25**.

Gastropoda.

Streptoneura.

Aspidobranchia.

Docoglossa.

Acmaeidae, Patellidae, Lepetidae.

Acmaea with *A. kolarovai, testudinalis* var. *minor* **sp.** & **var. n.** N. China, Grabau & King Handbook Soc. Nat. Hist. Peking **2** pp. 235–236.—*A. testudinalis*, Johnson **438**.

Amapileus **gen. n.** type *A. immeritus* **sp. n.** Queensland, Iredale Mem. Qd. Mus. Brisbane **9** p. 275.

†*Archinacella*, Troedsson **890** p. 10.

Capulonix **gen. n.** type *Patella calyptra* Mart., Iredale Mem. Qd. Mus. Brisbane **9** p. 277.

†*Cellana thomsoni* **sp. n.** Tertiary N. Zealand, Powell & Bartrum Trans. Proc. N.Z. Inst. **60** p. 413.

Cinnalepeta **gen. n.** type *Patella cinnamomea* Gld., *C. vagans, exensa* **spp. n.** Queensland, Iredale Mem. Qd. Mus. Brisbane **9** p. 275.

Collisellina bellatula, paropsis **spp. n.** Queensland, Iredale Mem. Qd. Mus. Brisbane **9** p. 275.

†*Ditremaria* with *D.* (*Didymodon*) *carinata* **var. n.** *media* Jura. Jura Mnts. Favre & Richard Abh. schweiz. paläont. Ges. **46** 3 p. 28.

†*Fissuridea sieboldii*, Yokoyama **975** p. 124.

Helcion pellucidum, Waage **913**.

†*Hormotoma*, Troedsson **890** p. 17.

†*Palaeacmaea*, Troedsson **890** p. 10.

Patella vulgata, Labbé **490**.—*P.v.*, Orton **610**.—*P.v.*, Pelseneer **642**.—*P.*, Couvreur **159**.

†*Patellostium timorense* **sp. n.** Permian Timor, Hamlet Jaarb. Mijn. Ned. Oost-Ind. **1927** Verh. 2 p. 85.

Penepatella **gen. n.** type *P. inquisitor* **sp. n.**, *P. intraurea* and *arrecta* **spp. n.** S. Pacific, Iredale Mem. Qd. Mus. Brisbane **9** p. 276.

†*Scenella*, Troedsson **890** p. 10.

†*Scutus*, Yokoyama **974** p. 67.

†*Tugali*, Powell & Bartrum **692** p. 412.

†*Turbonellina dacquei, grippi* **spp. n.** Permian Timor, Hamlet Jaarb. Mijn. Ned. Oost-Ind. **1927** Verh. 2 p. 89.

Zacalantica **gen. n.** type *Phenacolepas linguaviverræ* M. & S., Iredale Mem. Qd. Mus. Brisbane **9** p. 275.

Rhipidoglossa.

Pleurotomariidae, Bellerophontidae, Haliotidae, Fissurellidae, Cocculinidae.

†*Bellerophon*, Barrois **39**.—*B.*, Hamlet **365** p. 85.

†*Cryptaulus* see *Foersteria*.

†*Emarginula*, Gripp **342** p. 32.

†*Euomphalus*, Hamlet **365** p. 88.—*E.*, Reed **718** p. 143.

†*Foersteria* **nom. n.** for *Cryptaulus* Foerste *non* Bavay type *Pleurotomaria filitexta* Foerste, Tomlin Proc Malacol. Soc. London **18** p. 255.

Haliotis rufescens, DHÉRÉ & BAUMELER **208**.—*H. r.*, GYNGELL **353**.—*H. r.*, PETREE & ALSBERG **660**.—*H.*, CROFTS **170**.

†*Haliotis*, CROFTS **170**.

Montfortia excentrica **sp. n.** Queensland, IREDALE Mem. Qd. Mus. Brisbane **9** p. 269.—*M.* see *Montfortista*.

Montfortista **subgen. n.** type *Montfortia excentrica* Iredale, IREDALE Mem. Qd. Mus. Brisbane **9** p. 269.

†*Murchisonia uralica* **sp. n.** Carbon. Russia BOLKHOWITINOVA & MARKOFF Trans. Inst. Econ. Min. Metal. Moscow No. 20 **1926** p. 29 [Diagnosis in Russian]. *M.*, BARROIS **39**.—*M.*, DEHÈE **196**.

†*Phragmolites* with *P. hyperboreus* **sp. n.** Ordovician N. Greenland, TROEDSSON Commun. paléont. Copenh. **30** pp. 11–13; also Medd. Grønl. **72** 1 pp. 11–13.

†*Pleurotomaria* (*Mourlonia*) *tuberculata* **sp. n.** Carbon. Russia, BOLKHOWITINOVA & MARKOFF Trans. Inst. Econ. Min. Metal. Moscow No. 20 **1926** p. 29.—*P.* with *P. wanneri* **sp. n.** Permian Timor, HAMLET Jaarb. Mijn. Ned. Oost-Ind. **1927** Verh. 2 pp. 86–88.—*P. advena, argentina, barrealensis* **spp. n.** Carbon. Argentina, REED in A Geol. Comparison of S. America with S. Africa **1927** pp. 143–144.—*P.* GUGENBERGER **345** p. 410.—*P.*, KUTASSY **487**.—*P.*, MÜLLER **579** p. 274.

†*Salpingostoma*, MÜLLER **579** p. 274.

Sanhaliotis **gen. n.** type *Haliotis varia* L. *S. varia aliena* Australia, *S. howensis* Lord Howe Isd. and *dissona* Queensland **subsp. & spp. n.** IREDALE Mem. Qd. Mus. Brisbane **9** p. 270.

†*Schizostoma lehiri* **sp. n.** Carbon. Finistère, BARROIS Ann. Soc. géol. Nord **52** p. 190.

†*Worthenia tenuilineata* **sp. n.** Carbon Arkansas, GIRTY J. Wash. Acad. Sci. **19** p. 141.—*W.*, DOUGLAS **218**.

TROCHIDAE, STOMATELLIDAE, ORBITESTELLIDAE, TURBINIDAE, NERITOPSIDAE, NERITIDAE.

†*Angaria arabica* **sp. n.** Upper Cretaceous Arabia, LEES Quart. J. Geol. Soc. **74** p. 648.

Angariidae of N.E. Sumatra.—OOSTINGH **608**.

Archiminolia **gen. n.** type *Monilea oleacea* Hed. & Pett., IREDALE Rec. Aust. Mus. Sydney **17** p. 170.

Astele, IREDALE **414**.

†*Ataphrus pembertoni* H. & A. **fig.**, WIEDY Nautilus Philad. **43** p. 24 pl. i fig. 7.

†*Bembexia magna* **sp. n.** Carbon. Arkansas, GIRTY Prof. Pap. U.S. Geol. Surv. **154-B** p. 94.

†*Bembicium priscum* **sp. n.** Tertiary N. Zealand, POWELL & BARTRUM Trans. Proc. N.Z. Inst. **60** p. 414.

†*Bembix argenteonitens*, YOKOYAMA **971**.

†*Bolma* (*Ormastralium*) *speciosa*, DESIO **207** p. 260.

†*Calliostoma* with *C. tropica* **sp. n.** Miocene N. Carolina, ANDERSON Proc. Calif. Acad. Sci. (4) **18** p. 126.—*C. oligocenicus* **sp. n.** Oligocene Italy, DEGL' INNOCENTI Bol. Soc. geol. ital. **47** p. 56.—*C. kounjianum* **sp. n.** Pliocene Japan, YOKOYAMA J. Fac. Sci. Univ. Tokyo (2) **2** p. 347.

Calthalotia **gen. n.** type *Calliostoma arruense* Wats., IREDALE Mem. Qd. Mus. Brisbane **9** p. 271.

Chlorostoma, MOROS **576** p. 156.

Conotalopia **gen. n.** type *Minolia henniana* M. & S., IREDALE Mem. Qd. Mus. Brisbane **9** p. 271.

†*Crossostoma* (*Coelocrossostoma*) *marini* **sp. n.** Jura. France, ROMAN & SAYN Trav. Lab. Géol. Lyon **13** p. 55.

Dentarene **gen. n.** type *D. sarcina*, Iredale **nom. n.** for *Delphinula crenata* Kien, *Dentarene munitus* **nom. n.** for *D. muricata* Rve., IREDALE Mem. Qd. Mus. Brisbane **9** p. 274.

†*Delphinulopsis*, DOUGLAS **218**.

†*Elachorbis duplicarina* **sp. n.** Tertiary N. Zealand, MARWICK Trans. Proc. N.Z. Inst. **59** p. 915

Ethminolia, IREDALE **414**.

†*Flemingia*, DEHÉE **196**.

†*Gibbula* (?) *tainanica* **sp. n.** Lower Byoritz Beds Formosa, YOKOYAMA Rept. Imp. Geol. Surv. Japan **101** p. 66.—*G.*, DESIO **207** p. 259.

Globarene **gen. n.** type *Delphinula cidaris* Rve, *G. c. lenullus* **subsp. n.** Queensland, IREDALE Mem. Qd. Mus. Brisbane **9** p. 274.

Laetifautor **gen. n.** type *Calliostoma trepidum* Hed., IREDALE Mem. Qd. Mus. Brisbane **9** p. 271.

Leptothyra engbergi **sp. n.** W. Coast of N. America, WILLETT Nautilus Philad. **43** p. 27.

Liotia acuticostata bristolae **nom. n.** for *L. a.* var. *radiata* Dall, F. BAKER Nautilus Philad. **43** p. 72.

II.—SUBJECT INDEX.

GENERAL.

General Works.—Crustacea of N. Europe, HAVINGE, **155**; Catalogue of Fossil Decapoda, GLAESSNER, **125**.

Nomenclature and Systematics.—Opinions of the International Commission, STILES, **365**; Classification of Triassic Crustacea, v. STRAELEN, **369**; Of Hyperidea, PIRLOT, **283**; Of Copepods, KIEFER, **186**; LOWNDES, **213**; Sex organs in classification, MÉHELY, **241**.

Phylogeny.—Arthropod head-region, CRAMPTON, **86**; Decapods, BEURLEN, **31**; SELIPOVA, **345**; v. STRAELEN, **369**; Miocene Amphipods of Caspian region, DERJAVIN, **95**.

Methods.—Staining fats, VERNE, **401**.

Economics.—General, HAVINGA, **155**; Conservation for human consumption, DIEUZEIDE & ARGILAS, **98**; *Palinurus* fishery in Sicily, SANTUCCI, **328**; Lobster breeding in Denmark, DANNEVIG, **88**; Food value of Pacific Crabs, FELLERS & PARKS, **112**; Economics and control of *Limnoria*, WHITE, **408**.

STRUCTURE.

General.—Decapods, DESMARETS, **96**; Mesozoic Decapods, BEURLEN, **29**, **30**; *Heroldia* and *Nahecaris*, BROILI, **61**; *Nereicola*, DANTAN, **89**; *Coniosphaera*, CONNOLLY, **85**; *Chondracanthus*, GOGGIO, **128**; *Lernaeopoda*, GRAY, **136**; *Balanus*, NILSSON-CANTELL, **262**.

External Anatomy.—Penaeidae, ARGILAS, **10**; Petasma of Penaeidae, KISHINONYE, **193**; Feeding mechanism of Copepoda, CANNON, **69**; Of Syncarida, CANNON & MANTON, **70**; Jaw-apparatus of *Sida*, STORCH **366**; Of *Pristicephalus*, BOROS, **43**; Rhizoid of *Peroderma*, MONTEROSSO, **251**.

Nervous System and Sense Organs.—Deutocerebrum, HANSTRÖM, **149**; Antennal nerves in Isopods, ABRAHAM & WOLSKY, **1**; Neurofibril of *Homarus*, DE RENYI, **301**; Eye of Land Isopods, WOLSKY, **416**.

Other Organs and Tissues.—Myology of *Meganyctiphanes*, DANIEL, **87**; Stomach muscles of *Orchestia*, TAUBE, **381**; Luminous organs of Ostracods,

OKADA, **266**; Incubation pouch in Isopods, ARCANGELI, **6**; Fossil foot-tracks of Brachyura, WEIGELT, **407**.

Histology and Cytology.—Chromosomes of *Moina* eggs, ALLEN & BANTA, **4**; Golgi apparatus in gonads of *Potamobius*, GRABOWSKA, **132, 133**.

PHYSIOLOGY.

General.—REISINGER, **300**.

Nervous System and Sense Organs.—*Astacus*, HARDY, **150**; Decapods, SEGAAR, **342, 343, 344**; Sight, HANSTRÖM, **148**; Colour vision, KOLLER, **198**.

Nutrition and Excretion.—Feeding mechanism of Syncarids, CANNON & MANTON, **70**; Of Bopyrids, TUCKER, **391**; Feeding and digestion in *Pristicephalus*, BOROS, **43**; Digestion in the mid-gut, HIRSCH & JACOBS, **164**; Nutrition in Cladocera, RANKIN, **293**; Digestion in *Gambusia*, TIRELLI, **387**; In *Balanus*, PATANÉ, **270**; Urinary secretion in Decapods, BOIVIN, **39**.

Circulation and Respiration.—Decapod heart, FREDERICQ, **116**; Crab's heart and influence of drugs, BAIN, **13**; Heart of *Maja*, DE BOER, **35**; Of *Astacus*, LINDEMAN, **210**; Of *Jasus*, ZOOND & SLOME, **423**; Sunlight and heart of *Calanus*, HARVEY, **153**; Chemistry of Decapod blood, BOIVIN, **38**; Respiration in *Nebalia*, BAUDIN, **24**; In *Balanus*, KREPS, **204**.

Biochemistry.—Pacific Crabs, FELLERS & PARKS, **112**; Zooerythrin, VERNE, **401**; Chitin and ultra-violet rays, MERKER, **243**; Crystalline structure of calcium deposits, DUDICH, **104**. —Chemoreception in *Eupagurus*, WREDE, **418**.

Experimental Physiology.—Effects of ultra-violet rays, KLUGH, **197**; Drugs and *Uca*, RICHARDS, **302**; Toxic effect of Ions on *Cambarus*, HELFF, **158**; LINDEMAN, **211**; Colour-change experiments, *Crangon*, KOLLER, **199**; Nerves and heat production, HILL, **162, 163**; Temperature and activity, HUTCHINSON, **166**; In vitro studies on lymphatic tissue, FISCHER-PIETTE, **113**.

Regeneration.—OKUNEFF, **267**; JERMAKOW, **176**; PÉREZ, **277**; Striped muscle in *Astacus*, MAPELLI, **231**.

Growth.—ARTOM, **12**; CUNNINGHAM, **87A**; HUXLEY, **167, 168**; PERKINS, **281**; SHAW, **347**; TEISSIER, **382**.

Miscellaneous.—Phototaxy, BELLISAI, **27**; Anaesthesia, TERAO & TANAKA, **384**; Anaphylaxis, KRAFKA, **202**; Osmosis, SCHLIEFER, **337**; Specific gravity and suspension in water, BOWKIEWICZ, **48**; LUNTZ, **219**; Temperature studies, BROWN, **64**; Swimming movements, IVANOV & CVETKOV, **171**; STORCH, **367**; Pedal rhythm in *Balanus*, COLE, **83**.

DEVELOPMENT.

Larval Stages.—Japanese Brachyura, AIKAWA, **2**; Scyllarids, SANTUCCI, **329**; Loricata, DAWYDOFF, **91**; *Nephrops*, SANTUCCI, **319, 320, 325, 327**; *Palinurus*, SANTUCCI, **320, 326**; TERRAO, **383**; Stomatopoda, KOMAI & TUNG, **200**; Copepods, SEWELL, **346**; LUCKS, **215**; *Tigropus*, GUIGLIA, **138**; *Choniosphaera*, CONNOLLY, **85**; Phyllopods, CAMPAN, **67**; *Coriodaphnia*, SCHUBERT, **339**; KUHNEMUND, **205**.

Miscellaneous.—Early stages, Phyllopods, MATHIAS, **236**; Eggs of *Moina*, ALLEN & BANTA, **4**; Sex control in Cladocera, BANTA & BROWN, **21**; Spermatogenesis in *Branchipus*, BAKER & ROSOF, **15**; In Decapods, SELIPOVA, **345**; Oogenesis in *Carcinus*, HARVEY, **154**.

ETHOLOGY.

General Habits.—Larval Lobsters, MACKAY, **224**; *Talitrus*, VERWEY, **403**; *Hemilepistus*, VERRIER, **402**; North Sea Copepods, RUUD, **311**; Freshwater Copepods, HERBERER, **159**; *Canthocamptus*, BORUTZY, **46**; *Chondrocanthus*, GOGGIO, **128**.

Special Habits.—Courtship in Crabs, DUTEUTRE, **105**; Moult in *Palinurus*, SANTUCCI, **322**; Growth and moult in Cladocera, RAMMNER, **291**; Feeding habits in Copepods, CANNON, **69**; Swimming in Copepods, STORCH, **367**; Digging in Amphipods, SCHELLENBERG, **335**; Aggregating habits, *Asellus*, ALLEE, **3**; Longevity in *Daphnia*, MACARTHUR & BAILLIE, **222**; Attachment of *Balanus* larva, BOHART, **37**.

Tropisms and External Conditions—Orientation, SANTUCCI, **323**; Effects of light, BELLISAI, **26**; Of temperature, BROWN, **64**; Change of habitat, sea to land, HARMS, **152**; PEARSE, **273**; MONTEROSSO, **250**; Marine to Fresh Water, DUDICH, **103**; Resistance to

heat, Phyllopod eggs, MATHIAS, **237**; Entomostraca wintering in Russia, SCHARMINA, **332**.

Ecology.—Fixed intertidal beach fauna, PRENANT, **287**; Russian Arctic, GURJANOVA, **140**; Freshwater fauna of Norfolk, GURNEY, **145**; Atyidae in Hawaiian Is., EDMONDSON, **106**; Crabs on N. Carolina coast, PEARSE, **272**; Callianassids of Puget Sound, STEVENS, **362, 363**; Land-Isopods, HEROLD, **160**; Copepods, LOWNDES, **214**; ELTON, **107**.

Migration.—v. BONDE, **40**; NIKITINE, **260**.

Habitats: Marine Plankton Studies.—ESTERBY, **108**; RUUD, **311**.

Habitats; Limnology.—BAJKOV, **14**; BIGELOW, **33**; BORNER, **42**; BORUTZKY, **44**; DELACHAUX, **94**; GAJL, **117**; GAUTHIER, **119**; HEBERER, **159**; JASCHNOW, **173**; LINDER, **212**; MAUVAIS, **240**; RAWSON, **297**; ROBERT, **303**; SCOTT, **340**; SPIJARNY, **359**; STRØM, **373**; ZEITLINGER, **420**.

Other Habits.—Cavernicolous, CHAPPUIS, **78**; CHILTON, **80**; RACOVITZA, **288**; SARS, **331**; VERHOEFF, **399**: Wells and Springs in Latvia, ISCHREYT, **169**; Ascidicolous Copepod, SALFI, **316**; Amphipods in Cod's roe, RAITT, **290**; Change from marine to land-life, PEARSE, **273**.

Parasitism.—Effect on sex-characters of host, MERCIER & POISSON, **242**; CAROLI, **71**; PÉREZ, **276**; Effects on *Nereicola*, DANTAN, **89**; *Thompsonia* on *Callianassa*, CAROLI, **72**; Intermediate host of *Ione*, CAROLI, **73**; Crustacean intermediate hosts of Helminths, HALL, **147**; Copepod parasites of Irish seafisheries, SCOTT, **341**.

AETIOLOGY.

Evolution.—Parallel evolution in Decapods, BEURLEN, **31**.

Variation.—Seasonal and morphological in plankton, ROBERT, **304**; Albinism in Isopods, ARCANGELI, **9**; Geographical variation in *Ligia*, SANTUCCI, **318, 324**; Variation in Indian Copepods, SEWELL, **346**; Dimorphism and growth in Copepods, GURNEY, **143**; Variation in *Daphnia*, ROBERT, **303**.

Sex Problems.—Sexual dimorphism in Phyllopods, CAMPAN, **67**; *Macropodia*, PÉREZ, **278, 279**; *Cytherella*, v. VEEN, **397**; *Inachus*, v. OORDT, **268**; Secondary sex characters of Decapods, PÉREZ, **280**; Sex reversal in *Pandalus*, BERKELEY, **28**; Sex control in Cladocera, BANTA & BROWN, **22**.

Parthenogenesis. — VANDEL, **305**; SHULL, **350**.

Teratology.—KIEFER, **189**; LEGENDRE, **208**; TURNER, **392**.

Genetics—BANTA & BROWN, **22**; FORD & HUXLEY, **115**.

DISTRIBUTION AND FAUNAS.

General.

General Problem.—Causes of distribution of Cladocera, BROWN, **64**.

Palaearctic Region.

Land and Freshwater (including Salt Lakes).

British Isles.—Norfolk, GURNEY, **145**; Cambridgeshire, JENKIN, **174**; Devonshire, PERCIVAL, **275**; Bardsey I., Wales, SCOTT, **340**.

France.—LABBÉ, **206, 207**; PARIS, **269**; ROY, **310**; THIÉBAUD & PELOSSE, **385**.

Switzerland.—BORNER, **42**; KIEFER, **186**; LINDER, **212**; MAUVAIS, **240**; STROUHAL, **379**.

Scandinavia.—Norway, STRØM, **373**; Sweden, NYBELIN, **265**; Denmark, POULSEN, **285**.

Germany.—HEROLD, **161**; KIEFER, **186, 189**; LUCKS, **216**; East Prussia, WILLER, **409**; WOLTERSTORFF, **417**; Saxony, HERBERER, **159**; HNATEWYTSCH, **165**; Bavaria, GASCHOTT, **118**.

Austria.—ZEITLINGER, **420**.

Poland.—GAJL, **117**; JAKUBISIAK, **172**.

Latvia.—ISCHREYT, **169**.

Russia.—BEHNING, **25**; BORUTZKY, **44**; BRONSTEIN, **62**; BUCHALOWA, **66**; DECKSBACH, **92**; JASCHNOW, **173**; RYLOV, **313**; SMIRNOV, **352, 353**; SPIJARNY, **359**.

Italy.—GRANDORI, **134**; STROUHAL, **377, 379**; VERHOEFF, **399**.

Balkan Peninsula. — Yugoslavia, KARAMAN, **179, 180**; Bulgaria and Turkey, VERHOEFF, **398**; Greece, CHAPPUIS, **79**; STROUHAL, **375, 377**.

Mediterranean Islands.—Sicily, BALDI, **17**; Crete, CHAPPUIS, **79**; STROUHAL, **376**; VERHOEFF, **400**; Ægean Islands, D'ANCONA, **5**; BRIAN, **51**; GHIGI, **123**; MASI, **235**; STROUHAL, **375, 376, 377**; VECCHI, **398**.

North Africa.—Morocco, KIEFER, **184, 186**; Algeria and Tunisia, GAUTHIER, **119**; Sahara, GAUTHIER, **120, 121**.

Western Asia.—Palestine, KRAMPNER, **203**; Persia, BRONSTEIN, **63**; MARTYNOV, **233**; RYLOV, **315**.

Russian Asia.—Caucasus, BRONSTEIN, **63**; FADEEW, **109**; MARTYNOV, **233**; RYLOV, **314, 315**; SIDOROFF, **351**; SMIRNOV, **354, 355**; STROUHAL, **374**; Russian Turkestan, KEISER, **181**; Siberia, RYLOV, **313**; VNUKOVSKY, **404**; Amoorland, BORUTZKY, **45**; SMINOV, **356**.

Eastern Asia.—Manchuria, SOWERBY, **358**.

Japan.—CHAPPUIS, **79**; NICHOLLS, **255**; UÉNO, **393**.

Ethiopian Region.

General.—GURNEY, **142**; MONOD, **249**; Belgian Congo, KIEFER, **188**; South Africa, BARNARD, **23**; KIEFER, **188, 189, 190**; Portuguese E. Afr., GORDON, **130**; East Africa, BALSS, **20**; KIEFER, **186**; Eritrea, ARCANGELI, **6**; Sudan, WILSON, **412**; ZIMMERMANN, **422**; Madagascar, BALSS, **20**; PETIT, **282**.

Indian Region.

India.—KIEFER, **185**.

Malayia.—Malay Peninsula, CHILTON, **80**; SARS, **331**; Java, KIEFER, **191**.

Australian Region.

Australia.—NICHOLLS, **257**; New South Wales, MCNEILL, **225**; Victoria, WARD, **406**; Tasmania, MANTON, **230**.

East India Islands.—Flores and Lombok, ROUX, **309**; KIEFER, **191**.

New Zealand.—BREHM, **49**.

Pacific Islands.—New Hebrides, JENKIN, **175**; TATTERSALL, **380**; Hawaiian Is., EDMONDSON, **106**.

Neotropical Region.

General.—Argentina, BRIAN, **54**; GIAMBIAGI, **124**; Paraguay, KIEFER, **187**; Peru, DELACHAUX, **94**; Brazil, LUTZ, **221**; Cuba, BRIAN, **56**.

Nearctic Region.

United States.—MARSH, **232**; KIEFER, **187**; Indiana and Kentucky, CHAPPUIS, **78**; N. Carolina, PEARSE, **272**; SCHMITT & SHOEMAKER, **338**; West Virginia, NEWCOMBE, **254**; Connecticut, KIEFER, **192**.

Canada.—BAJKOV, **14**; BIGELOW, **33**; FISH & others, **114**; JOHANSEN, **178**; RAWSON, **297**.

Marine.

North Atlantic.—FARRAN, **111**; MACDONALD, **223**; PIRLOT, **283**; STÖRMER, **368**; Faroe Is. seas, STEPHENSEN, **361**; North Sea, HAVINGA, **155**; REID, **299**; SCHELLENBERG, **334**; STEPHENSEN, **360**; STEVENSON, **364**; Baltic, KLIE, **194, 195, 196**; STEPHENSEN, **360**; Irish Sea, SCOTT, **341**; English Channel, BOSCHMA, **47**; MAURY, **238, 239**; Biscay, PRENANT, **286**; Morocco coasts, FAGE, **110**; Coast of N. America, BLAKE, **34**; CONNOLLY, **85**; RATHBUN, **294**; SHOEMAKER, **349**; WILLEY, **410**.

Mediterranean.—ARGILAS, **10**; CECCHINI, **75**; COLOSI, **84**; DIEUZEIDE, **97**; v. DOUWE, **101**; ISSEL, **170**; MOLTONI, **245**; MONARD, **246**; ROSE, **305**; SANTUCCI, **330**; Adriatic, NINNI, **264**; Ægean, BRIAN, **50, 52, 53, 55**; SANTUCCI, **317**; Black Sea, MAKAROFF, **226**; NIKITINE, **260**.

Tropical Atlantic.—LEHNHOFEN, **209**; West African coast, MONOD, **247, 248**; Caribbean sea, DOLLFUS, **99**; NIERSTRASZ & BRENDER, **258**; Brazil coast, LUEDERWALDT, **218**.

Southern Ocean.—Australian seas, BAKER, **16**; HALE, **146**; New Zealand waters, CHILTON & BENNETT, **82**; FARRAN, **111**; YOUNG, **419**.

Indo-Pacific.—Indian Ocean, LEHNHOFEN, **209**; NILSSON-CANTELL, **263**; Natal seas, GORDON, **131**; Red Sea, BALSS, **18**; CECCHINI, **74**; WILSON, **412**; Indian waters, BRIAN & GRAY, **58**; DE MAN, **227**; SEWELL, **346**; Malayan waters, DE MAN, **228, 229**; Australian coasts, NICHOLLS, **256**; MCNEILL, **225**; China seas, GEE, **122**; URITA, **394**; Japanese Seas, BROCH, **59**; DE MAN, **229**; Pacific, v. SCHELLENBERG, **333**; NIERSTRASZ & BRENDEE, **258**; GRAVIER, **135**; Californian coast, ESTERLEY, **108**.

North Pacific.—N. China seas, SHEN, **348**; Russian Pacific, ZIMMER, **421**; Okhotsk Sea, NASONOV-LAVROFF, **253**; N. American coasts, STEVENS, **363**; Vancouver I., CAMPBELL, **68**.

Eastern Pacific.—Bay of Panama, BOONE, **41**; Juan Fernandez seas, BALSS, **19**; NILSSON-CANTELL, **261**; PORTER, **284**.

Arctic Seas.—Russian Arctic, GURJANOVA, **140, 141**; ZIMMER, **421**.

Antarctic Seas.—FARRAN, **111**.

Geological.

Precambrian—S. Australia, DAVID, **90**.

Ordovician.—Greenland, TROEDSSON, **388**.

Devonian.—France, DEHÉE, **93**; PÉNEAU, **274**; Germany, BROILI, **60, 61**; Germany, GÜRICH, **139**; Russia, LUTKEVICH, **220**; TSHERNYSHEFF, **389**; Burma, REED, **298**; Oklahoma, ROTH, **306**.

Carboniferous.—France, DEHÉE, **93**; U.S.A., KELLETT, **182**; Oklahoma, Arkansas and Texas, HARLTON, **151**; MOORE, **252**.

Trias.—Europe, v. STRAELEN, **369**.

Permian—N.S. Wales, CHILTON, **81**; Oklahoma, ROTH, **308**.

Jurassic.—Silesia, BEURLEN, **29**.

Cretaceous.—France, v. STRAELEN, **370**; Mongolia, v. STRAELEN, **371**.

Eocene.—France, v. STRAELEN, **372**; Belgium, DUBOIS, **102**; Florida, RATHBUN, **296**.

Miocene—France, WITHERS, **415**; Russia, DERJAVIN, **95**.

Pliocene.—California, RATHBUN, **295**.

Tertiary (Amber).—Prussia, LUCKS, **217**.

Doubtful Age.—Switzerland, TIÈCHE, **386**

III.—SYSTEMATIC INDEX.

INCERT. SEDIS.

A strange Nauplius in plankton of Bay of Algiers, figs. ROSE **305**.

†*Reynella howchini* **gen. et sp. n.** (Incert. sed.) Precambrian ? S. Australia, DAVID Trans. R. Soc. S. Austr. **52** p. 200 figs.

DECAPODA.

Physiological studies on the nerve centres of Decapods, SEGAAR **344**.

Spermatogenesis in Decapods in its bearing on phylogeny, SELIPOVA **345**.

Secondary sexual characters in Decapods, PÉREZ **280**.

Faunal Lists, Marine: Yorkshire coast, STEVENSON **354**; East Friesian Islands, North Sea, SCHELLENBERG **334**; Ligurian sea, MOLTONI **245**; Ægean Sea, SANTUCCI **317**; China seas, URITA **394**; GEE **122**; Cameroon coasts, MONOD **247**; Straits of Malacca, DE MAN **228**; Juan Fernandez waters, S. Pacific, BALSS **19**; Canadian Atlantic waters, RATHBUN **294**.

Faunal Lists, Freshwater: Caucasus and N. Persia, MARTYNOV **233**.

Catalogue of Fossil Crustacea Decapoda, GLAESSNER **125**.

Parallel development and evolution in fossil Decapods, BEURLEN **31**.

On the fossil remains of complete Decapods, GLAESSNER **127**.

Morphology and structure of Mesozoic Decapods based on that of recent forms, BEURLEN **30**.

The Triassic Decapods and their relations to recent types, v. STRAELEN **369**.

On fossil moulted carapaces of Decapod Crustacea, GLAESSNER **126**.

Brachyura.

Osmosis in Crabs, SCHLIEFER **337.**

Growth disharmonies in Brachyura, TEISSIER **382.**

The ecology of some estuarine Crabs in North Carolina and changes in gills correlating changes in habit, PEARSE **272.**

Nuptial courtship in Crabs, DUTEURTRE **105.**

On the larval forms of some Japanese Brachyura key and many figs., AIKWARA **2.**

Faunal Lists, Marine: Port Phillip, Victoria, WARD **406**; New Zealand, CHILTON & BENNETT, **82.**

The footprints or track marks of fossil Brachyura, WEIGELT **407.**

OXYRHYNCHA.

Oxyrhynchids of the Red Sea and from other localities, BALSS **18.**

Classification of the Oxyrhynchids. Macrocheiroidea and Camposciodea new groups of Inachinae p. 3, Opthalmiinae **nom. n.** p. 6, Hyasteniinae **subf. n.** p. 14, Mithracinae **subf. n.** p. 20, BALSS **18.**

Achaeopsis pugnax **sp. n.** Japanese seas, DE MAN Vidensk. Medd. Naturh. Foren. **85** p. 7 figs.

Achaeus erythraeus **sp. n.** Red Sea p. 5, BALSS **18.**

Doclea macracantha, D. brachyrhyncha notes figs. Sumatra waters p. 15, BALSS **18.**

Eurynome verhoeffi **sp. n.** Red Sea p. 12 figs., BALSS **18.**

Inachus, sex differentiation a further note, V. OORDT **268.**—*I. dorsettensis* growth studies and growth potential, SHAW **347.**

Macropodia rostrata sexual characters, PÉREZ **278, 279.**

Maia erinacea **sp. n.** Adriatic and notes on other spp., NINNI Boll. bimes. Com. thalass. **13** nos. 81–86 p. 49.

Maja verrucosa, physiology of the heart, DE BOER **35.**

Menaethiops fascicularis note fig. p. 9, *M. dubia* **sp. n.** Red Sea p. 10 fig., BALSS **18.**

Paramithrax backströmi **sp. n.** Juan Fernandez waters, BALSS Nat. Hist. J. Fernand. **3** p. 336 figs.

Pitho quinquedentata Bay of Panama fig. p. 563, BOONE **41.**

Pseudocollodes demani **sp. n.** Japanese seas p. 4 figs., BALSS **18.**

Tiarinia tiarata note fig p. 21, BALSS **18.**

CYCLOMETOPA.

Review of the East African and Madagascar Potamonidae, BALSS **20.**

Callinectes arcuatus descr. figs. p. 564, BOONE **41.**

Calocarcinus africanus note figs. Kei Is. p. 23, DE MAN **229.**

Cancer pagurus marking experiments on Scottish coasts, WILLIAMSON **411.**—*C. magister* biochemistry and food value, FELLERS & PARKS **112.**—*C. novaezealandiae* descr. range p. 744, CHILTON & BENNETT **82.**

Carcinus moenas oogenesis and yolk formation, HARVEY **154.**

Charybdis cruciata distr. fig. p. 149, MCNEILL **225.**

Eriphia squamata descr. figs. p. 575, BOONE **41.**

Euphylax dovii descr. fig. Bay of Panama p. 564, BOONE **41.**

Eurypanopeus purpureus, E. planus, E. transversus descr. figs. p. 570, BOONE **41.**

Geotelphusa antheus descr. and fig. p. 351, *G. antongilensis* critical note and fig. p. 355, BALSS **20.**

Heterozius rotundifrons descr. range p. 746, CHILTON & BENNETT **82.**

Leptodius cooksoni descr. fig. p. 568, BOONE **41.**

Nectocarcinus bullatus **sp. n.** Juan Fernandez waters, BALSS Nat. Hist. J. Fernand. **3** p. 334 figs.

†*Ocalina* **gen. n.** (Xanthidae) p. 1 for *O. floridana* **sp. n.** p. 2 Eocene Florida, RATHBUN Proc. U. S. N. M. **75** art. 15 3 pls.

Ozius verreauxi, O. agassizii descr. fig. p. 573, BOONE **41.**—*O. truncatus* note p. 750, CHILTON & BENNETT **82.**

Pilumnus normani descr. figs. p. 14 *P. hilarulus* **sp. n.** p. 19 figs. nr. Kei Is. Moluccas, DE MAN Vidensk. Medd. Naturh. Foren. **85.**

Potamon edule hippocratis **subsp. n.** Cos, Ægean Is. and note on other Ægean races, GHIGI Arch. zool. Torino **13** p. 245.—*P.* (*Potamonautes*) *calcaratum* **sp. n.** Zambesi Port. E. Afr., GORDON Ann. Mag. N. H. (10) **3** p. 405.

Pseudothelphusa richmondi Panama Canal Zone descr. fig. p. 566, BOONE **41.**

Xanthodius occidentalis charac. range fig. p. 569, BOONE **41.**

†*Xanthopsis leachi* in Eocene beds Belgium fig., DUBOIS **102.**

CATOMETOPA.

Carcinoplax meridionalis in Australian waters not *C. abyssicola* p. 150, MCNEILL **225.**

Cyclograpsus whitei descr. syst. status p. 769, CHILTON & BENNETT **82.**

Eriocheir sinensis occurrence and status in the Oder valley, PAX **271**; Further extension of range into E. Prussia, photo, WOLTERSTORFF **417**; An intermediate host of the Trematod *Paragonimus* in Asia, ARNDT **11.**

Grapsus grapsus range fig. p. 577, BOONE **41.**

Hemigrapsus sexdatatus p. 764, *H. crenulatus* p. 766 descr. distr., CHILTON & BENNETT **82.**

Hemiplax hirtipes synonymy and syst. status p. 759, CHILTON & BENNETT **82.**

Mertonia integra descr. figs. p. 154, MCNEILL **225.**

Ocypoda gaudichaudii, O. occidentalis range figs. p. 580, BOONE **41.**

Ommatocarcinus macgillivrayi synonymy etc. p. 757, CHILTON & BENNETT **82.**

Pachygrapsus transversus charac. range figs. p. 577, BOONE **41.**

Pinnotheres pisum effect of parasitization by *Pinnotherion* figs., MERCIER & POISSON **242.**

Speocarcinus luteus **sp. n.** coast N.S. Wales, MCNEILL Rec. Austr. Mus. **17** p. 153 figs.

Uca pugnax effect of neurophil drugs, RICHARDS **302.**—*U. mordax* characters figs. p. 581, BOONE **41.**—*U. tangeri matandensis* **nom. n.** pro *U. t. platydactylus* Monod preoc., MONOD Bull. Mus. Paris **1928** p. 252.

OXYSTOMATA.

Calappa a review of the West African spp. with keys and many figs., MONOD **248.**

Leucosilia jurinei charac. figs. p. 583, BOONE **41.**

†*Persephona invalida* **sp. n.** Pliocene California, RATHBUN J. Wash. Acad. Sci. **19** p. 470 figs.

DROMIACEA.

Review of the Cretaceous Dromiacea, v. STRAELEN **370.**

Fossil Prosoponidae and notes on anatomy and probable life history, BEURLEN **29.**

†*Cycloprosopon complanatiforme* note fig. p. 127, BEURLEN **29.**

†*Gastrosacus latirostris* **sp. n.** Jurassic Lorraine, BEURLEN Cbl. Min. Geol. Pal. **1929B** p. 133 figs.

†*Goniodromites serratus* **sp. n.** Jurassic Lorraine, BEURLEN Cbl. Min. Geol. Pal. **1929B** p. 130 fig.

Paramola rathbuni **sp. n.** off Juan Fernandez S. Pacific, PORTER Rev. Chil. H. N. **31** p. 141 figs.

†*Pithonoton* sp. descr. fig. p. 127, BEURLEN **29.**

†*Prosopon gignouxi* **sp. n.** Cretaceous France, v. STRAELEN Bull. Acad. Belg (5) **14** p. 606 figs.

Anomura.

GALATHEIDEA.

Fossil Galatheidae with notes on anatomy and probable life-history, BEURLEN **29.**

Porcellana longicornis regeneration of chelae, PÉREZ **277.**

PAGURIDEA.

Physiology of colour vision in the Eupagurids, KOLLER **198.**

Changes in Hermit-Crabs due to migration from marine to terrestrial life, PEARSE **273.**

Diogenes pugilator distr. parasitic infestation and other notes p. 526, PÉREZ **276**.

Eupagurus bernhardus "chemoreception" WREDE **418**.—*E. bernhardi* and *E. cuanensis* parasitic infestation, PÉREZ **276**.

Paralithodes camtschatica regeneration studies OKUNEFF **267**; Biochemistry and food value, FELLERS & PARKS **112**. —*P. longirostris* **sp. n.** Okhotsk Sea, NASONOV-LAVROFF Russ. hydrobiol. Z. **8** p. 174 5 figs.

Macrura.

NEPHROPSIDEA.

Astacoides distr. and races in Madagascar, PETIT **282**.

Astacus leptodactylus physiological working of the middle gut and its glands, HIRSCH & JACOBS **164**.—*A. fluviatilis* physiology nervous system, HARDY **150**; Physiology of neuro-muscular system, SEGAAR **342**; Regeneration of striped muscle, MAPELLI **231**; Experiments in anaphylaxis, KRAFKA **202**.

†*Astacus edwardsi* **sp. n.** (ex Munier-Chalmas MS.) Eocene Champagne, France, v. STRAELEN Bull. Soc. geol. Fr. (4) **28** p. 3 figs.—*A. licenti* **sp. n.** Cretaceous ? of Mongolia, v. STRAELEN Bull. Geol. Soc. China **7** p. 133 figs.

Cambaroides schrenckii, *C. dauricus* distinction status figs. in Manchuria, SOWERBY **358**.

Cambarus on the spp. in West Virginia distr., ecology, food, taxonomy, NEWCOMBE **254**; Females with abnormal characters, TURNER **392**.—*C. clarkii* experiments on the rhythm of the heart, LINDEMAN **210**.

Homarus vulgaris artificial rearing methods, DANNEVIG **88**; Limits of distribution and causes, GOMPEL & LEGENDRE **129**.—*H. americanus* life history, habits of larva, growth, MACKAY **224**; Structure of neurofibrils, DE RÉNYI **301**.

Nephrops norvegicus development and ecology in the Tyrhenian sea, SANTUCCI **319**, **320**, **325**, **327**; With malformed chelae, LEGENDRE **208**.

†*Nephrops shastensis* **sp. n.** Cretaceous California, RATHBUN J. Wash. Acad. Sci. **19** p. 469 fig.

Potamobius astacus cytology and Golgi apparatus in male gonad cells, GRABOWSKA **132**, **133**.

ERYONIDEA.

Polycheles typhlops descr. fig. taken off Algiers, DIEUZEIDE **97**.

SCYLLARIDEA.

Metamorphosis in the Loricata; critical remarks, DAWYDOFF **91**.

Jasus lalandii methods of tracing migrations, v. BONDL **40**.

Palinurus vulgaris in the Mediterranean general review of habits etc., HELDT **157**; Larval development, SANTUCCI **320**, **326**; Fishing industry in Sardinia, SANTUCCI **328**.—*P. vulgaris* and other Syllarids moult 2 figs. SANTUCCI **322**.—*P. vulgaris* and *Scyllarus arctus* orientation and other activities, SANTUCCI **323**.—*P. lalandii* physiology of heart and effect of chemical changes, ZOOND & SLOME **423**.

Panulirus on a strange phyllosome larval form in Mediterranean, SANTUCCI **330**.—*P. japonicus* embryonic development, TERRAO **383**; First record for Australian waters p. 148, MCNEILL **225**.

Scyllarides latus an early larval stage, SANTUCCI **329**; Habits etc. in W. Mediterranean, SANTUCCI **321**.

THALASSINIDEA.

Ecology of Callianassids of Puget Sound, STEVENS **362**.

Callianassa review with keys descr. figs. etc. of E. Indian spp. p. 95, *C.* (*Cheramus*) *pygmaea* **sp. n.** off Amboyna, E. Indies, p. 155 figs., DE MAN Siboga Exped. Monogr. **39** livr. 109.—*Callianassa* review of the Pacific coast (N. Amer.) forms with photos and notes on ecology and habits, STEVENS **363**.

Thalassina anomala squamifera addt. descr. figs. East Indian Sea p. 5, DE MAN **227**.

Upogebia review of the Pacific coast spp. with notes on ecology and habits, figs., STEVENS **363**; Addt. descr. of recently descr. spp. with figs. p. 52, DE MAN **227**.—*U. affinis* note on

burrow and habits, SCHMITT & SHOEMAKER **338**.—*U. littoralis* results of infestation by *Gyge branchialis*, CAROLI **71**.

CARIDEA.

Caridina typus in Lombok, ROUX **309**.

Crangon vulgaris experimental physiology on colour changes, KOLLER **199**.

Discias serrifer note fig. p. 330, BALSS **19**.

Ortmannia henshawi is identical with *Atya bisulcata* and one form can be converted into the other by artificial means, also results of various experiments, salinity, light, etc. figs., EDMONDSON **106**.

Palaemon (*Parapalaemon*) *australis* history, descr. figs. p. 144, MCNEILL **225**.—*P.* (*Macrobrachium*) *latimanus* in Flores, ROUX **309**.

Palaemonetes varians lacustris in freshwater Cos I. p. 346, SANTUCCI **317**.

Pandulus danae sex reversal, BERKELEY **28**.

PENAEIDEA.

The Penaeidae of the Algerian coast and an account of their external anatomy, ARGILAS **10**.

Ceratopenaeus **gen. n.** for *Parapenaeus dalei* Rathb. and other spp., KISHINOUYE Proc. Imp. Akad. Tokyo **5** p. 282.

Erythropenaeus **gen.n.** for *Parapenaeus acclivis* Rathb. and other spp., KISHINOUYE Proc. Imp. Acad. Tokyo **5** p. 283.

Leptopenaeus **gen. n.** for *Penaeus philippinensis* and other spp, KISHINOUYE Proc. Imp. Akad. Tokyo **5** p. 282.

Penaeopsis on the asymmetrical petasma figs., KISHINOUYE **193**.

EUPHAUSIACEA.

Meganyctiphanes norvegica abdominal muscles, DANIEL **87**.

Thysanopoda spinula **sp. n.** N Atlantic, MACDONALD Proc. N. Engl. Zoöl. Cl. **11** p. 63.—*T. mansui*, *T. armata* **spp. n.** Japan seas, MARUKAWA **234**.

MYSIDACEA.

Mysids of the Faroe Is., STEPHENSEN **361**.—Of the Gulf of Naples, COLOSI **84**.

Anchialina agilis note figs. p. 411, COLOSI **84**.

Boreomysis megalops telson and uropod fig. p. 407, COLOSI **84**.

Diamysis mecznikowi descr. figs. and status on the middle Don p. 242, BUCHALOWA **66**.

Erythrops neapolitana **sp. n.** Gulf of Naples, COLOSI Pubb. Staz. zool. Napoli **9** p. 414 figs.

Euchaetomera tenuis note p. 416, COLOSI **84**.

Leptomysis gracilis and other Naples spp. notes and figs. p. 420, COLOSI **84**.

Mesopodopsis slabberi note figs. p. 430, COLOSI **84**.

Mysideis parva, *M. gibbosa* note figs. p. 418, COLOSI **84**.

Neomysis isaza **sp. n.** Japan seas, MARUKAWA **234**.

Orientomysis japonica **sp. n.** Japan seas, MARUKAWA **234**.

Paramysis arenosa note figs. p. 433, COLOSI **84**.—*P. baeri bispinosa* descr. figs. status in S. Russia, p. 237, BUCHALOWA **66**.

Siriella clausi, *S. armata* note figs. p. 408, COLOSI **84**.

Stilomysis camtschatica **sp. n.** Japan seas, MARUKAWA **234**.

SYNCARIDA.

Feeding mechanism of Syncarida, CANNON & MANTON **70**.

Anaspides and *Paranaspides* habits and occurrence in Tasmania, MANTON **230**.

†*Anaspides* (?) *antiquus* **sp. n.** Hawkesbury Sandstone (Permian ?) N.S. Wales, CHILTON J. Roy. Soc. N.S.W. **62** p. 266 1 pl.

Parabathynella malaya **sp. n.** from the Batu cave, Malay Pen. with notes on affinity and status, SARS J. Fed. Malay States Mus. **14** p. 339 2 pls.

STOMATOPODA.

Larval stages of Japanese Stomatopods, KOMAI & TUNG **200**.

Gonodactylus guerinii on an example from the Marquesas Is. figs., GRAVIER **135**.

Lysiosquilla insignis and *L. crassispinosa* taken off Natal descr. figs., GORDON **131**.

Squilla oratoria pelagic larval stages descr. figs., KOMAI & TUNG **200**.

CUMACEA.

Cumacea of Atlantic coast of Morocco, FAGE **110**.

The Cumacea of the Black Sea, MAKAROFF **226**; Of the Russian Arctic and Pacific, ZIMMER **421**.

Anchicolurus waitei **sp. n.** S. Austr. Seas, HALE Trans. R. Soc. S. Austr. **52** p. 45 figs.

Cyclaspis bovis p. 32 figs., *C. tribulis* p. 34 figs., *C. spilotes* p. 36 figs., **spp. n.** S. Australian seas, HALE Trans. R. Soc. S. Austr. **52**.

Diastylis rathkei, D. glabra notes on forms from the Russian Arctic figs., ZIMMER **421**.—*D. dollfusi* **sp. n.** off Casablanca Morocco, FAGE Bull. Soc. Sci. Nat. Maroc. **8** p. 177 figs.

Eocuma dimorpha remarks fig. p. 180, FAGE **110**.

Ekdiastylis cornuifer **sp. n.** Maine coast p. 30 figs., BLAKE **34**.

Eudorella difficilis **sp. n.** Maine coast p. 28 figs., BLAKE **34**.

Gynodiastylis turgidus **sp. n.** S. Australian Seas, HALE Trans. R. Soc. S. Austr. **52** p. 42 figs.

Leptocuma pulleini **sp. n.** S. Australian seas, HALE Trans. R. Soc. S. Austr. **52** p. 38 figs.

Leptostylis vercoi **sp. n.** WestAustralian Seas, HALE Trans. R. Soc. S. Austr. **52** p. 47 figs.

Sympodomma africanum ♀ juv. descr, fig. p. 40, HALE **146**.

TANAIDACEA.

Tanaids of the coast of Normandy, MAURY **239**.

Tanais carolinii note p. 203, KOUMANS **201**.

ISOPODA.

Causes of albinism in Isopods, ARCANGELI **9**.

Faunal Lists: Faroe Is., STEPHENSEN **361**; Coast of Normandy, MAURY **239**; Batu caves, Malay Peninsula, CHILTON **80**.

ASELLOTA.

Asellus communis study of winter aggregations, ALLEE **3**.—*A. aquaticus* in Rjasan Gouv., BORUTZKY **44**.—*A. italicus* effects of sea water on this freshwater form, DUDICH **103**.—*A. coxalis* in the Ægean note p. 262, ARCANGELI **7**.—*A. nipponensis* **sp. n.** Japan, NICHOLLS Arch. Zool. exp. gen. Notes **68** p. 34 figs.—*A.* sp. first record in Siberia, VNUKOVSKY **404**.

Desmosoma lobiceps **sp. n.** Maine coast p. 26 figs., BLAKE **34**.

Janira maculosa in Dutch waters p. 202, KOUMANS **201**.

Stenetrium macrochirum p. 363, figs., *S. spinirostrum* p. 369 figs., *S. truncatum* p. 371 figs., *S. glauerti* p. 373 figs. **spp. n.** Western Australian seas, NICHOLLS Proc. Linn. Soc. N.S.W. **54**.

PHREATOICIDEA.

Phreatoicus capensis temperature and velocity of progression, HUTCHINSON **166**.

FLABELLIFERA.

Cilicaeopsis sculpta **sp. n.** West Austr. coast, BAKER Trans. R. Soc. S. Austr. **52** p. 54 figs.

Cymodace coronata and other Australian spp. descr. figs. p. 51, BAKER **16**.

Dynamenella parva **sp. n.** S. Austr. coast, BAKER Trans. R. Soc. S. Austr. **52** p. 57 figs.

Dynoides dentisinus **sp. n.** N. China coast nr. Peitaiho, SHEN Bull. Fan Mem. Inst. Biol. **1** p. 65 figs.—*D. barnardii* **sp. n.** coast N.S. Wales, BAKER Trans. R. Soc. S. Austr. **52** p. 56 figs.

Exosphaeroma serventii **sp. n.** Estuarine W. Austr., BAKER Trans. R. Soc. S. Austr. **52** p. 49 figs.

Gnathia oxyuraea on the coast of Normandy and other spp. listed, MAURY **238**.—*G. arctica* **sp. n.** off Nova Zembla, GURJANOWA Zool. Anz. **81** p. 311 figs.

Haswellia glauerti **sp. n.** figs. coast W. Austr., *H. juxtacarnea* note figs, BAKER Trans. Roy. Soc. S. Austr. **52** p. 59.

Isocladus excavatus addt. desc. fig. p. 50, BAKER **16.**

Limnoria lignorum methods of poisoning and effect of salinity variation, WHITE **408.**

Microlistra spinosa **gen.** et **sp. n.** Slovenian cave Yugoslavia, RACOVITZA Bul. Soc. Sti. Cluj **4** pt. 2 p. 90 figs.—*M. spinosissima* **sp. n.** also Slovenian cave, RACOVITZA ibid. p. 107 figs.

Moruloidea lacertosa note figs. p. 58, BAKER **16.**

Paracilioea gigas p. 54 figs., *P. flexilis* p. 55 figs. W. Austr. **spp. n.,** BAKER Trans. R Soc. S. Austr. **52.**

Syncassidina **gen. n.** (Platybranchiatae) for *S. aestuaria* **sp. n.** coast W. Austr., BAKER Trans. R. Soc. S. Austr. **52** p. 60 figs.

VALVIFERA.

Idotea balthica variation, range, figs. p. 203, KOUMANS **201.**

Mesidothea sabini robusta **var. n.** Kara Sea, GURJANOWA Zool. Anz. **81** p. 309 figs.

EPICARIDEA.

Feeding mechanism of Bopyrids, TUCKER **391.**

Aporobopyrus johannis p.10 figs. W. Indies, *A. gracilis* p. 11 figs. off Dakar, W. Africa, **spp. n.,** NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** figs.

Argeia lowisi note fig. p. 16, NIERSTRASZ & BRENDER **258.**

Bopyrella choprae Nicobar Is. p. 29, *B. mortenseni* St. Thomas W.I. p. 30, *B. megatelson* G. of Siam p. 31, *B. thomasi* St. Thomas W.I. p. 32, *B. richardsonae* Virgin Is. W.I. p. 33, *B. lata* nr. St. Thomas W.I. p. 34, *B. asymmetrica* Virgin Is. p. 35 **spp. n.,** all figs., NIERSTRASZ & BRENDER Vidensk Medd. Foren. **87.**

Bopyrina choprae G. of Siam p. 39 figs., *B. striata* S. Diego Bay, California p. 210 figs. **spp. n.,** NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87.**

Epipenaeon nobilii **sp. n.** on *Penaeus* in Red Sea., NIERSTRASZ & BRENDER à B. Zool Anz. **85** p. 299 figs.

Gyge branchialis infesting *Upogebia* results on host, CAROLI **71.**

Ione postembryonal development on a temporary host, CAROLI **73.**

Parathelges weberi note and fig. p. 302, NIERSTRASZ & BRENDER à B., **259.**

Parionella decidens **sp. n.** China sea on Porcellanid, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 13 figs.

Parionina **gen. n.** for *P. pacifica* **sp. n.** China Sea on *Galathea*, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 14 figs.

Pauperella **gen. n.** for *P. rotunda* **sp. n.** Tocal, East Indies on *Upogebia*, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 27 figs.

Perezia **gen. n.** for *P. gregaria* **sp. n.** in mantle cavity of *Sacculina* at Naples, NIERSTRASZ & BRENDER à B. Zool. Anz. **85** p. 295 figs.

Pleurocryptina **gen. n.** for *P. indica* **sp. n.** on *Galathea* from Banda, E. Indian Seas, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 7 figs.

Pleurocryptosa **gen. n.** for *P. megacephalon* **sp. n.** Gulf of Siam on a Porcellanid NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 9 figs.

Probopyrinella **gen. n.** for *Bopyroides latreuticola* Gissler, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 25.

Probopyrus semperi **sp. n.** Amboina (freshwater) on *Palaemon* p. 18 figs., *P. bithynis gigas* **var. n.** Dutch Guiana on *Palaemon* p. 20, *P. latilamellaris* note figs. p. 21, *P. oviformis* **sp. n.** St. Croix, W. Ind. freshwater p. 22 figs., *P. dubius* **sp. n.** G. of Siam on *Galathea* p. 24 figs., NIERSTRASZ & BRENDER Vidensk.Medd. Foren. **87.**

Prosynsynella **gen. n.** for *P. hayi* **sp. n.** Virgin Is. W.I. on *Synalpheus*, NIERSTRASZ & BRENDER Vidensk. Medd. Foren. **87** p. 36 figs.

Synsynella deformans indica note figs., p. 38, NIERSTRASZ & BRENDER **258.**

ONISCOIDEA.

Nervous supply of the antennae of Land Isopods, ABRAHAM & WOLSKY **1.**

Lens of the eye in Land Isopods, WOLSKY **416.**

On the incubation cavity in Land Isopods, ARCANGELI **6**.

Ecological studies on Land Isopods, HEROLD **160**.

Cave-dwelling Isopods from caves in S.E. Alps, VERHOEFF **399**.

Pristicephalus carnuntanus feeding organs and their working, Boros **43.**

Streptocephalus dendyi Cape Prov. p. 209, *S. kaokoensis* Kaokoveld p. 210, **spp. n.** figs., also descr. figs. of other S. Afr. spp., Barnard Ann. S. Afr. Mus. **29.**

Cladocera.

Growth, moult and reproduction in Cladocera, Rammner **291.**

Physiology of nutrition, Rankin **293.**

Life cycles, parthenogenesis and sex determination, SHULL **350**; Sex control, BANTA & BROWN **21**; Control of sex parthenogenetic and sexual eggs, BANTA & BROWN **22**.

The power of suspension in water, BOWKIEWICZ **48**.

Regeneration, JERMAKOW **176**.

Preadaptation and dispersal, BROWN **64**.

List of Danish species with notes on distribution and on the effects of chemical constitution of the waters in which they live, POULSEN **285**.

Faunal Lists: Wicken Fen, Cambridgeshire, JENKIN **174**; Gouv. Rjasan, Russia, SPIJARNY **359**; Italian Ægean Is., D'ANCONA **5**; New Hebrides, JENKIN **175**.

Alona karua note figs. p. 152, GAUTHIER **120**.—*A. rectangula*, *A. pulchella* in Rhodes distinctions figs. p. 288, D'ANCONA **5**.

Bythotrephes cederstroemii status in Gouv. Rjasan, Russia, SPAÏJARNY **359**.

Ceriodaphnia reticulata postembryonal development and growth in local races, SCHUBERT **339**.—*C. affinis* and other N. Africa spp. notes and figs. p. 147, GAUTHIER **120**.

Daphnia a suggestion of the mechanism in geotropism, BIDDER **32**; Spontaneous movements, IVANOV & CVETKOV **171**.—*D. magna* causes of longevity, MACARTHUR & BAILLIE **222**; Specific gravity and power of sinking in water, LUNTZ **219**.—*D. cucullata* and other forms, relationships and status in Norfolk, figs. p. 558, GURNEY **145**.—*D. carinata* and *D. pulex* notes and figs. C. Sahara p. 143, GAUTHIER **120**.—*D. longispina hyalina* variation in Lake Neuchâtel, ROBERT **303**.

Diaphanosoma sarsii in New Hebrides fig. p. 247, JENKIN **175**.

Dunhevedia crassa in New Hebrides p. 248, JENKIN **175**.

Moina macrocopa anaesthetising experiments, TERAO & TANAKA **384**; Growth of both types of eggs, ALLEN & BANTA **4**.—*M. dubia* notes and figs. Sahara p. 151, GAUTHIER **120**.

Pleuroxus aduncus note figs. Sahara p. 153, GAUTHIER **120**.

Polyphemus pediculus early stages embryology many figs., KÜHNEMUND **205**.

Scapholeberis systematic notes on the 3 spp., RAMNER **292**.

Sida crystallina anatomy and physiology of the jaw apparatus, STORCH **366**.

COPEPODA.

Review of some groups of Cyclopidae, KIEFER **186**.

A systematic review of the Cyclopoida Gnathostoma (Fams. Oithonidae, Cyclopinidae and Cyclopidae), KIEFER **183**.

Review of genera with diagnoses and rearrangement of the species of South and Central Africa, GURNEY **142**.

A systematic review of the subfamily Canthocamptinae with diagnoses of old and new genera keys etc., CHAPPUIS **76**.

The swimming movements of Copepods analysed, STORCH **367**.

Cases of aberrant forms of appendages in Copepods p. 323 figs., KIEFER **189**.

Cause of dimorphism and rate of growth, GURNEY **143**.

Biology, variations in number, spawning periods etc. of Norwegian Copepods, RUUD **311**.

The resting stage in Harpactid Copepods, BORUTZY **46**.

Cavernicolous Copepods of Kentucky and Indiana, CHAPPUIS **78**.

Alternations in Copepod plankton off La Jolla, California, ESTERLEY **108**.

Copepod parasites of Fishes in the Irish Sea, SCOTT **341**.

Faunal Lists, Freshwater: Côte d'Or, France, ROY **310**; Halle and neighbourhood in Germany, HERBERER **159**; Poland, JAKUBISIAK **172**; Ægean Islands, BRIAN **51**; U.S.S.R. (Russia), SMIRNOV **353**; Caucasus, SMIRNOV **354**; Caucasus, Transcaucasia and N. Persia, RYLOV **315**; Morocco, KIEFER **184**; India, KIEFER **185**.

Faunal Lists, Marine: Report on Terra Nova Copepods from Atlantic, N. Zealand waters and Antarctic, FARRAN **111**; N. Atlantic and Greenland seas, STÖRMER **368**; Faroe Is.,

STEPHENSEN **361**; Baltic, KLIE **196**; Ægean, BRIAN **50, 55**; Estuary in the Coast Province of E. Siberia, SMIRNOV **356**; Indian Seas, SEWELL **346**; Vancouver I. seas, CAMPBELL **68.**

Acrocalanus gracilis, A. gibber and other Indian spp. descr. figs. range p. 79, SEWELL **346.**

Ætideus acutus **sp. n.** New Zealand seas, FARRAN Terra Nova Rep. p. 228 figs.

II.—SUBJECT INDEX.

The number in Clarendon indicates the full reference in the list of Titles.

GIGANTOSTRACA.

General Works.—Crampton, **82.**

Historical.—Xiphos., Dix & Pringle, **92.**

Classification.—Trilob., Ulrich, **302.**

Structure.—Head region, Crampton, **82**; Trilob., Opik, **211**; Xiphos., Shoji, **272**; Segmentation of head, Trilob., Henrikson, **137**; Appendages, Xiphos., Gravier, **119, 120.**

Biochemistry.—Haemocyanin, *Limulus*, Thomas, G. W., **294.**

DISTRIBUTION AND FAUNAS.

Cambrian.—Trilob., Australia, Chapman, **70**; David, **87**; Baltic, Janischewsky, **160**; Morocco, Bourcart & Villain, **40**; Siberia, Vologdin, **324**; Sweden, Westergard, **331**; United States, Roy, **247.**

Ozarkian.—Trilob., Canada, Kindle, **165.**

Ordovician.—Trilob., Czeckoslovakia, Bouček, **39**; Esthonia, Öpik, **210**; Greenland, Troedsson, **299**; Southern Baffin Island, Wilson, **336**; United States, Roy, **247**; Estonia, Orviku, **212.**

Silurien.—Trilob., Austria, Heritsch, **139**; England, Roy, **247**; United States, Thomas, N. L. **295, 296**; Czeckoslovakia. Ruzicka, **249, 250.**

Devonian.—Trilob., France, Péneau, **227**; Germany, Raymond, **235**; S. America, Roy, **247**; Xiphos., Germany, Richter, R. & E., **242.**

Stunien [name introduced by Dehée].—Trilob., Dehée, **88.**

Carboniferous. — Trilob., Russia, Bolkhovitinowa & Markoff, **34**; Xiphos., Russia, Tchernychev, **289**; South Wales, Dix & Pringle, **92.**

ARACHNIDA.

(incl. **Tardigrada, Pantopoda** and **Pentastomida.**)

GENERAL AND HISTORICAL.

General Works. — CRAMPTON, **82**; Tardigr., MARCUS, **181.**

Bibliography.—Acar., JACOT, **155.**

Historical.—Acar., ANDRÉ, **6**; MIGOT **193**; OUDEMANS, **218, 219.**

Nomenclature. — Ricinulei, EWING, **98**; Acar., HIRST, **141**; INTERNATIONAL COMMISSION, **152**; OUDEMANS, **215, 216, 217**; Hydrach., VIETS, **315.**

Phylogeny and Classification. — CQPORIACCO, **56**; Pseudoscorp., CHAMBERLIN, J. C., **59**; Pantop., GILTAY, **112.**

Methods. — Aran., WARREN, **327**; Acar., NEWCOMER & YOTHERS, **206**; THOMAS, C. A., **291**; Ixod., SHARIF, **270**; Tardig., MARCUS, **182.**

Economics, Venoms.—Aran., ANON, **15**; TROISE, **300**; Aran., anti-toxic serum, TROISE, **301.**

Economics; Medical.—Ticks and disease, BERGSMA, **27**; CHAUBET, **71**; COLAS-BELCOUR, **75**; DELANOË, **90**; FRANCAVIGLIA, **109**; HATT, **132**; HORNUS, **147**; MOSKWIN, **198**; TALICE, **285**; Sarcoptic skin disease, BACKHOUSE, **22**; Acari and disease, HASE, **131**; ROSENHOLZ & OWSJANNIKOWA, **246**; Acari as possible carriers of tropical pseudotyphus, HIRST, **145**; Arachnids as means of control of Tse-Tse fly, HEGH, **135**; Acar., BUXTON, **52**; COLAS-BELCOUR, **76**; VITZTHUM, **320, 321**; Experimental infection of Ticks with Spirochaetes, NICOLLE, ANDERSON & COLAS-BELCOUR, **207**; Pentast., PORTER, **234.**

Economics; Veterinary.—MOSKWIN, **199**; Ixod., BIELITZER, **33**; COOLEY, **80**; MOHLER, **195**; SHARIF, **270**; YAKIMOFF & RASTAGAIEFF, **337**; Acar., BUXTON, **52**; MOHLER, **196**; TALICE, **286**; DU TOIT, **297**; VITZTHUM, **320**; Experimental transmission of Spirochaetes, CATANEI, **58**; Control of feather mite, CUTRIGHT, **86**; Acari in lung of baboon, EWING, **102**; Sheep parasites, HALL, **126**; *Piroplasma bigeminum* and *Babesiella bovis* causing disease in cattle infested by Ticks, MARTIN & BARADAT, **186**; Rabbit parasites and disease, treatment, SCHWARTZ, **267**; Sheep scab, YOUNG, **338**; Pentast., PILLARS, **230.**

Economics; Miscellaneous. — EDWARDS, **94**; METCALFE & FLINT, **192**; Aran., Acar., ROBINSON & JARY, **243**; Spiders as enemies of Tsé-Tsé fly, HEGH, **135**; Acari and plant disease, ANON, **13**; DOUCETTE, **93**; EWING, **101**; HARRISON, **128**; HOUARD, **148**; KENDALL, **163**; KOSTOFF & KENDALL, **168**; MASSEE, **187**; NALEPA, **203**; **204**; NEWCOMER & YOTHERS, **206**; OUDEMANS, **214, 215**; SPEYER, **278**; THAKER & DESAI, **290**; THOMAS, C. A., **291**; Control of Acari on Apple, CARROLL, **57**; control of Red Spider, MASSEE & STEER, **188**; Protection against Acari in industry, H. C., **124**; Spider silk as possible means of identification of criminals, BERLAND, **32**; Arachnids as intermediate hosts of Helminths, HALL, **127**; **Parasitism**: Parasitism of Arachnids, COOLEY, **80**; Arachnids parasitic on other animals, Acar., BUXTON, **52**; ANDRÉ, **9**; EWING, **99, 100**; HIRST, **141**; OUDEMANS, **213, 214, 215, 217, 220**; SCHIFFER, **257**; SERGENT & SERGENT, **269**; TALICE, **286**; VITZTHUM, **322**; Acari on Lizards, ANDRÉ, **6**; Acari on Insects, ANDRÉ, **7**; Acari on baboon, EWING, **102**; Acari on Tsé-Tsé fly, HEGH, **135**; Larval Hydrachnids on Mosquitoes, MARSHALL & STALEY, **184**; Acari on Land Crabs, PEARSE, **226**; Pseudoscorp., Scorp., Pentastom., Aran., Acar., parasitic on *Primates*, OWENS, **221**; Pentast. in Man, PORTER, **234.**

STRUCTURE.

General.—Opil., STORKAN, **280**; Acar. VITZTHUM, **319.**

External Anatomy.—Head region, CRAMPTON, **82**; Aran., NIELSEN, **208.**

Nervous System and Sense Organs.—Hydrach., HALIK, **125**; "Auditory hairs," Aran., THOMAS, M., **292.**

Other Organs. — Bucco-pharyngeal apparatus, Solif., POLICE, **232**; Cephalothoracic gland, Aran., MILLOT, **194**; Liver, Aran., MAZIARSKI, **190**; Buccal apparatus, Acar., ANDRE, **8.**

PHYSIOLOGY.

Miscellaneous.—Resistance power of Hydrachnids, SZALEY, **284**; Anti-coagulation substance in Tick, PAWLOWSKY & CHODUKIN, **225**; Sense of sight, Aran., HENKE, **136**.

DEVELOPMENT.

Life History and Larval Development.—Acar., ANDRÉ, **10**; SZALAY, **283**; Ixod., COLAS-BELCOUR, **75**; COOLEY, **80**; Hydrach., ITZKAL, **153**; Aran., BONNET, **37**; Pseudoscorp., KEW, **164**.

Embryology.—Aran., WARREN, **327, 328**; Tardig., MARCUS, **182**.

ETHOLOGY.

General Habits.—Aran., BONNET, **37**; BRISTOWE, **41**; BERLAND, **30**; COLLART, **77**; KOLOSVARY, **166**; LACE, **170**; SCHREITMULLER, **261**; THOMAS, M., **292**; VOGT, **323**; WIEHLE, **333**; Pseudosc., SKAIFE, **275**; Acar., NEWCOMER & YOTHERS, **206**.

Habitats. — Cavernicolous fauna, Aran., BURESCH, **50**; FAGE, **104**; REIMOSER, **240**; Ixod., HIRST, **142**; Mite in nest of House Wren, AINSLIE, **2**; Pseudoscorp., nest of Meliponine Bees, CHAMBERLIN, J. C., **62**; Myrmecophilus Aran., COLLART, **78**; Ticks in burrows of porcupine and fox, DELANOË, **91**; Pitcher-plants, Acari, HIRST, **143**; Springs, Hydrach., LUNDBLAD, **177**; *Acari* associated with *Meliponinae*, SALT, **251**; Coniferous leaders, Aran., Acar., TAYLOR, **288**; Freshwater, Acar., VIETS, **313**.

Sexual Relations.—Aran., BRISTOWE, **45**; Acar., LUNDBLAD, **179, 180**.

Miscellaneous Habits.—Aran., ABRAHAM, **1**; COLLART, **79**; HECHT, **133**; SAVORY, **252**; Hatching of cocoons, BONNET, **36**; Cocoon-making, BAERG, **23**; Cocoon formation and methods of carrying cocoons, GUFFROY, **123**; Aeronautical habits, MARINELLI, **183**; VIRIEUX, **318**; Web-spinning, WIEHLE, **333**.

Instinct.—Aran., THOMAS, M., **293**.

Longevity.—Ixod., DU TOIT, **298**.

VARIATION AND AETIOLOGY.

General.—Sexual dimorphism, Aran., BRISTOWE, **45**.

Variation.—Aran., KOLOSVARY, **166**; Acar., NALEPA, **205**.

Teratology.—Hydrach., VIETS, **314**.

DISTRIBUTION AND FAUNAS.

General.—Aran., BRISTOWE, **47**.

PALAEARCTIC REGION.

General.—Ixod., OLENEV, **209**.

British Isles.—Aran., BRISTOWE, **46**; Acar., HARRISON, **128, 129**; MASSEE, **187**; VIETS, **313**; Hydrach., SOAR & WILLIAMSON, **276**; Aran., Acar., Pseudoscorp., ANON, **16**; Aran., Pseudoscorp., BRISTOWE, **44**; Aran., Hydrach., J. E. H., **154**; Aran, Opil., PACKBERESFORD, **222**.

Isle of Man.—Aran., Opil., LACE, **170**.

Channel Islands. — Aran., Opil., Pseudoscorp., BRISTOWE, **43**.

Scilly Islands.—Aran., Opil., BRISTOWE, **42**.

Europe.—Acar., ANDRÉ, **11**; Middle Europe, Acar., VITZTHUM, **319**; Austria, Hydrach., WALTER, **325**; Belgium, Pantop., GILTAY, **112**; Bulgaria, Aran., Pseudoscorp., Opil., Acar., BURESCH, **50**; Pseudoscorp., REDIKORZEV, **236**; Dalmatia, Aran., REIMOSER, **240**; Denmark, Hydrach., LUNDBLAD, **177**; France, Acar., ANDRÉ, **3, 4, 5, 7, 9, 10**; HARRISON, **128**; MIGOT, **193**; Hydrach., MOTAS, **200**; Pantop., GILTAY, **113**; Germany, Aran., SCHENKEL, **253, 255**; Acar., OUDEMANS, **213**; WILLMANN, **334**; Opil., Aran., Acar., Tardig., HNATEWYTSCH, **146**; Aran., Opil., SCHENKEL-HAAS, **256**; Holland, Acar., CORPORAAL, **81**; OUDEMANS, **217**; Hungary, Aran., KOLOSVARY, **166**; Italy, Aran., CAPORIACCO, **54**; Portugal, Aran., Pseudoscorp., Scorp., Opil., Acar., BACELAR, **21**; Russia, Acar., LUKIN, **176**; Hydrach., SOKOLOW, **277**; Solif., MORIN, **197**; Pantop., SCHIMKEWITSCH, **258**; Switzerland, Aran., Opil., Pseudoscorp., SCHENKAL, **254**; Tardig., Acar., BORNER, **38**; MAUVAIS, **189**; Acar., JACOT, **157**; Schlangen Island, Aran., MÜLLER, **201**; Ural region, Pseudoscorp., REDIKORTSEV, **237**.

North Africa.—Scorp., PALLARY, 223; WERNER, 329; Acar., COLAS-BELCOUR, 76; Ixod., FRANCHINI, 110.

Asia.—Asia minor, Acar., ANDRÉ, 6; China, Acar., HIRST, 143; Aran., NAKAJIMA, 202; Japan, Pseudoscorp., CHAMBERLIN, J. C., 61; Mongolia, Acar., SELLNICK, 268; Persia, Hydrach., TARNOGRADSKY, 287; Scorp., Solif., WERNER, 330; Siberia, Aran., BONNET, 35; Turkestan, Ixod., MOSKWIN, 198; Russian Turkestan, Aran., SCHULTZ, 265.

ETHIOPIAN REGION.

West Africa.—Aran., GILTAY, 116; LESSERT, 172; Scorp., Aran., GILTAY, 115; Aran., Solif., Scorp., Acar., LAWRENCE, 171; Acar., EWING, 102; OUDEMANS, 214, 215; SCHOUTEDEN, 259; Ixod., GHESQUIÉRE, 111.

Canaries. — Aran., Pseudoscorp., CAPORIACCO, 55.

Central Africa.—Scorp., Pedip., Solif., KRAEPELIN, 169; Sarhara, Scorp., PALLERY, 224; GILTAY, 114.

South Africa.—Aran., Solif., Scorp., Acar., LAWRENCE, 171; Pseudoscorp., HEWITT & GODFREY, 140; Pentast., PORTER, 234.

East Africa.—Aran., Ixod., WERTH, 332; Ixod., FRANCHINI, 110.

Madagascar.—Scorp., FAGE, 103, 105.

INDIAN REGION.

India.—Aran., SHERRIFFS, 271; Opil., ROEWER, 245; Acar., THAKER & DESAI, 290; Ixod., SHARIF, 270.

Malayia.—Pseudoscorp., CHAMBERLIN, J. C., 61; Acar., HOUARD, 148; Malay Peninsula, Aran., ABRAHAM, 1; Ixod., HIRST, 142; Hydrach., VIETS, 312; Dutch West Indies, Philippine Islands, Pseudoscorp., CHAMBERLIN, J. C., 59; Java, Malacca, Acar., OUDEMANS, 213; Java, Hydrach., VIETS, 315, 316; WALTER, 326; WILLMANN, 335; Mentawi Islands, Scorp., KOPSTEIN, 167; Aran., REIMOSER, 238; Opil., ROEWER, 244; Sumatra, Aran., REIMOSER, 239; Sumatra, Java, Hydrach., VIETS, 317; Samoa, Aran., BERLAND, 28.

AUSTRALIAN REGION.

Australia. — Aran., BUTLER, 51; Acar., HIRST, 141, 144.

New Zealand.—Pseudoscorp., CHAMBERLIN, J. C., 59.

Tasmania.—Acar., HIRST, 144.

Polynesia.—Scorp., Acar., BUXTON, 52; Aran., BERLAND, 29; Acar., JACOT, 159; Hawaiian Islands, Acar., JACOT, 157.

NEOTROPICAL REGION.

Central America and West Indies.—Aran., BANKS, 24; FAGE, 104; PETRUNKEVITCH, 228, 229; Pseudoscorp., CHAMBERLIN, J. C., 59, 60, 63; Ricinulei, EWING, 98; Acar., GRANDGEAN, 118.

South America.—Aran., CROSBY & BISHOP, 84; MELLO-LEITAO, 191; Aran., Scorp., Acar., Tardig., ESCOMEL, 96; Pseudoscorp., CHAMBERLIN, J. C., 60, 62; CLAUDE-JOSEPH, 73; Ricinulei, EWING, 98; Acar., EWING, 100; GRANDJEAN, 118; JACOT, 159.

NEARCTIC REGION.

United States.—Aran., CHAMBERLIN, R. V., 65, 67; CHAMBERLIN & GERTSCH, 68; CHAMBERLIN & WOODBURY, 69; CROSBY, 83; CROSBY & BISHOP, 84; FAGE, 104; Scorp., Aran., INGLES, 151; Pseudoscorp., CHAMBERLIN, J. C., 59, 61; Aran., Scorp., Pedip., Pseudoscorp., Opil., Solif., Acar., ESSIG, 97; Acar., EWING, 99, 100, 101; JACOT, 156, 157; KENDALL, 163; PEARSE, 226; Hydrach., MARSHALL, 185.

Canada.—Aran., CROSBY, 83; EMERTON, 95; Acar., MASSEE, 187.

THE OCEANS.

Mediterranean, Pantop., GILTAY, 113; Caspian Sea, Hydrach., TARNOGRADSKY. 287.

MYRIOPODA.

GENERAL AND HISTORICAL.

General Works. — CRAMPTON, 82: Chilop., ATTEMS, 18; Diplop., VERHOEFF, 303.

Phylogeny and Classification. — Chilop., STEINMANN, **279.**

Methods.—Schubart, **263.**

Economics; Medical.—Chilop., BUXTON, **52.**

Economics; Venoms.—Chilop., HASE, **130.**

Economics; Miscellaneous. — EDWARDS, **94**; METCALFE & FLINT, **192**; ROBINSON & JARY, **243**; Myriopoda parasitic on Primates, OWENS, **221**; Destruction of pineapple, Symphyla, ILLINGWORTH, **150.**

STRUCTURE.

General.—Diplop., VERHOEFF, **303.**

External Anatomy.—Chilop., ATTEMS, **18**; Diplop, HEFNER, **134**; Head region, CRAMPTON, **82.**

Nervous System and Sense Organs.—Symphila, ANON, **14.**

Reproductive Organs.—Diplop., HEFNER, **134**; VERHOEFF, **304.**

PHYSIOLOGY.

[Vacant.]

DEVELOPMENT.

Life History and Larval Development.—Diplop., VERHOEFF, **309.**

Gametogenesis.—Chilop., NATH & HUSAIN, **205**

ETHOLOGY.

Habitats.—Amphibious Centipedes, CROSSLAND, **85**; Cavernicolous fauna, BURESCH, **50**; VERHOEFF, **305, 306.**

Miscellaneous Habits.—SCHREITMÜLLER, **260.**

DISTRIBUTION AND FAUNAS.

PALAEARCTIC REGION.

Europe.—SCHUBART, **263**; Diplop., VERHOEFF, **310**; Middle Europe, Diplop., VERHOEFF, **308**; Austria, Diplop., VERHOEFF, **309, 311**; Bulgaria, BURESCH, **50**; Diplop., VERHOEFF, **304**; Chilop., VERHOEFF, **307**; France, Diplop., RIBAUT, **241**; Germany, HNATEWYTOCH, **146**; Diplop., SCHUBART, **264**; Italy, VERHOEFF, **305, 306**; Latvia, Diplop., BECKER, **26**; Chilop., STRAND, **281**; Poland, Diplop., JAWLOWSKI, **161**; Schlangen Island, Chilop., MÜLLER, **201**; Jugoslavia, Albania, Chilop., Diplop., Paurop., Symphil., ATTEMS, **20.**

Asia.—Asia minor, Diplop., JAWLOWSKI, **162**; Central Asia, LIGNAU **173**; Chilop., LIGNAU, **174.**

ETHIOPIAN REGION.

Central Africa.—Diplop., ATTEMS, **19.**

East Africa.—WERTH, **332.**

INDIAN REGION.

India.—Chilop., SILVESTRI, **274.**

Malayia.—ATTEMS, **17.**

AUSTRALIAN REGION.

Polynesia.—Chilop., BUXTON, **52.**

NEOTROPICAL REGION.

South America. — ESCOMEL, **96**; Diplop., BROLEMANN, **49**; PORTER, **233.**

NEARCTIC REGION.

United States.—CHAMBER, R. V., **64**; INGLES, **151**; Chilop., CHAMBERLIN, R. V., **66**; Diplop., SILVESTRI, **273.**

FOSSIL.

Devonian. — Germany, Myriopoda [Incertae Sedis], BROILI, **48.**

Carboniferous.—Wales, DIX & PRINGLE, **92.**

PROTOTRACHEATA.

GENERAL AND HISTORICAL.

General Works.—CRAMPTON, **82.**

STRUCTURE.

GENERAL.—CLAUDE-JOSEPH, **74.**

External Anatomy.—Head region, CRAMPTON, **82.**

Nervous System and Sense Organs.—FEDEROW, **107.**

DEVELOPMENT.

Life History and Larval Development.—CLAUDE-JOSEPH, **74.**

DISTRIBUTION AND FAUNAS.

ETHIOPIAN REGION.

South Africa.—HUTCHINSON, **149.**

NEOTROPICAL REGION.

Central America and West Indies.—CLARK, **72.**

South America.—CLAUDE-JOSEPH, **74.**

III.—SYSTEMATIC INDEX.

N.B.—The number in Clarendon, when not that of a Volume, refers to the list of Titles.

GIGANTOSTRACA.

TRILOBITA.

GOLDRING, **117.**

LIPHISTIIDAE.

Liphistius malayanus Malay Peninsula, description of male and female forms p. 671 pls., ABRAHAM **1.**

MIGIDAE.

Moggridgea purpurea **sp. n.** South West Africa p. 219, LAWRENCE Ann. S. Afr. Mus. **25.**

DIPLURIDAE.

Accola spinosa Porto Rico p. 13 figs., PETRUNKEVITCH **229.**

BARYCHELIDAE.

Psalistops corozali **sp. n.** Porto Rico p. 17 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts. Sci. **30.**

Troglothele **gen. n.** [*Barychelidae*] for type *T. coeca* **sp. n.** in cave, Cuba p. 185, FAGE Boll. Lab. Zool. Portici **22.**

THERAPHOSIDAE.

Avicularia laeta p. 48 figs., *A. caesia* p. 51 figs. Porto Rico, PETRUNKEVITCH **229.**

Cyrtopholis portoricae Porto Rico p. 20 figs., PETRUNKEVITCH **229.**

Ischnocolus culebrae **sp. n.** Porto Rico p. 31 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts. Sci. **30.**

Phormictopus cancerides Porto Rico p. 46 figs., PETRUNKEVITCH **229.**

Stichoplastus culebrae **sp. n.** Porto Rico p. 43 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts. Sci. **30.**

FILISTATIDAE.

Filistata hibernalis Porto Rico p. 56 figs., PETRUNKEVITCH **229.**

DYSDERIDAE.

Ariadna masculina **sp. n.** South West Africa p. 224 pl., LAWRENCE Ann. S. Afr. Mus. **25.**—*A. arthuri* Porto Rico p. 59 fig., PETRUNKEVITCH **229.**

Dysdera festai p. 225 fig., *D. rhodiensis* p. 226 fig. **spp. n.** Italy, CAPERIACCO Arch. Zool. Napoli **13.**

Stalita haasi **sp. n.** Dalmatia p. 235 figs., list of species in genus p. 236, REIMOSER Senckenbergiana Frankfurt **11.**

OONOPIDAE.

Oonopinus pruvotae **sp. n.** Loyalty Islands p. 392 figs., BERLAND Bull. Soc. zool. Fr. **54.**—*O. minutissimus* **sp. n.** Porto Rico p. 70 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts. Sci. **30.**

Oonops spinimanus Porto Rico p. 67 figs., PETRUNKEVITCH **229.**

Opopaea lutzi **sp. n.** Porto Rico p. 61 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**

Stenoonops portoricensis **sp. n.** Porto Rico p. 72 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**

CAPONIIDAE.

Diploglena capensis var. *major* **var. n.** South West Africa p. 225, LAWRENCE Ann. S. Afr. Mus. **25.**

Orthonops gertschi **sp. n.** United States p. 235, CHAMBERLIN, R. V. Psyche Boston Mass. **35.**

OECOBIIDAE.

Oecobius benneri **sp. n.** p. 75 figs., *O. parietalis* p. 75 Porto Rico, PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**—*O. navus* Australia p. 49 figs., BUTLER **51.**

AGELENIDAE.

Agelena, key to identification of males p. 106, *A. tentativa* p. 106 pl., *A. furcata*, *A. nevada*, *A. perita* p. 107 pl., *A. adnexa* p. 108 pl. **spp. n.** United States, CHAMBERLIN & GERTSCH J. Ent. Zool. Claremont Cal. **21.**

Corasoides **gen. n.** genotype, *C. australis* **sp. n.** Australia p. 42 figs., BUTLER Proc. Roy. Soc. Vict. (N.S.) **42.**

Hahnia ernesti Porto Rico p. 78 figs., PETRUNKEVITCH **229.**

Neoaviola **gen. n.** genotype *N. insolens* **sp. n.** Australia p. 45 figs., BUTLER Proc. Roy. Soc. Vict. (N.S.) **42.**

HERSILIIDAE.

Hersilia arborea p. 239 pl., *H. setifrons* p. 241 pl. **spp. n.** South West Africa, LAWRENCE Ann. S. Afr. Mus. **25.**

Hersiliola fragilis **sp. n.** South West Africa p. 242 pl., LAWRENCE Ann. S. Afr. Mus. **25.**

ZODARIIDAE.

Caphaeris cordivulva p. 237 pl., *C. apophysalis* p. 238 pl. **spp. n.** Lawrence Ann. South Afr. Mus. **25.**

Chariobas cylindraceus Congo p. 110 figs., LESSERT **172.**

Cydrela otavensis **sp. n.** South West Africa p. 236 pl., LAWRENCE Ann. South Afr. Mus. **25.**

Cydrelichus giltayi **sp. n.** p. 114 figs., *C. maculatus* p. 113 Congo, LESSERT Rev. suisse Zool. Genève **36.**

Diores triarmatus **sp. n.** Congo p. 117 fig., LESSERT Rev. suisse Zool. Geneve **36.**

PALPIMANIDAE.

Otiothops macleayi **sp. n.** Panama p. 55 pl., BANKS Bull. Mus. Comp. Zool. Harvard **69.**—*O. lutzi* **sp. n.** Porto Rico p. 79 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**

Sternodes **gen. n.** p. 50 genotype, *S. foraminatus* **sp. n.** Australia p. 51 figs., BUTLER Proc. Roy. Soc. Vict. (N.S.) **42.**

ERESIDAE.

Dresserus fontensis **sp. n.** South West Africa p. 221 pl., LAWRENCE Ann. S. Afr. Mus. **25.**

PISAURIDAE.

Dolomedes strandi **sp. n.** Siberia p. 268 figs., BONNET Bull. Soc. ent. Fr. **1929.**—*D. triton* Porto Rico p. 82 fig., PETRUNKEVITCH **229.**

Thaumasia marginella Porto Rico p. 84 figs., PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**

LYCOSIDAE.

Pardosa manubriata South West Africa p. 256 pl., LAWRENCE **171.**—*P. portoricensis*, Porto Rico p. 87 figs., PETRUNKEVITCH **229.**

Lycosa orophila **sp. n.** United States p. 108 pl., CHAMBERLIN & GERTSCH J. Ent. Zool. Claremont Cal. **21.**—*L. obturata* **sp. n.** South West Africa p. 254 pl., LAWRENCE Ann. S. Afr. Mus. **25.**—*L. yaucensis* **sp. n.** p. 99 fig., *L. fusca* p. 91 figs., *L. atlantica* p. 97 fig. Porto Rico., PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**

Lycosella thorelli **sp. n.** Samoa p. 68 figs., BERLAND Insects of Samoa **8** 2.

OXYOPIDAE.

Oxyopedon rostrifrons **sp. n.** South West Africa p. 257 pl., LAWRENCE Ann. S. Afr. Mus. **25.**

Oxyopeidon rana Porto Rico p. 103 figs., PETRUNKEVITCH **229.**

Oxyopes aglossus p. 17 figs., *O. acleistus*, *O. helius* p. 19 figs. **spp. n.** United States, CHAMBERLIN, R. V. Ent. News Philadelphia **40.**—*O. salticus* Porto Rico p. 102 figs., PETRUNKEVITCH **229.**

Peucetia viridans Porto Rico p. 106 figs., PETRUNKEVITCH **229.**

LEPTONETIDAE.

Theotima radiata Porto Rico p. 154 figs., PETRUNKEVITCH **229.**

SICARIIDAE.

Scytodes kaokoensis **sp. n.** South West Africa p. 223 pl., LAWRENCE Ann. S. Afr. Mus. **25.**—*S. dissimulans* **sp. n.** p. 117 fig., *S. fusca* p. 113 figs. Porto Rico, PETRUNKEVITCH Trans. Conn. Acad. Arts Sci. **30.**—*S. thoracica*, cephalothoracic gland p. 119, MILLOT **194.**

Sicarius damarensis p. 221, *S. dolichocephalus* p. 222 **spp. n.** South West Africa, LAWRENCE Ann. S. Afr. Mus. **25.**

Loxosceles rufescens, Porto Rico p. 108 figs., PETRUNKEVITCH **229.**

PHOLCIDAE.

Pholcus ancoralis, Samoa p. 43, BERLAND **28.**

DICTYNIDAE.

Dictyna eutypa, *D. completa* **spp. n.** United States p. 101 pl., CHAMBERLIN & GERTSCH J. Ent. Zool. Claremont Cal. **21.**—*D. bifasciata*, Samoa p. 42 fig., BERLAND **28.**

THERIDIIDAE.

Argyrodes gracilis Samoa p. 44 figs., BERLAND **28.**

Chrysso nigripalpis **sp. n.** Panama p. 85 pl., BANKS Bull. Mus. Comp. Zool. Harvard **69.**

Cyllognatha affinis **sp. n.** Samoa p. 46 figs., BERLAND Insects of Samoa **8** 2.

Episinopsis bishopi **sp. n.** Congo p. 120 figs., LESSERT Rev. suisse Zool. Genève **36.**

Euryopis nigripes **sp. n.** Panama p. 86 pl., BANKS Bull. Mus. Comp. Zool. Harvard **69.**

Helvibis keyserlingi **sp. n.** Panama p. 87 pl., BANKS Bull. Mus. Comp. Zool. Harvard **69.**

Latrodectus mactans venom p. 1097, TROISE **300**; anti-*Latrodectus mactans* serum p. 1098, TROISE **301.**

XI. INSECTA

BY

THE IMPERIAL BUREAU OF ENTOMOLOGY

FOREWORD

THE attention of readers is directed to the fact that owing to the necessity of keeping the "Insecta" part within reasonable limits, entomological papers written entirely from an economic standpoint are omitted, but abstracts of these will be found in the *Review of Applied Entomology*. Very brief systematic papers, usually those dealing only with a single species, are noticed in the systematic portion only and do not appear in the list of titles.
